

TRAKCJA CAPITAL GROUP

STANDALONE ANNUAL REPORT
OF TRAKCJA PRKiI
FOR THE FINANCIAL YEAR ENDED DECEMBER 31, 2019

published pursuant to § 60(1)(3) of the Minister of Finance's Regulation of 29 March 2018 on current and periodic information to be published by issuers of securities and conditions for recognition as equivalent of information whose disclosure is required under the laws of a non-member state (Journal of Laws of 2018, item 757, with later change)

Warsaw, 21 April 2020

**This document is a translation
The Polish original should be referred to in matters of interpretation**

Contents of the Annual Report:

- I. Letter from the President of the Management Board to the Shareholders
- II. Directors' Report on the operations of Trakcja Capital Group and Trakcja PRKil S.A. in 2019
- III. Representations by the Management Board on the reliability of the financial statements
- IV. Information from the Management Board based on the Supervisory Board's representation regarding the selection of an audit firm
- V. Non-financial report of Trakcja Group and Trakcja PRKil S.A. for 2019
- VI. Consolidated annual financial statements of Trakcja Capital Group for the financial year ended 31 December 2019
- VII. Representation concerning the Supervisory Board's Audit Committee of Trakcja PRKil S.A.
- VIII. Assessment by the Supervisory Board of Trakcja PRKil S.A for 2019
- IX. Independent auditor's report

Dear Stakeholders

Please find attached the annual report of Trakcja Group and Trakcja PRKiI for 2019.

The past year marked one of the most difficult periods in the 70-year history of our company. It was full of challenges and threats, but we managed to reach the end of this period together, with a positive accent.

The launch of a financial restructuring and attracting a new, stable shareholder are the largest achievements of the past year. It also marks the beginning of a series of remedial processes initiated by me with the aim of returning to the path of stability and growth in the coming years.

2019 brought about an accumulation of negative effects and mistakes from the past. For several years now, the infrastructure project market has been struggling with countless problems that have had a strong adverse impact on the financial condition of companies in the infrastructure sector. These include the unstable supply of contracts, above-average increase in prices of materials and subcontractors, shortages on the labour market and, above all, a failure to implement the contract revaluation system.

In addition to the absence of an effective system to compensate for the unpredictable increase in costs, the situation was further exacerbated by the problem with settling contractual claims. Unclear rules, lengthy proceedings and subjective arbitrariness on the part of the public partner have additionally contributed to an increase in the risk to which Trakcja Group's business is exposed.

Inadequate consideration of the above factors and failure to adapt to them in the past had a crucial impact on the dramatic deterioration of financial liquidity of Trakcja Group, as a result of which the Company was forced to undergo deep financial restructuring.

Our company received support from the largest financial institutions in Poland – including Bank Gospodarstwa Krajowego and the Industrial Development Agency – as well as from existing banks, insurers and shareholders. The Company has acquired new financial instruments worth more than PLN 400 million, and the total value of the refinancing programme is PLN 1.2 billion. Owing to the successful restructuring, we were able to sign new contracts worth over PLN 750 million and return to active operations in all existing sectors, as well as to focus on the most prospective projects.

I am convinced that the closure of the entire financial restructuring process together with the implemented recovery programme will lead to an increase in the company's value in the near future and a gradual improvement in profitability.

on behalf of the Company

Marcin Lewandowski

President of the Management Board

TRAKCJA CAPITAL GROUP

DIRECTORS' REPORT

ON THE OPERATIONS OF TRAKCJA CAPITAL GROUP AND TRAKCJA PRKiI S.A.

IN 2019

This Directors' Report on the operations of Trakcja Capital Group and Trakcja PRKił S.A. was prepared pursuant to § 70(1)(4), § 70(1)(6), § 70(1)(7) and § 71(1)(4), § 71(1)(6), § 71(1)(7) of the Minister of Finance's Regulation of 29 March 2018 on current and periodic information to be published by issuers of securities and conditions for recognition as equivalent of information whose disclosure is required under the laws of a non-member state (Journal of Laws of 2018, item 757, with later change).

Pursuant to the provisions of § 71(8) of the aforementioned Regulation, the aforementioned Statements have been prepared as a single document.

The figures presented in this Directors' Report on the operations of Trakcja Capital Group and Trakcja PRKil S.A. are presented in thousands of Polish zlotys, except for the items clearly indicated otherwise. Financial information contained in this report is derived from the consolidated and separate financial statements prepared in accordance with the International Financial Reporting Standards ("IFRSs") endorsed by the European Union, issued and effective as at 31 December 2019. We would also like to emphasise forward-looking statements (e.g. may, will, expect, consider, estimate), because they are based on certain assumptions subject to risk and uncertainty. Therefore, the Trakcja Group and Company are not responsible for such information.

1. STRUCTURE OF TRAKCJA CAPITAL GROUP

1.1. General information on the Group

Trakcja Group ("Trakcja Group" or "Group") is one of the leading entities on the Polish and Lithuanian rail, tram and road infrastructure construction market.

The Group's activities focus on the comprehensive performance of works relating to a widely understood rail and road infrastructure with the use of modern machinery. The Group specialises in providing engineering and construction services in the following scope: design, construction and modernisation of rail and tram lines, rail and tram electrification system and power lines, as well as the construction of bridges, viaducts, piers, overpasses, tunnels, underpasses, retaining walls, roads and associated elements of rail and road infrastructure. In addition, Trakcja Group may perform general construction works, including the preparation of construction sites and the construction and modernisation of structures, as well as structural works and finishing works. The key part of the Group's activities consists in the construction of buildings both for rail infrastructure purposes (traction substation buildings, switch towers, railway crossing cabins, railway stations, train buildings and other) and for general purposes (residential and commercial) and environmental engineering. The services provided also include the development of power systems and remote control systems. For over seventy years, the Group members have been implementing complete power installations of medium and lately high voltage, both in new and in modernised and renovated rail power facilities. The Group modernised several thousand kilometres of rail lines and provided power to over 10,000 kilometres of rail lines. It also constructed and modernised over 450 traction substations and 380 track section cabins.

In the road construction sector, the Group specialises in the construction and alteration of roads, motorways, bridges, viaducts, airports, water ports and public utility infrastructure systems. Since its establishment, i.e. since 1949 AB Kauno Tiltai, a member of the Group and the largest company in the infrastructure construction sector in the Baltic countries, has constructed over 100 bridges and viaducts and has been responsible for constructing and reconstructing numerous roads in Lithuania.

The Group's main attributes are its ability to provide for the comprehensive performance of projects within its own capacity in all industries (railway track works, engineering facilities and overhead contact lines), its portfolio of contracts awarded and:

- its highly qualified management along with the customer-orientated team,
- its wide experience of professional performance and coordination of works that are completed in a timely manner and according to the highest European standards,
- its modern machinery.

The Group has a competitive advantage over many companies, and its position on the market of services relating to the rail and road infrastructure both in Poland and in Baltic countries is grounded and stable.

The long-term market practice has enabled the Group to develop management techniques for the projects performed, which ensure that the companies are able to complete the works assigned to them within the agreed schedules and that simultaneously the required quality is maintained and the special requirements of investors are met.

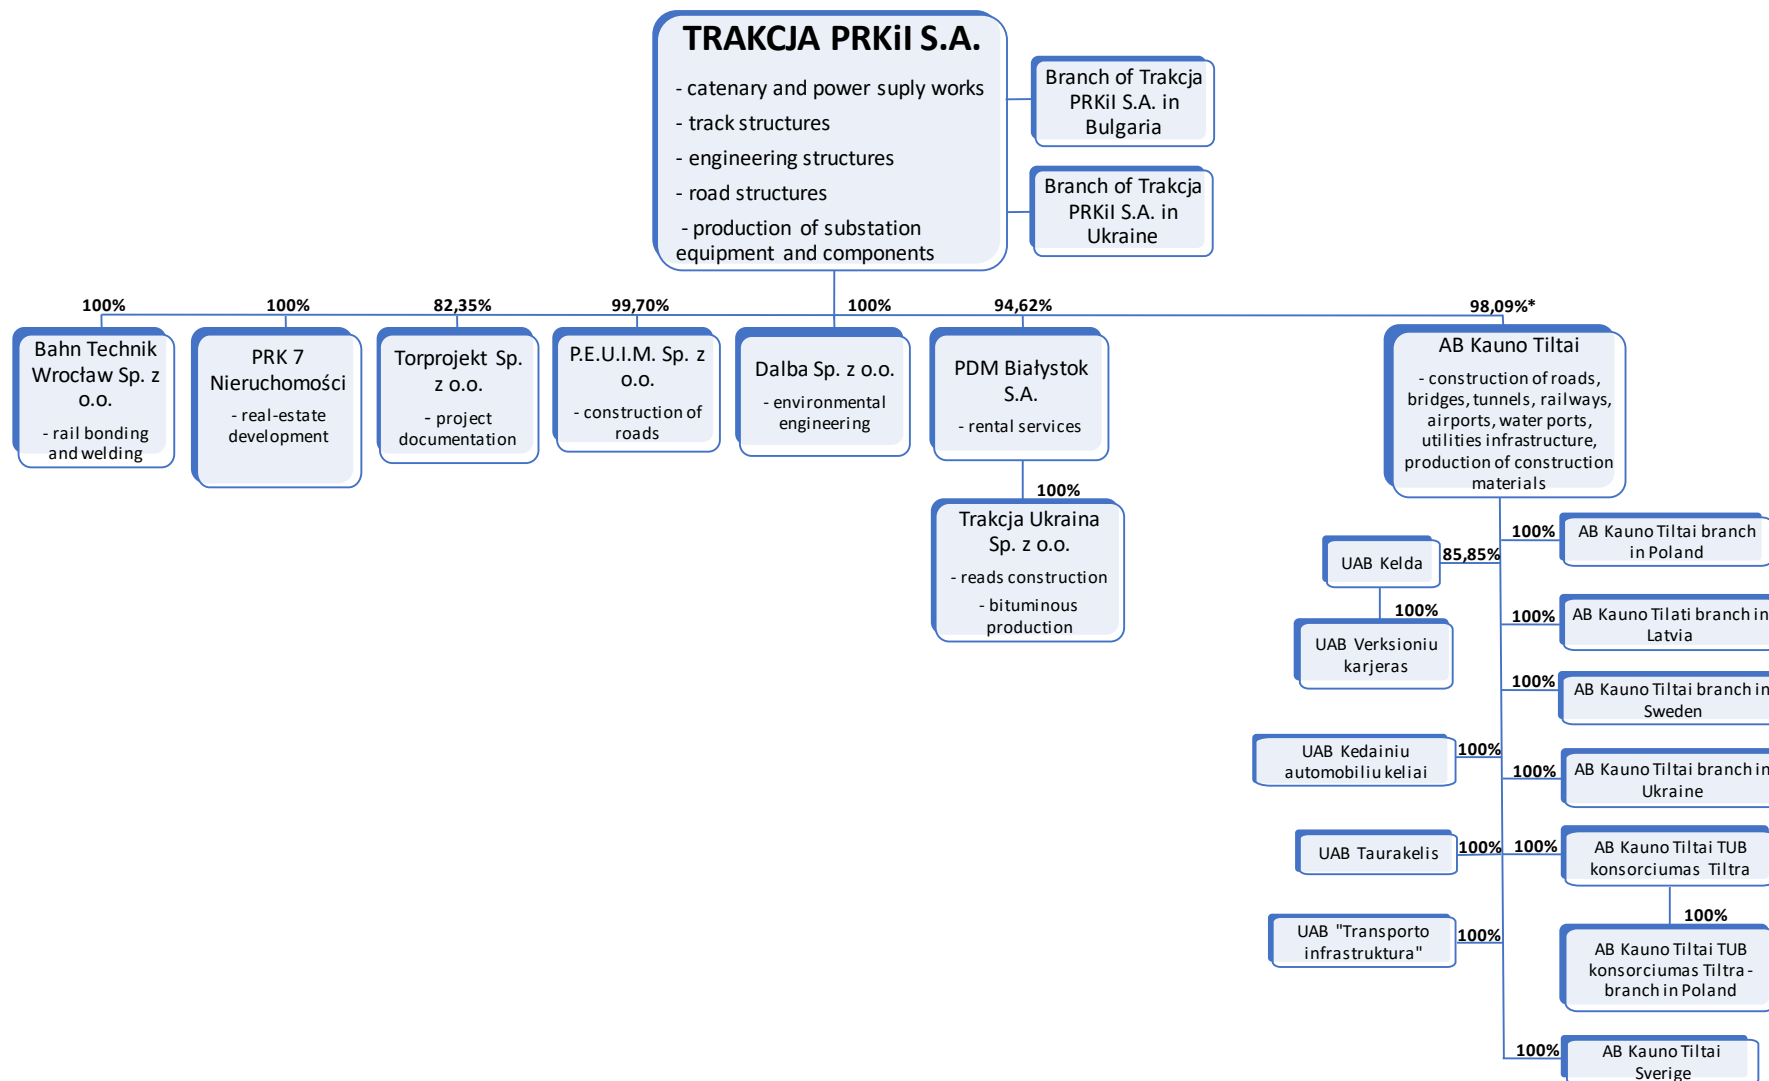

The majority of the projects implemented by the Group are financed, in particular, with funds granted by European Union and Polish government. Their implementation requires the EU procedures to be strictly complied with, which has also an effect on the quality of the services provided and products manufactured.

The Company has experience in constructing and repairing roads in Poland and Lithuania. The Group performs comprehensive works as a general contractor together with reliable subcontractors or independently using its own capacity. In addition, the Group also performs specialised tasks such as laying road surfaces and construction of engineering facilities, drainage systems, lighting systems, sewage systems and infrastructure for pedestrians and cyclists. The Group has a bituminous mass production plant that manufactures for the purposes of the contracts implemented and is a reliable source of materials for external customers.

In addition, the Group constructs traction substations for tram, trolleybus and rail lines, and also track section cabins, which are equipped with switching stations manufactured internally.

1.2. Structure of the Group

Trakcja PRKil S.A. (“Trakcja PRKil”, “Company” or “Parent Company”) is the parent company of Trakcja Group. The Group’s composition and structure as at 31 December 2019 is presented in the diagram below.

*) Trakcja PRKil holds a total of 98.09% (96.84% directly and 1.25% indirectly) of the share capital of AB Kauno Tiltai. The indirect shareholding results from the acquisition of own shares by the subsidiary.

1.3. Structure of Trakcja Group, including entities subject to consolidation

As at 31 December 2019, the Group consists of the Parent Company (Trakcja PRKił S.A.) and its subsidiaries.

Fully-consolidated entities:

PRK 7 Nieruchomości Sp. z o.o.

PRK 7 Nieruchomości Sp. z o.o. carries out real estate development activities and has a track record of several successful investment projects, which include, in particular, Lazurowe Osiedle residential project in Warsaw (stage I and II) and the project at ul. Oliwska in Warsaw, as well as the construction of five multi-family residential buildings in Warsaw at ul. Pełczyńskiego. For over a year, the company has been carrying out construction works – capacity construction works. The Company carries out the renovation of the library of the University of Warsaw. In 2019, she signed a new contract for the construction of a school in Ząbki.

Torprojekt Sp. z o.o.

Torprojekt Sp. z o.o. with its registered office in Warsaw was established in 2009. The company specialises in preparing comprehensive project documentation, including feasibility studies, concepts, basic designs, also construction designs, tender documents and detailed designs for railway lines, stations, nodes, passenger stops and loading points, bridges, overpasses, railway traffic control devices, buildings and structures, including technology infrastructure, etc.

Bahn Technik Wrocław Sp. z o.o.

On December 30, 2016 Trakcja PRKił became the sole shareholder in Bahn Technik Wrocław Sp. z o.o. (“BTW”). The transaction is described in detail in Note 3.1 of the Consolidated Financial Statements for 2016. Until December 31, 2016 the Group exercised joint control over BTW and classified the company as a joint venture pursuant to IFRS 11.

The BTW’s business activities include thermite welding, repairing and renovating turnouts, renovating railway and tramway crossings, providing pre-stressed, glued insulation joints type S, welding tram and railway tracks, tamping and profiling railway and tramway tracks, and selling Perker SR rail lubrication systems. Since December 2016, BTW has been also equipped with a GOTTWALD crane and a DGS track stabilizer. BTW renders its services both in Poland and abroad.

Przedsiębiorstwo Eksploatacji Ulic i Mostów Sp. z o.o. (“PEUiM”)

PEUiM operates in the road construction sector and its business activities are concentrated in the north-east of Poland. The company was established in Białystok in 1960. PEUiM specialises in the construction of roads and pavements, and in the installation of signalling and safety devices to secure the roads. The company also manufactures bituminous mass, concrete and other building materials.

Dalba Sp. z o.o.

Dalba Sp. z o.o. is a company with its registered office in Białystok, whose activities involve the performance of engineering works, mainly, during the construction of sanitary infrastructure, roads and streets.

PDM Białystok S.A.

PDM Białystok S.A. is a company with its registered office in Białystok. It provides equipment, premises and tool rental services to external companies and supplies PEUiM with materials.

Establishment of Trakcja PRKił S.A. in Bulgaria

On March 29, 2016 Trakcja PRKił S.A. opened an establishment in Sofia (Bulgaria).

AB Kauno Tiltai Group

AB Kauno Tiltai is the largest company in the road and bridge construction sector in the Baltic countries. It specialises in the construction and reconstruction of roads, bridges, tunnels, railways, airports, water ports,

which is demonstrated, inter alia, by the fact that since its establishment, i.e. since 1949, AB Kauno Tiltai has constructed over 100 bridges and viaducts and has been responsible for constructing and reconstructing numerous roads in Lithuania.

AB Kauno Tiltai with its registered office in Kaunas is a subsidiary of the Parent Company, Trakcja PRKil, and simultaneously the parent company in AB Kauno Tiltai Group.

AB Kauno Tiltai Group is composed of the following entities:

- UAB Kelda – a subsidiary with its registered office in Vievis (Lithuania); the company's subsidiary is:
 - UAB Verkisioniu karjeras – a subsidiary with its registered office in Bagoteliu K (Lithuania);
- UAB Taurakelis – a subsidiary with its registered office in Tauragė (Lithuania);
- UAB Kedainiu Automobiliu Keliai – a subsidiary with its registered office in Kėdainiai (Lithuania);
- TUB Konsorciumas Tiltra – a subsidiary with its registered office in Kaunas (Lithuania);
- AB Kauno Tiltai Branch in Poland – a branch of AB Kauno Tiltai with its registered office in Białystok (Poland);
- AB Kauno Tiltai Branch in Latvia – a branch of AB Kauno Tiltai with its registered office in Rēzekne (Latvia);
- AB Kauno Tiltai Branch in Ukraine – a branch of AB Kauno Tiltai with its registered office in Kiev (Ukraine);
- AB Kauno Tiltai Branch in Sweden – a branch of AB Kauno Tiltai with its registered office in Norsborg (Sweden);
- AB Kauno Tiltai Sverige – a subsidiary with its registered office in Malmö (Sweden);
- AB Kauno Tiltai TUB konsorciumas Tiltra – branch in Poland
- UAB “Transporto infrastruktura” – a subsidiary with its registered office in Vilnius (Lithuania).

Establishment of Trakcja PRKil S.A. in Ukraine

On March 3, 2017 Trakcja PRKil S.A. opened an establishment in Ukraine.

Trakcja Ukraina Sp. z o.o.

PDM Białystok S.A. holds 100% of shares in Trakcja Ukraina Sp. z o.o. On October 25, 2019 PDM Białystok S.A. acquired 49.9% shares in Trakcja Ukraina Sp. z o.o., and became its sole shareholder.

The ultimate parent company is COMSA S.A., a Spanish company, which prepares the consolidated financial statements that include, among many, the data of Trakcja Group.

1.4. Changes in the Group's structure in 2019 and their consequences

On 30 September 2019, a Group company, AB Kauno Tiltai, sold 100% of shares in UAB Pletros Investicijos, thus losing control over the company and its subsidiary, UAB Palangos aplinkkelis.

On 25 October 2019, a Group company, Trakcja Ukraina Sp. z o.o., sold 100% of shares in Trakcja Asphalt Sp. z o.o. and all its shares, i.e. 99%, in Trakcja Infra Sp. z o.o.

On 8 June 2018, a Group company, PDM Białystok S.A., acquired 49.9% of shares in Trakcja Ukraina Sp. z o.o., as a result of which it holds 100% of shares in that company.

For details on the aforementioned events, see Note 3 of the additional notes (“Changes in the Group's structure and their consequences”) to the annual consolidated financial statements of Trakcja Group for 2019.

Apart from the above, there were no changes in the structure of the Trakcja Group in 2018.

1.5. Changes in the key principles for managing the Company and the Group

Jednostka dominująca posiada Zintegrowany System Zarządzania, który obejmuje:

- ISO 9001:2008 Quality Management System;
- ISO 14001:2005 Environmental Management System;
- BS OHSAS 18001:2007 OHS Management System, certification of the ISO 45001 system is scheduled for July 2020.

Due to changes in the organizational chart of the Company, and plans related to system certification according to ISO 45001, the system documentation was revised.

At the beginning of July 2019 the supervisory audit of the Integrated Management System was carried out by TUV SUD auditors. The audit was concluded with a positive result. The certificate held by the Parent Company confirms the proper functioning of the three aforementioned systems in the Company. The OHSAS certificate is valid until 11 March 2021, while the ISO 9001 and 14001 certificates are valid until 22 July 2021.

In the course of 2019, the Parent Company continued to implement the CSR strategy based on responsible leadership and management, social engagement, dialogue with stakeholders and social innovation. Through its activities, the Issuer endeavours to contribute to sustainable development from an economic, social and environmental perspective.

In 2019, the Parent Company adopted a new organisational chart and a number of internal procedures which will enable more effective use of human capital and staff competences. This translates into the elimination of the middle management level.

During 2019, there were changes in the composition of the Issuer's Management Board, as described in more detail in Section 6.4. After the balance sheet date and before the publication of this report, there were changes no in the composition of the Issuer's Management Board.

2. BUSINESS OF TRAKCJA GROUP

2.1. Key products, goods and services

Trakcja Group's activities comprise the following areas of services:

Comprehensive modernisation of railway lines

Modernisation of the railway lines includes:

- development and agreement of concepts for all industries, preparation of the project construction documentation, detailed design documentation, obtaining of all permits and permissions and also the preparation of the as-built documentation,
- replacement of railway track substructure and superstructure using the mechanised substructure and track machinery, including the development of the drainage system,
- disassembly of a contact line, including the removal of old foundations and the construction of a new contact line with the use of modern methods for positioning foundations, through the application of the piling method and with the use of trains for stream replacement of the network,
- renovation or complete reconstruction of civil engineering facilities, culverts, bridges and overpasses,
- construction of power supply systems for railway lines,
- comprehensive modernisation of railway crossings (crossings of roads with railway lines),
- reconstruction of a railway traffic control system,
- preparation of construction sites,
- construction of complete buildings or parts thereof,
- development of construction systems, civil engineering works for tracks and roads,
- construction of overhead and underground power distribution lines,
- construction of railway and tram electric contact line and hydraulic engineering.

Moreover, the Group cooperates, if necessary, with companies that specialise mainly in safety of rail traffic and in telecommunications.

Within the framework of supplementary activities, the Group produces different types of industrial devices used for modernising the railway infrastructure, which include the following: 15 kV traction and mobile switchboards, 3 kV, 1.5 kV, 1 kV, 0.8 kV direct current switchboards, control cabinets, local and remote control devices, network isolating switches, steel constructions for the assembly of substations and power system elements and certain contact line equipment. The Group also provides comprehensive services in the area of constructing 110 kV, both cable and overhead, high-voltage lines, and medium-voltage power supply lines, including 15 kV auxiliary power supply lines for the rail infrastructure, along with transformer substations, and low-voltage lines for lighting systems, fire protection systems, lightning protection system, railway traffic and passenger infrastructure control systems and other safety systems.

Construction of buildings

Trakcja Group constructs:

- public utility buildings,
- industrial facilities.

Property development activities

The activities of PRK 7 Nieruchomości Sp. z o.o., which is a member of Trakcja Group, include:

- construction works,

- construction of multifamily residential buildings,
- real property activities with own property,
- letting of own property.

Road infrastructure construction

These activities include:

- roads – construction and reconstruction of motorways, roads, streets, squares and car parks; services relating to road maintenance in winter and summer,
- bridges – construction and reconstruction of bridges, viaducts and flyovers,
- tunnels – construction and reconstruction of tunnels,
- airports – construction and reconstruction of airport runways and landing areas, air plane parks and special purpose areas.

Power engineering construction

These activities include:

- development of concepts, design documentation and obtaining the necessary permits for power networks and stations,
- construction of power networks and substations, including for high voltage systems,
- construction of power systems in buildings,
- diagnostic, measurement and maintenance services for electrical networks and systems.

Other activities

Other activities include:

- construction of quays – construction and alteration of ports and harbours and other quayside structures,
- engineering infrastructure – construction of water supply systems, sewage systems, water systems and water treatment plants, and also road and street lighting, as well as provision of traffic control signal assembly and repair services,
- construction of sports facilities,
- manufacture of building materials: asphalt concrete, bitumen emulsions, including polymer modified ones, concrete and reinforced concrete products, as well as extraction and processing thereof.

As at 31 December 2019, Trakcja PRKil's construction order backlog stood at PLN 2,295 million (excluding the portion of revenue attributable to consortium members). In 2018, the Company signed construction contracts with a total value of PLN 974 million (excluding the value of work attributable to consortium members). As at 31 December 2019, the Company's order backlog ensures full utilisation of production capacity in the next financial year. Participation in new tenders in 2020 will enable the Company to secure its order backlog for subsequent periods to an even greater extent.

As at 31 December 2019, the Trakcja Group's construction order backlog stood at PLN 2,997 million (excluding the portion of revenue attributable to consortium members). In 2018, the Trakcja Group companies signed construction contracts with a total value of PLN 1,788 million (excluding the value of work attributable to consortium members). As at 31 December 2019, the Trakcja Group's order backlog ensures full utilisation of production capacity in the next financial year. Participation in new tenders in 2020 will enable the Group to secure its order backlog for subsequent periods to an even greater extent.

Trakcja Group mainly implements railway and road construction contracts on the Polish and Lithuanian markets. The Group's equipment and human resources potential allows it to execute large contracts worth several dozen to several hundred PLN, which means that the Group is less focused on local investments.

The largest contracts executed by Trakcja Group in 2019 are presented in the table below (the contract amount indicated taking into account the value of work to be performed by the consortium members):

Lp.	Name of the contract	Net amount of the contract (PLN million)	Type of work
1.	Project and construction of the S61 express road in Szczuczyn-Budzisko (National border) with the division into tasks: Task No. 2: section Elk Południe node - Wysokie node (along with the wyplot along the national road 16)	568	road
2.	Reconstruction of track systems together with accompanying infrastructure on the E59 railway line, Stargard - Szczecin Dąbie section as part of the project "Works on the E59 railway line on the Poznań Główny - Szczecin Dąbie section"	561	railway
3.	Modernization of the E30/C-E30 railway line on the Kraków – Rzeszów section, stage III (Dębica - Sędziszów Małopolski)	430	railway
4.	Execution of construction works in LCS Łowicz – section: Sochaczew – Żychlin and section: Placencja – Łowicz Główny as part of the task "Works on the E20 railway line on the Warszawa-Poznań section – other works, section: Sochaczew-Swarzędz"	422	railway
5.	Designing and execution of construction works as part of the project "Works on railway lines No. 140, 148, 157, 159, 173, 689, 691 on the section Chybie - Żory - Rybnik - Nędza / Turze"	395	railway
6.	Development of detailed designs and execution of works for LCS Warszawa Okęcie as part of the Project POIiŚ 7.1-19.1.a. pn. "Modernization of the railway line No. 8, section Warsaw Okęcie - Radom (LOT A, B, F)"	382	railway
7.	Design and execution of construction works on the E20 railway line, section: Siedlce Terespol within the task "Works on the E20 railway line on the Siedlce - Terespol section, stage III - LCS Terespol"	377	railway
8.	Design and execution of works within the framework of the project construction of the Szczecin Metropolitan Railway using the existing sections of railway lines No. 406, 273, 351 - task A pn. "Modernization of railway line No. 406 on the section Szczecin Główny - Police"	376	railway
9.	Reconstruction of track systems together with accompanying infrastructure on the E59 railway line, Choszczno - Stargard section as part of the project "Works on the E59 railway line on the Poznań Główny - Szczecin Dąbie section (without a contingent amount)"	376	railway
10.	Execution of design and construction works under the project entitled "Revitalization of railway lines No. 694/157/190/191 Bronów - Bieniowiec - Skoczów - Goleiszów - Cieszyn / Wisła / Głębce" Partial order A: Design and execution of construction works on the Bronów - Wisła - Głębce section	349	railway
11.	Modernizacja linii kolejowej E 30/C-E 30, odcinek Kraków – Rzeszów, etap III; na odcinku Sędziszów Małopolski – Rzeszów Zachodni w km 133,600 – 154,900	313	railway
12.	Design and construction of the S-5 expressway on the section from the Szubin junction (with the junction) to the Jaroszewo junction (with the junction) of about 19.3 km in length	313	road

13.	Implementation of construction works under the Tender No. 1 - Modernization of the Jaworzno Szczakowa - Trzebinia section (km 1,150 - 0.000 line No. 134, km 15,810 - 29,110 lines No. 133) as part of the project "Modernization of the E30 railway line, Zabrze section - Katowice - Kraków, stage IIb "	286	railway
14.	"Reconstruction of track layouts along with accompanying infrastructure on the E59 railway line section Poznań Główny - Rokietnica" as part of the project "Works on the E59 railway line on the Poznań Główny - Szczecin Dąbie section" (Updated contract value, not including the contingent amount)	276	railway
15. 2.2. Sales structure

Sales structure by type of works, as well as manufacturing and other activities are presented in the tables below:

Structure of the Company's sales:

	2019		2018	
	value	share	value	share
Railway works	631 625	75,7%	597 662	59,5%
Road works	117 984	14,1%	312 917	31,2%
Bridge works	413	0,0%	4 520	0,5%
Tramway works	64 104	7,7%	15 698	1,6%
Energy works	6 021	0,7%	44 678	4,4%
Production	10 221	1,2%	17 334	1,7%
Other areas of activity	3 842	0,5%	11 486	1,1%
Total revenues from sales	834 210	100%	1 004 295	100%

Structure of the Group's sales:

	2019		2018	
	value	share	value	share
Railway works	667 433	46,3%	647 463	41,5%
Road works	491 494	34,1%	712 200	45,6%
Bridge works	79 102	5,5%	32 961	2,1%
Cubature works	5 788	0,4%	4 508	0,3%
Tramway works	69 341	4,8%	19 728	1,3%
Energy works	65 168	4,5%	44 678	2,9%
Production	17 830	1,2%	50 262	3,2%
Other areas of activity	44 618	3,1%	48 848	3,1%
Total revenues from sales	1 440 774	100%	1 560 648	100%

2.3. Markets and supply sources

Geographical structure of sales in 2019 and 2018 is presented in the table below:

	2019		2018	
	value	share	value	share
Domestic	973 646	67,6%	1 118 687	71,7%
Abroad	467 128	32,4%	441 961	28,3%
Total revenues from sales	1 440 774	100%	1 560 648	100%

The key customer of the Group is PKP Polskie Linie Kolejowe S.A. ("PKP PLK S.A."), and other customers include: the General Directorate for National Roads and Motorways, the Lithuanian Road Administration and the Vilnius City Office.

The structure of customers indicates that the Group is dependent on PKP PLK S.A. whose orders in the period from 1 January 2019 to 31 December 2019 accounted for approximately 45% of the Group's consolidated revenue. On the other hand, approximately 14% of the Group's revenue in 2019 was earned from the implementation of projects for the Lithuanian Road Administration. None of these counterparties has any formal links with the Group.

The structure of suppliers in the period under review shows that the Group is not strongly dependent on any of its counterparties. In 2019, no supplier accounted for more than 10% of the value of materials and services purchased by the Group.

1. Dismiss the request of Impression to announce the Company's bankruptcy;	
2. Dismiss the request to freeze the Company's assets. i.e. the request to appoint a temporary insolvency administrator;	86/2019
3. Determine that the costs of the proceedings are charged in full to Impression, and impose the obligation on Impression to reimburse the Company with the incurred costs of the proceedings essential for pursuing the Company' remedies and defence, whereas detailed calculations of costs were to be performed by a court referendary in the Distriict Court for the Capital City of Warsaw in Warsaw.	

2.5. Significant events and achievements of Trakcja Group which have a considerable impact on its activities

Long-term contracts for construction services performed by the companies within the Group have a major impact on their financial performance in 2019 and in the following years. The most considerable contracts performed in the course of 2019 are listed in Note 2.1 hereof. Information regarding the most significant contracts for construction services concluded in 2019 is presented in Note 2.6 hereof. Significant events after the balance sheet date are described in Note 5.7 hereof.

The Group continues to diversify its activities. In the recent years it has significantly strengthened its position on the road market and maintained its strong position on the rail construction market. The Group has also taken measures aimed at strengthening its position on other geographical markets and in other segments of the infrastructural construction sector. The Parent Company operates in the tram segment (urban market). It also carries out activities on the energy market.

2.6. Significant contracts

2.6.1. Significant construction contracts

Key construction contracts signed by the Trakcja Group companies in 2019 (the contract amount indicated taking into account the value of work to be performed by the consortium members):

Lp.	Name of the contract	Net amount of the contract (PLN million)	Company	Type of work
1	Reconstruction of track systems together with accompanying infrastructure on the E59 railway line, Stargard - Szczecin Dąbie section as part of the project "Works on the E59 railway line on the Poznań Główny - Szczecin Dąbie section"	561	Trakcja PRKil S.A.	railway
2	Reconstruction of track systems together with accompanying infrastructure on the E59 railway line, Choszczno - Stargard section as part of the project "Works on the E59 railway line on the Poznań Główny - Szczecin Dąbie section"	398	Trakcja PRKil S.A.	railway
3	Execution of design and construction works under the project entitled "Revitalization of railway lines No. 694/157/190/191 Bronów - Bieniowiec - Skoczów - Golezów - Cieszyn / Wisła / Głębce" Partial order A: Design and execution of construction works on the Bronów - Wisła - Głębce section	349	Trakcja PRKil S.A.	railway
4	2018 / pcsr-3-11 / 8290 Construction of a double track over a section Plungė - Šateikiai	199	AB Kauno tiltai	railway
5	Reconstruction of A1 Wilno-Kowno-Kłajpeda 99,29 - 100,47 km	116	AB Kauno tiltai	road
6	Veddestabron, Project Mälarbanan	80	AB Kauno Tiltai sverige	urban (bridges)
7	Reconstruction of the tram track along Krakowska St. on section from Rollego St. to Dietla St. along with reconstruction of existing road system, pavements, paths, accompanying technical infrastructure, junction Krakowska - Dietla - Stradomska along with reconstruction of Dietla St. on section from Corpus Christi St. to Augustiańska St. and with reconstruction of existing Piłsudski bridge across the Vistula River	77	Trakcja PRKil S.A.	tram
8	A1 Reconstruction of section Wilno-Kowno-Kłajpeda from 10 000 to 95 000 Part IV	48	AB Kauno tiltai	road
9	Kaunas City Taikos Ave. preparation and work of the technical repair project	42	AB Kauno tiltai	road
10	Reconstruction of railway viaduct on Brasas station	39	AB Kauno tiltai	railway
11	National road No. 195 Renovation of Kiejdan - Krekenava - Penevezys section from 5.00 to 16.90 km and reconstruction of bridge over Kruosta	37	AB Kauno tiltai	railway
12	Construction of a primary school building with infrastructure at Dzika Street in Ząbki	35	PRK7 Nieruchomości	cubature
13	Other	286		
TOTAL		2 267		

2.6.2. Insurance contracts

The Parent Company and Group companies have acquired standard insurance policies that ensure insurance coverage for movable assets against damage and for third party liability in relation to the business activities carried out and the assets owned. They also have insurance contracts for construction risks. In addition, the Group acquired standard insurance policies that provide third party liability insurance to members of corporate bodies of the Company and Group companies.

The aforementioned insurance contracts have been entered into with the following insurance companies: Towarzystwo Ubezpieczeń i Reasekuracji WARTA S.A., STU Ergo Hestia S.A., Allianz S.A., PZU S.A., AXA Towarzystwo Ubezpieczeń i Reasekuracji S.A., Generali T.U. S.A., InterRisk Towarzystwo Ubezpieczeń S.A.,

Lietuvos draudimas AB, Balta AAS, ERGO Insurance SE Lithuanian Branch, ADB Gjensidige i P&C Insurance AS, AAS „BTA Baltic Insurance Company“ filialas Lietuvoje, Gjensidige Forsikring ASA, Norge, Svensk filial, ADB Compensa.

Third party liability insurance contracts for the Management Board members have been signed with the consortium of Colonnade Insurance Societe Anonyme branch in Poland, HCC International Insurance Company PLC and Towarzystwo Ubezpieczeń i Reasekuracji Allianz Polska S.A.

2.6.3. Cooperation agreements

The Group has signed framework cooperation agreements concerning financial market transactions with mBank S.A. and Luminor Bank AB. The agreements set out the principles of cooperation in the area of financial market transactions between the Group and the bank.

2.7. Key deposits and capital investments

2.7.1. Investments in tangible and intangible assets

In 2019, investment expenditure in the Company and the Group amounted to PLN 6,870 thousand and PLN 18,096 thousand, respectively.

The following investment projects were completed in 2019:

Company:

	Acquisition for cash	Leasing	Credits and loans	Total
Development investments	205	-	-	205
Replacement investments	3 554	3 111	-	6 665
Total	3 759	3 111	-	6 870

Group:

	Acquisition for cash	Leasing	Credits and loans	Total
Development investments	209	456	-	665
Replacement investments	11 831	4 874	216	16 921
Modernization investments	510	-	-	510
Total	12 550	5 330	216	18 096

The following investment projects were completed in 2018:

Company:

	Acquisition for cash	Leasing	Credits and loans	Total
Development investments	15 169	28	-	15 197
Replacement investments	2 387	28 762	-	31 149
Total	17 556	28 790	-	46 346

Group:

	Acquisition for cash	Leasing	Credits and loans	Total
Development investments	17 042	901	-	17 943
Replacement investments	10 345	31 492	-	41 837
Modernization investments	1 544	12	-	1 556
Total	28 931	32 405	-	61 336

Capital expenditure within individual operating segments of the Group was as follows:

- “Civil engineering – Poland” – PLN 9,734 thousand (in 2018: PLN 51,679 thousand);
- “Construction, engineering and concession agreements – Baltic countries” – PLN 7,972 thousand (in 2018: PLN 9,609 thousand);
- other segments – PLN 390 thousand (in 2018: PLN 48 thousand).

In 2020, the Company and the Group plan to incur capital expenditure of approximately PLN 13,777 thousand and PLN 28,666 thousand, respectively. These projects are to be financed as follows:

Company:

Cash	3 530
Financial leasing	10 247
Total	13 777

Group:

Cash	16 219
Financial leasing	12 447
Total	28 666

In the opinion of the Management Board, the Group is able to implement current and future investment objectives based on own funds generated from core operating activities and leases.

2.7.2. Equity investments of the Group, including equity investments outside the Group

In 2019, the Group made equity investments.

On 8 June 2018, a Group company, PDM Białystok S.A., acquired 49.9% of shares in Trakcja Ukraina Sp. z o.o., as a result of which it holds 100% of shares in that company. For details, see Note 3 of the additional notes to the annual consolidated financial statements of Trakcja Group for 2019.

2.7.3. Strategy and development of the Group

In 2019, the Group continued its organisational and legal restructuring process in order to achieve synergies and enhance its operational efficiency and financial power.

In 2020, Trakcja Group expects to continue to improve the Group's performance, guided by the following strategic principles:

- development through organic growth;
- enhancement of effectiveness and efficiency through improved organisation of works, better use of synergies, and incentive schemes;
- significant improvement in cash flow management;
- intensified use of its own resources during the performance of contracts;
- ensuring increased financing to make up the shortfall, in particular through:
 - finalising settlement negotiations on court claims,
 - additional debt financing,
 - sale of assets.
- selective approach to the performance of contracts under consortium agreements.

Key success factors of Trakcja Group include both the incentive systems that encourage employees to seek further improvements in operational activities and the knowledge-sharing systems between the Group members.

Active policy on liquidity management of the Parent Company

In addition to activities that contribute to the improvement of future financial performance, the Parent Company's Management Board is primarily focused on the Company's liquidity situation. The Parent Company pursues an active liquidity management policy by monitoring liquidity on an ongoing basis in the short and long-term perspective, aiming at maintaining a stable level of available financing. In order to maintain liquidity, the Parent Company, when seeking new contracts, pays particular attention to their financing terms, in particular the ability to obtain advance payments. In addition, the Parent Company pursues an active policy of maintaining a low level of receivables, managing inventories and selling key materials to the ordering party at the initial stage of a contract. The Parent Company places great emphasis on shortening the period between the completion of works and their invoicing. The Parent Company's activities related to the liquidity situation are described in Note 62 to the consolidated financial statements for 2019.

Active participation in tender procedures

The Parent Company will continue to actively participate in tender procedures for the railway and road construction markets. The current market trend shows that bids from contractors that significantly exceed investor budgets are more and more frequently accepted by contracting authorities.

Strengthening the position on the Polish market for construction and assembly services in the railway sector

In 2020 and beyond, the Management Board of Trakcja PRKil intends to focus its efforts on the Polish market for construction and assembly services in the railway sector. This objective can be achieved thanks to the effective organisational and financial support for the tendering and contracting area and for the contract implementing area through the establishment of new units, including the Production Preparation and Project Optimisation Department.

The primary objective in financial management will be to improve the efficiency of working capital management. It is expected to result in enhanced liquidity, minimisation of demand for working capital and maintaining a safe level of the Group's debt.

Strengthening the Group's position on other markets

In 2018, the Parent entered the execution phase of construction projects in Germany, successfully completing the first contract - the installation of overhead power line elements on two five-kilometre-long sections of the eHighway between Frankfurt am Main and Darmstadt. In 2019, activities on the German market were continued on an intensive scale. At the end of 2019, the company started the implementation of another contract - a primary school at the United States European Command base (EUCOM) in Stuttgart, where the scope of work included carpentry, concrete and electrical works. The company has consistently maintained the VOB building certification in 11 categories for another consecutive year and launched the Deutsche Bahn certification procedure, opening the possibility of submitting bids to the main ordering party in the railway industry. Recently, the company has actively participated in tenders in Germany, submitting bids mainly in the bridge and building construction sector.

The Group also continued its operations in Ukraine. In 2019, Trakcja Ukraina won a contract with a net value of about PLN 10 million for road works in Chernivtsi District. In the fourth quarter of 2019, the Group repurchased 49.9% of shares in Trakcja Ukraina Sp. z o.o., thus acquiring 100% of shares in that company, and sold shares in Ukrainian subsidiaries, Trakcja Infra Sp. z o.o. and Trakcja Asphalt Sp. z o.o.

Diversification of the Group's business

To diversify its business, in 2018 the Group once again became involved in municipal projects related to the modernisation of tram and trolleybus infrastructure. The Parent Company signed contracts for the implementation of such projects. The Group has also successfully continued its operations in Germany, launching a building construction contract in Stuttgart, and in Ukraine, where it signed a contract for road works in the Chernivtsi District.

2.8. Outlook for the Group

Despite the issues related to the Group's liquidity situation, described in Note 62 to the consolidated financial statements, the Management Board positively assesses the Group's growth outlook for 2020. As at 31 December 2019, the order backlog stood at PLN 2,997 million (excluding the portion of revenue attributable to consortium members).

Trakcja Group has been consistently expanding its competencies in various sectors of infrastructural construction, with a focus on the railway sector. The Parent Company continues to actively participate in tender procedures for the railway market and, to a lesser extent than before, for the road market. There has been a noticeable increase in interest in tenders in the railway sector. The current market trend shows that bids from contractors that significantly exceed investor budgets are more and more frequently accepted by contracting authorities.

According to the National Rail Programme adopted by the Council of Ministers on 23 November 2016, taking into account the resolution of September 2019, increasing the NRP budget by 5.7 billion (and previous updates of the programme), the value of rail construction projects is expected to exceed PLN 75.8 billion by 2023.

In turn, the expected value of the projects implemented under the National Roads Construction Programme (NRCP) after its update in September 2019 is PLN 142.2 billion. In the area of road construction, the Parent Company focuses on securing medium-size projects from provincial and county governments as well as local governments of larger cities. In the preparation for the potential contracts awarded under the local government programmes, the Company established a structure of regional road offices in six different locations in Poland.

The group also competes for building construction contracts.

The Parent Company participates in the expansion into the urban market of tram transport services and simultaneously focuses on the further development on the energy market, in particular, in the area of constructing and modernising transmission lines and of supplying electricity to facilities.

2.9. Description of external and internal factors relevant to the Group's development

Below are presented the key factors which, in the opinion of the Parent Company's Management Board, currently have or may have in the near future an impact on the Group's business. For information on significant proceedings and disputes against the Group companies, as well as penalties, see Note 5.6 to this report.

The key external factors with a significant impact on the Group's financial performance include:

- Level of spending on railway and road infrastructure in Poland and Lithuania.
- Efficient opening and signing of contracts by the Contracting Authorities.
- Competition from other entities.
- Absence of market barriers.
- Prices of raw materials and construction materials.
- Labour market situation in Poland and Lithuania.
- Changes in exchange rates, in particular of the euro.

- The impact of the Central Bank's monetary policy on changes in interest rates on loans.
- Timeliness of payment of liabilities by customers. If liabilities are not repaid on time, the Company's financial liquidity may deteriorate.
- A decrease in the number of entities participating in tenders on the Polish railway market.
- Changes in legal regulations designating the scope of the Group's activities, including tax regulations and provisions of law regarding any other public charges.
- Level of adjustment of value of construction contracts;
- Epidemic of SARS CoV-2 (COVID-19).

The key internal factors with a significant impact on the Group's financial performance include:

- Accuracy of the project cost estimates, as it exerts a direct impact on decisions regarding the participation in tenders, valuation of contracts for tenders and as a result margins on contracts.
- Ability to win new construction contracts.
- Contracts awarded under the National Railway Programme up to 2023.
- Contracts awarded under the National Road Construction Programme (2014-2023, with a perspective to 2025).
- Ability to attract highly qualified staff.
- Ability to implement the Issuer Group's development strategy.
- Ability to further diversify the activities.

2.10. Risk factors and threats

Trakcja PRKil S.A. Capital Group is exposed to various risks that can be classified according to two categories of threats:

- Ordinary threats.
- Extraordinary threats.

Ordinary threats

Ordinary threats are those that are common and are characterised by a relative regularity of adverse events and developments. This category of risks includes industry risk, contract completion risk and financial risk.

Industry risk is closely related to market competition. The rail and road construction markets in Poland and in Baltic States, where the Company carries out its activities, are attractive due to the expected significant capital expenditure. Entry barriers to the rail and road construction market in Poland and in Baltic States are not high, and therefore the number of new market participants is continuously growing. Non-European players who seek opportunities offered by large contracts are present in this market. Nonetheless, Trakcja Group has a competitive advantage thanks to more than seventy years of market practice, especially in the railway construction industry, thanks to which it managed to develop high quality order performance systems that are highly appreciated by the Partners.

Another risk in the category of ordinary threats is the contract completion risk, inherently associated with the Group's operations. Factors affecting this risk include, among others, changes in the construction law, the Code of Administrative Proceedings, environmental law, changes in prices of service providers, subcontractors' failure to perform or delays in performing work necessary to start the implementation of projects, underestimation of costs, potential penalties for non-compliance with contracts or, last but not least, adverse weather conditions. When performing the construction contracts awarded, the Group company concludes agreements with subcontractors usually after the signing of the agreement with the investor, which may result in risk that the

price of service provided for the Group by the subcontractors will be higher than the price forecast at the valuation of a given contract and at its signing. Prices in the agreements with the investor are fixed and cannot be changed during the duration of the contract. Trakcja Group bears a risk of non-compliance with the deadlines for the completion of the construction contracts awarded and the retention bonds granted, which in turn may result in the investor being entitled to take advantage of the collateral established or to impose contractual penalties. The Group is also exposed to a risk of potential disputes regarding the proper or untimely completion of the aforementioned contracts. The aforementioned factors may have an adverse impact of the Issuer's financial performance. However, the Issuer's Management Board takes appropriate measures to minimize these risks by, among other things:

- the implementation of a modern contract management system that allows for budgets and schedules to be managed for many large projects implemented at the same time, based on the detailed data entered in the system in real time;
- constant monitoring the prices for services provided by subcontractors in order to make sure that the parameters of the contracts made are adjusted accordingly to the duration of the contracts and their value in market terms;
- implementing a more effective risk management system for contracts in progress;
- implementation of a central procurement system for all projects and all organisational support units, by which the capital group also intends to generate significant and sustainable cost savings and optimise procurement processes.

It is worth mentioning that long-term market practice enabled the Issuer to develop management techniques for the projects performed, which ensure that the Group companies are able to complete the works assigned to them within the agreed schedules and that simultaneously the required quality is maintained and the special requirements of investors are met.

The last risk in the category of ordinary threats is financial risk. The risk of financial agreements results from the fact that both banks (in the area of loans and contract guarantees) and insurance companies (in the area of contract guarantees) may reduce the availability of sources of funding and other financial instruments which may in turn adversely affect the performance of contracts. Key factors necessary for an insolvency risk to be analysed are the level of cash flows, the amount of cash and the liquidity ratios. The Issuer monitors the cash at hand and maintains both the external debt and the financial liquidity at a safe level. The Issuer's Management Board, by keeping in contact with the Company's customers, consortium partners, subcontractors, banks and insurance companies, is primarily focused on preventing the materialisation of all these risks. These risks are managed by the most senior management of the Group. The restructuring process carried out in previous years is still ongoing. The Company's liquidity problems and problems with timely implementation of projects, including some limitations in obtaining bank or insurance guarantees, continue to cause difficulties in securing larger contracts.

Extraordinary threats

The major extraordinary threat identified as at the date of publication of the Financial Statements is the risk of disruption of operations related to the COVID-19 virus. It is worth emphasising that the construction sector should suffer less from the effects of the coronavirus epidemic than the logistics, transport or tourism sectors. However, there is no doubt that the restrictions imposed by the State entail the risk of hampering the functioning of enterprises and generate organisational and financial problems in a situation where employees will not be able to provide work due to illness or a decision to enforce a quarantine. Another important risk associated with this situation is the difficulty in securing access to materials, consumables or products. Such a threat significantly increases the risk of delays in the performance of infrastructural and building contracts, but the scale of this phenomenon is very difficult to predict at this stage. The Company has already observed some difficulties related to the mobility of foreign workers or some disruptions in the supply of materials. However,

the Management Board of the Issuer makes every effort to ensure that the effects of the current coronavirus situation cause as little impact as possible on the Company, e.g. through diversification of material suppliers. Nevertheless, as at the date of this report, the effects of the epidemic are difficult to estimate.

Impact of the SARS CoV-2 (COVID-19) pandemic on the activities and financial condition of the Group

The rapid spread of the SARS CoV-2 virus in Poland and on other markets, on which the Company and its subsidiaries carry out its business activities may have an impact on the Company's financial performance in 2020.

As at the date hereof, the Management Board expects that the actual pandemic state in Poland which results, in particular, in:

- Transport being limited and delivery of components and raw materials being irregular,
- Availability and efficiency of subcontractors being reduced,
- Administrative decisions on the construction contracts implemented being delayed,
- The progress in works experiencing a slowdown due to the introduction of emergency measures in accordance with the guidelines issued by the Ministry of Health and the Chief Sanitary Inspector, and due to the increased absence of employees,
- Costs of certain services, in particular, transport of materials and raw materials, being increased,

The completion by the Group of contracts, under which the Group companies act as contractors or subcontractors, may be delayed and as a consequence translate into a risk that the contracting parties may file claims for contractual penalties to be paid by the Group companies for untimely completion of contracts. The aforementioned factor may also result in an extraordinary increase in prices for materials and services being experienced, which in turn shall result in the profitability of contracts being reduced. Furthermore, the COVID-19 pandemic may contribute to a decrease in the number of infrastructural investment projects being scheduled for the following years.

Despite the fact that as at the date hereof both the business entities and financial institutions continue their operations, the further spread of the SARS CoV-2 virus may result in the Company's business partners, courts and financial institutions being forced to adapt their operations to the circumstances pending, which may cause delays in obtaining financial funds necessary for the Company to:

- fulfil its financial obligations,
- acquire new contracts, if the Company has no required financial security such as guarantees or deposits,
- meet its obligations under the long-term financing documentation (of which the Company notified in Current Report no. 51/2019 of September 27, 2019) that forms part of the financial restructuring process of the Group.

Measures taken by the Company's Management Board

On April 6, 2020 the Management Board and trade unions concluded an agreement under which the working hours of employees were reduced by 10%, and as a result the salaries paid according to a monthly wage rate were decreased accordingly. The aforementioned reduction in the working hours applies mainly to white-collar employees and at the same time allows for the contract performance potential to be maintained. The agreement remains valid until June 30, 2020.

The aforementioned 10%-decrease applies also to remuneration of the management board members, supervisory board members, and also self-employed and service providers who collaborate with the Company.

In addition, it has been decided that payment of any bonuses, awards, allowances and severance pays is suspended and that overtime and use of company cars are to be reduced. The contribution to the company social benefits fund is also to be reduced by 25%.

The Company estimates that the aforementioned measures will allow it to achieve monthly savings of approximately PLN 1.8 million.

Due to the fact that as at the date hereof the precise and final impact of the SARS CoV-2 pandemic on the Group's situation has not yet been identified, the Company's Management Board monitors on an ongoing basis the developments and analyses the potential impact of the pandemic on the operations, performance and perspectives of both the Company and the Group, including a necessary change in the measurement of contracts and the Group's liquidity ratio.

3. ANALYSIS OF ASSETS AND FINANCIAL CONDITION OF THE GROUP AND THE PARENT COMPANY

3.1. Group's financial performance in 2019

In order to provide a comprehensive view of the Group's financial position, alternative performance measures (APMs) were applied. In the Company's opinion, they provide material information on the financial position, operating efficiency, profitability and liquidity, and should be analysed only as complementary financial information. The alternative performance measures should be read in conjunction with the financial statements of the Group.

The Company believes that the APMs presented are a source of additional, valuable information on the Group's financial standing, and facilitate the analysis and evaluation of the financial performance of the Group in 2018 and 2019.

3.1.1. Consolidated income statement of Trakcja Group

CONSOLIDATED PROFIT & LOSS ACCOUNT	1.01.2019 - 31.12.2019 <i>Audited</i>	1.01.2018 - 31.12.2018 <i>Audited</i>	Change	Change %

Net profit (loss) for the period	(285 048)	(110 172)	(174 876)	159%

In 2019, Trakcja Group's revenue amounted to PLN 1,440,774 thousand, which decreased by 8% year on year. Over the 12 months of 2019, the cost of sales decreased by 8% to PLN 1,509,015 thousand.

In 2019, the Group's gross result on sales reached PLN -68,241 thousand, compared to PLN -84,242 thousand in the corresponding period. The gross margin on sales in the period under review stood at -4.7%, up by 0.7 p.p. compared to the corresponding period of the previous year, i.e. to -5.4%.

Gross result on sales in 2019 was most significantly affected by factors related to the situation in the Group's Parent Company. The most important factors include: settlement of low-margin contracts secured in previous years with more difficult tendering conditions and a significant increase in production costs, revision of contract budgets also in terms of additional costs due to extended lead times; revision of contract budgets with possible and unattainable optimizations on construction contracts, as well as more advanced stage of completion of contracts (mainly road contracts), on which decreases in margins were reported due to the prior increase in contract cost factors. Gross result on sales in 2019 was significantly affected by the prolonged process of refinancing the operating activities of Trakcja PRKiI S.A. exacerbating the drop in profitability on construction contracts. The prolonged refinancing process also had an impact on delays in signing two railway contracts with higher profitability and the inability to settle them in 2019 and thus to generate the projected revenue. The result was positively affected by taking the amounts of court claims filed by the Company against contracting authorities into account in the budgets of long-term contracts. The amount of court claims was adjusted by the risk factor and the probability factor. The amount of claims recoverable by the Company ranges from PLN 35 million to PLN 50 million. In addition, the Parent Company included revenue from claims raised under a contract in the valuation of a significant road contract. The gross result on sales was also affected by the situation in the subsidiary, AB Kauno Tiltai, where the implementation of projects was slower and revenue was carried over to 2020. The subsidiary reported lower profit on sales than in 2018.

Selling, marketing and distribution expenses reached PLN 5,568 thousand and were lower by 6% year on year. General and administrative expenses stood at PLN 66,882 thousand and increased by 15% or PLN 8,553 thousand over the previous year. The increase in general and administrative costs was driven mainly by the costs of consulting and legal services in the Group's Parent Company in connection with the process of restructuring the company's financing completed in October (as announced by the Company in current report No. 4/2019) in the amount of PLN 4,611 thousand.

Other operating revenue for the period of 12 months of 2019 decreased by PLN 51,420 thousand year on year and amounted to PLN 6,695 thousand. Other operating expenses in 2019 stood at PLN 16,212 thousand and were higher by PLN 13,755 thousand than in the previous year. A decrease in other operating revenue results from the Parent Company recognition in 2018 of income from the sale of perpetual usufruct right to real estate and ownership right to buildings and equipment located on the real estate at ul. Lotnicza 100 in Wrocław for the gross price of PLN 53,000 thousand (see current report No 26/2018). The increase in other operating expenses in 2019 results from the incurred costs of debt collection in the amount of PLN 6,336 thousand. Additionally, the net operating income was affected by changes in the Group's structure in 2019. On 30 September 2019, the agreement concluded AB Kauno Tiltai, a member of the Group, with its registered office in Lithuania, was implemented. The agreement concerned the sale of UAB Pletros investicijos, a wholly-owned subsidiary of AB Kauno Tiltai. The gain on sale of the subsidiary amounted to PLN 3,382 thousand. On 25 October 2019, a Group company, Trakcja Ukraina Sp. z o.o., sold 100% of shares in Trakcja Asphalt Sp. z o.o. and all its shares, i.e. 99%, in Trakcja Infra Sp. z o.o. The transaction closed with a loss of PLN -1,202 thousand.

The Parent Company recognised an impairment loss on goodwill in the amount of PLN 138,182 thousand (subsidiaries of the AB Kauno Tiltai Group: PLN 128,815 thousand and impairment loss on goodwill allocated to the companies: PEUiM Sp. z o.o., Dalba Sp. z o.o. and PDM S.A. in the amount of PLN 9,367 thousand), as disclosed in current report No 8/2020.

The Group closed 2019 with an operating loss of PLN 288,390 thousand, which means a decrease in the operating result by PLN 171,298 thousand compared to the corresponding period of the previous year, when the operating loss amounted to PLN 117,092 thousand. The operating loss results from a negative gross margin on sales in the period, which was caused by the aforementioned factors, an increase in general and

administrative costs related to the Company's financial restructuring process and an impairment loss on goodwill in the amount of PLN -138,182 thousand.

The Group's finance income for 2019 amounted to PLN 3,941 thousand, down 5% compared to 2018, when it reached PLN 4,153 thousand. Finance costs increased by 100% in the period in question to PLN 28,920 thousand. The increase in finance costs was primarily caused by increased fee and commission expenses (in the amount of PLN 8,251 thousand) and interest expenses which increased by PLN 5,765 thousand to PLN 16,252 thousand in 2019. These expenses result from the conclusion of a number of long-term and bridge financing agreements in 2019.

In the period from 1 January 2019 to 31 December 2019, the Group incurred a loss before tax of PLN 313,369 thousand, which represents a decrease by PLN 185,965 thousand or 146% from the loss before tax of PLN 127,404 thousand incurred in the corresponding period of the previous year.

Income tax in 2019 had a positive impact on the net loss of PLN 28,321 thousand, as was the case in 2018, when it amounted to PLN 17,232 thousand.

In 2019, Trakcja Group reported a net loss of PLN 285,048 thousand. The Group's net loss increased by 159% year on year.

3.1.2. Consolidated balance sheet of Trakcja Group

The table below presents the assets reported in the annual consolidated statement of financial position of Trakcja Group.

CONSOLIDATED ASSETS	31.12.2019 Audited	31.12.2018 Audited	Change	Change %
Non-current assets	596 366	720 882	(124 516)	-17%
Tangible non-current assets	286 228	297 285	(11 057)	-4%
Investment properties	22 447	20 445	2 002	10%
Goodwill from consolidation	168 983	308 782	(139 799)	-45%
Intangible assets	51 389	52 348	(959)	-2%
Investments in other units	25	25	-	0%
Other financial assets	6 202	4 511	1 691	37%
Deferred tax assets	54 755	28 416	26 339	93%
Long-term receivables	158	-	158	-
Prepayments	6 179	9 070	(2 891)	-32%
Current assets	887 954	822 054	65 900	8%
Inventory	135 390	86 854	48 536	56%
Trade and other receivables	399 749	328 890	70 859	22%
Income tax receivables	-	3 900	(3 900)	-100%
Other financial assets	12 699	13 773	(1 074)	-8%
Cash and cash equivalents	107 473	116 687	(9 214)	-8%
Prepayments	16 574	13 313	3 261	24%
Assets due to contracts with clients	211 032	206 887	4 145	2%
Assets held for sale	5 037	51 750	(46 713)	-90%
TOTAL ASSETS	1 484 320	1 542 936	(58 616)	-4%

As at 31 December 2019, total assets of Trakcja Group amounted to PLN 1,484,320 thousand and decreased by PLN 58,616 thousand from the end of 2018. Non-current assets decreased by PLN 124,516 thousand year on-year to PLN 596,366 thousand as at 31 December 2019. In 2019, current assets increased by PLN 65,900 thousand to PLN 887,954 thousand.

Deferred tax assets recorded the largest increase in non-current assets, having increased by PLN 26,339 thousand relative to the end of 2018. At the same time, the goodwill from consolidation decreased by PLN 139,799 thousand, due to the impairment loss on goodwill in the amount of PLN 138,182 thousand.

Current assets increased by PLN 65,900 thousand or 8% year on year. The largest increase was reported for trade and other receivables which, as at the balance sheet date, increased by PLN 70,859 thousand, i.e. by 22%, to PLN 399,749 thousand. In addition, inventories increased by 56% to PLN 135,390 thousand. It results mainly from an increase in inventories in a subsidiary, AB Kauno Tiltai, by PLN 30,684 thousand, which is related to specific conditions for the performance of a power contract. The largest decrease was recorded for assets held for sale – by PLN 46,713 thousand to the PLN 5,037 thousand. The decrease results from the fact that in 2018 this item included assets relating to UAB Pletros investicijos and UAB Palangos aplinkkelis, in which the subsidiary, AB Kauno Tiltai, held 100% of shares and which were sold in 2019.

The table below presents the equity and liabilities reported in the annual consolidated statement of financial position of Trakcja Group.

CONSOLIDATED EQUITY AND LIABILITIES	31.12.2019 Audited	31.12.2018 Audited	Change	Change %

Total equity and liabilities	1 484 320	1 542 936	(58 616)	-4%

As at 31 December 2019, the Group's equity decreased by PLN 228,896 thousand or 35% year on year. The decrease was primarily attributable to the net loss of PLN 285,048 thousand reported in the period under review. Moreover, in 2019 the Parent Company increased its share capital from PLN 41,120 thousand to PLN 69,161 thousand, i.e. by PLN 28,041 thousand through the issue of series B bearer shares and series C registered shares, subscribed for at the issue price of PLN 1.70 per share. Capital raised from the issue of series B and C shares amounted to PLN 59,587 thousand. The share premium, less the cost of capital issue of PLN 969 thousand, amounted to PLN 30,577 thousand. The Company notified of the registration of the share capital increase in current report 73/2019. Other capital reserves decreased by PLN 107,645 thousand and amounted to PLN 276,188 thousand as at 31 December 2019.

As at 31 December 2019, long-term liabilities amounted to PLN 232,816 thousand and increased as compared to the balance as at 31 December 2018 by PLN 139,704 thousand. This increase was primarily driven by an increase in interest-bearing long-term credits and loans by PLN 141,486 thousand.

As at 31 December 2019, employee benefit liabilities stood at PLN 4,094 thousand and decreased by PLN 716 thousand from 31 December 2018. Long-term provisions reached PLN 14,093 thousand, which represents an increase by PLN 1,089 thousand or 8% as compared to 31 December 2018.

Short-term liabilities increased by PLN 30,576 thousand or 4% over 2018. Short-term interest-bearing loans and borrowings increased by PLN 21,231 thousand to PLN 153,790 thousand. Short-term provisions increased by PLN 35,672 thousand to PLN 94,773 thousand. As at the end of 2019, liabilities under contracts with customers stood at PLN 154,250 thousand, up 9% year on year.

3.1.3. Profitability ratios

In 2019, the gross margin on sales increased by 0.7 percentage points year on year to -4.7%. Operating profit before depreciation and impairment losses on goodwill amounted to PLN -112,132 thousand and decreased by PLN 50,690 thousand over the previous year. The EBITDA margin decreased by 3.9 p.p. in 2019 to -7.8%. The operating profit margin in 2019 stood at -20.0% and decreased by 12.5 p.p. in relation to 2018. The net profit margin decreased by 12.7 p.p. to -19.8% compared to -7.1% in 2018. Return on equity (ROE) decreased by 37.8 p.p. year on year to a negative level of -53.5%, while return on assets (ROA) amounted to -18.8% and was 11.4 p.p. lower than that of the previous year.

PROFITABILITY RATIOS	31.12.2019 Audited	31.12.2018 Audited	Change
Gross sales profit margin	-4,7%	-5,4%	0,7 p.p.
EBITDA	(112 132)	(61 442)	(50 690)
EBITDA profit margin	-7,8%	-3,9%	-3,9 p.p.
Operating profit margin	-20,0%	-7,5%	-12,5 p.p.
Net profit margin	-19,8%	-7,1%	-12,7 p.p.
Return on equity (ROE)	-53,5%	-15,7%	-37,8 p.p.
Return on assets (ROA)	-18,8%	-7,4%	-11,4 p.p.

These ratios have been calculated using the following formulae:

Gross margin on sales = gross profit on sales / sales revenue

EBITDA = operating profit + depreciation/amortisation + impairment loss on goodwill

EBITDA margin = (operating profit + amortisation/depreciation + impairment loss on goodwill) / sales revenue

Operating profit margin = operating profit / sales revenue

Net profit margin = net profit / sales revenue

Return on equity (ROE) = net profit attributable to shareholders of the Parent Company / average equity attributable to shareholders of the Parent Company

Return on assets (ROA) = net profit attributable to shareholders of the Parent Company / average assets

3.1.4. Consolidated statement of cash flows of Trakcja Group

The key items of the Trakcja Group's consolidated statement of cash flows for years ended 31 December 2019 and 2018 are presented in the table below.

CONSOLIDATED CASH FLOW ACCOUNT	1.01.2019 - 31.12.2019 <i>Audited</i>	1.01.2018 - 31.12.2018 <i>Audited</i>	Change	Change %
Cash at start of period	116 675	112 172	4 503	4%
Net cash flows from operating activities	(190 108)	(34 715)	(155 393)	448%
Net cash flows from investment activities	4 601	(31 699)	36 300	-115%
Net cash flows from financial activities	176 293	73 535	102 758	140%
Total net cash flows	(9 214)	7 121	(16 335)	-229%
Assets held for sale - transfer	-	(2 618)	2 618	-100%
Cash at end of period	107 461	116 675	(9 214)	-8%

In 2019, net cash flows from operating activities were negative and amounted to PLN 53,020 thousand, down by PLN 190,108 thousand year on year.

In 2019, the Group reported positive net cash flows from investing activities of PLN 4,601 thousand, whereas in 2018 the negative cash flows from investing activities amounted to PLN 31,699 thousand.

In 2019, net cash flows from financing activities were positive and amounted to PLN 176,293 thousand. In 2019, these cash flows increased by PLN 102,758 thousand year on year.

As at the beginning of 2019, the Group's cash reported in the consolidated statement of cash flows amounted to PLN 116,675 thousand and as at the end of 2019, it reached PLN 107,461 thousand. Total cash decreased by PLN 9,214 thousand in 2019.

3.2. Structure of assets, equity and liabilities in the consolidated balance sheet, including from the perspective of the Group's liquidity

As at 31 December 2019, the share of non-current assets in the structure of assets decreased as compared to 31 December 2018. Property, plant and equipment represent the largest share in the structure of non-current assets - about 48% (31 December 2018: 41%). Trade and other receivables, and assets from contracts with customers represent the largest components of current assets – approx. 45% (31 December 2018: 40%) and 24% (31 December 2018: 25%), respectively.

As at 31 December 2019, equity accounts for 29% of total equity and liabilities (31 December 2018: 42%), long-term liabilities – for 16% (31 December 2018: 6%), and short-term liabilities – for 56% (31 December 2018: 52%). Trade and other liabilities represent the largest component of short-term liabilities, accounting for 28% of total equity and liabilities (31 December 2018: 26%).

3.2.1. Liquidity ratios

As at the end of 2019, the Trakcja Group's working capital reached a balance of PLN 62,440 thousand and increased by PLN 35,119 thousand year on year.

As at the end of 2019, the current ratio stood at 1.07, up by 0.04 year on year. The quick ratio dropped by 0.01 to 0.91. The cash ratio declined by 0.02 from the previous year to 0.13. The cash ratio indicates that the Group would be able to immediately settle 13% of its liabilities with the cash held.

LIQUIDITY RATIOS	31.12.2019 <i>Audited</i>	31.12.2018 <i>Audited</i>	Change
Working capital	62 440	27 321	35 119
Current ratio	1,07	1,03	0,04
Quick ratio	0,91	0,92	(0,01)
Cash ratio	0,13	0,15	(0,02)

The above ratios have been calculated in accordance with the following formulas:

Working capital = current assets - short-term liabilities + prepayments

Current ratio = current assets / short-term liabilities

Quick ratio = (current assets - inventory) / short-term liabilities

Cash ratio = cash and cash equivalents / short-term liabilities

3.2.2. Financing structure ratios

The Group monitors its capital structure using the financing structure ratios.

In 2019, the equity to assets ratio decreased year on year to 0.28. The equity to non-current assets ratio decreased by 0.20 to 0.70. The debt ratio increased to 0.72 at the end of 2019. This means that 72% of the Group's assets are financed by external sources of financing – liabilities. As at the end of 2019, the Group's debt to equity ratio stood at 2.53 as at 31 December 2019.

FINANCING STRUCTURE RATIOS	31.12.2019 Audited	31.12.2018 Audited	Change
Equity to assets ratio	0,28	0,42	-0,14
Equity to non-current assets ratio	0,70	0,90	-0,20
Debt ratio	0,72	0,58	0,14
Debt to equity ratio	2,53	1,39	1,14

The above ratios have been calculated in accordance with the following formulas:

Ownership coverage with equity = equity attributed to Shareholders of the Parent Company / total assets

Coverage of fixed assets with equity = equity attributed to Shareholders of the Parent / fixed assets

Total debt ratio = (total assets - equity attributed to Shareholders of the Parent Company) / total assets

Equity debt ratio = (total assets - equity attributed to Shareholders of the Parent Entity) / equity attributed

3.3. Financial performance of the Parent Company in 2019

In order to provide a comprehensive view of the Parent Company's financial position, alternative performance measures (APMs) were applied. In the Company's opinion, they provide material information on the financial position, operating efficiency, profitability and liquidity, and should be analysed only as complementary financial information. They should be read in conjunction with the Company's financial statements.

The Company believes that the APMs presented are a source of additional, valuable information on its financial standing, and facilitate the analysis and evaluation of the financial performance of the Company in 2018 and 2019.

3.3.1 Overview of the income statement

PROFIT AND LOSS ACCOUNT	1.01.2019 - 31.12.2019 <i>Audited</i>	1.01.2018 - 31.12.2018 <i>Audited</i>	Change	Change %
Sales revenue	834 210	1 004 295	(170 085)	-17%
Cost of goods sold	(927 100)	(1 129 253)	202 153	-18%
Gross profit (loss) on sales	(92 890)	(124 958)	32 068	-26%
Cost of sales, marketing and distribution	(2 148)	(2 778)	630	-23%
General and administrative costs	(36 568)	(28 024)	(8 544)	30%
Other operating revenues	3 446	55 849	(52 403)	-94%
Other operating costs	(13 049)	(1 655)	(11 394)	688%
Operating profit (loss)	(141 209)	(101 566)	(39 643)	39%
Financial revenues	5 162	13 479	(8 317)	-62%
Financial costs	(139 519)	(19 886)	(119 633)	602%
Gross profit (loss)	(275 566)	(107 973)	(167 593)	155%
Income tax	25 888	21 286	4 602	22%
Net profit for the period	(249 678)	(86 687)	(162 991)	188%

In 2019, Trakcja PRKił S.A.'s revenue amounted to PLN 834,210 thousand, down 17% year on year. In the period under review, the cost of sales decreased by 18% to PLN 927,100 thousand. The gross margin on sales in the period under review stood at -11.1%, whereas in the corresponding period of 2018 it reached 12.4%. The gross loss on sales in 2019 amounted to PLN 92,890 thousand. Factors that had the most significant impact on gross margin on sales in 2019 included the settlement of low-margin contracts secured in previous years with more difficult tendering conditions and a significant increase in production costs, the prolonged process of refinancing the Company's operating activity causing a drop in profitability on construction contracts, revision of contract budgets also in terms of additional costs due to extended lead times; revision of contract budgets with possible and unattainable optimizations on construction contracts, as well as more advanced stage of completion of contracts (mainly road contracts), on which decreases in margins were reported due to the prior increase in contract cost factors. The result was positively affected by taking the amounts of court claims filed by the Company against contracting authorities into account in the budgets of long-term contracts. The amount of court claims was adjusted by the risk factor and the probability factor. The amount of claims recoverable by the Company ranges from PLN 35 million to PLN 50 million. In addition, the Company included revenue from claims raised under a contract in the valuation of a significant road contract.

In 2019, general and administrative expenses amounted to PLN 36,568 thousand and increased by PLN 8,544 thousand, which represents an increase by 30% as compared to the previous year. The increase in costs was driven mainly by the costs of consulting and legal services in connection with the process of restructuring the company's financing (as announced by the Company in current report No. 4/2019) in the amount of PLN 4,611 thousand. In the period under consideration, selling, marketing and distribution expenses amounted to PLN 2,148 thousand and decreased by PLN 630 thousand year on year.

Net other operating revenue was negative and amounted to PLN 9,603 thousand. It decreased by PLN 63,797 thousand year on year. The change resulted primarily from a non-recurring event of 2018, from the recognition by the Company of income from the sale of perpetual usufruct right to real estate and ownership right to buildings and equipment located on the real estate at ul. Lotnicza 100 in Wrocław for the gross price of PLN 53,000 thousand (see current report No 26/2018). Additionally, the decrease in net other operating income was driven by debt collection costs incurred in 2019 in the amount of PLN 6,471 thousand.

The operating loss in 2019 amounted to PLN 141,209 thousand, whereas in the previous year the operating loss amounted to PLN 101,566 thousand.

In the period of 12 months of 2019, the Company earned finance income of PLN 5,162 thousand, which was 62% lower than in the corresponding period of the previous year, mainly due to the decrease in dividend income by PLN 8,478 thousand as compared to 2018. In the period in question, finance costs increased by PLN 119,633 thousand year on year. The increase in finance costs was mainly driven by recognition by the Company of impairment losses on investments in subsidiaries: AB Kauno Tiltai (in the amount of PLN 112,857 thousand) and BTW Sp. z o.o. (in the amount of PLN 1,330 thousand). The Company announced its decision to recognise impairment losses in current report No. 8/2020. The increase in finance costs in 2019 was also attributable to the incurred fee and commission expenses related to the bridge and long-term financing raised, amounting to PLN 6,559 thousand, and interest expenses which increased by PLN 6,356 thousand to PLN 13,915 thousand in 2019.

In 2019, the Company recorded a pre-tax loss of PLN 275,566 thousand. This figure was lower by PLN 167,593 thousand as compared to the previous year, when the Company incurred a loss tax of PLN 107,973 thousand.

The Company closed 2019 with a net loss of PLN 249,678 thousand and a net profit margin of -29.9% (in 2018, the net profit margin was -8.6%).

3.3.2 Overview of the balance sheet

The table below presents the key items of the Trakcja PRKił's balance sheet as at 31 December 2019 in comparison with their balances as at 31 December 2018:

ASSETS	31.12.2019 <i>Audited</i>	31.12.2018 <i>Audited</i>	Change	Change %
Non-current assets	614 028	703 516	(89 488)	-13%
Tangible non-current assets	167 605	170 144	(2 539)	-1%
Intangible assets	50 510	51 608	(1 098)	-2%
Investment properties	19 789	17 613	2 176	12%
Investments in subsidiaries	311 308	425 495	(114 187)	-27%
Other financial assets	8 340	4 511	3 829	85%
Deferred tax assets	51 162	25 562	25 600	100%
Accruals	5 314	8 583	(3 269)	-38%
Current assets	614 433	553 301	61 132	11%
Inventory	64 720	50 361	14 359	29%
Trade and other receivables	297 327	253 130	44 197	17%
Other financial assets	11 777	14 596	(2 819)	-19%
Cash and cash equivalents	47 514	61 451	(13 937)	-23%
Accruals	12 813	9 910	2 903	29%
Contracts with customers assets	175 245	160 028	15 217	10%
Assets held for sale	5 037	3 825	1 212	32%
TOTAL ASSETS	1 228 461	1 256 817	(28 356)	-2%

As at 31 December 2019, total assets of Trakcja PRKił amounted to PLN 1,228,461 thousand and decreased by PLN 28,356 thousand or 2.3% % year on year.

Non-current assets amounted to PLN 614,028 thousand and decreased by PLN 89,488 thousand over the previous year. The most significant decrease, by PLN 114,187 thousand, was reported for investments in subsidiaries, following the recognition of an impairment loss on investments in subsidiaries, AB Kauno Tiltai and BTW Sp. z o.o. On the other hand, deferred tax assets increased by PLN 25,600 thousand, i.e. by 100%, to PLN 51,162 thousand.

As at 31 December 2019, current assets totalled PLN 614,433 thousand and increased by PLN 61,132 thousand or 11% as compared to 31 December 2018. The most significant changes in current assets were reported for trade and other receivables which increased by PLN 44,197 thousand to PLN 297,327 thousand. As at the balance sheet date, assets from contracts with customers amounted to PLN 175,245 thousand and increased by

PLN 15,217 thousand year on year, while inventories increased by PLN 14,359 thousand to PLN 64,720 thousand. Cash and cash equivalents decreased by PLN 13,937 thousand to PLN 47,514 thousand in the period under review.

Equity and liabilities	31.12.2019 <i>Audited</i>	31.12.2018 <i>Audited</i>	Change	Change %

Accruals	455	574	(119)	-21%
Contracts with customers liabilities	126 455	129 229	(2 774)	-2%
TOTAL EQUITY AND LIABILITIES	1 228 461	1 256 817	(28 356)	-2%

As at 31 December 2019, the Company's equity amounted to PLN 349,925 thousand and decreased by PLN 189,780 thousand, i.e. by 35.2% as compared to the balance as at 31 December 2018. This decrease was caused by the generation of a net loss higher by PLN 162,991 thousand compared to the loss in 2018. In 2019 the Company increased its share capital from PLN 41,120 thousand to PLN 69,161 thousand, i.e. by PLN 28,041 thousand through the issue of series B bearer shares and series C registered shares, subscribed for at the issue price of PLN 1.70 per share. Capital raised from the issue of series B and C shares amounted to PLN 59,587 thousand. The share premium, less the cost of capital issue of PLN 969 thousand, amounted to PLN 30,577 thousand. The Company notified of the registration of the share capital increase in current report 73/2019. Other capital reserves decreased by PLN 86,685 thousand and amounted to PLN 182,823 thousand as at 31 December 2019.

Long-term liabilities amounted to PLN 204,242 thousand as at 31 December 2019 and increased by PLN 137,163 thousand or 204.5% as compared to the balance as at the end of 2018. The increase was driven by an increase in interest-bearing credits and loans by PLN 138,920 thousand as compared to the balance as at 31 December 2018.

Short-term liabilities amounted to PLN 674,294 thousand as at 31 December 2019 and increased by PLN 24,261 thousand or 3.7% year on year. The above increase was driven by an increase in the balance of liabilities on account of interest-bearing credits and loans by PLN 14,656 thousand and an increase in provisions for contract losses by PLN 33,865 thousand. Trade and other liabilities decreased in the period under review by PLN 19,694 thousand, i.e. by 6.3% as compared to the balance as at 31 December 2018.

3.3.3 Overview of the statement of cash flows

The key items of Trakcja PRKił's statement of cash flows for years ended 31 December 2019 and 2018 are presented in the table below.

CASH FLOW STATEMENT	1.01.2019 - 31.12.2019 <i>Audited</i>	1.01.2018 - 31.12.2018 <i>Audited</i>	Change	Change %
Cash at start of period	61 451	20 618	40 833	198%
Net cash flows from operating activities	(187 949)	(53 020)	(134 929)	254%
Net cash flows from investment activities	(4 280)	(8 734)	4 454	-51%
Net cash flows from financial activities	178 292	102 587	75 705	74%
Total net cash flows	(13 937)	40 833	(54 770)	-134%
Cash at end of period	47 514	61 451	(13 937)	-23%

As at the beginning of 2019, the Company's cash amounted to PLN 61,451 thousand and as at the end of 2019, it reached PLN 47,514 thousand.

The net cash flows in the period in question were negative and amounted to PLN 13,937 thousand.

In 2019, net cash flows from operating activities were negative and amounted to PLN 187,949 thousand. It decreased by PLN 134,929 thousand as compared to the corresponding period of the previous year.

In 2019, the Company reported negative net cash flows from investing activities of PLN 4,280 thousand, whereas in the corresponding period of 2018 negative cash flows from investing activities amounted to PLN 8,734 thousand.

In 2019, net cash flows from financing activities reached a positive balance of PLN 178,292 thousand. The above amount resulted primarily from proceeds from credits and loans in the amount of PLN 182,768 thousand.

3.4. Financial ratios of Trakcja PRKił

3.4.1 Profitability ratios

The gross margin on sales increased to -11.14% in 2019 compared to -12.44% in the corresponding period of the previous year. The operating profit before depreciation and amortisation decreased by PLN 33,799 thousand to PLN -120,785 thousand, while the EBITDA margin decreased by 5.82 p.p. to -14.48%. The operating profit margin decreased by 6.82 p.p. to -16.93%. The net profit margin in the period under review stood at -29.93%.

The return on equity (ROE) amounted to -56.13% and decreased by 41.33 p.p. compared to the corresponding period of the previous year. Return on assets (ROA) decreased by 12.76 p.p. and stood at -20.09%.

PROFITABILITY RATIOS	31.12.2019 <i>Audited</i>	31.12.2018 <i>Audited</i>	Change
Gross sales profit margin	-11,14%	-12,44%	1,30 p.p.
EBITDA	(120 785)	(86 986)	(33 799)
EBITDA profit margin	-14,48%	-8,66%	-5,82 p.p.
Operating profit margin	-16,93%	-10,11%	-6,82 p.p.
Net profit margin	-29,93%	-8,63%	-21,30 p.p.
Return in equity (ROE)	-56,13%	-14,80%	-41,33 p.p.
Return on assets (ROA)	-20,09%	-7,33%	-12,76 p.p.

These ratios have been calculated using the following formulae:

Gross margin on sales = gross profit on sales / sales revenue

EBITDA = operating profit + amortisation/depreciation

EBITDA margin = (operating profit + amortisation/depreciation) / sales revenue

Operating profit margin = operating profit / sales revenue

Net profit margin = net profit / sales revenue
Return on equity (ROE) = net profit / average equity
Return on assets (ROA) = net profit / average assets

3.4.2 Liquidity ratios

As at 31 December 2019, the working capital of Trakcja PRKiI S.A. amounted to PLN -59,406 thousand and increased by PLN 36,752 thousand year on year.

As at the end of 2019, the current ratio stood at 0.91, up by 0.06 year on year. The quick ratio reached 0.82, up by 0.05 on the previous year. The cash ratio declined to 0.07. This ratio indicates that the Company would be able to immediately settle 7% of its liabilities with the cash held.

LIQUIDITY RATIOS	31.12.2019 <i>Audited</i>	31.12.2018 <i>Audited</i>	Change
Working capital	(59 406)	(96 158)	36 752
Current ratio	0,91	0,85	0,06
Quick ratio	0,82	0,77	0,05
Cash ratio	0,07	0,09	(0,02)

The above ratios have been calculated in accordance with the following formulas:

Working capital = current assets - short-term liabilities + prepayments

Current ratio = current assets / short-term liabilities

Quick ratio = (current assets - inventory) / short-term liabilities

Cash ratio = cash and cash equivalents / short-term liabilities

3.4.3 Financing structure ratios

The Company monitors its capital structure using the financing structure ratios.

As at 31 December 2019, the equity to assets ratio amounted to 0.28 and decreased by 0.15 year on year. The equity to non-current assets ratio decreased by 0.20 as compared to 31 December 2018. As at the end of 2019, the debt ratio increased by 0.15 year on year to 0.72. The debt to equity ratio also increased from 1.33 as at the end of 2018 to 2.51 as at the end of 2019.

Financing structure ratios	31.12.2019 <i>Audited</i>	31.12.2019 <i>Audited</i>	Change
Equity to assets ratio	0,28	0,43	-0,15
Equity to non-current assets ratio	0,57	0,77	-0,20
Debt ratio	0,72	0,57	0,15
Debt to equity ratio	2,51	1,33	1,18

The above ratios have been calculated in accordance with the following formulas:

Ownership coverage with equity = equity attributed to Shareholders of the Parent Company / total assets

Coverage of fixed assets with equity = equity attributed to Shareholders of the Parent / fixed assets

Total debt ratio = (total assets - equity attributed to Shareholders of the Parent Company) / total assets

Equity debt ratio = (total assets - equity attributed to Shareholders of the Parent Entity) / equity attributed

3.5. Assessment of financial resources management

At the end of 2019, Trakcja Group held cash of PLN 107,473 thousand and, at the same time, total debt on account of credits, loans and finance leases amounted to PLN 361,647 thousand. The Group maintains the level of external financing as well as financial liquidity that allow it to execute its current contract portfolio.

As at the balance sheet date, the Group had at its disposal undrawn credit lines (overdrafts and working capital facilities) in the amount of PLN 83.4 million, which ensures continuity of financing of current operations for the Trakcja Group companies.

In addition to activities that contribute to the improvement of future financial performance, the Parent Company's Management Board is primarily focused on the Company's liquidity situation. The Parent Company pursues an active liquidity management policy by monitoring liquidity on an ongoing basis in the short and long-term perspective, aiming at maintaining a stable level of available financing. In order to maintain liquidity, the Parent Company, when seeking new contracts, pays particular attention to their financing terms, in particular the ability to obtain advance payments. In addition, the Parent Company pursues an active policy of maintaining a low level of receivables, managing inventories and selling key materials to the ordering party at the initial stage of a contract. The Parent Company places great emphasis on shortening the period between the completion of works and their invoicing. The Parent Company's activities related to the liquidity situation are described in Note 62 to the consolidated financial statements for 2019.

On 13 June 2019, to maintain liquidity until the date of signing the agreement on restructuring / obtaining new financing and capital, the Parent Company signed bridge financing documentation. On 27 September 2019, the Company signed the documentation of the target long-term financing. Under the Restated Facility Agreement and on the terms and conditions specified therein, the Parent Company and the Related Parties, being the borrowers, were granted:

(i) revolving loan 1 disbursed in drawings up to the total amount of PLN 31,000,000 for the purpose of paying any overdue liabilities and financing the ongoing activities or for granting intra-group loans with the maturity date up to December 31, 2022, the funds have been acquired at the stage of bridge financing,

(ii) revolving loan 2 in the total amount of up to PLN 75,000,000 and an open-end loan to be disbursed on the same terms and the revolving loan in the total amount of up to PLN 27,600,000 for the purpose of financing the working capital and ongoing activities of the Company with the maturity date of December 31, 2022,

(iii) revolving loan 3 disbursed in drawings in the total amount of up to PLN 17,600,000 granted for the purpose of financing the working capital and ongoing activities with the maturity date of December 31, 2022,

(iv) revolving loan 4 disbursed in drawings in the total maximum amount of up to PLN 12,000,000 granted for the purpose of financing the working capital and ongoing activities with the maturity date of December 31, 2022, which was not disbursed as at the balance sheet date,

(v) non-revolving guarantee line granted within the bridge financing for the reimbursement of advance payment under a specific contract concluded by the Company and whose beneficiary is PKP Polskie Linie Kolejowe S.A., in the total amount of PLN 25,000,000,

(vi) non-revolving guarantee line granted within the bridge financing for the performance bond, whose beneficiary is Generalna Dyrekcja Dróg Krajowych i Autostrad, in the total amount of PLN 8,000,000,

(vii) revolving guarantee line for advance payment guarantees for new contracts made by the Company or the Related Parties, whose beneficiary is the entity acceptable to all the issuers of such a guarantee in the total amount of PLN 200,000,000.

Note 10 to the separate financial statements for 2019 presents details of the process of aimed at obtaining bridge financing and long-term financing. Information indicating the risk to the going concern status was presented in the same note to the separate financial statements for 2019.

3.6. Assessment of factors and non-recurring events having an impact on the Trakcja Group's performance in 2019

The key factors and non-recurring events affecting the Trakcja Group's performance in 2019 are as follows:

- Settlement of low-margin contracts awarded in the previous years that were more difficult in terms in contract awarding opportunities and before a significant increase in the production costs;
- prolonged process of refinancing the operating activities of Trakcja PRKiI S.A. exacerbating the drop in profitability on construction contracts;
- Prolonged refinancing process had also an effect on a delay in signing two railway contracts with higher profitability and on the Company's inability to settle them in 2019, and therefore to generate the revenues planned;
- Budgets were revised in terms of their nature, amounts, distribution in time and uncertainty as to whether revenues and cash flows from the contracts performed would be generated;
- During the revision of budgets, opportunities and threats were analysed, including the identification and inclusion of any risks of technology, implementation and liquidity;
- For two railway contracts, the Company recognised revenues in the amount of the costs incurred in keeping with IFRS 15 para. 45.
- taking the amounts of court claims filed by the Company against contracting authorities into account in the budgets of long-term contracts. The amount of court claims was adjusted by the risk factor and the probability factor. The amount of claims recoverable by the Company ranges from PLN 35 million to PLN 50 million;
- inclusion of revenue from claims raised under a contract in the valuation of a significant road contract;
- recognition of an impairment loss on goodwill in the consolidated balance sheet of Trakcja Group led to a decrease in the result of Trakcja Group by PLN 138,182 thousand;
- update of contract budgets in the fourth quarter of 2019 in the amount of PLN 138,943 thousand decreased the gross margin on sales of the Parent Company.

3.7. Assessment of the feasibility of investment plans, including equity investment plans

Based on analyses carried out, the Management Board of the Parent Company believes that Trakcja Group is able to finance its current and future investment plans described in Section 2.7.1 hereof, both with internally generated funds and with borrowed funds.

3.8. Hedging transactions

A hedging instrument is a designated derivative or (for a hedge of the risk of changes in foreign currency exchange rates only) a designated non-derivative financial asset or non-derivative financial liability whose fair value or cash flows are expected to offset changes in the fair value or cash flows of a designated hedged item.

After the initial recognition, the entity measures a financial asset or liability at fair value corresponding to the amount for which an asset may be exchanged or liability settled between knowledgeable, willing parties at arm's length.

Cash flow hedges which meet the conditions for applying hedge accounting are recognised as follows:

- the portion of the gain or loss on the hedging instrument that is considered an effective hedge is recognised as a change in the hedged item;
- the ineffective portion of the gain or loss on the hedging instrument is recognised in profit or loss.

Cash flow hedges considered effective are recognised in equity until the hedged asset or liability is recognised.

Cash flow hedges and application of hedge accounting

Polish companies of Trakcja Group do not apply hedge accounting, but as at 31 December 2019 the Lithuanian part of Trakcja Group, namely AB Kauno Tiltai - AB Kauno Tiltai follow the principles thereof.

On 4 and 14 October 2015, one of the Issuer's subsidiaries, i.e. AB Kauno Tiltai made two interest rate swap (IRS) transactions in order to hedge future cash flows expected to arise from interest to be paid on the term loan. Pursuant to the agreement, the company is a payee of amounts at a fixed rate, whereas the bank is a payee of amounts at a variable rate..

Fair value of the IRS contracts is calculated as the present value of future cash flows estimated using the yield curves. During 2019, there was no change in the technique for measuring fair value.

In 2019, the Group assessed the hedge effectiveness of the IRS transactions. In the reporting period, the interest rate hedge was highly effective, and therefore no ineffective part thereof was identified or recognised in profit or loss.

As at 31 December 2019, the impact of hedging instruments on other comprehensive income amounted to PLN -1,505 thousand and resulted from the sale of UAB Pletros investicijos. [Explanation of differences between the actual and forecast financial performance of Trakcja Group](#)

The Management Board of the Parent Company did not publish the Company's and the Group's financial forecast for 2019.

4. SHARES AND SHAREHOLDING STRUCTURE OF TRAKCJA PRKiI

4.1. Shareholding structure

As at December 31, 2019 the share capital was PLN 69,160,780.80 and was divided into 51,399,548 series A ordinary bearer shares and 10,279,909 series B ordinary bearer shares and also 24,771,519 series C registered shares with a par value of PLN 0.80 per share. Each share constitutes one vote at the General Meeting of Shareholders. All shares are fully paid-up.

In 2019, the Parent Company's share capital was increased by PLN 28,041,142.40 compared to the previous year, through the issue of series B ordinary bearer shares and series C ordinary registered shares.

Shareholders	Number of shares	% in share capital	Number of votes	% in votes at GSM
COMSA S.A.	28 399 145	32,85%	28 399 145	32,85%

 - No 5 of 24 June 2019 – extension of the repayment term until 30 July 2019;
 - No 6 of 29 July 2019 – extension of the repayment term until 27 September 2019;
 - No 7 of 25 July 2019 – extension of the repayment term until 10 October 2019;
 - No 8 of 11 October 2019 – alignment of the repayment date with the Common Terms Agreement
- 3) the Issuer's subsidiary, Bahn Technik Wrocław Sp. z o.o., signed annexes to the Facility agreement of 27 May 2015 with ING Bank Śląski S.A.:
- annex No 5 of 25 January 2019 – change of the End Date to 23 March 2019;
 - annex No 6 of 21 February 2019 – change of the End Date to 30 April 2019.

Loan and borrowing agreements terminated or expired in 2019

In 2019, the facility agreement with ING Bank Śląski of 4 February 2016 expired.

Under the Common Terms Agreement of 27 September 2019, the Parent Company is required to comply with financial covenants related to its current financial standing.

Financial covenants set out in Section 17 of the Common Terms Agreement will be tested on a quarterly basis in the period from 30 September 2020 to 30 September 2022.

5.2. Borrowings extended in the financial year

A list of borrowings extended during 2019 by the Group companies, including to related parties, is presented in the following table.

Lender	Borrower	Amount of loan (th PLN)	Currency	Maturity date	Interests	Amount left to be paid	Capital relationship
Trakcja PRKił S.A.	Torprojekt Sp. z o.o.	1 900	PLN	30.06.2020	WIBOR 3 M + margin	1 918	subsidiary
Trakcja PRKił S.A.	Torprojekt Sp. z o.o.	300	PLN	30.06.2020	WIBOR 3 M + margin	302	subsidiary
Trakcja PRKił S.A.	Torprojekt Sp. z o.o.	300	PLN	30.06.2020	WIBOR 3 M + margin	301	subsidiary

PRK 7 Nieruchomości Sp. z o.o.	Trakcja PRKił S.A.	1 500	PLN	31.12.2019	WIBOR 3 M + margin	1 541	subsidiary
PRK 7 Nieruchomości Sp. z o.o.	Trakcja PRKił S.A.	2 500	PLN	31.12.2019	WIBOR 3 M + margin	2 567	subsidiary
Dalba Sp. z o.o.	Trakcja PRKił S.A.	1 000	PLN	31.12.2019	WIBOR 3 M + margin	1 025	subsidiary
BTW Sp. z o.o.	Trakcja PRKił S.A.	2 000	PLN	31.12.2019	WIBOR 3 M + margin	2 051	subsidiary
PDM Białystok S.A.	Trakcja PRKił S.A.	2 500	PLN	31.12.2019	WIBOR 3 M + margin	2 392	subsidiary
PEUiM Sp. z o.o.	Trakcja PRKił S.A.	5 500	PLN	31.12.2019	WIBOR 1M + margin	1 502	subsidiary
PEUiM Sp. z o.o.	Dalba Sp. z o.o.	200	PLN	31.12.2019	WIBOR 1M + margin	-	subsidiary

5.3. Sureties and guarantees issued and received

The table below summarises guarantees issued by the Parent Company:

Beneficiary	Value of guarantee in thousand PLN
PKP PLK S.A.	585 616
GDDKiA	113 125
WZDW Poznań	9 985
Gmina Kraków	9 421
Województwo Pomorskie	8 427
Other	35 976
Total	762 550

The table below summarises guarantees received by the Parent Company:

Subcontractor	Value of guarantee in thousand PLN
Krakowskie Zakłady Automatyki S.A.	17 518
Menard Polska	4 295
Keller Polska	3 426
Bombardier	2 583
Kolejowe Zakłady Automatyki S.A.	2 206
Other	28 390
Total	58 418

Under the Common Terms Agreement of 27 September 2019, the Parent Company together with its subsidiaries (without AB Kauno) are Obligated Entities who provided collateral in the form of sureties.

The table below summarises sureties issued by the Parent Company to subsidiaries:

	Value of surety in thousand PLN
To subsidiaries	702 400
Total	702 400

The table below summarises sureties issued by subsidiaries to the Parent Company:

	Value of surety in thousand PLN
From subsidiaries	702 400
Total	702 400

5.4. Proceeds from issues of securities

On November 29, 2019, by the decision of the District Court of the City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register under KRS, an increase in the Company's share capital was entered into the commercial register. The share capital was increased by resolution no. 5 of the Extraordinary General Meeting of Shareholders adopted on September 27, 2019 on an increase in the share capital from PLN 41,119,638.40 to PLN 69,160,780.80, i.e. by PLN 28,041,142.40 by way of issuing 10,279,909 series B bearer shares acquired at the issue price of PLN 1.70 per share and 24,771,519 series C registered shares acquired at the issue price of PLN 1.70 per share.

The issue of shares of series B and C allowed the Company to acquire the capital which was used for ongoing financial needs of the Company and enabled the current debt to be refinanced. Moreover, the issue of shares was necessary to acquire and implement projects performed by the Company in its relevant operational sectors. In the Management Board's opinion, the capital acquired supported the further operations of the Company. An increase in the Company's share capital through the issue of new shares was one of the conditions for acquiring new debt by the Company from financial institutions under the debt refinancing process which the Company undergoes currently. Simultaneously, the increase in the share capital depended also on the success in acquiring funds. The aforementioned measures aimed at restructuring the financial condition of the Company and at maintaining its market position. The Company's intention was to acquire at least PLN 50,000,000.

5.5. Material off-balance sheet items

	31.12.2019	31.12.2018
	Audited	Audited
Contingent receivables		
From related entities due to:		
From related entities due to:	764 022	89 206
Received guarantees and sureties	762 731	88 366
Bills of exchange received as collateral	1 291	840
Total contingent receivables	764 022	89 206
From related entities due to:		
From other entities due to:	8 696 931	2 513 844
Provided guarantees and sureties	899 060	897 239
Promissory notes	521 671	449 589
Mortgages	4 252 519	181 979
Assignment of receivables	1 429 992	887 692
Assignment of rights under insurance policy	120 137	40 483
Security deposits	21 900	24 612
Registered pledges	1 451 652	32 250
Total contingent liabilities	8 696 931	2 513 844

Contingent receivables arising from guarantees issued comprise guarantees issued by banks or Insurance Companies in favour of the Trakcja Group companies securing the Group's claims against its counterparties in connection with executed construction contracts.

Contingent liabilities arising from guarantees comprise mainly guarantees issued by banks and Insurance Companies to counterparties of the Group companies to secure their claims against the Group companies that may arise on the grounds of executed construction contracts. The banks and Insurance Companies have the right to recourse against the Group companies on that account.

From the balance sheet date to the date of publication of this report, the amount of the Parent Company's exposure under bid bonds, performance bonds and advance payment guarantees decreased by PLN 33,685 thousand.

5.6. Significant court cases and disputes

Below, the Parent Company presents significant proceedings pending before a court or other authority concerning its liabilities or claims and its subsidiaries.

The value of lawsuits filed by the Parent Company against contracting authorities is approx. PLN 156,800 thousand (gross amount plus interest capitalised as of the date of filing the lawsuit).

The Company took court claims filed against contracting authorities into account in the budgets of long-term contracts. The amount of court claims was adjusted by the risk factor and the probability factor. The amount of claims recoverable by the Company ranges from PLN 35 million to PLN 50 million. In addition, the Parent Company included revenue from claims raised under a contract in the valuation of a significant road contract.

Proceedings concerning the Parent Company:

The case concerning claims against Przedsiębiorstwo Napraw Infrastruktury Sp. z o.o. w upadłości likwidacyjnej with its registered office in Warsaw

The Parent Company merged with Przedsiębiorstwo Robót Kolejowych i Inżynieryjnych S.A. with its registered office in Wrocław. As a result of this merger, the legal successor of both companies is Trakcja PRKil S.A. with its registered office in Warsaw. In connection with the announcement by the District Court of Warsaw-Praga Północ in Warsaw of the bankruptcy of Przedsiębiorstwo Napraw Infrastruktury Sp. z o.o. ("PNI") with an option of

composition, Przedsiębiorstwo Robót Komunikacyjnych i Inżynierskich S.A. with its registered office in Wrocław provided a submission of claims of 20 November 2012 to the bankruptcy court. The submission covered claims in the total amount of PLN 55,664,100.89, including the principal amount and the interest due up to the declaration of bankruptcy, as well as the accrued contractual penalties.

To the Parent Company's best knowledge, the list of claims towards PNI was drawn up. The claims of Trakcja PRKiI S.A. were recognised in the amount of PLN 10,569,163.16, including PLN 10,274,533.87 for unpaid invoices and PLN 294,632.29 for interest on late payment. The Company's receivables from contractual penalties and other claims in the total amount of PLN 44,956,834.35 were dismissed. The Parent Company did not agree with that dismissal; therefore, an objection was submitted to the judge commissioner concerning the dismissal in the aforementioned scope. The court had rejected the objection; therefore the Parent Company filed a complaint which was overruled. On 8 June 2015, the Parent Company received a notice from the trustee in bankruptcy on the change in the bankruptcy procedure from the arrangement bankruptcy to the liquidation bankruptcy. The case is pending and its resolution date is difficult to predict.

Case against Leonhard Weiss International GmbH

As Leonhard Weiss International failed to respond to the statement including a debit note and a request for payment dated 31 October 2017, of which the Group informed in the consolidated report for the 9-month period ended 30 September 2017 in Note 25 "Interests in joint ventures", the Parent Company decided to take the case to court.

The case against Leonhard Weiss International GmbH ("LWI") for payment due under the sale agreement of 50 % of shares in Bahn Technik Wrocław Sp. z o.o. The Parent Company has responded to the lawsuit. At present, it is not possible to precisely indicate the expected date of completion of the case. The Parent Company expects that an enforceable solution may be issued in the second half of 2019 or in the first half of 2020.

The value of the Parent Company's claim is PLN 20,551,495.00, including the statutory interest calculated as follows:

- 1) on PLN 7,500,000.00 from 17 November 2017 to the payment date,
- 2) on PLN 12,756,000.00 from 8 December 2017 to the payment date,
- 3) on PLN 295,495.00 from 8 December 2017 to the payment date.

The Parent Company requested also that the defendant reimburse the Company with the costs of the proceedings, including the costs of legal representation, in accordance with the cost records. At this stage, it is impossible to objectively at least estimate the amount of interest and costs of the proceedings which could be ordered to be paid for the benefit of the Company.

Case against ELTRANS sp. z o.o.

On May 30, 2019 the Company filed a lawsuit against ELTRANS sp. z o.o. based in Chorzow for the payment of PLN 2,768,004 plus interest as the payment of remuneration for delivery, assembly and training on operating two oil-less turbochargers.

On January 29, 2020 the court issued a decision to initiate the sanative proceedings.

The case is at the early stage of proceedings and its resolution date is difficult to predict.

Case against ALSTAL Grupa Budowlana sp. z o.o.

On May 22, 2019 the Company filed a lawsuit against ALSTAL Grupa Budowlana sp. z o.o. based in Jacewo for the payment of PLN 556,683.00 plus interest as the payment of remuneration for construction works performed

as a contractor within the scope of the project ordered by Tauron Dystrybucja S.A. entitled “Network Management Development in Wrocław”

The case is at the early stage of proceedings and its resolution date is difficult to predict.

Proceedings against PKP PLK S.A.

On 31 October 2017, the Parent Company filed a case against PKP PLK S.A. for the payment of PLN 46,747,276.90 (including, interest of PLN 4,913,969.34), requesting that compensation be paid to it in connection with extension of the completion date of the agreement entitled: “Design and completion of construction works on the railway line Kraków – Medyka – State border, at the section Podłęże – Bochnia, km 16.000 – 39.000 as part of the project “Modernisation of railway line E 30/C-E30, section Kraków – Rzeszów, phase III” and a part of the lump-sum fee due to the Parent Company and unpaid by PKP PLK S.A. due to the submission of an unjustified statement on the withdrawal from the Agreement in part. On 12 December 2017, the Parent Company extended the claim whose current value is PLN 50,517,012.38 (including, interest of PLN 5,336,177.01). The extension pertained to the Parent Company’s claims against PKP PLK S.A. in relation to the groundless enforcement of the contractual penalties accrued and the part of remuneration for the performance of the contract and agreements for additional works, which PKP PLK S.A. unreasonably refuses to pay. On October 18, 2018, the Parent Company extended the claim to PLN 51,767,012.38. The damage of the Parent Company includes PLN 1,250,000.00, which the Parent Company was obliged to pay to the Bocheński Powiat in order to satisfy the request of PKP PLK S.A. concerning the earlier – than it resulted from the Work Schedule – launching of track 1 on the Bochnia route - Brzesko Okocim. On 6 May 2019, the Parent Company extended the claim to PLN 84,121,127. The Parent Company extended the scope of the claims pursued also by the claims for damages against PKP PLK S.A., including tort claims of its subcontractors: Arcadis sp. z o.o., Torpol S.A. and PUT Intercor sp. z o.o. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 31 October 2017, the Company along with Przedsiębiorstwo Budowlane “FILAR” Spółka z ograniczoną odpowiedzialnością with its registered office in Wrocław, and Berger Bau Polska Spółka z ograniczoną odpowiedzialnością with its registered office in Wrocław, has filed a case against PKP PLK S.A. for reimbursement of additional costs related with the extension of the completion date of the Contract No 90/116/0006/11/Z/I for basic linear construction works at the section Wrocław – Grabiszyn – Skokowa and Żmigród – border of the Dolnośląskie Province within the scope of the project entitled “Modernisation of railway line E 59 at the section Wrocław – Poznań, Stage II – section Wrocław – border of the Dolnośląskie Province”. On 29 March 2018, an extension of a claim pursued as part of the case to include claims of another subcontractor – INFRAKOL Sp. z o.o. Sp.K. The Parent Company’s portion of the claim is PLN 11,640,113.77 (including, interest of PLN 1,415,797.02). The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 31 October 2017, the Parent Company filed a case in the payment order proceedings against PKP PLK S.A. for the payment of PLN 12,221,007.10 (including, interest of PLN 1,821,726.10), requesting that unjust enrichment in the form of unpaid remuneration be refunded for the completion of:

- a) additional works in connection with Contract No 90/132/121/00/17000031/10/I/I dated 16 December 2010 for the “Design and implementation of the construction works at the railway line Kraków – Medyka – national border, at the section Dębica – Sędziszów Małopolski (111.500 km – 133.600 km) under the project POIiŚ 7.1-30 “Modernisation of railway line E30/C-E 30, section Kraków – Rzeszów, phase III” Tender proceedings 2.2” in the total amount of PLN 7,570,281.00,
- b) additional works in connection with Contract No. 90/132/336/00/17000031/10/I/I dated 29 November 2010 for the “Design and implementation of the construction works at the railway line Kraków – Medyka – national border, at the section Sędziszów Małopolski – Rzeszów Zachodni under the project “Modernisation of railway line E3/C-E 30, section Kraków – Rzeszów, phase III” Tender proceedings 2.3” in the total amount of PLN 2,829,000.00. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 27 August 2018, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 6,675,193.36 PLN (in words: six million six hundred seventy five thousand one hundred ninety three zlotys and thirty six groszy) along with statutory interest for delay, as compensation for unjust enrichment of the defendant in the form of unpaid remuneration for the performance of additional works related to the implementation of Agreement No 90/132/121/00/17000031/10/I/I of 16 December 2010 for "Designing and execution of construction works on the Kraków - Medyka - State border railway line on the Dębica - Sędziszów Małopolski section in km 111,500 - 133,600 as part of the POIiŚ 7.1-30 project "Modernization of the E30 / CE 30 railway line, Kraków - Rzeszów section, stage III" Tender 2.2 "specified in the Contractor's Applications No. 72 (gas pipeline) and No. 85 (Bystrzyca creek), which constitutes the principal amount of the present claim, i.e. PLN 6,283,547.59 and capitalized interest on the principal for the period from 6 October 2017 to 27 August 2018. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 22 October 2018, the Company filed a lawsuit for payment against PKP PLK S.A., seeking the amount of PLN 632,459.66 (in words: six hundred thirty-two thousand four hundred fifty-nine zlotys and sixty-six grosz) along with statutory interest for delay, for additional works not provided for in the Agreement No 90/107/0086/17/Z/I of 14 March 2017 for the preparation of design documentation and performance of construction works on the Poznań Wschód - Mogilno section from km 0.265 to km 73.000, as a part of the project: "Works on the railway line No 353 Poznań Wschód-Dziarnowo", i.e. works on the construction of additional access ways to platforms at the Wydartowo station, additional suspension of the overhead contact line on the Wydartowo - Trzemeszno route and preparation of maps for design purposes, as well as incurring additional costs related to the unpredictable increase in prices of services provided by PKP Energetyka on the overhead contact line. On 12 July 2019, the Company extended the claim to PLN 14,601,921.80, i.e. by the value of additional performances provided to PKP PLK S.A. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 29 November 2018, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 20,934,758.14 PLN (in words: twenty million nine hundred thirty-four thousand seven hundred fifty-eight zlotys and fourteen grosz) along with statutory interest for delay, as reimbursement for the costs of extension of the implementation of Agreement No 90/132/336/00/17000031/10/I/I of 29 November 2010 for "Designing and execution of construction works on the Kraków - Medyka - State border railway line on the Dębica - Sędziszów Małopolski section in km 133.600 - 154.900 as part of the POIiŚ 7.1-30 project "Modernization of the E30 / CE 30 railway line, Kraków - Rzeszów section, stage III" Tender 2.2", due to circumstances within the scope of responsibility of PKP PLK S.A., both under the provisions of the Contract, as a public procurement contract, as well as general liability for damages specified in the provisions of the Civil Code. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 17 January 2019, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 12,296,388.86 PLN (in words: twelve million two hundred ninety-six thousand three hundred eighty-eight zloty and eighty-six grosz) along with statutory interest for delay, as reimbursement for additional costs resulting from the extension of the implementation of Agreement No 90/107/0085/15/Z/I for "Continuation of upgrade work on Railway Line E59 (track and subgrade work and track infrastructure work) as part of the POIiŚ 7.1-5.1 project entitled "Modernization of Railway Line E59 at the Wrocław-Poznań section, Stage III, Czempień-Poznań section" due to circumstances within the scope of responsibility of PKP PLK S.A. On 12 July 2019, the Company extended the claim to PLN 14,601,921.80, i.e. by the value of additional performances provided to PKP PLK S.A. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 3 April 2019, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 1,320,495.25 PLN (in words: one million three hundred twenty thousand four hundred ninety-five zloty and twenty-five grosz) along with statutory interest for delay, as:

- a) reimbursement for additional costs resulting from the extension of the implementation of Agreement No 90/107/0090/15/Z/I for Construction of civil engineering structures on km 160.857; km 155.170 and

km 145.650 of railway line No 271 Wrocław – Poznań, as part of the POIiŚ 7.1-5.1 project entitled "Modernization of Railway Line E59 at the Wrocław-Poznań section, Stage III, Czempień–Poznań section" – as regards the Partial Contract A – railway viaduct on km 145.650 in Mosina, due to circumstances within the scope of responsibility of PKP PLK S.A.,

- b) reimbursement for the costs of additional works performed by the Company, not provided for in the Contractor's Bid for the contract in question.

The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 2 April 2019, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 489,147.29 PLN (in words: four hundred eighty-nine thousand one hundred forty-seven zloty and twenty-nine grosz) along with statutory interest for delay, as a reimbursement for additional costs resulting from the extension of the implementation of Agreement No 90/107/0092/15/Z/I for Construction of civil engineering structures on km 160.857; km 155.170 and km 145.650 of railway line No 271 Wrocław – Poznań, as part of the POIiŚ 7.1-5.1 project entitled "Modernization of Railway Line E59 at the Wrocław-Poznań section, Stage III, Czempień–Poznań section" – as regards the Partial Contract C – railway viaduct on km 160.857 in Poznań, due to circumstances within the scope of responsibility of PKP PLK S.A. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 13 June 2019, the Parent Company filed a suit against PKP PLK S.A. with the motion requesting security for the Parent Company's claim, the subject of which being stipulating the contents of the Parent Company's contractual obligations under agreements No. 90/132/121/00/17000031/10/I/I of 16 December 2010 on "Design and performance of construction works on the railway line Krakow – Medyka – state border on the section Dębica – Sędziszów Małopolski, in km 111,500–133,600 under the OPIE project 7.1-30 "Modernisation of the railway line E30/C-E 30, on the section Krakow–Rzeszów, Stage III" Tender 2.2 and No. 90/132/336/00/17000031/10/I/I of 29 November 2010 on "Design and performance of construction works on the railway line Krakow – Medyka – state border on the section Sędziszów Małopolski – Rzeszów Zachodni under the project "Modernisation of the railway line E3-/C-E 30, on the section Krakow – Rzeszów, stage III" Tender 2.3. Disputable circumstances in the case comprise the necessity of issuing the declaration of compliance of the fixtures or constructions with the type in compliance with the Act on Railway Transport, as well as the correctness of the design and performance of noise barriers. The amount claimed by the plaintiff is PLN 12,301,072. The case is at the early stage of proceedings and its resolution date is difficult to predict.

Proceedings concerning subsidiaries:

AB Kauno Tiltai

The investor, AB Lietuvos geležinkeliai, filed a lawsuit against the Consortium, of which a subsidiary, AB Kauno Tiltai, is a member, for a total amount of PLN 67,715,319 (EUR 14,989,556). Pursuant to a decision of the court, this amount was reduced to PLN 4,706,684 (EUR 1,041,878). The share of Trakcja Group in liabilities (if any) that may arise from these proceedings is 65%. The Group refrained from making any other disclosures related to this court case by invoking clause 92 of IAS 37. According to the Management Board of The Parent Entity those disclosures may reveal information to parties of court proceedings, which can be used in the ongoing proceedings against the interests of the subsidiary AB Kauno tiltai.

5.7. Related-party transactions

All related-party transactions of the Parent Company and its subsidiaries in 2019 were executed on an arm's length.

For detailed information on related-party transactions, see Note 55 to the Consolidated financial statements of Trakcja Group for 2019.

5.8. Remuneration of the members of the Management Board and Supervisory Board

5.11. Major R&D achievements

In 2019, as in previous years, Trakcja PRKiI placed great emphasis on efforts related to Occupational Health and Safety at the construction sites. Observance of the basic safety rules, internal inspections as well as the reminders and educational information distributed contributed to a reduction in accidents. It is also important to note the special telephone application implemented on the WEBCON platform for monitoring threats on construction sites. Owing to the measures taken, the company has won a number of awards, including, among others:

1. Safe Work Leader's Silver Card,
2. First place in the "Build Safely" competition held by the Labour Inspectorate,
3. Distinction in the "Build Safely 2019" competition.

5.12. Information on the statutory auditor

Pursuant to a resolution adopted by the Supervisory Board of Trakcja PRKiI, the entity authorised to audit financial statements of the Group and the Parent Company is BDO spółka z ograniczoną odpowiedzialnością sp. k. with its registered office in Warsaw at ul. Postępu 12.

In 28 August 2019, the Company and BDO spółka z ograniczoną odpowiedzialnością sp. k. entered into an agreement for:

- review of the semi-annual separate and consolidated financial statements prepared as at 30 June 2019 in accordance with the International Accounting Standards;
- audit of the annual separate and consolidated financial statements prepared as at 31 December 2019, in accordance with the International Accounting Standards;
- review of the semi-annual separate and consolidated financial statements prepared as at 30 June 2020 in accordance with the International Accounting Standards;
- audit of the annual separate and consolidated financial statements prepared as at 31 December 2020, in accordance with the International Accounting Standards.

The agreement was concluded for the period of execution of its subject matter.

Remuneration of the statutory auditor for the services provided to the Company is presented in the table below:

	Year ended	
	31.12.2019	31.12.2018
	Audited	Audited
On account of agreement for financial statement audit	140	168
On account of agreement for financial statement review	97	76
Other certified services	-	21
Total	237	265

Remuneration of the statutory auditor for the services provided to the Group is presented in the table below:

	Year ended	
	31.12.2019	31.12.2018
	Audited	Audited
On account of agreement for financial statement audit	344	239
On account of agreement for financial statement review	135	76
On account of other agreements	10	21
Total	489	336

Remuneration for the audit of accounts of selected Trakcja Group companies is paid under separate agreements between the auditor and each of the Trakcja Group companies.

6. STATEMENT OF COMPLIANCE WITH CORPORATE GOVERNANCE STANDARDS

6.1. Code of corporate governance applicable to the Issuer and its availability to the general public

In 2019, Trakcja PRKiI was subject to the corporate governance rules stipulated in the “Code of Best Practice for WSE Listed Companies 2016” adopted by the Supervisory Board of the Warsaw Stock Exchange on 13 October 2015.

The document is available at the WSE's premises and on its website dedicated to corporate governance (<http://corp-gov.gpw.pl>), and on the Company's website, in the “Investor relations/Corporate governance” tab.

6.2. Degree of the Issuer's non-compliance with the corporate governance rules set out in the “Code of Best Practice for WSE Listed Companies 2016” pursuant to resolution No 1309/2015, applicable as of 1 January 2016, specification of the rules not complied with, and reasons for the non-compliance

The Company undertook to comply with the corporate governance recommendations and rules laid down in the “Best Practice for WSE Listed Companies 2016”, except for the following recommendations and rules:

1. Recommendations and rules set out in Section I of the Code of Best Practice:

I.Z.1. A company should operate a corporate website and publish on it, in a legible form and in a separate section, in addition to information required under the legislation:

I.Z.1.7. information materials published by the company concerning the company's strategy and its financial performance.

Explanation:

The Company does not publish any strategy as the situation on the markets where it operates is too dynamic for the strategy to stay up-to-date.

I.Z.1.10. financial projections, if the company has decided to publish them, published at least in the last 5 years, including information about the degree of their implementation;

Explanation:

The Company does not publish any financial projections. Therefore this principle is not applicable.

I.Z.1.15. information about the company's diversity policy applicable to the company's governing bodies and key managers; the description should cover the following elements of the diversity policy: gender, education, age, professional experience, and specify the goals of the diversity policy and its implementation in the reporting period; where the company has not drafted and implemented a diversity policy, it should publish the explanation of its decision on its website.

Explanation:

The Company has not implemented a formalised diversity policy with respect to the Company's governing bodies and key managers due to the specific nature of the markets in which it operates, in particular due to the limited number of key managers that can be recruited from the market. Key personnel decisions with regard to the Company's authorities are made by the General Meeting and the Supervisory Board, guided by the qualifications, skills and professionalism of the candidate for a given position and his or her professional experience. Although there are no non-standard rules for their selection, the Company seeks, as far as possible, to recruit people with relevant competencies, regardless of their gender, age, education or professional experience. These elements are not factors that affect the Company's decisions concerning employment. The Company hires key employees taking into account their expertise and experience in the industry, depending on the needs, taking into account the requirements and specificity of a given position. Due to the specific nature of its business, qualifications become a key factor, regardless of non-substantive criteria, and the Company believes that in such circumstances it will not always be possible to maintain diversity.

In the Company's opinion, such an approach ensures proper selection of the company's authorities and its key managers.

I.Z.1.16. information about the planned transmission of a general meeting, not later than 7 days before the date of the general meeting.

Explanation:

Due to its ownership structure, the Company does not broadcast General Meetings in the form of audio or video transmissions.

I.Z.1.20. an audio or video recording of a general meeting.

Explanation:

Due to its ownership structure, the Company does not broadcast General Meetings in the form of audio or video transmissions and does not make them available on its website.

2. Recommendations and rules set out in Section IV of the Code of Best Practice:

IV.R.2. If justified by the shareholding structure or expectations of the shareholders notified to the company, and if the company is in a position to provide the technical infrastructure necessary for a general meeting to proceed efficiently using electronic communication means, the company should enable its shareholders to participate in a general meeting using such means, in particular through:

- 1) real-time broadcast of the general meeting,
- 2) real-time bilateral communication where shareholders may take the floor during a general meeting from a location other than the venue of the general meeting;
- 3) exercise the right to vote during a general meeting either in person or through a proxy.

Explanation:

Due to the Company's shareholding structure and the lack of the required technical infrastructure, the Company does not broadcast the general meetings and does not enable the real-time bilateral communication using electronic communication means.

IV.Z.2. If justified by the shareholding structure, a company should ensure publicly available real-time broadcasts of general meetings.

Explanation:

Due to its shareholding structure, the Company does not broadcast General Meetings in real time.

3. Recommendations and rules set out in Section VI of the Code of Best Practice:

VI.R.1. The remuneration of members of the company's governing bodies and key managers should follow the approved remuneration policy.

Explanation:

The Company will draft the document in question and present it for adoption at the next General Meeting.

VI.R.2. The remuneration policy should be closely tied to the company's strategy, its short- and long-term goals, long-term interests and results, taking into account solutions necessary to avoid discrimination on whatever grounds.

Explanation:

The Company does not apply to this rule, because it developed its own incentive scheme for the Company's Management Board members and it is in the course of preparing an incentive scheme for key managers.

VI.R.3. If the supervisory board has a remuneration committee, principle II.Z.7 applies to its operations.

Explanation:

The Company applies principle II.Z.7 to the operations of the remuneration committee, but only one member of the Company's remuneration committee which consists of three members is an independent member of the supervisory board, thus independent members do not form the majority of its members.

VI.Z.1. Incentive schemes should be constructed in a way necessary among others to tie the level of remuneration of members of the company's management board and key managers to the actual long-term financial standing of the company and long-term shareholder value creation as well as the company's stability.

Explanation:

The Company is in the process of preparing the Remuneration Policy that will provide mechanisms for linking components of the Management Board members' remuneration with the Company's financial standing. The Company will draft this document for adoption at the next General Meeting in 2020.

VI.Z.4. In this directors' report, the company should report on the remuneration policy including at least the following:

- 1) general information about the company's remuneration system;
- 2) information about the conditions and amounts of remuneration of each management board member broken down by fixed and variable remuneration components, including the key parameters of setting the variable remuneration components and the terms of payment of severance allowances and other amounts due on termination of employment, contract or other similar legal relationship, separately for the company and each member of its group;
- 3) information about non-financial remuneration components due to each management board member and key manager;
- 4) indication of significant changes, which were introduced in the remuneration policy in the last financial year, or information about their lack,
- 5) assessment of the implementation of the remuneration policy in terms of achievement of its goals, in particular long-term shareholder value creation and the company's stability.

Explanation:

The Company does not report on the remuneration policy in its directors' report, but preparations are being made so that in the future such a report forms part of the directors' report. The Company will draft the Remuneration Policy and present it for adoption at the next General Meeting of Shareholders in 2020, and the first report on this matter will be included in the Directors' Report on the activities in 2020.

6.3. Manner of operation and key powers of the General Meeting; description of shareholders' rights and the manner of their exercise

The Company's General Meeting (GM) operates on the basis of provisions of the Commercial Companies Code, the Company's Articles of Association and the Rules of Procedure for the General Meeting. The GM shall be convened by posting a relevant notice on the Company's website and in the manner prescribed for publication of current reports, in accordance with the provisions of the Act on Public Offering, Conditions Governing the Introduction of Financial Instruments to Organised Trading and Public Companies. Resolutions of the GM are passed by an absolute majority of the votes cast unless the Commercial Companies Code or the Articles of Association provide otherwise; however, resolutions on:

- 1) liquidation of the Company;
- 2) increasing the Company's share capital, cancellation of the Company's shares and reducing the Company's share capital;

- 3) issuing convertible bonds or other securities conferring the right to vote;
- 4) granting options conferring the right to acquire shares or other securities of the Company, and their terms;
- 5) waiving the Shareholders' pre-emptive rights to new shares;
- 6) selling the business or its organised part;
- 7) recalling or suspending the Management Board members or the Supervisory Board members;
- 8) merger, demerger and transformation of the Company;
- 9) conversion of shares back into certificated form;
- 10) amending the Articles of Association

must be adopted by a 2/3 (two thirds) majority of the votes cast, when required by law. Moreover, the Company's Articles of Association provide for a qualified majority of 80% of votes present at the General Meeting "in favour" of adopting a resolution on amending Articles 13.1, 13.7, 16.3 and 16.7 of the Articles of Association and on the cancellation of shares.

According to the Articles of Association, the General Meeting does not have to grant consent to the purchase, lease, disposal or any other form of transfer of ownership of real property, right of perpetual usufruct or interest in real property by the Company.

The General Meeting appoints the Company's Supervisory Board members, subject to the relevant provisions of the Company's Articles of Association. In addition to the aforementioned issues, the GM resolutions must be adopted in matters specified in the Commercial Companies Code, especially in the subject of examination and approval of the Directors' report on the activities of the Company and on the activities of the capital group and the financial statements of the Company and of the capital group for the previous financial year, discharge of members of the Company's corporate bodies on the performance of their duties, profit distribution and loss coverage, sale or lease the business or its organised part and establishment of a limited right in rem, issue of senior bonds, establishment and liquidation of reserve capital; in case of the Company's liquidation, the GM appoints liquidators and specifies the procedure. The Management Board submits drafts of the GM resolutions to the Supervisory Board for its prior opinion. Shareholders may participate in the GM and exercise voting rights in person or by proxy. The Company's Management Board members and Supervisory Board members participate in the GM. If the GM has any financial issues in its agenda, a statutory auditor should be present. Media representatives may participate in the GM, unless the subject matter of the meeting indicates that their presence might cause damage to the Company. The application for the presence of media representatives is submitted for voting by the Chairman of the GM immediately after the attendance list is signed.

The rights of Company's shareholders, including shareholders holding non-controlling interests, are exercised to the extent and in the manner compliant with provisions of the Commercial Companies Code.

6.4. Rules governing appointment and removal of the management and supervisory staff, composition and operating principles of the Company's management and supervisory bodies and their committees

6.4.1. Management Board

As at the date of issue of this statement, the composition of the Company's Management Board was as follows:

- Marcin Lewandowski - President of the Management Board;
- Paweł Nogalski - Vice-President of the Management Board;
- Arkadiusz Arciszewski - Vice-President of the Management Board;

- Aldas Rusevičius - Vice-President of the Management Board;
- Robert Sobków - Member of the Management Board;
- Adam Stolarz - Member of the Management Board.

On 27 September 2019, Mr Marek Kacprzak and Mr Maciej Sobczyk tendered their resignations as a Management Board Members, with effect as of 30 September 2019.

On October 10, 2019 the Company' Supervisory Board adopted a resolution naming Mr. Arkadiusz Arciszewski as Vice-President of the Management Board with effect from October 10, 2019.

On December 4, 2019 the Company's shareholder, Agencja Rozwoju Przemysłu S.A., declared in writing that Mr. Adam Stolarz and Mr. Robert Sobków were named as members of the Management Board.

After the balance sheet date, there were no changes in the composition of the Company's Management Board.

Rules governing the appointment and removal of the Company's management personnel and such personnel's powers, particularly the power to make decisions to issue or buy back shares:

The Company's Management Board operates in accordance with the Commercial Companies Code, the Company's Articles of Association and the Rules of Procedure for the Management Board. Pursuant to the Company's Articles of Association, the Management Board consists of no more than 10 members, appointed and dismissed as follows, subject to Articles 18.6 and 18.7 below: (i) up to eight members of the Management Board are appointed and dismissed by the Supervisory Board; (ii) one member of the Management Board responsible for internal audit is appointed and dismissed by Agencja Rozwoju Przemysłu S.A. by way of a written representation submitted to the Company; (iii) one member of the Management Board responsible for key customers is appointed and dismissed by Agencja Rozwoju Przemysłu S.A. by way of a written representation submitted to the Company. In the event that due to: (i) amendments to Articles 13.1 and 13.4 of the Articles of Association, (ii) amendments to the relevant provisions of law, (iii) appointment of the Supervisory Board in keeping with Article 385 § 5 and (or) 6 of the Commercial Companies Code, the key shareholder (COMSA) is not able to appoint such a number of the Supervisory Board members as would form the majority of its members, COMSA shall have the right to appoint and recall the Management Board members in the number corresponding to 50% of all the Management Board members (rounded down to the nearest integral number) plus one Management Board member. If the number of Supervisory Board members appointed by COMSA ceases to form the majority of the Supervisory Board members, a resolution recalling or suspending a member or members of the Management Board appointed by COMSA is adopted by the General Meeting by a 2/3 of the votes cast.

Members of the Management Board are appointed for a joint three-year term of office. In accordance with the Articles of Association, the Management Board manages the Company's business and represents the Company before third parties. The Supervisory Board (in cooperation with the Supervisory Board's Remuneration Committee) sets and changes remunerations and determines other terms and conditions of employment for the Management Board members. In accordance with the Articles of Association, the Management Board manages the Company's business and represents the Company before third parties. All matters not reserved for the General Meeting or the Supervisory Board fall within the scope of powers and responsibilities of the Management Board. Management Board resolutions are passed with an absolute majority of votes cast by Management Board members present at the meeting or participating in the vote. In the case of a voting tie, the President of the Management Board has the casting vote. Declarations of will on behalf of the Company may be made and documents may be signed for the Company by two Management Board members acting jointly or one Management Board member acting jointly with a commercial proxy. A proxy is authorised, pursuant to a resolution adopted by the Management Board, to take certain actions on behalf of the Company (to the extent permitted by the authorisation granted). The rules for making decisions on issuing or redeeming shares (increasing or decreasing the share capital) are reserved for the General Meeting which adopts resolutions on

these matters by a majority of 2/3 of votes cast (the Articles of Association do not authorise the Management Board to make decision on issuing or redeeming shares).

6.4.2. Commercial proxies

During the last financial year, the power of commercial proxy granted to Mr Radosław Zając was revoked. Moreover, Mr Adam Stolarz and Mr Robert Sobków were granted the power of commercial proxy which was subsequently revoked.

As at the date of issue of this report, the Company has one Commercial proxy, Ms Elżbieta Okuła. The said commercial proxy may make representations on behalf of the Company jointly with one Management Board member or other Commercial proxy.

Commercial proxies operate in accordance with the Civil Code, Commercial Companies Code, the Company's Articles of Association and internal Rules of Procedure of the Company.

6.4.3. Supervisory Board

As at the date of issue of this statement, the composition of the Company's Supervisory Board was as follows:

- Dominik Radziwiłł - Chairman of the Supervisory Board;
- Jorge Miarnau Montserrat - Deputy Chairman of the Supervisory Board;
- Michał Hulbój - Deputy Chairman of the Supervisory Board
(Independent Member);
- Klaudia Budzisz - Member of the Supervisory Board;
- Krzysztof Tenerowicz - Member of the Supervisory Board (Independent Member);
- Miquel Llevat Vallespinosa - Member of the Supervisory Board;
- Fernando Perea Samarra - Member of the Supervisory Board;

On December 4, 2019 the Company was notified of resignation by Mr. Wojciech Napiórkowski from the position on the Company's Supervisory Board as at December 4, 2019 and the shareholder, Spółka Agencja Rozwoju Przemysłu S.A., declared in writing that Ms. Klaudia Budzisz was named as a member of the Company's Supervisory Board.

On December 20, 2019 the Company was notified of resignation by Mr. Łukasz Rozdeicz-Kryszkowski from the position on the Company's Supervisory Board as at December 20, 2019 and the shareholder, Spółka Agencja Rozwoju Przemysłu S.A., declared in writing that Mr. Krzysztof Tenerowicz was named as a member of the Company's Supervisory Board.

After the balance sheet date there have been no changes to the composition of the Supervisory Board.

The Company's Supervisory Board operates in accordance with the Commercial Companies Code, the Company's Articles of Association and the Rules of Procedure for the Supervisory Board. At present, the Supervisory Board is composed of 7 members. The Supervisory Board is currently composed of the Chairman, two Deputy Chairmen and the remaining members. Supervisory Board members are appointed for a joint term of three years.

Members of the Supervisory Board are appointed and dismissed from office by the General Meeting, with the proviso that:

- shareholder (COMSA S.A.) is authorised to appoint and recall four Supervisory Board members by way of submitting a written statement in that respect to the Company;

- akcjonariusz Agencja Rozwoju Przemysłu S.A. jest uprawniony do powoływania i odwoływania dwóch członków Rady Nadzorczej przez pisemne oświadczenia złożone Spółce.

Where the number of the Supervisory Board members is higher or lower than seven due to changes in Article 13.1 of the Articles of Association or relevant provisions of law, COMSA shall have the right to appoint and recall the Supervisory Board members in the number corresponding to 50% of all the Supervisory Board members (rounded down to the nearest integral number) plus one Supervisory Board member. The right held by COMSA referred to in the previous sentence expires on 1 January 2022, subject to the circumstances indicated in Article 29(4) of the Articles of Association.

At least one member of the Supervisory Board, including at least one member appointed by the General Meeting, shall meet the following independence criteria:

- 1) not be a member of the Management Board of the Company or any entity related thereto and not to hold such a position in the last five years;
- 2) not be an employee of the Company or any entity related thereto and not to hold such a position in the last three years;
- 3) not to receive, now or in the future, any significant additional remuneration from the Company or any entity related thereto, except for remuneration received as the Supervisory Board member;
- 4) not to represent, in any way whatsoever, the majority shareholder or any other shareholder holding at least 5% of votes at the General Meeting;
- 5) not to have, currently or during the past year, any significant business relationship with the Company or any entity related thereto, both directly or as a partner, shareholder, director or a key employee of the entity that has such a relationship;
- 6) not to be, currently or during the last three years a partner or employee of the current or former external auditor of the Company or any entity related thereto;
- 7) not to be a managing director or an executive director in any other company in which the Company's Management Board member is a non-executive director or a supervisory director, and not to have any other significant relationship with the Company's Management Board members through the performance of duties in other companies or entities;
- 8) not to be a member of the Supervisory Board for longer than three terms of office;
- 9) not to be a family member of an executive director or a managing director or any of the parties referred to in items 1) to 8).

The Supervisory Board whose members do not include independent members of the Supervisory Board referred to in Article 13.5 of the Articles of Association, is capable to adopt valid resolutions.

If COMSA S.A. of Agencja Rozwoju Przemysłu S.A. fail to appoint a member (members) of the Supervisory Board within 21 days from the expiry of the term of office of a member (members) of the Supervisory Board appointed by, respectively, COMSA S.A. or Agencja Rozwoju Przemysłu S.A., such a member (members) should be appointed and recalled by the General Meeting until COMSA or Agencja Rozwoju Przemysłu S.A. exercise their right to do so. Once COMSA S.A. has exercised its right to appoint a member of the Supervisory Board, the term of office of the member (members) of the Supervisory Board appointed by the General Meeting in keeping with these provisions automatically expires which has no effect on the term of office of the Supervisory Board.

The Supervisory Board which due to the expiry of the term of office of a member (members) of the Supervisory Board (for reasons other than their having been recalled) consists of less the seven but at least five members of the Supervisory Board has capacity of adopting valid resolutions until the missing members of the Management Board have been appointed.

If the Supervisory Board is appointed in a manner referred to in Article 385 § 5 or 6 of the Commercial Companies Code, the Chairman is elected by COMSA S.A. among the candidates appointed in accordance with the provisions of Article 385 § 5 or 6 of the Commercial Companies Code.

Members of the Supervisory Board are appointed for a joint term of office. The Supervisory Board or its individual members appointed by the General Meeting may be recalled by a resolution adopted by the General Meeting before the expiry of the Supervisory Board's term of office. If a Supervisory Board member is removed from office during his term of office and another person is appointed to replace him, the term of office of the newly appointed member ends upon expiry of the term of office of the entire Supervisory Board. The same also applies when the entire Supervisory Board is recalled during its term of office and new Supervisory Board is appointed and also when new members are additionally appointed to the Supervisory Board during its term of office. The Chairman and Vice Chairman of the Supervisory Board are appointed by the Supervisory Board from amongst its members.

Supervisory Board is chaired by the Chairman of the Supervisory Board or, in the event of his absence, by the Deputy Chairman of the Supervisory Board. Supervisory Board Members may be re-appointed for subsequent terms of office. The Supervisory Board members act in a personal capacity. The Supervisory Board may adopt its resolutions by casting a vote in writing or using means of remote communication, without holding a meeting. The Supervisory Board's meetings are convened at least four times a year by its Chairman, who also chairs the meetings. In the absence of the Chairman, meetings are chaired by one of the Deputy Chairmen. The Chairman convenes the Supervisory Board's meetings also at a written request of the Company's Management Board or any of the Supervisory Board members. The Chairman appoints the Secretary of the Supervisory Board. A Supervisory Board's resolution may be adopted at a meeting, provided that all the Supervisory Board members have been invited in writing to the meeting (such invitations should be delivered to the Supervisory Board members at least seven days before the meeting) and that at least half of them are present at the meeting, including the Chairman and at least one of the Deputy Chairmen. The Supervisory Board's meeting may be valid also without being officially convened, if all the Supervisory Board members are present at the meeting and none of them objects to the holding of such a meeting or any issue included in the agenda. The Supervisory Board may adopt resolutions by written ballot or with the use of means of remote communication, subject to Article 388.4 of the Commercial Companies Code. In such an event, a draft of the resolution should be presented to all members of the Supervisory Board by its Chairman, and in his or her absence by one of the Deputy Chairmen.

The powers and responsibilities of the Supervisory Board include ongoing supervision of the Company's operations. The Supervisory Board's resolutions are required in matters reserved for the Supervisory Board in the Commercial Companies Code and in Article 16 and Article 16A of the Company's Articles of Association. The Supervisory Board appoints a statutory auditor of the Company. The Supervisory Board's resolutions are passed with a simple majority of votes cast. In the event of a voting tie, the Chairperson has the casting vote.

On 25 July 2013, the Company's Supervisory Board appointed from among its members the Audit Committee. In 2019, the committee held four meetings, and was composed of Wojciech Napiórkowski, Fernando Perea Samarra and Łukasz Rozdeicz-Kryszkowski. At present, the committee has the following members:

- Mr Krzysztof Tenerowicz (Chairman of the Audit Committee and independent member of the Supervisory Board) – has knowledge and skills in accounting or auditing financial statements due to having obtained a PhD in finance from the Cracow University of Economics. As part of his professional work, he served, among others, as Member of the Management Board for Financial Affairs and Director General at Radio Kraków S. A., where he supervised the accounting department.
- Mr Michał Hulbój (Member of the Audit Committee and independent member of the Supervisory Board) – has knowledge and skills in accounting or auditing financial statements – obtained a positive result of two exams in the CFA program (the CFA program includes the knowledge necessary to make investment decisions, but also knowledge and skills in the field of International Accounting Standards (IFRS)). He gained his skills and professional experience in the field of, among others, accounting and financial statements as a participant of a

managerial training at Bank Millennium, and subsequently as a stock market at Millennium Dom Maklerski, PTE PZU and AIG PTE. In the course of his professional work he held functions in the area of accounting, analysis of financial statements. In the 2008-2010, he worked as a portfolio manager at PTE PZU. At the end of 2010, he was appointed director of the Stock Products Management Team in Skarbiec TFI. In 2012, he served as Director of the Analysis Department at Erste Securities Polska.

- Mr Fernando Perea Samarra (Member of the Audit Committee) – he has knowledge and skills in the industry in which the Company operates, as for over a dozen years he has served as a manager of companies in the railway construction and construction industry: design and planning of works and construction and maintenance of railway infrastructure. In 2009-2011 was a Partner at Adigo – M&A Advisors, S.L. (Barcelona, Spain). Since 2011, he has been the CFO of Comsa Corporación (the major railway and infrastructure companies in Spain). From October 2003 to March 2007 he served on the Management Boards of Emte S.A., Tribugest, S.A., Agbar USA, PLC and Lydec Casablanca. Mr Perea Samarra represents COMSA as Chief Executive Officer in the following companies: Iconus, S.L. (since July 2011); Concesionaria Barcelonesa, S.L. (since February 2012) and Corporación Cld Servicios Urbanos De Tratamiento De Residuos, S.L. (since February 2012). In addition, Fernando Perea Samarra is a member of Management Boards of the following companies: Comsa Emte Polska sp. z o.o. (since 2012), Comsa Emte S.A. de C.V., México (since 2013) and Comsa Emte Mex (since 2012). In addition, he has knowledge and skills in accounting or auditing as he holds a degree in economics (University of Barcelona) and is a certified public accountant (Spanish Official Registry of Auditors).

Remuneration Committee

The Supervisory Board also appointed from among its member the Remuneration Committee as an advisory body for determining the amounts and principles of remuneration for the Company's Management Board members. Currently, The Remuneration Committee members are as follows: Miquel Llevat Vallespinosa (Chairman), Klaudia Budzisz (member) oraz Pan Krzysztof Tenerowicz (member).

Detailed rules governing the operation of the Supervisory Board are defined in the Rules of Procedure for the Supervisory Board, adopted by the General Meeting.

6.5. Description of key features of internal control and risk management systems used in the process of preparation of financial statements

The Issuer prepares its financial statements in accordance with the applicable regulations, and in particular with the International Accounting Standards, International Financial Reporting Standards and any interpretations related thereto and published in the form of regulations by the European Commission, hereinafter referred to as the "IASs", referred to in Article 2(3) of the Accounting Act of 29 September 1994 (as amended). Any issues not regulated in the IASs are governed by the provisions of the Accounting Act and the executive regulations issued on its basis.

In practice, the financial statements and reports are prepared by the qualified employees of the financial division under the supervision of the Vice-President of the Management Board – Chief Financial Officer.

Since 2015, Trakcja PRKiI has kept its accounting records using Microsoft Dynamics AX. The structure of the system ensures a transparent allocation of competences, consistent records of operations in the ledgers and cross-validation between individual modules.

Consolidated financial statements are drafted on the basis of uniform consolidation packages prepared electronically by individual Group companies. Data is consolidated by the Stock Exchange Reporting Department under the supervision of the Vice-President of the Management Board – Chief Financial Officer.

The Supervisory Board examines the separate and consolidated financial statements and appoints the Audit Committee as an advisory and consultancy body acting within the structure of the Supervisory Board. The key objective of the Audit Committee is to support the Supervisory Board in exercising financial supervision and to provide the Supervisory Board with reliable information and opinions allowing for the appropriate decisions on

financial reporting, internal control and risk management to be made efficiently, and also to ensure that the entity authorised to audit financial statements is independent and objective.

In accordance with the applicable regulations, Trakcja PRKiI has its annual financial statements audited and its semi-yearly financial statements reviewed by an independent statutory auditor. A statutory auditor is appointed by the Company's Supervisory Board from among reputable audit firms, based on the Audit Committee's recommendations. The statutory auditor assesses independently the reliability and accuracy of separate and consolidated financial statements and verifies whether the internal control and risk management systems are effective.

6.6. Shareholders holding, directly or indirectly, major holdings of shares

Zgodnie z wiedzą Zarządu Emitenta, na podstawie otrzymanych zawiadomień w trybie art. 69 ustawy o ofercie publicznej i warunkach wprowadzania instrumentów finansowych do zorganizowanego systemu obrotu oraz o spółkach publicznych, stan Akcjonariuszy posiadających bezpośrednio, bądź przez podmioty zależne, co najmniej 5% ogólnej liczby głosów na Walnym Zgromadzeniu Jednostki dominującej na dzień przekazania ostatniego raportu okresowego, tj. na 28.11.2019 r. wynosił:

Shareholders	Number of shares	% in share capital	Number of votes	% in votes at GSM
COMSA S.A.	16 156 193	31,43%	16 156 193	31,43%
OFE PZU "Złota Jesień"*	5 732 694	11,15%	5 732 694	11,15%

*represented by the Powszechne Towarzystwo Emerytalne PZU S.A.

Since the date of submission of the last interim report, i.e. 28 November 2019, to the date of publication of this report, the Parent Company received the following notifications under Article 69 of the Act on Public Offering:

On 6 November 2019, the Parent Company received a notification from Powszechne Towarzystwo Emerytalne PZU S.A. acting on behalf of Otwarty Fundusz Emerytalny PZU "Złota Jesień" ("OFE PZU"), on a decrease in the shareholding below 10% of the total vote at the Parent Company, as announced by the Parent Company in current report No 67/2019. OFE PZU acquired 2,600,000 rights to series B shares which were introduced to trading on the stock exchange on 6 November 2019. On 13 November 2019, the Parent Company received a correction to the aforesaid notification, disclosing an excess of the threshold of 15% of the total vote in the Parent Company, as announced in current report No 70/2019.

On 7 November 2019, the Parent Company received a notification from Agencja Rozwoju Przemysłu S.A. ("ARP") on acquiring 3,589,080 rights to series B shares that were introduced to trading on the exchange market on 6 November 2019, which had an economic effect similar to exceeding the threshold of 5% of the total vote in the Parent Company, as announced by the Parent Company in current report No 68/2019.

On 4 December 2019, the Parent Company received a notification from Powszechne Towarzystwo Emerytalne PZU S.A. acting on behalf of Otwarty Fundusz Emerytalny PZU "Złota Jesień" ("OFE PZU"), in connection with the registration of the increase of the Parent Company's share capital, on a decrease in OFE PZU's shareholding below 10% of the total vote at the Parent Company, as announced by the Parent Company in current report No 74/2019.

On 4 December 2019, the Parent Company received a notification from Agencja Rozwoju Przemysłu S.A. ("ARP"), in connection with the registration of the increase of the Parent Company's share capital, on an increase in ARP's shareholding above the threshold of 15% of the total vote at the Parent Company, as announced by the Parent Company in current report No 76/2019.

On 4 December 2019, the Parent Company received a notification from COMSA S.A.U. ("COMSA"), in connection with the registration of the increase of the Parent Company's share capital, on an increase in COMSA's shareholding above the threshold of 32% of the total vote at the Parent Company, as announced by the Parent Company in current report No 78/2019.

Therefore, to the best knowledge of the Parent Company's Management Board and in accordance with the aforesaid notifications, shareholders that hold – directly or through subsidiaries – at least 5% of the total number of votes at the Company's General Meeting ("GM") as at the date of submission hereof were as follows:

Shareholders	Number of shares	% in share capital	Number of votes	% in votes at GSM
COMSA S.A.	28 399 145	32,85%	28 399 145	32,85%
Agencja Rozwoju Przemysłu	16 117 647	18,64%	16 117 647	18,64%
OFE PZU "Złota Jesień"*	8 332 694	9,64%	8 332 694	9,64%

*represented by the Powszechnie Towarzystwo Emerytalne PZU S.A.

6.7. Holders of any securities conferring special control powers, and description of those powers

Apart from the rights arising from the Company's Articles of Association, there are no securities conferring special control rights.

6.8. Restrictions on voting rights

Apart from the limitations following from the Company's articles of association and commonly applicable laws, there are no limitations on the exercise of voting rights attached to the Company shares.

6.9. Restrictions on the transferability of Trakcja PRKil's securities

Pursuant to the share lock-up agreement signed on 8 October 2019 between COMSA S.A.U. (the "Shareholder"), mBank S.A. ("mBank") and Santander Bank Polska S.A. Santander Bank Polska S.A. – Santander Dom Maklerski (the "Brokerage House") (the "Share Lock-up Agreement"):

1. The shareholder, without mBank's consent, may not: - sell any shares in the Company in the period ending on 27 December 2020; - hold shares representing less than 25% of the Company's share capital in the period beginning on 28 December 2020 and ending on 31 December 2021, unless this results from: a public tender offer; exercise by pledgees of their rights under pledges over the Company shares held by the Shareholder established or to be established under an agreement executed between the Shareholder and the financial institutions providing financing to the Shareholder of 28 December 2016, or further increase of the Company's share capital following the increase of the share capital approved by the Extraordinary General Meeting on 27 September 2019.
2. The Brokerage House locked up the existing shares in the Company held by the Shareholder and is required to lock up further shares in the Company after their issue and delivery to the Shareholder. The Share Lock-up Agreement was concluded for a definite period until 1 January 2022 or until the termination of the Common Terms and Conditions Agreement, as announced by the Issuer in current report No 51/2019 of 27 September 2019, whichever is the earlier.

Moreover, the Company's Management Board was notified by the Shareholder of the execution of the agreement concerning the pre-emptive right to acquire the Company's shares (the "Pre-emptive right") by the Shareholder with Agencja Rozwoju Przemysłu S.A. (the "Investor") on 10 October 2019. Under the Pre-emptive right, the Shareholder is obligated, if the Shareholder decides to sell at least 5% of the Company's share capital, including as a result of receiving an offer to purchase such a block of shares from another entity, to notify the Investor of such transaction allowing the Investor to purchase the shares in question on the terms indicated by the Shareholder (the pre-emptive right). Should the Investor not exercise the pre-emptive right, the Shareholder may dispose of the said block of shares on the same or better terms within the time limit specified in the Pre-emptive Right. The Pre-emptive right is valid until 31 December 2022 or until the date when the Investor or Shareholder ceases to hold, directly or indirectly, at least 5% of the Company shares.

Apart from the above, and apart from the limitations following from commonly applicable laws and the Company's articles of association, there are no restrictions on the transferability of the Company's securities.

6.10. Rules for amending the Articles of Association of Trakcja PRKiI

Any amendments to the Company's Articles of Association are made in accordance with the rules set forth in the commonly applicable provisions of law subject to the exceptions indicated in the Articles of Association. In accordance with the Articles of Association, resolutions of the General Meeting concerning amendments to Articles 13.1, 13.7, 16.3 and 16.7 of the Articles of Association (related to the composition of the Supervisory Board and the procedure for the adoption of certain resolutions) require at least 80% of the votes present at the General Meeting cast in favour of such a resolution to be valid. Resolutions of the General Meeting concerning cancellation of shares require at least 80% of votes present at the General Meeting cast in favour of such a resolution to be valid. The purchase, lease, disposal or any other form of transfer of ownership of real property, right of perpetual usufruct or interest in real property by the Company do not require consent of the General Meeting.

6.11. Policy for selection of an auditing firm to perform audits, and policy for the provision of non-audit services by the audit firm, its affiliates and members of its network

Pursuant to the requirements of the Act on Statutory Auditors, Audit Firms, and Public Oversight of 11 May 2017 (the "Act"), both policies have been adopted and implemented in the Company. When selecting the audit firm and applying the policy for the provision of non-audit services by the audit firm, its affiliates and members of its network, the Company follows in particular the provisions of the Act and Regulation (EU) No 537/2014 of the European Parliament and of the Council of 16 April 2014 on specific requirements regarding statutory audit of public-interest entities (the "Regulation"), the Company's Articles of Association, internal regulations of the Company and generally applicable laws.

The Management Board is responsible for the execution of the policy for selection of the audit firm, and the audit firm is selected by the Supervisory Board, guided by a recommendation provided by the Audit Committee which complied with the applicable requirements. The selection is made after completion of a procedure aimed at ensuring the selection of an independent and impartial audit firm and after analysis of the work performed by that firm at the Company and going beyond the audit of the financial statements in order to avoid conflicts of interest. The procedure aimed at ensuring the selection of an audit firm should be commenced and conducted within a period allowing the statutory auditor to participate in the stock-taking of the Company's assets.

In addition to the above principles (which are common to both policies), when choosing an audit firm to provide permitted non-audit services, it must be verified whether the additional service is included in the catalogue of prohibited services or whether or not the Act excludes a particular service from the catalogue of prohibited services. Moreover, the provisions of Articles 4 and 5 of the Regulation are taken into account when determining the remuneration for permitted non-audit services. The selection of an audit firm to provide permitted non-audit services is made by the Management Board acting upon the recommendation of the Audit Committee that expresses its consent to the provision of additional permitted non-audit services.

Therefore, the Company has assessed the independence of this audit firm and gave its consent to the provision of these services.

6.12. Description of the diversity policy applied to the Issuer's administrative, management and supervisory bodies

The Company has not adopted a separate document on diversity policy. Despite that, the Company endeavours to comply with the diversity principles, which is reflected in the share of women employed as white-collar employees and the share of women employed as managers. The Company follows the diversity principles any time it has an opportunity to do so. This is reflected in the composition of the Supervisory Board. The persons appointed satisfy the requirements of versatility and diversity, in particular, as far as their education, age and

professional experience are concerned. High qualifications and professional preparation to perform a given function are the key factors in determining whether a person may take up a particular position.

The Company seeks to apply the principles of diversity to the Company's governing bodies and key managers. However, due to the specific nature of the markets in which it operates, in particular due to the limited number of key managers that can be recruited from the market, these principles play a limited role.

6.13. Information on the sponsorship policy

As a responsible member of business community, the Trakcja Group actively supports cultural and social initiatives of local communities, both in Poland and in other countries in which it operates. The Group supports higher education, development of research projects carried out by research institutions, and activities aimed at promoting new technologies in the transport infrastructure construction industry. The Group is also committed to projects with considerable promotion and image potential for its brand.

Introduction

This statement (hereinafter referred to as the “Statement” or “Report”) has been prepared in accordance with Article 49b of the Accounting Act of 29 September 1994, as amended, which implements the guidelines of Directive 2014/95/EU of the European Parliament and of the Council of 22 October 2014 on disclosure of non-financial and diversity information. It includes non-financial information on Trakcja Group for the period from 1 January 2019 to 31 December 2019 and constitutes a separate part of the Directors’ Report on the operations of Trakcja Capital Group and Trakcja PRKil S.A. in 2019. This statement is the third non-financial report published by Trakcja Group (hereinafter referred to as the “Group”). The Group has identified key non-financial performance indicators based on the Sustainability Reporting Guidelines issued by the Global Reporting Initiative.

The data herein is collected, analysed and disclosed with due diligence. The contents hereof are defined based on the Parent’s Company CSR strategy adopted in 2016. The CSR strategy defines, on the basis of PN-ISO 26000, social responsibility which is understood as responsibility of an organisation for any impact exerted by its decisions and actions on society and the environment, through clear and ethical behaviour, which:

- ✓ contributes to sustainable development, including the health and welfare of society,
- ✓ takes into account the expectations of stakeholders,
- ✓ is compliant with the applicable provisions of law and consistent with international standards,
- ✓ is integrated with the operations of the organisation and applied in its relations.

In accordance with the Parent Company's CSR strategy, the following key non-financial areas have been identified:

1. management of natural resources,
2. operating practices,
3. labour practices,
4. customer relations,
5. social commitment and development of local community.

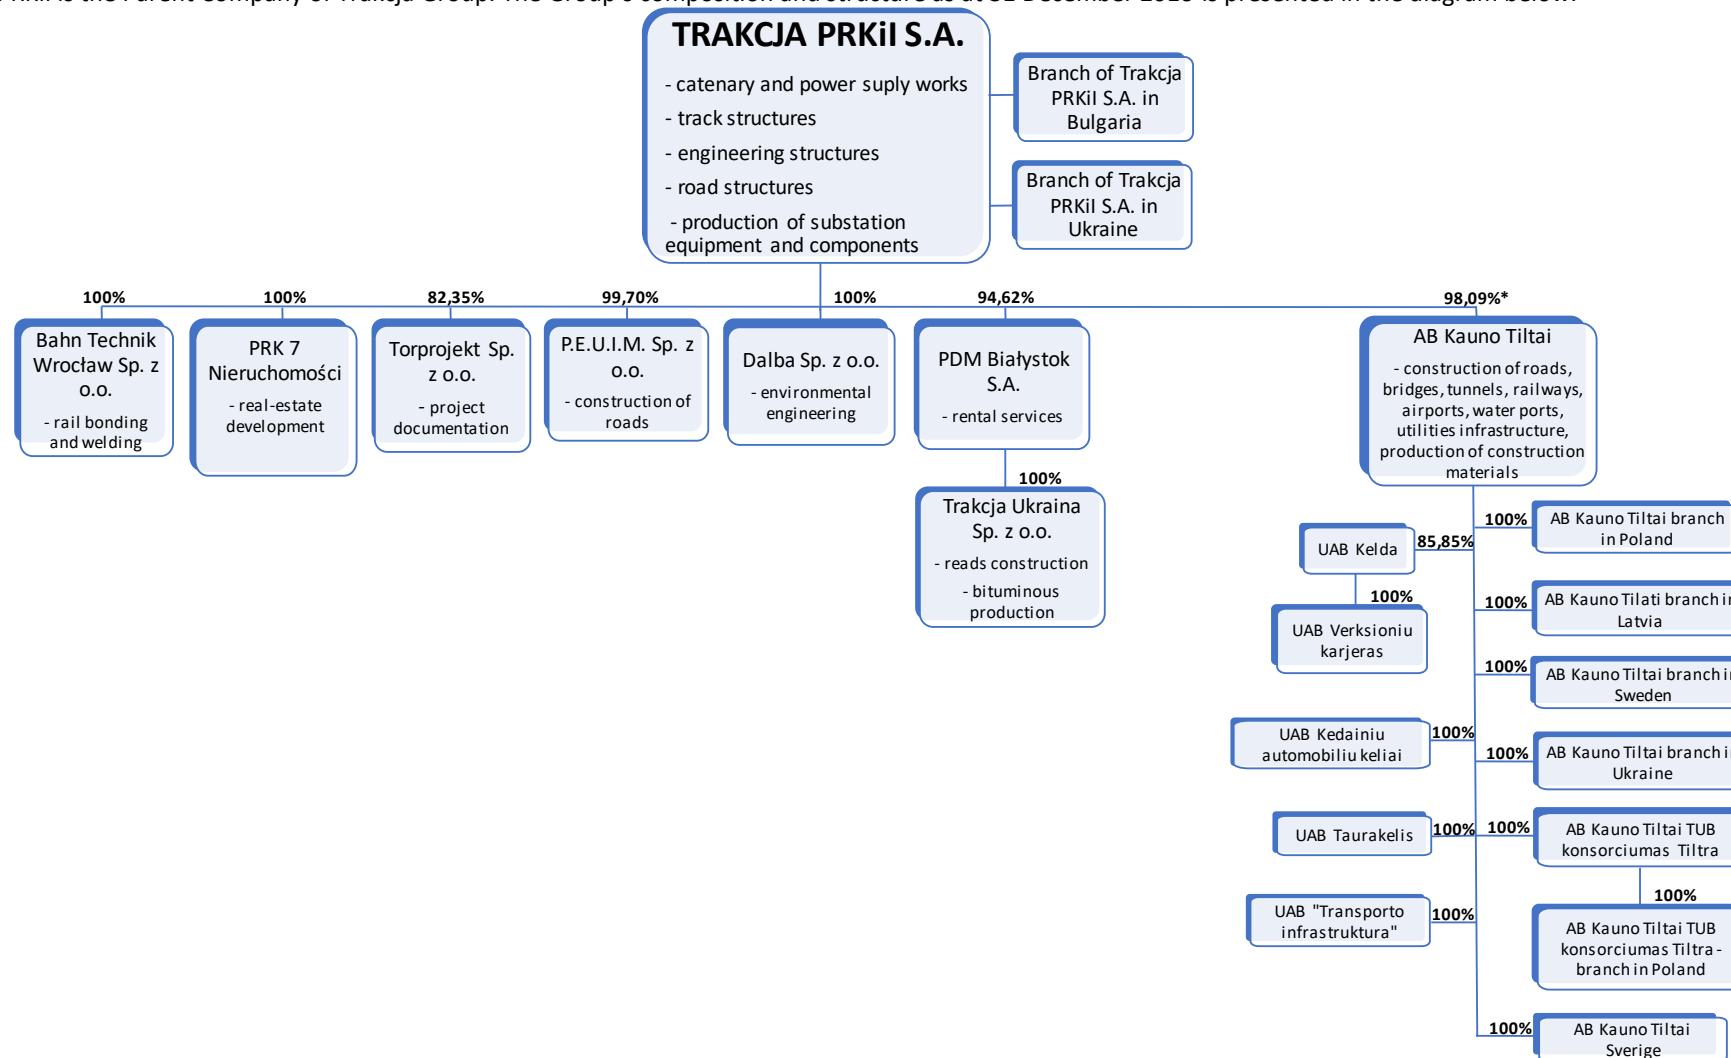

The CSR strategy was created by several key managers of the Parent Company, who are responsible, in particular, for strategy, stock exchange reporting, communication and human resources. It has been decided that essential aspects of the strategy should respond to the needs reported by stakeholders and create added value or universal benefits for a broad spectrum of beneficiaries both outside and within the organisation. Simultaneously, an attempt was made to ensure that all the issues which are significant for the Group be reported.

Trakcja Group (hereinafter referred to as the “Group” or “Trakcja Group”) is one of the leading entities on the Polish and Lithuanian rail, tram and road infrastructure construction market.

As at 31 December 2019, the headquarters of the Group’s Parent Company (Trakcja PRKil S.A.) were located in Warsaw at ul. Złota 59. On 24 February 2020, the headquarters were relocated to a new address: Aleje Jerozolimskie 100. The ultimate parent company in Trakcja Group is COMSA S.A., a Spanish company which prepares the consolidated financial statements that include, among many, the data of Trakcja Group.

Structure of the Group

Trakcja PRKil is the Parent Company of Trakcja Group. The Group's composition and structure as at 31 December 2019 is presented in the diagram below.

*) Trakcja PRKil holds a total of 98.09% (96.84% directly and 1.25% indirectly) of the share capital of AB Kauno Tiltai. The indirect shareholding results from the acquisition of own shares by the subsidiary.

I. Key stakeholders and relationships with them

Being aware of the fact that the Group's impact on the environment in which many significant groups of its stakeholders operate, is significant, the Group continuously endeavours to be in regular contact with all the groups and to communicate with them in an effective manner. The Group is open to all signals emanating from the environment, in particular, those aimed at identifying new stakeholders and finds it important to respond to them swiftly. The Group communicates with stakeholders on a cyclical and ongoing basis and reacts to any need reported in that respect. The appointed persons who know best the expectations of the groups of stakeholders are responsible for communicating with stakeholders.

Relationships between the Group and stakeholders are of a dynamic nature and varied intensity which depends, for example, on the events scheduled for a given year, market conditions or stages of contracts that are currently in progress. In order to maintain the best possible relations with its stakeholders, the Group focuses on dialogue and transparent communication.

Knowing social expectations, the Group is able to react to the needs of its environment faster and with more precision. The Group monitors its own perception on a current basis, which enables it to understand the expectations of its stakeholders and to swiftly take measures allowing it to differentiate itself from the competition.

By taking part in local projects, the Group remains sensitive to local needs and endeavours to satisfy them. This relates, in particular, to such measures as increasing the scope of works carried out or carrying out additional works in order to facilitate and improve the life standard of local communities, or supporting local initiatives.

A wide range of the Group's stakeholders includes:

- strategic shareholders,
- financial shareholders,
- capital market analysts,
- supervisory institutions and market regulators (for example, the WSE and the Polish Office of Rail Transportation),
- creditors and bondholders,
- key customers: PKP PLK, GDDKiA, PGE, Enea, Lithuanian Road Administration and the Vilnius City Office
- employees,
- consortium members,
- suppliers of goods and services,
- local authorities,
- other customers,
- public opinion,
- local communities,
- subcontractors.

II. Business model

GRI 102-2 GRI 102-4

The Group's activities focus on the comprehensive performance of works relating to a widely understood rail and road infrastructure with the use of modern machinery. The Group specialises in providing engineering and construction services in the following scope: design, construction and modernisation of rail and tram lines, rail and tram electrification system and power lines, as well as the construction of bridges, viaducts, piers, overpasses, tunnels, underpasses, retaining walls, roads and associated elements of rail and road infrastructure. In addition, Trakcja Group may perform general construction works, including the preparation of construction sites and the construction and modernisation of structures, as well as structural works and finishing works. The key part of the Group's activities consists in the construction of buildings both for rail infrastructure purposes (traction substation buildings, switch towers, railway crossing cabins, railway stations, train buildings and other) and for general purposes (residential and commercial). The services provided also include the development of power systems and remote control systems. For over seventy years, the Group members have been implementing complete power installations of medium and lately high voltage, both in new and in modernised and renovated rail power facilities.

The Group's goal is to continuously maintain a high level of services in the area of design, construction and manufacture of equipment. The Group wishes to achieve this goal by providing its customers with goods and services that meet their needs and comply with the applicable standards, and whose quality is high and price attractive.

All the Group's employees participate in this process, take full responsibility for the quality of their work and play an active part in boosting the Group's image in its customers' eyes.

It is especially important to the Group that:

- it renders services at the quality level agreed on with our customers,
- it ensures a quality level required for the construction and assembly works at all their stages, including the optimisation of individual construction processes through the detailed planning and selection of the option that is most beneficial, and also through diligence and the saving of time, materials and energy,
- it continuously and efficiently supervises the works carried out, to ensure not only that the standards are met, employees safe and the environment protected at our construction site, but also to keep the neighbourhood safe, minimise any adverse environmental impact and ensure that the facilities are free from failures and future users safe,
- it continuously increases the competences of our management through external and internal training, further education for employees and also effective use of the knowledge gained,
- it verifies and assesses providers of materials, services and subcontractors that begin cooperating with the Group in order to eliminate any risks associated with unreliability,
- it cooperates with subcontractors and suppliers which meet the Group's quality standards,
- it upgrades machinery in order to enhance the competitiveness of the Group's business,
- it prioritises proper communication with its customers and provides them with reliable information about all aspects of the works carried out, simultaneously ensuring that any information concerning the Group's cooperation with customers remains confidential.

Sales structure

In 2018 and 2019, the Group generated revenues primarily from rail and road contracts.

	2019		2018	
	value	share	value	share
Railway works	667 433	46,3%	647 463	41,5%
Road works	491 494	34,1%	712 200	45,6%
Bridge works	79 102	5,5%	32 961	2,1%
Cubature works	5 788	0,4%	4 508	0,3%
Tramway works	69 341	4,8%	19 728	1,3%
Energy works	65 168	4,5%	44 678	2,9%
Production	17 830	1,2%	50 262	3,2%
Other areas of activity	44 618	3,1%	48 848	3,1%
Total revenues from sales	1 440 774	100%	1 560 648	100%

Trakcja PRKil S.A.

The Company's core activities are the organisation and carrying out of construction and assembly works in the scope of comprehensive modernisation of railway and tramway lines, railway and tramway electrification system, power lines and industrial facilities, as well as the construction of bridges, viaducts, piers, overpasses, tunnels, underpasses, retaining walls, roads and associated elements of railway and road infrastructure and also the manufacture of contact line and power line equipment. The Company operates in Poland and also has a branch in Bulgaria and a branch in Ukraine.

A wide spectrum of construction and assembly works and also the manufacture of contact line and power line equipment required internal standards to be developed such as the quality, environmental protection and safety procedures and detailed manuals. These standards are based on the following international standards:

- **ISO 9001** – quality management,
- **ISO 14001** – environmental protection management,
- **OHSAS 18001** – safety management,

and they collectively form the **Integrated Management System** which is assessed and certified on a regular basis by an independent certification body of TÜV SÜD Management Service GmbH with its registered office in Poznań. Industrial manufacturing consists in the structure welding processes. Therefore, the Company is covered by the internal compliance assessment system which is required by law if any construction goods used in EU countries are manufactured. This system is certified by UDT CERT for compliance with **PN-EN ISO 3834-3:2007**.

The Company plays an important role in providing for adequate technical conditions for the rail traffic and modernisation and construction of rail lines in Poland. For nearly 10 years the Company has been one of the industry leaders, completing several dozen contracts a year. Approximately 20% of rail lines for Pendolino, including sections of such key routes as Warsaw-Gdynia, Warsaw-Katowice, Kraków-Rzeszów and Częstochowa-Wrocław were comprehensively modernised by Trakcja PRKil. Currently, the Company is in the process of modernising next rail line sections.

As far as the road industry is concerned, the operations of Trakcja PRKil expand over nearly 40% of the land territory of Poland, mainly in the regions of Kujawy, Pomorze, Wielkopolska, Małopolska and Podlasie, where it modernises approximately 100 km of local and provincial roads a year.

Energy-related contracts are currently performed in the central and southern part of Poland. Since 2001, the Company had been operating as an authorised rail transport operator that specialises in transporting goods. The Company has been awarded certificates that authorise it to use rail lines managed by PKP PLK S.A. As part of transport safety measures, the Company developed and implemented the SMS (Safety Management System).

The revision of the Company's business model, which has been in progress for almost two years and is currently coming to an end, is based on five pillars:

- Strengthening the Company's position on existing markets,
- Further diversification of activities by entering new areas of construction industry (tram infrastructure market since 2017),
- Enhancing production capacity through the acquisition of specialist highly efficient equipment,
- Restructuring employment through the expansion of engineering and managerial potential for the purpose of being able to implement more contracts,
- Developing innovations focused on manufacturing new products.

These measures arise from the needs of stakeholders, the essence of which is the implementation of the national rail and road investment projects in combination with the absorption of EU funds.

Grupa AB Kauno Tiltai

AB Kauno tiltai Group constructs transport infrastructure. It has been operating for almost 70 years and specialises in constructing roads, rail lines, bridges, viaducts, airports, tunnels, energy and energy networks and civil engineering objects. The Group also renders services of equipment rental and sales asphalt.

Every year AB Kauno tiltai implements approximately 300 investment projects of different scale and difficulty, from simple and quick reconstruction works to the largest transport infrastructure construction works both in Lithuania and abroad. The company ensures the quality of its works thanks to the certified laboratory which forms its integral part and whose findings are accepted all around the EU.

The group employs over 800 people, including 200 qualified transport infrastructure engineers. AB Kauno tiltai has branches in Latvia, Sweden, Ukraine and Poland.

AB Kauno tiltai has been awarded certificates for its management systems, which are compatible with international standards in the area of quality (ISO 9001), occupational health and safety (ISO 14001), and also environmental protection (ISO 18001) for over 15 years. The company has also been awarded the Bureau Veritas certificate.

AB Kauno Tiltai Group meets the highest standards when carrying out its activities and completing its projects, as well as selecting its subcontractors, partners, consultants and suppliers. In order to make sure that the structures built are of good quality and durability, much attention is paid to materials used when implementing projects. AB Kauno Tiltai Group consistently endeavours to provide its employees with healthy, safe and satisfactory working environment, and in particular, with tools, regular qualification improvement seminars, foreign language courses and engineering courses.

AB "Kauno tiltai" operates more than 500 construction machines and devices, equipped with state-of-the-art 3D systems. Investments in state-of-the-art technological solutions increase the competitive advantage in terms of quality, time and efficiency.

Its key customers are state institutions, namely the Lithuanian Road Administration and AB Lietuvos geležinkeliai (Lithuanian Railways) and major Lithuanian municipalities (including Vilnius and Kaunas).

PEUiM Sp. z o.o.

Przedsiębiorstwo Eksploatacji Ulic i Mostów Sp. z o.o. PEUiM Sp. z o.o. with its registered office in Białystok operates in the road construction sector and its business activities are concentrated in the north-east of Poland. PEUiM specialises in the construction of roads and pavements and in the installation of signalling and safety devices to secure roads. The company also manufactures bituminous mass.

From the beginning of its operations PEUiM Sp. z o.o. constructs and maintains roads. The company employs highly qualified workers, has modern equipment and its own road laboratory. Thanks to this it guarantees timely completion and high quality of works and manages the construction works in a very efficient manner.

Dalba Sp. z o.o.

Dalba Sp. z o.o. is a company with its registered office in Białystok, whose activities consist in the performance of engineering works, mainly, during the construction of sanitary infrastructure, roads and streets.

PDM Białystok S.A.

PDM Białystok S.A. is a company with its registered office in Białystok. It provides property rental services to external and Group companies (mainly to PEUiM).

BTW Sp. z o.o.

Key activities of the Company are as follows:

- Specialist thermite welding of various types of rail, tram and other tracks;
- Regeneration of steel crossing surface;
- Regeneration of tram tracks and frogs;
- Provision of pre-stressed and glued insulation joints;
- Rail track tamping;
- Track welding.

PRK 7 Nieruchomości Sp. z o.o.

PRK 7 Nieruchomości Sp. z o.o. carries out real estate development activities and has a track record of several successful investment projects, which include, in particular, Lazurowe Osiedle residential project in Warsaw (stage I and II) and the project at ul. Oliwska in Warsaw, as well as the construction of five multi-family residential buildings in Warsaw at ul. Pełczyńskiego. For over a year, the company has been carrying out construction works – capacity construction works. The Company carries out the renovation of the library of the University of Warsaw. In 2019, she signed a new contract for the construction of a school in Ząbki.

Torprojekt Sp. z o.o.

The company specialises in providing design and consultancy services in the area of linear, building and general rail construction and in the related areas for institutional customers all over the world.

Cooperation with suppliers

GRI 102-9

Please find below described the policies adopted by the following Group members: Trakcja PRKiI S.A., AB Kauno Tiltai and PEUiM Sp. z o.o.

Parent company

Over the year the Company cooperates with many different suppliers and subcontractors. The following materials are purchased for the implementation of contracts:

1. Track materials (rails, sleepers, switch sleepers, turnouts, rail buffer stops, geotextile, crushed stone, key aggregate, mixture, unsorted mix and other aggregates)
2. Energy materials (cables, lines, wires, luminaries, electricity poles, transformer stations, remote control cabinets)
3. Contact line materials (equipment, insulators, contact wires, copper wires)
4. Steel, metallurgical materials (steel constructions)

5. Construction materials
6. road materials (bituminous masses, surface concretes, road barriers, steel, aggregates, substructure materials, noise barriers)

In addition, the Company purchases: drainage systems and materials, concrete and stone elements, platform panels and walls, cement and other binders, construction wood.

The Company applies the following supplier selection methods:

- Procurement platform:
 - ✓ Auctions
 - ✓ Requests for proposal
- Framework agreement

Auction invitations and requests for proposal are sent only to the companies included in the list of qualified PKP PLK suppliers.

Supplier selection criteria:

- Price
- Timeliness of deliveries
- Guarantee period
- Payment terms

Goods procurement forms:

- Order with a reference number, payment date, date and place of delivery and detailed list of the ordered goods.
- Supply agreement.

In 2016 the values and principles followed by the Company for the purpose of selecting suppliers and subcontractors were collected in the document entitled "Principles of Cooperation with Suppliers and Subcontractors by Trakcja PRkil". The document is available on the Company's website.

Safety requirements for subcontractors

The Company puts great emphasis on the occupational health and safety of subcontractors and service providers. All subcontractors and service providers receive training in the Company's internal OHS procedures and are obliged to comply with their provisions. They are also informed about any danger and rules for behaving at the construction site. Every employee of the Company's subcontractor or service provider, involved in modernisation or rail lines, must have a pass authorising them to perform work and access the premises of PKP PLK. The OHS requirements are detailed in the agreements made with subcontractors and service providers, which in addition to the requirements resulting from general OHS regulations include information about the consequences of a failure to comply with the provisions of the agreements and OHS regulations. The ongoing monitoring of compliance with the OHS regulations has resulted in good practices being developed among the subcontractors and service providers and in the perception of significance of the safety at work being changed.

AB Kauno Tiltai

In organising the procurement of the materials necessary for construction purposes, AB "Kauno tiltai" focuses on the following issues:

1. Quality
2. Time (receipt of materials according to schedule)
3. Price

Special attention is paid to materials that are essential for the long-term operation of the structure. The company cooperates with local and international suppliers, acquiring inert materials, asphalt, metal structures, etc. It cooperates extensively with Polish, Czech and German companies.

Supplier selection methods:

1. Market (current contacts) research
2. Participation in specialist trade fairs
3. Internet searches
4. Acquisition of suppliers on their own initiative

Ordering forms

1. Purchase orders including payment dates, delivery dates and locations and detailed lists of the elements ordered
2. Purchase agreement.

The Company cooperates on an ongoing basis with many different suppliers providing it with materials of the highest quality, necessary for the implementation of investment projects, such as:

- Gravel, sand and mixtures
- Raw metal and metal structures
- Bituminous masses
- Fuel
- Electrical devices and power supply elements
- Concrete structures
- Asphalt
- Gas
- Other

PEUiM Sp. z o.o.

Main groups of the construction materials purchased:

1. Materials subject to by the Factory Production Control procedure:

- Road asphalt and binders
- Glacial aggregates
- Aggregates from rocks
- Limestone flour

2. Other construction materials:

- Stone elements
- Concrete elements
- Materials for drainage and geosynthetics
- Cement and other binders.

In addition, the company purchases low-value inventory, OHS products and other materials necessary for the implementation of contracts.

Supplier selection and evaluation methods

Suppliers are selected using a percentage scoring. This enables to classify a supplier to a category of qualified suppliers or backup suppliers or to exclude a supplier from the classification.

III. Management

Risk management

Risk related to the construction sector

Construction is a higher-risk industry. This is explained mainly by two factors: unforeseeable long-term weather conditions and underground construction hazards (undocumented technical infrastructure facilities, water tanks, sites of archaeological interest, etc.).

Risks and risk management system at the Parent Company

The Parent Company has developed a risk management system that covers the whole company (macro risks) and follows a methodology which includes:

- definitions,
- risk management objectives,
- identification, description, measurement and assessment of risks,
- risk prioritisation,
- reactions to risk (control mechanisms),
- risk monitoring,
- reporting and improving review.

The management system is addressed to all the managers and key employees. In order to strengthen the commitment to the risk management system, the Company has introduced an attractive incentive system for selected groups of employees interrelated with their professional achievements.

Identification and assessment of macro risks

Having analysed several various sources of information, the Parent Company identified 28 significant macro risks (affecting the whole company) and divided them into strategic, financial and operational risks. The macro risks identified may include such risks as a significant decrease in the rail and road construction market size, a lack of capacities to implement the Group's strategy; insufficient capital expenditure on equipment necessary for the completion of construction contracts, non-optimum use of resources, a decrease in ability to acquire new construction contracts, and a failure to obtain administrative decisions necessary for the completion of construction contracts by the required deadlines. Each risk was assigned one person responsible ("risk owner").

Next, the macro risks were assessed according to a scale of joint criteria (probability and consequence), which resulted in an initial risk level being established. After that, each risk was assigned control mechanisms (i.e. repetitive ways of dealing with risks) used by the Company and their impact on the initial risk was analysed. This way, the residue risk was assessed, which was to a large extent independent of the Parent Company's activities.

The aforementioned information was summarised in the synthesis report entitled "Risk Profile" which was drawn up and implemented in the Parent Company and which presents all the aforementioned data comprised on a single sheet.

Another element of the macro risk management system is the Risk Matrix which includes individual risks. It provides a quick view of risks divided into critical, marginal and negligible ones.

S1–S9 – strategic risks
F1–F8 – financial risks
O1–O11 – operational risks

Ethics and prevention of corruption

GRI 103-1; GRI 103-2; GRI 103-3; GRI 102-16

Due to its nature, the construction industry is significantly more exposed to corruption and fraud than other branches of economic activities. The construction projects worth hundreds of millions Polish zlotys are implemented using many types of mass materials and many types of specialised machinery. They are sometimes several years long and involve the engagement of high-value assets. Supervision over such projects is a demanding task. Corruption means any improper use of power, and bribery consists in the offering, giving, receiving or soliciting anything that has value in order to achieve benefits. In this sense, bribes are not only money and objects, but also promises of benefits.

The success of every Organisation lies not only in the quality of its services and products, but also in the way it conducts its business and the standards applicable in it. In order to maintain and foster the relations established, to streamline internal regulations and to remain a modern and competitive company in the market, procedures have been developed and implemented in accordance with the principles of the Compliance policy. It comprises the sets of standards, issues, regulations and sets of recommendations elaborated for Trakcja Group, ensuring that the Group companies operate in accordance with the law and the adopted standards of conduct included in the TRAKCJA Group Code of Ethics, the Anti-Corruption Procedure, the Policy for Counteracting Unwanted Behaviour in the Working Environment and the Procedure for Cooperation with Law Enforcement and Control Authorities. These documents will help to minimise the risk of violation of applicable legal regulations or loss of long-established trust. They will indicate ways to effectively avoid the creation of a negative image of the company. The aforementioned procedures must be observed not only by employees of Trakcja Group, but also by business partners.

The Group has identified the following potential corruption risks:

- Risk that materials and services (employees and equipment) may be purchased from subcontractors at inflated prices
- Risk that liquid assets may be stolen
- Risk that assets may be undersold
- Risk that promises may be made which guarantee benefits to third parties as a result of the non-compliance with legal regulations

- Risk that bribes may be taken and given
- Risks that employees may be forced to carry out unlawful activities
- Risk of discriminatory treatment of employees
- Risk that confidential information may be stolen and sold to third parties
- Risk that transaction opportunities may be revealed to third parties.

Key Ethical Principles

The Group follows the following principles:

- “The boss sets a good example”
- “Education is better than punishment”
- “Prevention of fraud brings benefits”

This is a strong, clear and consistent message aimed at raising the awareness among employees of such pathological phenomena and establishing anti-corruption standards and applying them to the Group's operations. These principles are the final and fundamental point of reference for employees as far as ethical and non-ethical behaviour is concerned.

The Group's Code of Ethics

Based on common values, the Code of Ethics of Trakcja Group was adopted in 2016.

The Group's Code of Ethics focuses on the following values:

1. Responsibility – responsible proposals and declarations; reliable fulfilment of obligations towards customers.
2. People – respect for dignity and other personal goods of employees; opposition to discrimination based on any ground such as age, gender, ethnic origin, sexual orientation, belief, disability, professional experience or any other individual personal traits; freedom of association for trade unions and dialogue with them; monitoring of working conditions.
3. Relations – fair competition standards; zero tolerance for corruption, bribery and any other unethical behaviour; new contracts secured based on fair competition; cooperation with companies that care for occupational safety, comply with the provisions of law and respect the environment.
4. Dialogue – reaching terms of compromise in disputes.
5. Quality – works performed with due quality, professionalism and as quickly as possible; minimum burden for local communities.
6. Safety – workplace safety assurance.
7. Environment – respect for the environment; environmentally-friendly work performance technologies; selection of solutions with the lowest impact on the environment.
8. Competences – regular development of competences; expansion and renovation of machinery with modern and environmentally-friendly construction equipment.

Through their actions the Group's employees are obliged to observe the rule of work culture and behave in an ethical way. Relationships between employees are based on mutual trust, integrity, equality and tolerance. Therefore, the Group does not tolerate any actions that may be found offensive or humiliating, slandering, assailing, blackmailing, sexually molesting or intolerant.

In keeping with the Group's Code of Ethics, the Parent Company's employees are obliged to notify their supervisor of any irregularities or violations of the provisions of the Code of Ethics. In 2019 and 2018, such notifications were not received.

Anti-corruption procedure in Bahn Technik Wrocław Sp. z o.o.

Bahn Technik Wrocław Sp. z o.o. has adopted the anti-corruption procedure, which applies to any corruption and fraud involving employees, as well as shareholders, consultants, suppliers, contractors and any entities having a business with the Company. In the document issued the Company defined corruption procedures and other fraud. The Company's employees are obliged to immediately notify the Company of any events of fraud or corruption. The Company implements the anti-corruption policy through the training of and awareness-raising among its employees. The Company has also developed a process for explaining corruption and other fraud events.

Anti-corruption education and employee statement

Each newly employed person is trained in adapting in new workplaces, during which they become familiar with the key ethical principles and the examples of corruption behaviour.

In addition, during the employment relationship, employees may ask their direct supervisors or the manager of a department responsible for human resources to explain any ethical doubts they have or to advise them on how they should behave in certain situations.

The Parent Company also aims at providing all its employees, on a yearly basis, with a "Fraud" Survey, which contains approximately 30 questions regarding all the most important aspects of pathologies and crimes that may be committed in a company. The questions may cover, in particular, such issues as the following: implemented ethical standards, fraud identification, fraud prevention through education, business areas that are especially exposed to fraud, detected attempts of soliciting fraud, receipt of information on potential fraud, employee proposals on the implementation of additional mechanism preventing fraud. Any information collected from the surveys is intended for the update of the scope and contents of the adaptation training for new employees and may be used in communications addressed to all the employees.

When an employee leaves the employment, the Group attempts to have an exit interview with such an employee in order to find out about the real reasons why the employee is leaving the Company and about the mood among other employees and any potential corruption (or bribery) behaviour or other frauds detected. The Group guarantees that any information provided by such an employee shall be kept confidential.

Fraud Signalling Channel

The estimated losses of companies caused by corruption are measured in millions of Polish zlotys. The Group is to launch a safe and anonymous communication channel for employees who may want to report any potential crime.

The launch of such a channel will be preceded by an awareness-raising campaign that is aimed at explaining any potential adverse effects of corruption and at highlighting that the channel launched will be intended only for facts and verified information, and not for slander, libel or any information motivated by frustration or revenge.

Policy on ethics and counteracting irregularities

In 2018, the Parent Company worked on internal procedures in the area of ethics, counteracting irregularities, including corruption, and counteracting undesirable behaviours in the work environment. Their aim is to address the issue of ethical conduct with respect for the law and business standards – both within the organisation in relations between employees and in external relations with broadly understood business partners. In addition, the procedures will enable employees to report any irregularities at the Company (including anonymous reporting). The regulations will also introduce frameworks and procedures for offering and accepting gifts or entertainment as well as rules for hiring family members. In terms of counteracting irregularities in the work environment, the main objective will be to actively counteract undesirable types of behaviour in the work environment and to support the building of a positive atmosphere and good relations among Employees based

on mutual understanding and respect. Also in this respect, employees will be able to report undesirable behaviour.

In 2019, Trakcja PRKiI S.A. implemented compliance procedures and provided training on the above procedures for its employees. The Company's employees also had to submit personal representations that they had read the Anti-Corruption Procedure of the Trakcja Group and the Policy for Counteracting Unwanted Behaviour in the Working Environment of the Trakcja Group.

As part of the Policy for Counteracting Unwanted Behaviour in the Working Environment of Trakcja PRKiI S.A., the institution of a Person of Trust was established. The Person of Trust is the first point of support for employees who report unwanted behaviour. He/she is also responsible for monitoring and ongoing cooperation with the Company in assessing the needs, planning and execution of measures aimed at raising employee awareness and educating employees on how to recognise and respond to unwanted behaviour. As part of other procedures, the Company has implemented, for example, the rules for hiring family members or giving and accepting gifts by employees. The above principles have been introduced as part of the Company's compliance with such values as: responsibility, trust, relationships, integrity and transparency.

Fraud Scheme Analysis

The Group plans to appoint persons responsible for carrying out fraud scheme analyses (if such are detected) and for announcing the outcomes of such analyses to the indicated groups of employees. This is aimed at recognising mechanisms of behaviour of potential fraudsters and at taking appropriate corrective actions such as rotation of employees on job positions.

V. Environmental protection

GRI 103-1; GRI 103-2; GRI 103-3

Environmental policy

In the Parent Company, the environmental policy forms part of the Integrated Management System policy. It includes, among many, a commitment to take measures aimed at reducing emissions of pollutants to the air, a commitment to consume materials and raw materials in a reasonable manner, and a commitment to reduce the quantities of waste treated by authorised entities. Some subsidiaries have their own environmental protection policies.

The objective of the environmental protection policy introduced in Trakcja PRKiI S.A. is to regulate the following areas:

- responsibility for waste generated,
- rules for making entries in the Database on products and packaging, and on waste management (BDO),
- rules for separated waste collection,
- rules for delivering waste to third-party businesses and to individuals and administration entities that are not businesses,
- methods of handling selected types of waste,
- rules for record keeping and reporting.

AB Kauno Tiltai has adopted the following environmental protection policies:

- Emergency preparedness and response
- Environmental protection management policy.

Environmental objectives of the Parent Company and their achievement in 2019

Detailed objective	Task	Comments
Compliance of the Company's activities with the applicable provisions of law.	Preparing a report on fees for the economic use of the environment in 2019 by individual province.	completed within the statutory deadline
Compliance of the Company's activities with the applicable provisions of law.	Preparing records on waste generation in 2019.	completed within the statutory deadline
Compliance of the Company's activities with the applicable provisions of law.	Reporting to the National Centre for Emissions Management (KOBiZE).	completed within the statutory deadline
Compliance of the Company's activities with the applicable provisions of law.	Registration of the rooftop with the Central Register of Operators (related to F-Gases).	completed
Compliance of the Company's activities with the applicable provisions of law.	Launch of the process of obtaining a waste generation permit for the Bierńkowice location and notification of emissions.	in progress
Compliance of the Company's activities with the applicable provisions of law.	Notification of new places of business to the BDO system on an ongoing basis (to Marshal Offices).	on an ongoing basis
Obtaining a positive result of the supervision audit carried out by TUV SUD Sp. z o.o.	Preparation of a new facility – a repair hall in Wrocław.	completed
Compliance of the Company's activities with the applicable provisions of law.	Carrying out environmental measurements of work.	ongoing
Identifying and ongoing monitoring of changes in environmental legal requirements for business operations.	Updating the register of legal requirements pertaining to environment protection.	on an ongoing basis

A place in the ranking of the Wrocław City Office (the lowest)	Monitoring industrial wastewater and ensuring that the permitted limits are not exceeded.	ongoing
Compliance of the Company's activities with the applicable provisions of law.	Conducting tests of rainwater and snowmelt. Collecting results of environmental measurements. Carrying out construction work/ investment projects, in areas of significant natural value, with the participation of environmental or archaeological supervisors – compliance with guidelines of environmental decisions and other permits.	ongoing
Reduction in the SO ₂ emissions to the air by 0.5% as compared to the preceding year	Reduction of emissions from the combustion of fuels when heating buildings through the use of fuel oils with a lower sulphur content.	ongoing
Compliance of the Company's activities with the applicable provisions of law.	Ongoing monitoring of environmental and waste management laws. Notifying organisational unit managers of changes in environmental regulations. Using company's sharepoint: Document Base/Environmental protection	completed
Maintaining compliance with environmental aspects during relocation to a new facility in Wrocław.	Handing over unnecessary documents for disposal – hiring a specialist company.	completed
Prevention of technical failures.	Ensuring that the installation and the electrical and mechanical equipment is fully operational; ongoing oversight of the equipment operation.	ongoing
Prevention of soil contamination.	More frequent inspections of machinery and equipment, checking the tightness of fittings. Replacing car oils at service stations. Using sorbents at construction sites.	ongoing
Year-on-year reduction in electricity consumption.	Purchasing power tools and equipment with reduced electricity consumption. Using energy-saving light bulbs and fluorescent lamps.	ongoing
Dissemination of knowledge and raising environmental awareness of the Company's employees.	Launching regular articles in the company newsletter: - environmentally friendly practices in the office, - reducing the generation of plastic waste, - ideas on how to reduce water consumption on a daily basis, - municipal waste management, - how to reduce smog, - eco-friendly Christmas.	ongoing

Update of procedures and instructions of the Integrated Management System for environmental protection.	<ul style="list-style-type: none"> - identification of environmental aspects broken down by contracts, production at ul. Palisadowa, Management Board Office, Technical Depots in Bieńkowice, at ul. Golędzinowska and ul. Gniewkowska in Warsaw, together with risk assessment and methods for reducing the negative impact of the Company's operations on the environment, - instructions and standards concerning, for example, site management, storage of hazardous substances, proper waste storage, proper waste delivery, etc. - Environmental management during the implementation of construction projects, with particular emphasis on communication in the area of environmental reporting with the Occupational Safety, Environmental Protection and Quality Department. 	process launched in Q4
---	--	------------------------

Factory Production Control System

PEUiM Sp. z o.o., a subsidiary of the Parent Company, has implemented the Factory Production Control System. It is based on the requirements of PN-EN 13108-21 Bituminous mixtures — Material specifications — Part 21: Factory Production Control.

This system applies to the products and services of PEUiM Sp. z o.o. which fall into its activities consisting in the production of bituminous mixtures.

The Group's environmental impact control

The following are examples of the areas of activities which the Parent Company and, in some cases, its subsidiaries carry out in order to control its environmental impact:

Item	Monitored element	Method	Obligations	Frequency
1	Oil-fired boiler house emissions	The boiler house is serviced by a specialist company on a monthly basis (checking the exhaust gas level)	<ul style="list-style-type: none"> - notification of the unit, - a CO2 detector is fitted to ensure the safety of employees, - use of proper fuel, - fuel oil (certificate). 	<ul style="list-style-type: none"> - inspection of the boiler house on a monthly basis, - exhaust gas analysis twice a year
2	Gas-fired boiler house emissions	The boiler house is serviced by a specialist company.	<ul style="list-style-type: none"> - notification of the unit, - gas sourced from the municipal network, - sulphur content: up to 40 mg/m³. 	<ul style="list-style-type: none"> - once a year
3	F-Gas emissions Rooftop	Inspections performed by specialist companies.	<ul style="list-style-type: none"> - registration with the CRO (on a one-off basis), - recording the inspection results in the system. 	<ul style="list-style-type: none"> - once a year

4	Industrial wastewater	Testing the content of petroleum hydrocarbons in the sample taken, along with other pollutants as specified in the agreement with MPWiK.	- total phosphorus: ≤ 15 mgP/l, - petroleum hydrocarbons: ≤ 15 mg/l, - maintenance of a service book, - compliance with the agreement with MPWiK.	- analysis of wastewater content at least twice a year
5	Electricity	Performing electrical measurements in containers/construction site offices/office premises.	- keeping records of measurement results, - inspections carried out by authorised persons.	- once a year
6	Stormwater	Testing the content of total suspended solids and oil derivatives.	- total suspended solids: ≤ 100 mg/dm ³ , - oil derivatives: ≤ 15 mg/dm ³ .	- analysis of water content at least twice a year
7	Waste management	Keeping waste records in accordance with environmental protection regulations (Waste Act).	Compliance with the conditions set out in the waste generation permit and the rules resulting from the Waste Act.	- ongoing storage of copies of waste record sheets
8	Waste management	Monitoring the security of temporary waste storage sites	Compliance with environmental regulations, in particular those arising from the Waste Act.	- scheduled internal audits, environmental inspections on site
9	Soil contamination	Monitoring the use of measures to protect soil and groundwater against uncontrolled leakage of fuel or operating fluids during, for example, refuelling or replacement.	Compliance with environmental regulations.	- scheduled internal audits, environmental inspections on site

Biodiversity

GRI 103-1; GRI 103-2; GRI 103-3; GRI 304-2; GRI 413-2

An environmental impact of the investment projects implemented is of significant importance for the Group and its stakeholders. Due to a nature of the activities carried out by the Group companies, each construction project has an environmental impact and the majority of the actions taken is of key significance for environmental organisations that monitor the whole process. The Group's investment projects very often imply a permanent and irrevocable transformation of landscape and natural environment, which may constitute an inconvenience for local communities.

Rail investment projects implemented by the Parent Company and also some of its subsidiaries are very often located in or near areas of high environmental value, which as a result has an impact on the local biosphere. During each investment stage, namely:

- the planning stage,
- the implementation stage,
- the operation stage,

it is necessary to identify, estimate and potentially mitigate the majority of direct and indirect impacts. During the implementation of a contract, the designated specialists along with experts in other scientific disciplines, in particular, ornithologists, herpetologists, entomologists and botanists, are responsible for drawing up detailed environmental impact assessment reports. Thanks to the reports an actual environmental impact of a given

project investment can be assessed and analysed in a reliable manner. Findings provided in the reports indicate detailed measures which may mitigate or eliminate the adverse environmental impacts of the investment project. Consequently, in the majority of cases, additional solutions are introduced in order to mitigate a risk of adverse impact, very often beyond legal requirements.

As part of the construction work carried out under the contract POR01 Reconstruction of track system together with auxiliary infrastructure at the E59 railway line, Poznań Główny – Rokietnica section as part of the project 'Works on the E59 railway line, Poznań Główny – Szczecin Dąbie section', the Contractor observes the Environmental decision WOO.II.4201.2.2014.JC.25 of 15 May 2015, issued by the Regional Director for Environmental Protection in Poznań. Additional decisions are as follows:

- WPN-II.6401.440.2018.AG of 10 January 2019 on the capture and translocation of protected species,
- WPN-II.6401.441.2018.AG of 6 February 2019 on the deliberate killing, destruction of habitats and sites, destruction of the nests of the Roman snail, red-tailed bumblebee and buff-tailed bumblebee.
- WPN-II.6401.442.2018.AG of 6 February 2019 on the deliberate disturbance and distress of protected birds and mammals and the destruction of their habitats or sites.

In August 2019, according to the environmental supervision report, it was found that there were no migrating amphibians (also young green frogs coming out of the water) near the construction site (near the ponds between Lake Strzeszyńskie and Kiekrz). The swallows in the heap of sand near the overpass in Rokietnica (approx. 16+400 km) have finished hatching. Many birds have already started their migration, especially in late August. The activity of larger and smaller mammals can still be observed, usually based on their traces. The construction site has no negative impact on the behaviour of birds and mammals. Owing to the Contractor's compliance with the requirements of the environmental decisions, no water reservoirs were found in the area covered by the Contractor's operations.

In September, amphibians started their autumn migration to wintering grounds, however, no migrating amphibians (also young green frogs coming out of the water) were observed near the construction site (near the ponds between Lake Strzeszyńskie and Kiekrz). Due to the absence of excavations, there is no danger of amphibians falling and dying in pits.

For the contract JAS Upgrade of the section Jaworzno Szczakowa – Trzebinia (km 1.150 – 0.000 of Line No. 134, km 15.810 – 29.110 of Line No. 133), there are two environmental decisions issued, as amended. These are: decision RDOŚ-24-WOOŚ/6613/33/08/BM issued on 18 December 2008 in Katowice and decision OO.AK.6665-1-1-08 issued on 22 December 2008 in Kraków. Individual construction phases are supervised by environmental authorities. According to the decision, the Contractor is required, among others, to:

- as regards the relocation of the Kozi Bród stream and the Łużnik stream – to carry out work outside the period of migration and reproduction of amphibians, i.e. outside the period March-May and September-October. Before relocating the stream, animals (including fish and amphibians) in a given section must be caught with the participation of a specialised naturalist. The shores of the relocated section of the stream must be covered with plants native to the Kozi Bród and Łużnik streams;
- design and build a passage system for amphibians and other small animals in the 28+700 section. The system is to comprise at least 5 tunnels with natural floor (recommended MPD-1 type passage described in the Catalogue of Road Environmental Protection Equipment, year of issue: 2003) located every 50-60 meters with fences leading to the passages;
- use ground fencing in places where amphibians occur, based on a fence made of foil or netting with 0.5x0.5 cm mesh or agro-textile stretched on poles to a height of about 0.5 m above sea level with an upper roof (overhang) of 10-15 cm, with the bottom part dug into the ground to a depth of at least 15 cm.

According to the supervision report of October 2019, the upgraded railway line runs through the area of Natura 2000 PLH240042 "Meadows in Jaworzno". The protected area extends to the right and left of the embankment. During the environmental supervision inspection in the previous period, extensive fragments of protected Molinietales class meadows were reported, situated in a mosaic with oatgrass meadows and rush communities. The works carried out on the top of the tracks and within the facilities did not adversely affect the condition of this habitat. The remaining area within the modernized railway line was dominated by perennial plant communities in the ruderal areas of *Artemisia vulgaris*.

The most important amphibian breeding, wintering and feeding area is the section at the level of the Natura 2000 area "Meadows in Jaworzno". The October inspections confirmed the importance of this area for

amphibians, with migration of brown frogs and grey toads. Migration of single green frog specimens has been confirmed at the level of constructed animal passages – 28+700 km. During the reporting period, significant progress was recorded in the area of the amphibian crossing system at the level of 28+500-29+000 km. It was found that the correct method of removing water from the excavations by means of pumps was applied, where the suction end is secured to eliminate the possibility of sucking in small animals.

Environmental impact mitigation

There are at least several ways in which an adverse impact on biodiversity may be minimised by the Group. One of them is to plan investment projects ex ante at a safe distance from any areas of particularly valuable nature. When it is impossible to exclude such areas from the planned project's impact, cooperation is established with companies that examine animal migrations, well before the planning stage begins. Detailed analyses of animals by species and quantities are carried out, and their results help in distributing various special elements of infrastructure in the affected area, for example, wildlife crossings. Each of them should overlap with the migration routes determined at the earlier stages of examination. For the purpose of efficient protection of local biodiversity it is also important to plan new plantings. They are distributed in such a way as to lead animals to the migration passes.

Furthermore, the schedule of construction works is adapted to the breeding period of birds that are present in the areas where the construction works are to be carried out.

Another issue of great importance is environmental protection against noise. During the implementation of the construction works the Group follows strict time regimes set for works implemented using equipment that causes noise. Work in human settlements is carried out between 6:00 am and 10:00 pm. In addition to this, acoustic screens, which protect the nearest surroundings against noise caused by vehicles, are implemented along the roads and rail lines. The screens are of very good parameters which provide for high acoustic insulation and excellent noise absorption.

The Group is also prepared for any emergencies that may have an effect on biodiversity. The Group uses required equipment and materials such as absorbing agents used in case of chemical leakage. Construction equipment and other means of transport are technically functional and meet the emission limits. Frequent inspections of machinery and equipment prevent any potential soil contamination. Upgrading the machinery and vehicle fleet reduces the consumption of oils, fuels or greases. Machines are refuelled directly from tanks, and cars are refuelled at petrol stations. Additionally, each machine is equipped with absorbing agents in case of accidental fuel or oil leakage. Trees and their trunks, not intended for cutting, are protected against damage, e.g. using planks and covers during excavator work.

In the course of construction works, the Group reduces the generation of waste at source and its negative impact on the environment. In accordance with environmental protection regulations, waste is initially treated in a recovery process and subsequently, where this is not possible anymore, it is delivered to entities holding appropriate decisions and permits for waste collection or processing.

Through the application of the principles: "Don't print if you don't have to", "Turn off the light", "Save water", "Segregate waste" (introduction of separate waste collection containers, including containers for used batteries), the Group raises environmental awareness among employees.

Examples of adverse environmental impacts and preventing methods

As part of the environmental supervision inspection of the LCS Łowicz contract In the report of March 2019 and April 2019, the environmental supervision authorities pointed out the need to install protective fences at the created and existing reservoirs that may become breeding sites for amphibians. The contractor (Trakcja PRKiI) fenced the area after archaeological surveys in Kęszyce Wieś at about km 64+900 – in the reporting period, there was no construction work carried out in this location. The fences were set up as recommended at the Mysłak station, near the construction site. The field inspection did not identify any particular amphibian activity. The Contractor placed safety fences at the passage in km 74,297 on both sides of the road; due to the regulated flow

of the stream, the Contractor was ordered to dismantle them. The contractor has restored the possibility of flow on streams and ditches in accordance with the recommendations of the environmental supervision authorities.

Environmental risks

The Group has identified the following environmental risks:

Environmental risk	Risk management
Machinery and installation fire	Operational fire-fighting equipment, emergency fire safety instructions are displayed.
Unexploded ordnance (fuses, shells, air bombs, artillery and rifle cartridges, rocket-propelled grenades, grenades, mines of all types, explosives charges, metal scrap containing residual explosives)	Suspension of work, notification of the relevant emergency services, evacuation of workers and local community (if necessary). The method of carrying out enforcement activities will be based on the rescue methodology used by competent services.
Archaeological discoveries	If objects that could indicate the existence of an archaeological site in a given area are discovered during earthworks, the following procedure will be applied: 1. Suspension of work; 2. Notification of the Provincial Heritage Conservator 3. Notification of the Contracting Authority and the Contract Engineer.
Leakage of oils, vehicle fluids, etc.	Sorbent containers for collecting spilled liquids are placed in the plant and in construction sites' facilities. Oil containers are placed in special basins.
Leakage of fuel oil into the boiler house	Basins fitted around fuel oil tank units.
Leakage of oil from machinery into the ground (e.g. caused by a ruptured hose)	Neutralisation with sorbents.
Penetration of substances from hazardous waste into the ground	All hazardous waste is properly described by name and code, secured in containers, bins or placed on film-protected ground. They are delivered only to companies that hold the appropriate waste management decisions.

Consumption of materials

GRI 103-1; GRI 103-2; GRI 103-3

The Groups aims at optimising consumption of materials. Actions taken:

Item	Optimised use of materials	Reduced consumption
1	Elimination of workplace-assigned printers.	Cartridges and toners
2	Replacement of lights with energy-saving ones.	Fluorescent lights
3	Double-sided printing.	Scrap paper
4	Upgrade of machinery and vehicle fleet.	Oil, fuels, lubricants, filters, car parts, maintenance and

		replacement of engines in diesel locomotive engines, reduction of cars in the fleet
5	Cleaned and sieved gravel is reused as a construction material.	Crushed aggregate
6	Crushed concrete is used as a base for roads.	Concrete rubble
7	Milled material is handed over to an asphalt manufacturing company or used as a base for roads.	Asphalt

Please find below information on consumption of key materials or raw materials by weight or volume. The data presented herein pertain to the companies that execute the most contracts, i.e. Trakcja PRkil S.A. and AB Kauno tiltai.

Energy consumption inside the organisation

GRI 103-1; GRI 103-2; GRI 103-3; GRI 302-1

The Group endeavours to optimise consumption of energy not only to mitigate its adverse environmental impact but also to reduce operating and environmental costs. The Group seeks to apply state-of-art manufacturing technology and use natural resources in an optimal way in order to reduce its adverse environmental impact. Employees are made aware, through environmental alerts, of energy-saving methods and its benefits. Energy-saving lights have been installed in the office premises, where natural light is used at its maximum and equipment is switched off after it has been used. In many office premises information is provided which reminds employees that it is important to switch off the lights, and printers are provided with information that printing is allowed only if necessary.

The table below presents consumption of energy inside the organisation in the Parent Company, AB Kauno Tiltai, PEUiM Sp. z o.o and Dalba Sp. z o.o. Other companies did not keep any records concerning consumption of energy inside the organisation in 2018 or 2017.

Group:

Energy (GJ)	Year ended	
	31.12.2019	31.12.2018
Heat energy (GJ)	1 629	3 582
Electricity (GJ)	13 584	9 125

Heat energy (hard coal)	321	358
Heating oil (GJ)	20 085	18 146
Diesel oil (GJ)	174 299	187 510
Petrol (GJ)	13 854	10 334
LPG gas (GJ)	166	364
Total energy and fuel consumption	328 586	356 332

Parent Company:

Energy (GJ)	Year ended	
	31.12.2019	31.12.2018
Heat energy (GJ)	1 629	3 582
Electricity (GJ)	5 792	1 346
Gas energy (GJ)	1 268	0
Heat energy (hard coal)	322	358
Heating oil (GJ)	1 793	3 935
Diesel oil (GJ)	78 952	92 512
Petrol (GJ)	12 172	8 637
LPG gas (GJ)	121	218
Total energy and fuel consumption	102 049	110 588

All the energy and fuels consumed are from non-renewable sources.

Air emissions

GRI 103-1; GRI 103-2; GRI 103-3

The nature of the Group's activities makes it impossible to totally eliminate the emission of greenhouse gases and makes it difficult to significantly reduce the consumption of fuels and energy. Despite the difficulties the Group takes actions aimed at reducing the air emissions.

The Parent Company optimises the emission of gases and dusts into the air from the Repair Hall in Wrocław. For the purposes of heating and hot water production, a gas-fired boiler house has been designed and operated. Since gas-fired boilers have a lower output than, for example, oil-fired boilers, the volume of pollutants is not significant and does not exceed the emission limit values.

In order to minimise the air emissions caused by exhaust fumes the Group uses modern vehicle fleets and exhaust catalysts. Furthermore the exhaust emissions are reduced due to the replacement and modernisation of the old equipment and transport vehicles with more economical ones, with a lower engine capacity and meeting more rigorous standards. The number of cars in the fleet has also been reduced.

In order to reduce emissions of dust during the transport of bulk materials, the means of transport are thoroughly covered with canvass. During high temperatures, access roads to construction sites and along the line of construction work are periodically sprayed with water to eliminate dust. In addition, there is a 20 km/h vehicle speed limit on construction sites and in the work area.

For PEUiM Sp. z o.o., emissions are caused by the bituminous mass production plant. Taking into account its surroundings, an impact of the emission on the air purity in the nearest surroundings of the plant is relatively marginal and basically does not affect the local conditions of this part of the city. An emission impact of emitters and emission sources of the eTOWER 2500 MARINI system located in the area falls within the range between 2% (for carbon monoxide and aromatic hydrocarbons) and 20% (for nitrogen dioxide) of short-term concentration limits and between 1% (for all the analysed pollutants, except for sulphur dioxide and nitrogen dioxide) and 3% (for sulphur dioxide and nitrogen dioxide) of annual average concentration limits.

The emission impact in the area and in the nearest vicinity of a residential development falls entirely within the admissible limits, i.e. between 1% (for carbon monoxide, aliphatic and aromatic hydrocarbons) and 46% (for nitrogen dioxide) of short-term limits (references).

Mitigation of environmental impact of products and services**GRI 413-2**

The performance of construction contracts is inevitably related with the noise emission. With the use of mechanical equipment such as construction machines and transport vehicles on a daily basis, the Group's level of noise pollution is high. In order to mitigate this adverse impact many solutions and tools for have been implemented to counteract this type of environmental contamination. One of the solutions used was the planting of trees which not only reduce the noise emission, but also protect against exhaust fumes and dust. In addition to this vibrating mats and sound-proof screens are used which effectively reduce the noise emission originating from the use of trucks and turnouts.

The construction and manufacturing operations of our company do not require the use of water for technological purposes. Water is used only for human consumption. We optimise water consumption through appeals to the staff, slogans and tags at the water intake points.

Waste**GRI 306-2**

The Group endeavours to reduce to a minimum the quantity of waste generated. Waste, if not used for internal purposes, is collected only by entities authorised by a relevant authority to carry out business activities in the area of waste management. The ongoing supervision is ensured through the quality and quantity records.

The table below presents the major types of waste generated in the Group and Parent Company in 2019 as compared to 2018 (t).

Group:

	Year ended	
	31.12.2019	31.12.2018

VI. Social and employee aspects

GRI 103-1; GRI 103-2; GRI 103-3; GRI 401-2

Trakcja Group employs more than 2000 employees and is one of the largest employers in the construction industry both in Poland and in Lithuania. There are over 20 different professions practised, which are specific to the rail, road and energy industries, and therefore it is fundamental to develop and maintain employee competences as they are the foundation for the Parent Company's human resources policy. The key success factors are incentive schemes that encourage employees to seek further improvements in the operational activities and enhancement of returns on the construction contracts. The Group is conscious of the fact that in the construction industry, in which the majority of the Group companies operates, the human element is the factor that provides for competitive advantage. Therefore, the Group endeavours to build long-lasting relationships with its employees by offering them, in particular, attractive salaries, a differentiated bonus system, retirement allowances, jubilee bonuses and many other benefits such as contributions to the professional development of employees through the co-financing of language courses (such as English, Russian, Swedish and Latvian language courses), memberships in the industry organisations, for example, in the Chamber of Engineers, extensive medical assistance packages, Employee Capital Plans, as well as the reimbursement of travel expenses, accommodation, extras related to the entrusted duties and various other long- and short-term benefits. In addition, due to the fact that the Group carries out construction works in many industries, it offers its employees ample opportunities to develop competences within a single organisation. In the subsidiary, AB Kauno Tiltai, career paths of all its employees are standardised and described according to ISO standards.

The employee competences, in particular in the railway and construction-related professions, are regulated by numerous national regulations, compliance with which is ensured by the system of training and briefing that has been implemented by the Company. The management boards of the Group companies maintain a regular dialogue with trade unions that operate within the companies. Good relations with the trade unions reflect positively on the efficiency of social activities focused on our employees.

The data concerning employment presented below relate to all Trakcja Group companies.

The Group companies that employ people adopted remuneration regulations and working regulations. The Group has implemented numerous incentive systems which are intended for all the employee groups and which aim at enhancing the work efficiency and optimising the employment costs. The Parent Company has also adopted the Bonus Payment Procedure.

Employment structure

Pay equity

GRI 103-1; GRI 103-2; GRI 103-3; GRI 405-2

The ratio of the average salary paid to women to the average salary paid to men by employment categories in the Group and the Parent Company:

Group:

	31.12.2019	31.12.2018
Management Board	nd	nd
Senior management	110%	90%
Management	96%	86%
White-collar employees	103%	83%
Blue-collar employees	84%	78%

Parent Company:

	31.12.2019	31.12.2018
Management Board	nd	nd
Senior management	113%	107%
Management	99%	86%
White-collar employees	119%	89%
Blue-collar employees	78%	87%

The category that consists only of men has not been included.

AB Kauno Tiltai follows the policy entitled "Supervision over Applications suitable to the Policy of Equal Rights", which provides for clear guidelines on how to ensure equal rights in the company. The Company makes sure that all the job applicants and existing employees are treated equally, irrespective of circumstances.

Despite the fact that indicators show that men earn more in the Group than women, the Group ensures equal remuneration for the same job, and the discrepancies result only from different duties and responsibilities.

Employee turnover

GRI 401-1

In 2017-2018, the Parent Company actively sought new employees. In 2019, employment in the Group and the Parent Company stabilised: the level of new hires was similar to that of departures. The Group continued to efficiently meet its ongoing human-resources needs and effectively acquired personnel for the development of the Group's new competences.

In Trakcja PRKil S.A., the training process, from the needs analysis to its implementation, is governed by the "Procedure for planning and implementing training in TRAKCJA PRKil SA". According to this procedure, training and development needs are recorded at the beginning of each year. These needs are supplemented by training proposed in the Process of accounting for and setting goals after employee interviews. A training plan is developed on the basis of identified needs. They comprise measures that expand the competences of employees that are necessary to achieve the company's objectives. The plan prepared in this manner is presented to the Company's Management Board for approval. Once it has been approved, the plan is implemented. On 1 October 2019, the Parent Company implemented the Onboarding process. It is a process aimed at introducing a new employee to the company and providing him/her with information about: job description, development opportunities, key procedures, organizational structure, strategy, mission and vision of the company. This process helps reduce employee turnover, increase employees' involvement, job satisfaction and productivity. In turn, employees who have the opportunity to get to know the company right from the first days of work, have a

better understanding of the company's goals and their role in achieving them. This makes them more involved in the work and life of the entire organisation. They identify themselves with the company, its mission and values more quickly, and perform their tasks more effectively from the first weeks of work. This process is particularly important when hiring young people with limited professional experience who need special assistance during their first days of work.

AB Kauno Tiltai actively searches for new employees through the implementation of the "Akademija kaunotiltai" project, which is organised together with the following leading education institutions: Vilnius Gedimino technikos university and Kauno technikos kolegija and Baltijos pažangių technologijų institute. Numerous meetings are held with students and also school pupils on the working days. In addition to this many education fairs, non-commercial festivals are organised during which the company promotes the profession of an engineer. Another initiative is the TV programme entitled "Įdomioji inžinerija" ("Engineering Made Fascinating").

Risk associated with employment issues

The Group seeks to identify and implement preventive actions also in the employment area. The most significant types of risk related to employment and employees are as follows:

- Risk of loss of employees due to:
 - Non-market terms of employment,
 - Absence of incentive schemes,
 - Unsuitable working conditions,
 - Organised acquisition by other employers.

One of the preventive measures taken was the implementation by the Parent Company of new remuneration regulations, which promote teamwork orientated towards co-achievement of actual goals and bonuses related thereto, whose value is determined depending on the type of task. For the bonus to be paid, supervisory employees need to consistently collaborate with their subordinates so that the goals are met. The Parent Company implemented several types of bonuses for short-, medium- and long-term goals. The Group monitors, on an ongoing basis, current wage rates, which enables it to keep its remunerations at an attractive level. Furthermore, the Group endeavours to monitor and control, on a regular basis, training needs associated with individual job positions.

The Parent Company mitigates the risk that it may have no new employees through the establishment of a new unit responsible for recruitment processes in 2017.

Occupational health and safety

GRI 103-1; GRI 103-2; GRI 103-3; GRI 102-12

The Group has identified two key risks related to the occupational health and safety:

- Risk of accidents at work;
- Risk of occupational diseases.

The Group places a strong emphasis on ensuring a high level of occupational safety, employee health protection, proper social conditions and on compliance with legal regulations applicable thereto. The Group manages risk related to the occupational health and safety aspects in accordance with the policies described below.

Some of the Group companies organise health examination and free vaccinations for its employees.

The Parent Company, AB Kauno Tiltai and Bahn Technik Wrocław Sp. z o.o., implemented the occupational health and safety management system compliant with PN-N-18001 (OHSAS). The efficient system allows, in particular, for:

- injuries and losses related thereto to be prevented,
- occupational diseases to be eliminated,

- absence through sickness to be minimised,
- employees to be engaged in the area of the OHS,
- the quality and productivity at work to be increased.

In 2018, Bahn Technik Wrocław Sp. z o.o. updated its professional risk assessment according to the new PN-N 18002 method, taking into account the threats occurring in the company. In addition, a number of instructions for the safe execution of construction works and recommendations have been introduced, inspections to examine the psychological and physical condition of employees have been intensified, additional inspections of subcontractors have been introduced, and oversight of the work performed has been increased.

The Group's occupational safety management systems are inspected on a regular basis. In order to ensure a high safety culture, some of the Group companies have their own OHS Committee whose members are the representatives of employees and employer.

Its main tasks include:

- Reviewing working conditions,
- Assessing occupational health and safety on a regular basis,
- Giving opinions on measures taken by the employer in order to prevent accidents at work and occupational diseases,
- Developing proposals for the improvement in working conditions.

The occupational health and safety regulations applicable in the Group are also provided in the work regulations adopted by individual companies.

In addition, AB Kauno tiltai developed the following occupational health and safety procedures:

- Identification of threats, risk assessment and management,
- Occupational health and safety organisation.

OHS preventive actions

The Occupational Health and Safety Management Policy which has been applicable to the Parent Company since 2012 allows for information to be collected in a comprehensive way not only about accidents but also about near-misses. The identification of hazards is used for scheduling training needs and for implementing both corrective and preventive actions. A significant role is played in this process by the OHS coordinators who support the contract management and perform the tasks of the OHS service.

The preventive actions include the "Commandments" which were developed by the Parent Company in 2016 and which in a simple and clear manner remind its employees of the principles they must remember before commencing any works. In 2017 the Commandments were transferred to banners and has become part of the construction site's designation. For visitors, the Parent Company has developed the "Information Brochure" which contains, in particular, the rules for behaving at the construction site, and which lists prohibited actions and mandatory protective equipment. Each new person or company entering the construction site must be reported to both the construction manager and OHS coordinator and must become familiar with hazards to which they may be exposed.

In order to structure its actions, the Parent Company has developed the "Long-term OHS Plan" in which the objectives, vision and mission of the OHS services are described along with the methods for their fulfilment. The Company's vision is to seek opportunities for development which will lead to the Company being certified as a "Safe Company", and which is seen to be "supporting employees in creating a safe type of business that is able to attract, develop, stimulate and retain exceptional people".

In 2016, the Parent Company became a member of the European Federation of Railway Trackworks Contractors (EFRTC). The EFRTC deals with questions of safety in the works carried out at the railway sites.

Thanks to the co-financing granted by PZU in 2017 Trakcja PRKiI purchased and equipped its largest contracts with resuscitators, i.e. defibrillators. All the employees at the construction sites were trained in how to use them and in how to give first aid.

Personal protective equipment used by the employees of Trakcja PRKiI was also analysed. The analysis aimed at not only accessing of whether such equipment is suitable for working conditions and for the needs of employees and the nature of works performed and whether it complies with the standard requirements. The results are used as guidelines on the purchases required.

As the Parent Company is constantly enhancing its safety culture and due to the changing tender conditions, two early warning systems (ASO) were purchased in 2017. They are radio warning systems and are used to warn employees who work on tracks, with the use of an acoustic and optical signal, that a train is coming. A significant advantage of these systems is the fact that they are started automatically by a rail vehicle that approaches a place on the tracks where works are carried out. Systems provide for a high level of safety for the employees, in particular, when the tracks are available for vehicles moving with the speed $V > 100$ km/h. In 2018, the project was ranked third in the Technical Solutions category of the competition "Improvement of working conditions" held by the Ministry of Family, Labour and Social Policy. The upgrade of warning and monitoring systems on trains for comprehensive track replacement was also submitted for the above mentioned competition. Trakcja PRKiI received the "Distinction" for this project.

The Parent Company has implemented the two following management systems that are very important from the point of view of rail safety:

Safety Management System (SMS) Being a railway carrier, the Parent Company has adopted and implemented the relevant procedures and measures for safe transporting of various goods by rail. All the solutions included in the SMS are intended to ensure that we can, on an ongoing basis, identify two sets of hazards: those that arise in all the areas related to rail transport services, and those resulting from cooperation with other participants in the railway market and other service providers. The SMS procedures ensure, on the one hand, the implementation of risk control measures, and on the other, allow for the effectiveness of the applied measures to be monitored (in particular, through the audit and internal control system regarding the SMS). The SMS procedures are developed in accordance with the criteria set forth in Commission Regulation No. 1158/2010 and in the Regulation of the Minister of Transport on the safety management system dated March 19, 2007. The procedures define:

- risk control,
- division of responsibilities and ensuring control by the management at various levels,
- employee competence management,
- audits and internal controls,
- reporting and investigation of railway incidents.

Maintenance Management System (MMS) This is a system that has been voluntarily implemented by the Company. It includes procedures and manuals relating to the minimisation of the risk associated with the maintenance of freight wagons in order to provide for their safe operation.

Safety Culture Declaration

In 2016, the Parent Company signed the Safety Culture Declaration. This project was launched by the Polish Office of Rail Transportation. The key focus thereof is the implementation of safety culture principles in the rail

transport industry by encouraging the railway sector operators to have improving safety as their paramount value. By signing this document the Company declared its intention to:

- perceive safety as the paramount value for its employees and organisation,
- accept the safety standards and to integrate them into its everyday operations,
- move away from the practice of apportioning blame,
- record and analyse the incidents reported,
- report any type of irregularities or errors,
- continuously improve the management systems through the taking of corrective and preventive actions,
- adopt a zero tolerance approach to any violation of the provisions of law or internal procedures.

OHS training

Due to the specific nature of the tasks performed, the Parent Company's blue collar workers are subject to regular OHS training every year. The engineering and managerial employees are trained every five years, and the administrative employees, every six years.

In the course of the training held, the Group endeavours to demonstrate to its employees that safe behaviour at work results in better working conditions and better working method. The Group seeks to improve the safety awareness among its employees.

The educational and preventive process implemented by the Group includes also many other measures, i.e.:

- first aid training,
- refresher training for the management,
- unified construction site labelling and the provision of OHS banners and notice boards,
- identification of locations in which special precautions are required,
- introduction of a new model of personal protective clothing with the enhanced visibility, weather-resistance and heat absorbency,
- creation of a tab in the Company's Intranet, dedicated to the occupational safety issues,
- management meetings whose agenda includes in particular the needs associated with the improvement in the job positions and OHS,
- brochures and articles dedicated to the OHS.

Safe Work Leaders' Forum

In 2017, bearing in mind the need to provide for hygienic and safe workplaces, the Parent Company was granted the Safe Work Leader Accreditation issued by the Central Institute for Labour Protection – National Research Institute (CIOP-PIB). In 1998, the CIOP-PIB established the Safe Work Leaders' Forum whose aim is to develop cooperation among its members, as well as employers and employees who, in order to optimise working conditions, apply the achievements of science and technology, in particular, those developed by the CIOP-PIB. The Safe Work Leaders' Forum is also responsible for taking actions aimed at implementing and distributing the results of the long-term programme entitled "Improving work safety and working conditions" and also those of other programmes coordinated by the CIOP-PIB, as well as carrying out research and targeted projects.

"Visible – Safe" Campaign

Understanding the need for safety not only of employees but also of people moving in the vicinity of the projects, in 2017 the Parent Company launched a campaign entitled "Visible – Safe" and continued it also in 2018. The campaign is addressed to primary school children in the vicinity of the contract execution sites. During the meetings, children are informed about the rules of moving around the construction site, get to know the

machinery and equipment used during the work, and learn about the importance of using reflective elements to improve their safety through better visibility. The meetings are very well received by children, school management and local media.

Safety Day

As a part of the vocational development, in November 2017 the Parent Company held demonstrations and exercises on work at heights. This event was called the "Safety Day". These demonstrations heralded the training sessions that took place at construction sites in 2018, as well as the campaign entitled "Safety at heights". With the participation of specialists, the employees were trained in the use of protective equipment, how to work safely at height and how to deal with accidents and the need to provide assistance to those who have suffered injuries at height. The training also includes a practical element consisting in checking the skills of the company's employees.

Purchase of defibrillators

After purchasing defibrillators in 2018, the Parent Company joined the "Ratuj z sercem" Programme, otherwise known as the "AED Map", supported by POLKARD and the Ministry of Health and Social Welfare. It is a programme for common access to defibrillation equipment, aimed at finding defibrillators that are in use in Poland and placing them on one map. Given that the Company's projects cover the entire country, it was concluded that joining the Programme and providing access to defibrillators would help not only employees but also the local community, especially villages and small towns where there is no access to such equipment.

Collaboration with the National Labour Inspectorate

The Parent Company is a responsible employer which provides for safe working conditions for its employees, and therefore it carries out tasks imposed on it by the National Labour Inspectorate and by the Polish Office of Rail Transportation, the Office of Technical Inspection and the General Office of Building Control. No evidence of gross negligence was found during the inspections carried out. This is primarily because each year the cooperation with the National Labour Inspectorate is expanded. Inspectors visit all the construction sites on a regular basis and provide our management with advice and support, and whenever possible, they also participate in the meetings of the OHS Department. Propaganda materials developed by the Labour Inspectorate, CIOP-PIB or UTK are also used. Owing to the tightening cooperation with the National Labour Inspectorate, Trakcja PRKiI took steps to join the Labour Inspectorate's programme entitled: "Accident prevention" and the competition entitled: "Employer – organizer of safe work".

Subcontractors and OHS

All subcontractors working on the Parent Company's construction sites receive training in the Company's internal OHS procedures and are obliged to comply with their provisions. They are also informed about any danger and rules for behaving at the construction site. Every employee of the Company's subcontractor, involved in modernisation or rail lines, must have a pass authorising them to perform work and access the premises of PKP PLK. The OHS requirements are detailed in the agreements made with subcontractors, which in addition to the requirements resulting from general OHS regulations include information about the consequences of a failure to comply with the provisions of the agreements and OHS regulations. The ongoing monitoring of compliance with the OHS regulations has resulted in good practices being developed among the subcontractors and in the perception of significance of the safety at work being changed. Today, many of them are aware that employee safety is a priority.

The Parent Company has established "Work Regulations" which cover OHS issues such as:

1. standards for the allocation of working clothes and footwear, protective measures for workers and rules for the management of these measures,
2. a list of activities forbidden to women and rules for the employment of young people,

3. a list of particularly dangerous and physically demanding tasks,
4. a list of tasks to be carried out by at least two people,
5. basic responsibilities of the employer,
6. basic responsibilities of employees,
7. determination of working time and rules for accounting for working time,
8. rules for using the employee's holiday entitlements,
9. principles of employee responsibility for non-compliance with OHS regulations,
10. list of tasks that require special psychological and physical fitness,
11. rules for paying remuneration for work,
12. list of positions on which employee meals should be provided.

Accidents at work**GRI 403-2**

A summary presenting the type of injury and rates of injury, occupational diseases, lost days, and absenteeism, and total number of work-related fatalities by gender for the Group and Parent Company is provided below. The accidents took place in Poland and Lithuania.

Group:

	Year ended			
	31.12.2019		31.12.2018	
	Men	Women	Men	Women
Number of accidents	39	1	30	0
Accident rate (number of accidents x 1000 by average employment)	20,1	3,1	15	0,0
Number of incapacity for work related to accidents at work	1 639	34	1 245	0
Number of post-accident days per one accident	42,0	34	42	nd
Fatal accidents	2	0	0	0
Heavy accidents	0	0	0	0
Other accidents	28	7	30	0
Number of registered occupational diseases	0	0	4	0

Parent Company:

	Year ended			
	31.12.2019		31.12.2018	
	Men	Women	Men	Women
Number of accidents	24	1	16	0
Accident rate (number of accidents x 1000 by average employment)	20,0	0,0	12,99	0,0
Number of incapacity for work related to accidents at work	1 315	34	838	0
Number of post-accident days per one accident	55	34	52	nd
Fatal accidents	0	0	0	0
Heavy accidents	0	0	0	0
Other accidents	24	1	16	0
Number of registered occupational diseases	0	0	0	0

Impact on local community

GRI 413-2; GRI 103-1; GRI 103-2; GRI 103-3

The contract managers are the closest to the projects and they are the first to be notified of any problems or incidents that have to be addressed.

This year, no social conflicts were recorded in the Parent Company which would result in suspension of construction works.

When executing projects, the Group uses solutions ensuring effective operations while not disturbing the functioning of the local community, e.g. by:

- supervision of OHS coordinators, monitoring the course of daily work and activities performed in accordance with safety rules, training in procedures applicable to environmental protection, rules of conduct in the event of failure,
- ongoing technical checks and timely inspections of construction equipment,
- storing absorbing agents at the construction site facilities, next to parking cars, machines and technical devices, allowing for immediate counteraction of leaks of harmful liquids, e.g. engine oil or hydraulic fluid,
- carrying out ground works in the vicinity of trees or shrubs, or their complexes, only in harmony with the local environment,
- storage of small waste in the labelled containers that additionally prevent environmental pollution,
- hazardous waste, generated from construction work, is stored in containers placed on specially hardened storage yards, on construction sites or on sites leased specially for this purpose,
- securing containers and storage areas against access by bystanders and animals,
- optimal use of raw materials and consumables and minimization of waste (cleaned and sieved gravel is reused as a construction material, crushed concrete is used as a base for technical roads),
- use of protective mats to avoid damaging tree trunks by construction equipment, whereas in the case of repairs of possible damage to trees, compensatory plantings are carried out,
- minimising noise by working during the day,
- construction of temporary roads in such places as to minimize the inconvenience caused to road users and local residents.

The work carried out at each stage is monitored by environmental experts from various fields and by the investor, who monitor the situation on an ongoing basis, provide advice, conclusions and recommendations.

The Group plays an important role in providing for adequate technical conditions for the rail traffic, modernisation and construction of rail lines, and also construction of works both in Poland and in Lithuania.

The Group is sensitive to the needs of local communities. High quality of the works performed and fulfilment of liabilities are the key principles for building relationships between the Group and its customers. Each customer is guaranteed cooperation based on such values as professionalism, accountability, efficient management and respect for customers, employees, business partners, competitors, local communities and environment. Each construction project is preceded by a precise evaluation of the area's conditions and by the creation of positive relations that foster the effective carrying out of works. However, the construction works performed often cause increases in vehicle traffic, dust and noise. The Group is aware of the fact that the contracts performed entail not only benefits, but also certain inconveniences for local communities. During the performance of rail contracts, level crossings are closed, train schedules are amended and certain connections are suspended. During the performance of road works, it is necessary to introduce detours and other disadvantages that very often make the way to work or school much longer. All such changes have a significant impact on the lives of local inhabitants. The Group endeavours to react positively to any signals that come from authorities and inhabitants and to implements organisational solutions that minimise any inconvenience caused. Inconvenience resulting from the works carried out is one of the topics discussed at the meeting of the construction council which is a regular meeting with the investor held in relation to each contract performed. Such meetings are usually held once a week with participation of the investor and supervision engineer. They are used for analysis signals reported by inhabitants and local authorities and for agreeing on measures to be taken in order to minimise any convenience caused. The Group is not able to estimate how many various objections have been made by the local communities, but efforts are being made to make sure that no problems occur and no signals remain unsolved. The Group frequently carries out numerous works which exceed the scope of the contracts signed, but which improve the quality of life of the local residents. This includes, in particular, the modernisation of pavements or the construction of access roads to fields and premises, or the reconstruction of other infrastructure elements.

In order to stimulate the development of local entrepreneurship, Trakcja Group attempts to engage, as far as it is practicable, local employees, subcontractors and suppliers.

CSR activities

The Group supports sport, cultural and charitable activities. The Parent Company was one of the organisers and the primary sponsor of a two-day music event attended by world-famous blues musicians, which included music workshops for young performers. The Group also supports any sport-related employee initiatives and sponsors the company football team (kit, training and tournaments) and the participation of the Company's employees in company races. For several years all greeting cards have been purchased from a foundation that collects funds for charitable purposes. Furthermore, the Group also supports local pharmacies, assisted living facilities and cultural events in the areas in which it carries out its activities. The Group also supports its employees engaged in internal voluntary projects, for example blood donation, collection of money for children (AB Kauno Tiltai supports the project entitled: "Money Day") or donation of books and literature to the assisted living facilities.

Risks in relationships with local communities

An immanent feature of the construction process is temporary inconvenience in the functioning of local communities. Changes in traffic organisation, detours, noise or difficult access to the property are reasons for periodic deterioration in the quality of life of local residents, and as a consequence become sources of negative

emotions. The key risk during the implementation of construction works is that the discontent may escalate and result in such construction works being extended or suspended.

Threat	significant	real	potentially
organizational			
disturbances in communication routes	x		
Difficult access to nearby institutions and homes	x		
noise		x	
disruptive course of temporary roads		x	
environmental			
irreversible landscape changes	x		
storage of harmful materials in the back office			x
incorrect storage of waste		x	
damage to trees and shrubs by heavy equipment			x
timely			
prolonged work		x	
protests of ecological environments			x
protests of local communities			x
stopping works related to the natural cycle		x	
unforeseen situations (weather conditions)			x

The Group has implemented a series of measures counteracting such situations, as a result of which in the last period they occurred only occasionally and did not have any significant impact on the contracts implemented in the previous year. These measures are as follows:

1. Close cooperation with local authorities, in particular, at the stage of carrying out the preparatory works aimed at the selection of the solution most optimal for the local community.
2. Regular information measures taken in collaboration with the awarding entity and local authorities.
3. Ongoing monitoring of signals that come from residents, both directly to the Group and to the local authorities, the awarding entity or through the local media. Attention should be paid, in particular, to the daily monitoring of media: newspapers, radio, television, Internet, and in particular social media. Any publication that indicates any irregularities or tensions is forwarded to the relevant entity that manages the construction site concerned. The Parent Company monitors media on every working day and the report thereon is issued every day by 9.30 a.m. This way, the Parent Company issues on average 250 daily reports and nearly 150 ad hoc reports per year. A very effecting action of the Parent Company, as far as communication area is concerned, involved the establishment of permanent cooperation with the administrator of the profile dedicated to the investment project, which was opened on one of the social media portals. This resulted in swift and professional exchange of information.

4. Easy traceability of the Company – through the legible indication of the area in which works are carried out, and of vehicles and information boards, and the location of well-designated construction site offices.
5. Building confidence in the contractor – through non-standard actions such as information meetings with local population, educational trips to the construction site, provision of elements that improve visibility, etc.

Human rights and child labour and forced labour

GRI 408-1; GRI 409-1

The Group has adopted and adheres to the Group's Code of Ethics which is an expression of the Group's attitude towards the provisions of law that regulate civil rights and employment rights. In addition to the observance of national laws applicable in the locations in which the Group companies operate, they also adopted the work regulations and the remuneration regulations, whose aim is to provide for decent working conditions and fair compensation dependent on the position held, skills offered and performance achieved. Trakcja Group is a reliable employer providing stability of employment, which is demonstrated by the share of employees over 50 in the total employment, resulting mainly from the fact that new employees have been hired in that age group. The Group regulated issues related to decent working and living conditions of employees, and therefore basic human rights. The Group mitigates the risk of violation of labour regulations. A nature of work requires that many employees make business trips all around the country. By ensuring such benefits as residential premises, accommodation supplements, reimbursement of the costs of transport, coverage of additional costs of household outside the place of residence, provision for the high-quality healthcare services and supplements to leisure, recreation and social benefits, the Group has achieved a high level of employee satisfaction and respected their basic human rights.

The Group has not been notified of any cases of discrimination based on gender, belief, religious orientation or any other aspects, and therefore there is no indication that any additional regulations should be implemented in that area. In 2018 and 2017 no actions were identified which could pose a significant risk that child labour or forced labour or compulsory labour may be used by the Group.

NOTES

1. General

These financial statements are for the financial year ended December 31, 2019 and include comparative information for the financial year ended December 31, 2018.

Trakcja PRKiI S.A. (hereinafter referred to as the "Company" or "Trakcja PRKiI") was established in its present form on November 30, 2004 as a result of the acquisition of Trakcja Polska S.A. by Przedsiębiorstwo Kolejowych Robót Elektryfikacyjnych S.A. ("PKRE S.A."). The name of the Company at the time was Trakcja Polska S.A. and was changed by Resolution No. 2 adopted by the Extraordinary General Meeting on November 22, 2007. The change was entered in the National Court Register on December 10, 2007. The prior business name of the Company was Trakcja Polska - PKRE S.A. Trakcja S.A. operates under the Articles of Association drawn up in the form of a notarial deed on January 26, 1995 (Rep. A No. 863/95), as amended.

On September 1, 2009 the District Court of the City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register, registered the merger of Trakcja Polska S.A. as the acquiring company with Przedsiębiorstwo Robót Komunikacyjnych-7 S.A. as the company being acquired. The merger was settled and recognised in the accounting records of the Company, to which the assets of the merged companies were allocated, i.e. Trakcja Polska S.A., under the pooling of interest method, as at August 31, 2009. The companies were effectively merged at the acquisition of control, i.e. on September 1, 2007, in accordance with IFRS 3.

On June 22, 2011 the District Court of the City of Warsaw in Warsaw, 13th Commercial Division of the National Court Register, registered a change in the company name from Trakcja Polska S.A. to Trakcja – Tiltra S.A. The above change was registered pursuant to Resolution No. 3 adopted by the Extraordinary General Meeting on June 15, 2011.

On December 21, 2012 the District Court of the City of Warsaw in Warsaw, 13th Commercial Division of the National Court Register, registered a change in the Company's business name from Trakcja – Tiltra S.A. to Trakcja S.A. The above change was registered pursuant to Resolution No. 3 adopted by the Extraordinary General Meeting on December 12, 2012.

On December 19, 2013 the District Court of the City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register, registered the merger of Trakcja S.A. as the acquiring company with Przedsiębiorstwo Robót Kolejowych i Inżynieryjnych S.A. as the company being acquired. The merger was settled and recognised in the accounting records of the Company to which the assets of the merged companies were allocated, i.e. Trakcja S.A., according to the pooling of interest method, as at December 31, 2013.

On December 19, 2013 the District Court of the City of Warsaw in Warsaw, 13th Commercial Division of the National Court Register, registered a change in the Company's business name from Trakcja S.A. to Trakcja PRKiI S.A. The above change was registered pursuant to Resolution No. 4 adopted by the Company's Extraordinary General Meeting on November 27, 2013.

On January 29, 2002 the Company was entered in the National Court Register by the District Court in Warsaw, 19th Commercial Division, under KRS 0000084266. The Company was assigned the statistical number REGON 010952900, the tax identification number NIP 525-000-24-39 and the PKD code 4212Z.

The Company's registered office is located in Warsaw at al. Jerozolimskie 100, II fl.

The term of the Company is unspecified.

According to the Articles of Association, the Company renders specialist construction and assembly services within the scope of railway and tram lines electrification.

The Company specialises in the following types of activity:

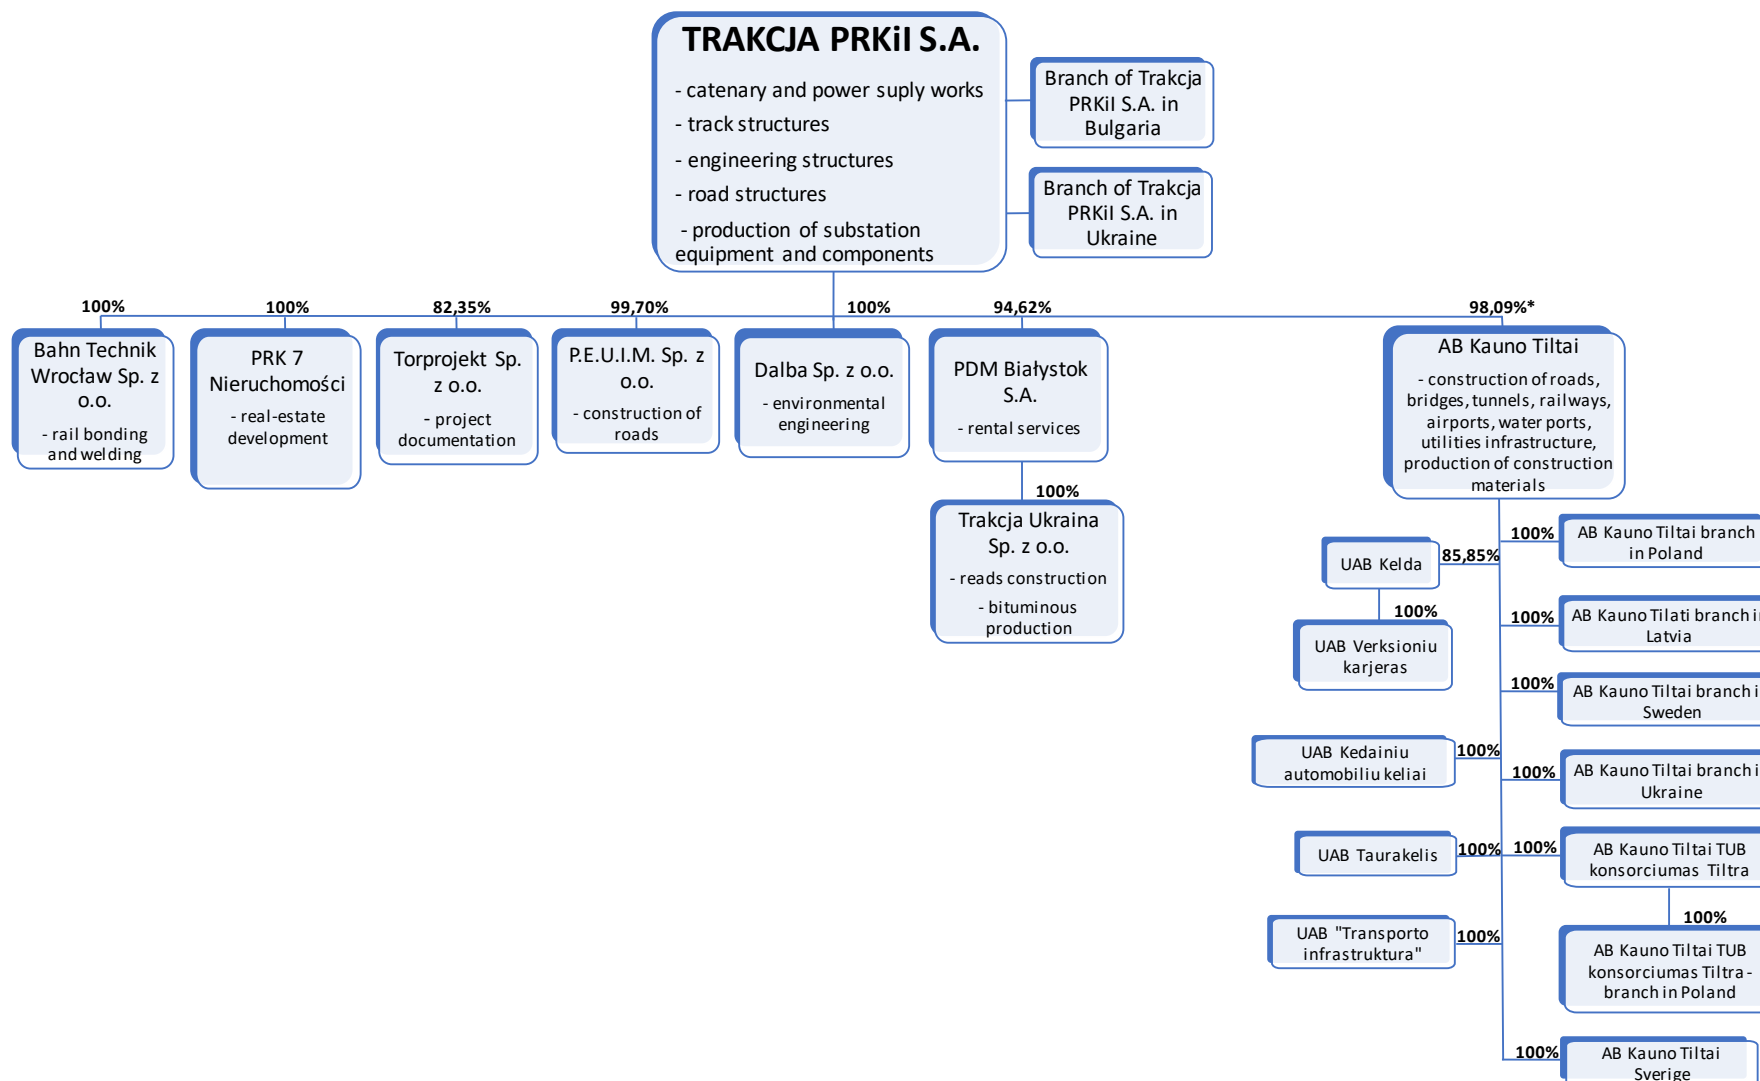

- foundation and network works,
- installation of traction substations and section cabs,
- installation of high and low voltage overhead and cable lines,
- installation of local control and supply cables,
- manufacturing of products (high, medium and low voltage switching stations, contact line equipment and local control devices),
- specialist equipment services (excavators, railway and truck cranes, boring rigs, pile drivers),
- construction of bridges, viaducts, piers, flyovers, tunnels, underground passes, roads and accompanying elements of the rail and road infrastructure.

The ultimate parent company is COMSA S.A., a Spanish company, which prepares the consolidated financial statements that include, among many, the data of Trakcja Group.

These separate financial statements were approved for publication by the Company's Management Board on April 21, 2020.

2. Composition of the Group

Trakcja PRKil is the Parent Company of Trakcja Group. The Group's composition and structure as at 31 December 2019 is presented in the diagram below.

*) Trakcja PRKil holds a total of 98.09% (96.84% directly and 1.25% indirectly) of the share capital of AB Kauno Tiltai. The indirect shareholding results from the acquisition of own shares by the subsidiary.

As at 31 December 2019, the Group consists of the Parent Company (Trakcja PRKiI S.A.) and its subsidiaries.

Fully-consolidated entities in the consolidated financial statements of Trakcja Group:

Bahn Technik Wrocław Sp. z o.o.

On December 30, 2016 Trakcja PRKiI became the sole shareholder in Bahn Technik Wrocław Sp. z o.o. ("BTW"). The transaction is described in detail in Note 3.1 of the Consolidated Financial Statements for 2016. Until December 31, 2016 the Group exercised joint control over BTW and classified the company as a joint venture pursuant to IFRS 11.

The BTW's business activities include thermite welding, repairing and renovating turnouts, renovating railway and tramway crossings, providing pre-stressed, glued insulation joints type S, welding tram and railway tracks, tamping and profiling railway and tramway tracks, and selling Perker SR rail lubrication systems. Since December 2016, BTW has been also equipped with a GOTTWALD crane and a DGS track stabilizer. BTW renders its services both in Poland and abroad.

PRK 7 Nieruchomości Sp. z o.o.

PRK 7 Nieruchomości Sp. z o.o. carries out real estate development activities and has a track record of several successful investment projects, which include, in particular, Lazurowe Osiedle residential project in Warsaw (stage I and II) and the project at ul. Oliwska in Warsaw, as well as the construction of five multi-family residential buildings in Warsaw at ul. Pełczyńskiego. For over a year, the company has been carrying out construction works – capacity construction works. The Company carries out the renovation of the library of the University of Warsaw. In 2019, she signed a new contract for the construction of a school in Ząbki.

Torprojekt Sp. z o.o.

Establishment of Trakcja PRKil S.A. in Ukraine

On March 3, 2017 Trakcja PRKil S.A. opened an establishment in Ukraine.

Trakcja Ukraina Sp. z o.o.

PDM Białystok S.A. holds 100% of shares in Trakcja Ukraina Sp. z o.o. On October 25, 2019 PDM Białystok S.A. acquired 49.9% shares in Trakcja Ukraina Sp. z o.o., and became its sole shareholder.

AB Kauno Tiltai Group

AB Kauno Tiltai is the largest company in the road and bridge construction sector in the Baltic countries. It specialises in the construction and reconstruction of roads, bridges, tunnels, railways, airports, water ports, which is demonstrated, inter alia, by the fact that since its establishment, i.e. since 1949, AB Kauno Tiltai has constructed over 100 bridges and viaducts and has been responsible for constructing and reconstructing numerous roads in Lithuania.

AB Kauno Tiltai with its registered office in Kaunas is a subsidiary of the Parent Company, Trakcja PRKil, and simultaneously the parent company in AB Kauno Tiltai Group.

AB Kauno Tiltai Group is composed of the following entities:

- UAB Kelda – a subsidiary with its registered office in Vievis (Lithuania); the company's subsidiary is:
 - UAB Verkšionių karjeras – a subsidiary with its registered office in Bagoteliu K (Lithuania);
- UAB Taurakelis – a subsidiary with its registered office in Tauragė (Lithuania);
- UAB Kedainiu Automobiliu Keliai – a subsidiary with its registered office in Kėdainiai (Lithuania);
- TUB Konsorciumas Tiltra – a subsidiary with its registered office in Kaunas (Lithuania);
- AB Kauno Tiltai Branch in Poland – a branch of AB Kauno Tiltai with its registered office in Białystok (Poland);
- AB Kauno Tiltai Branch in Latvia – a branch of AB Kauno Tiltai with its registered office in Rēzekne (Latvia);
- AB Kauno Tiltai Branch in Ukraine – a branch of AB Kauno Tiltai with its registered office in Kiev (Ukraine);
- AB Kauno Tiltai Branch in Sweden – a branch of AB Kauno Tiltai with its registered office in Norsborg (Sweden);
- AB Kauno Tiltai Sverige – a subsidiary with its registered office in Malmö (Sweden);
- AB Kauno Tiltai TUB konsorciumas Tiltra – branch in Poland
- UAB “Transporto infrastruktūra” – a subsidiary with its registered office in Vilnius (Lithuania).

The ultimate parent company is COMSA S.A., a Spanish company, which prepares the consolidated financial statements that include, among many, the data of Trakcja Group.

Changes in the Group

On September 30, 2019 one of the Group companies, AB Kauno Tiltai, sold 100% shares in UAB Pletros Investicijos, and thus lost control of this company and its subsidiary, UAB Palangos aplinkkelis.

On October 25, 2019 one of the Group companies, Trakcja Ukraina Sp. z o.o., sold 100% shares in Trakcja Asfalt Sp. z o.o. and all the shares held, i.e. 99% in Trakcja Infra Sp. z o.o.

On October 25, 2019 one of the Group companies, PDM Białystok S.A., acquired 49.9% shares in Trakcja Ukraina Sp. z o.o., and thus holds 100% shares in this company.

The aforementioned events have been detailed in Note 3 of the Notes ("Changes in the Group's structure and their consequences") to the annual consolidated financial statements of Trakcja Group for 2019.

Apart from the above, there were no changes in the structure of the Trakcja Group in 2019.

3. Management Board

As at 31 December 2019 the Company's Management Board was composed of the following members:

- Marcin Lewandowski - President of the Management Board;
- Paweł Nogalski - Vice-President of the Management Board;
- Arkadiusz Arciszewski - Vice-President of the Management Board;
- Aldas Rusevičius - Vice-President of the Management Board;
- Robert Sobków - Member of the Management Board;
- Adam Stolarz - Member of the Management Board.

On 27 September 2019, Mr Marek Kacprzak and Mr Maciej Sobczyk tendered their resignations as a Management Board Members, with effect as of 30 September 2019.

On October 10, 2019 the Company' Supervisory Board adopted a resolution naming Mr. Arkadiusz Arciszewski as Vice-President of the Management Board with effect from October 10, 2019.

On December 4, 2019 the Company's shareholder, Agencja Rozwoju Przemysłu S.A., declared in writing that Mr. Adam Stolarz and Mr. Robert Sobków were named as members of the Management Board.

After the balance sheet date, there were no changes in the composition of the Company's Management Board.

4. Supervisory Board

As at 31 December 2019, the Company's Supervisory Board was composed of the following members:

- Dominik Radziwiłł - Chairman of the Supervisory Board;
- Jorge Miarnau Montserrat - Vice-Chairman of the Supervisory Board;

- Michał Hulbój - Vice-Chairman of the Supervisory Board;
- Krzysztof Tenerowicz - Member of the Supervisory Board;
- Klaudia Budzisz - Member of the Supervisory Board;
- Miquel Llevat Vallespinosa - Member of the Supervisory Board;
- Fernando Perea Samarra - Member of the Supervisory Board.

On December 4, 2019 the Company was notified of resignation by Mr. Wojciech Napiórkowski from the position on the Company's Supervisory Board as at December 4, 2019 and the shareholder, Spółka Agencja Rozwoju Przemysłu S.A., declared in writing that Ms. Klaudia Budzisz was named as a member of the Company's Supervisory Board.

On December 20, 2019 the Company was notified of resignation by Mr. Łukasz Rozdeiczer-Kryszkowski from the position on the Company's Supervisory Board as at December 20, 2019 and the shareholder, Spółka Agencja Rozwoju Przemysłu S.A., declared in writing that Mr. Krzysztof Tenerowicz was named as a member of the Company's Supervisory Board.

After the balance sheet date there have been no changes to the composition of the Supervisory Board.

5. Approval of the annual financial statements for publication

These annual financial statements were approved for publication by the Management Board on 21 April 2020.

6. Significant values based on professional judgement, estimates and assumptions

In applying the accounting principles (policy) such factors as accounting estimates, assumptions and professional judgement of the entity's management are important. The assumptions and estimates made are based on the past experience and on factors considered reasonable, and their results are a basis for the professional judgement on the carrying amounts of the relevant assets and liabilities. The estimates and assumptions related thereto are verified as at the balance sheet date. Despite the fact that the estimates are based on the best knowledge regarding the current conditions and operations performed by the Company, the actual performance may differ from the estimates.

Where a given transaction does not fall within the scope of any standard or interpretation, the Management Board, guided by its subjective judgment, determines and applies accounting policies that ensure that the financial statements contain appropriate and reliable information and:

- give a clear, true and fair view of the Company's assets, its financial condition, results of operations and cash flows,
- reflect the economic substance of transactions,
- are objective,
- conform to the principles of prudent valuation and
- are complete in all material respects.

The professional judgement of the management, assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date that carry a significant risk of causing a material adjustment to the carrying amounts of the assets and liabilities in the next financial year are discussed below.

6.1. Professional judgement

Fair value of financial instruments

The fair value of financial instruments for which no active market exists is determined by means of appropriate valuation methods. In selecting appropriate valuation methods and assumptions, the Company relies on professional judgement. The underlying assumptions are presented in Note 44. In 2019, the Company did not change the measurement method for financial instruments measured at fair value. The carrying amounts of financial assets and liabilities are close to their fair values.

Investment property

The Company's Management Board classifies properties into the category of property, plant and equipment or investment properties depending on their intended use by the Company.

Control over related entities

The Company controls a subsidiary when it is exposed or has rights to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. The Company's Management Board states that it exercises control over individual entities based on the following:

Trakcja PRKiI is the sole shareholder in PRK 7 Nieruchomości Sp. z o.o. and has full control over the subsidiary. Trakcja PRKiI S.A. has become the shareholder in PRK 7 Nieruchomości as a result of the merger between Trakcja S.A. and PRK 7 S.A. which in turn owned PRK 7 Nieruchomości Sp. z o.o.

Trakcja PRKiI holds 100% of shares in Bahn Technik Wrocław Sp. z o.o. and has full control over the subsidiary. Trakcja PRKiI S.A. has become the shareholder in BTW through the acquisition of the remaining 50% of shares therein on 30 December 2016. Trakcja PRKiI has become the owner of BTW through the acquisition of its shares.

Trakcja PRKiI holds 82.35% of shares in Torprojekt Sp. z o.o. and has full control over the subsidiary. Trakcja PRKiI S.A. has become the owner of Torprojekt through the acquisition of its shares.

Trakcja PRKiI holds 99.70% of shares in PEUiM Sp. z o.o. and has full control over the subsidiary. Trakcja PRKiI S.A. has become the owner of PEUiM through the acquisition of its shares.

Trakcja PRKiI holds 100% of shares in Dalba Sp. z o.o. and has full control over the subsidiary. Trakcja PRKiI S.A. has become the owner of Dalba through the acquisition of its shares.

Trakcja PRKiI holds 94.62% of shares in PDM Białystok S.A. and has full control over the subsidiary. Trakcja PRKiI S.A. has become the owner of PDM Białystok through the acquisition of its shares.

Trakcja PRKiI holds 98.09% of shares in AB Kauno Tiltai and has full control over the subsidiary. Trakcja PRKiI has become the owner of AB Kauno Tiltai, which is the parent company of AB Kauno Tiltai Group, through the acquisition of its shares. The Group's composition and shareholdings are presented in Note 2 on the Group composition and structure.

Classification of joint contractual arrangements

Based on an analysis of an agreement, the Company verifies whether it exercises joint control and determines the type of joint arrangement in which it is involved by considering its rights and obligations under a given arrangement and the structure and form of the arrangement, the terms agreed by the parties in the contractual arrangement and other facts and circumstances.

6.2. Uncertainty of estimates and assumptions

Determining the timing of satisfaction of performance obligations

Sale of goods

In order to indicate the precise moment of transfer of control, the Company considers each time whether:

- a. the Company has a present right to payment for the asset,
- b. the customer has legal title to the asset,
- c. the Company has transferred physical possession of the asset,
- d. the customer has the significant risks and rewards of ownership of the asset,
- e. the customer has accepted the asset.

The moment of the transfer of control is the same as the moment when the significant risk and rewards of ownership have been transferred. In the absence of specific terms and conditions between the parties (e.g. by means of Incoterms), the revenue from the sale is recognised at the moment of delivery to the customer, in which case the customer is in physical possession of the goods and thus the legal title is transferred.

Sale of construction services

Performance obligations related to the implementation of long-term construction contracts are satisfied over time in connection with the fact that the customer controls an asset which is created or enhanced by the entity throughout the implementation period. In the opinion of the Company, execution of construction work on land owned by the principal indicates that it controls the asset being created on an ongoing basis.

Determining the transaction price and the amounts allocated to performance obligations

Variable consideration

Agreements for long-term construction services specify variable remuneration which depends on the completion dates and achieved parameters, including penalties and bonuses that may have an effect on the initial amount of remuneration stipulated in the agreement. For the purpose of determining a transaction price, the Company assesses facts and circumstances that have an impact on the likelihood of occurrence of each scenario, including the obligation to pay a penalty or the right to receive a bonus. For agreements, for which the likelihood of a certain scenario is significantly higher than that of other scenarios, the amount of remuneration calculated for the scenario concerned shall be included in the transaction price determined.

Facts and circumstances determining the probability of occurrence of individual scenarios are reviewed at least at the end of each reporting period. Changes in the transaction price, if any, are recognised prospectively.

Significant financing component

The Company has decided to use the practical expedient and does not adjust the transaction price by the impact of a change in the time value of money in the case of contracts for which the Company expects, at contract inception, that the period between the moment when the Company transfers the good or service and the moment of payment will not exceed one year.

The transaction price of contracts for which the Company expects at contract inception that the period between the moment when the Company transfers goods or services and the moment of payment will be longer than one year is adjusted by a significant financing component. For advance payments, the Company recognises interest expense, whereas for payment terms longer than 12 months, the Company recognises interest income.

In order to estimate the significant financing component, it is necessary to determine the discount rate. The Company uses rates that would be reflected in a separate financing transaction between the entity and its customer at contract inception. In order to reflect the credit characteristics of the party that receives financing, various discount rates are applied to transactions in which the Company acts as the party that provides financing and the party that receives financing.

Discount rates are reviewed at least as at the date of preparation of the financial statements and are applied to contracts concluded after the date on which the rate was updated.

Separation of non-lease components

The Company assesses whether the contract includes lease and non-lease components. Non-lease components, such as maintenance fees in contracts for lease of premises, or service maintenance of components of assets constituting the subject of the contract, are then separated from contracts that included lease and non-lease components. However if the contract covers non-lease elements which the Company deems insignificant in the light of the entire contract, the Company shall apply a simplification consisting in joint treatment of lease and non-lease elements as one lease element.

Defining the lease term

In defining the lease term, the Company assesses all material facts and events which affect the existence of economic triggers to use the option of prolongation, or not using the option of termination. The assessment is made in case of a significant event or a significant change in circumstances affecting the assessment.

Period of use of asset components due to the right of use

The estimated period of use of assets related with the right of use is determined in the same manner as in the case of tangible fixed assets.

Provisions for additional works

Provisions for additional works are estimated based on the knowledge of the construction site (contract) directors with regard to the required or potential performance of additional works for the benefit of the contracting entity, in order to fulfil warranty obligations. The Company is obliged to grant warranty for its services. The provision for additional works depends on the segment in which the Company operates and is based on the Company's historical data. This value is assessed on an individual basis and may be increased or decreased as appropriate. Any changes in these assumptions will affect the amount of the provisions. The carrying amount of the provisions for additional works as at 31 December 2019 is presented in Note 36 of the Notes.

Provisions for contractual penalties

The Company recognises provisions for contractual penalties in relation to any contracts under completion in the amounts in which they may and are likely to be imposed. Provisions are recognised based on the documentation regarding the contract completion and on the opinion of lawyers who participate in the ongoing negotiations and estimate the Company's potential future liabilities on the basis of their course. The carrying amount of the provisions for contractual penalties as at 31 December 2019 is presented in Note 36 of the Notes.

Measurement of employee benefit liabilities

Employee benefit liabilities for retirement benefits and jubilee bonuses in the current period are estimated on the basis of actuarial methods which take into account amendments to the remuneration regulations made on 3 June 2017. The amount of liability depends on various factors which are used as assumptions in the actuarial method. Key assumptions for determining the amount of liability are the discount rate and the average expected increase in wages. The assumptions made for this purpose and the carrying amount of employee benefit liabilities as at 31 December 2019 are presented in Note 38 of the Notes.

Deferred tax asset

The Company recognises deferred tax asset based on the assumption that taxable profits will be available in the future against which the deferred tax asset can be utilised. If taxable income deteriorates in the future, this assumption may prove invalid. The Company's Management Board reviews its estimates regarding the likelihood of recovering deferred tax assets taking into account changes in the factors on which such estimates were based, new information and past experience. The likelihood that deferred tax assets will be utilised against future taxable profits is based on budgets of the Company. Deferred tax assets are recognised by the Company to the extent that it is probable that taxable profit will be generated which will enable the deductible temporary differences to be offset. The carrying amount of the deferred tax assets as at 31 December 2019 is presented in Note 18.2 of the Notes.

Amortisation and depreciation rates

Depreciation/amortisation rates are set based on the anticipated useful lives of property, plant and equipment and intangible assets. The Company reviews the useful lives of its assets annually, on the basis of current estimates.

Investment property

Investment property is measured at fair value. The value of investment properties is determined by independent appraisers who hold valid authorisations to perform such valuations. In selecting the approach and technique thereof, the Company followed the principles set forth in IFRS 13 and in the Real Estate Management Act and also in the Regulation of the Council of Ministers on the detailed principles of property appraisal and rules and method for preparing appraisal reports. Fair value of investment property was measured by way of applying measurement techniques that require a maximum use of observable data. The detailed information and carrying amount of the investment property as at 31 December 2019 is provided in Note 22 of the Notes.

Impairment of inventories

The Management Board assesses whether there are any indications that inventories may be impaired, in accordance with Note 8.8. The determination of impairment requires the estimation of the net realisable value of inventories that have become obsolete or are no longer suitable for use. For additional information, see Note 28.

Expected credit loss and impairment of trade and other receivables

Pursuant to IFRS 9, the Company recognises a loss allowance for expected credit losses on trade and other receivables. For trade receivables, the Company applies a simplified approach for receivables analysed on a collective basis – for these receivables, an allowance for lifetime expected credit losses is calculated, regardless of the analysis of changes in credit risk. For other receivables and financial instruments held, the Company recognises an allowance for 12-month expected credit losses if the credit risk is low or has not increased significantly since initial recognition of receivables in the balance sheet and at an amount equal to the lifetime expected credit losses if the credit risk on that financial asset has increased significantly since initial recognition. The change in the impairment allowance for trade and other receivables is presented in Note 29.

Fair value measurement and measurement procedures

Some assets and liabilities of the Company are measured at fair value for the purposes of financial reporting. The Company measures the fair value of assets or liabilities, to the extent possible, on the basis of the market data observable.

Information on valuation techniques and inputs used to measure the fair value of particular assets and liabilities is disclosed in Notes 23, 40 and 45.

7. Basis for preparation of the annual financial statements

The annual financial statements were prepared based on the historical cost approach, except with respect to investment property which is measured at fair value.

The annual financial statements are presented in Polish zlotys (“PLN”) and all amounts are expressed in thousands of Polish zlotys, unless indicated otherwise.

Certain financial data provided herein have been rounded. Therefore, the sum of the amounts in a given column or row in certain tables provided herein may differ slightly from the total amount given for such a column or row.

These annual financial statements have been prepared on the assumption that the Company would continue as a going concern in the foreseeable future. As at the date of authorisation of these financial statements, there are no circumstances which would indicate a threat to the Company continuing as a going concern. For detailed information, see Note 10.

In addition, for the purposes of financial reporting, measurements at fair value are categorised according to three levels, depending on the degree to which the input data for measurements of fair value is observable and on the significance of the input data for measurement to the fair value as a whole. These levels are as follows:

- Level 1: the input data is prices listed (unadjusted) on the active markets for identical assets or liabilities to which the entity has access as at the measurement date.
- Level 2: the input data is any data other than the prices categorised to Level 1, which is observable for a given asset or liability, directly or indirectly.
- Level 3: the input data is unobservable data for measurement of a given asset or liability.

7.1. Statement of compliance

The annual financial statements were prepared in accordance with the International Financial Reporting Standards (“IFRSs”) approved by the European Union, published and applicable as at 31 December 2019.

Any standards other than those that were in force as at 31 December 2019 and were approved by the EU as at the preparation hereof are described in Note 9.

The effect of application of new accounting standards and changes in accounting policy is described in Note 9.

The IFRSs comprise standards and interpretations approved by the International Accounting Standards Board ("IASB") and the International Financial Reporting Interpretations Committee ("IFRIC").

7.2. Measurement currency and reporting currency

The Polish zloty is the Company's measurement and reporting currency of these annual financial statements, whereas the Bulgarian lev (BGN) is the measurement and reporting currency of the Trakcja PRKiI S.A. establishment in Bulgaria and the Ukrainian hryvnia (UAH) is the measurement and reporting currency of the establishment in Ukraine.

8. Significant accounting principles

8.1. Foreign currency translation

The Polish zloty is the Company's functional currency, whereas the Bulgarian lev (BGN) is the functional currency of the Trakcja PRKiI S.A. establishment in Bulgaria and the Ukrainian hryvnia (UAH) is the functional currency of the establishment in Ukraine.

Transactions denominated in foreign currencies are translated by the Company into its functional currency at a relevant exchange rate effective for the transaction date.

At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the closing rate. Currency translation differences are recognised under finance income or costs, as appropriate.

Non-monetary assets and liabilities recognised at historical cost in a foreign currency are disclosed at the historical exchange rate from the transaction date. Non-monetary assets and liabilities recognised at fair value in a foreign currency are translated at the exchange rate effective on the date of determining the fair value.

The following exchange rates were used to determine the carrying amounts:

Exchange rate on the reporting date:	31.12.2019	31.12.2018
PLN/USD	3,7977	3,7597
PLN/EUR	4,2585	4,3000
PLN/SEK	0,4073	0,4201
PLN/BGN	2,1773	2,1985
PLN/UAH	0,1602	0,1357

The average exchange rate, calculated as the arithmetic average of the rates prevailing on the last day of each month during the period:	31.12.2019	31.12.2018
PLN/USD	3,8440	3,6227
PLN/EUR	4,3018	4,2669
PLN/SEK	0,4064	0,4147
PLN/BGN	2,1995	2,1816
PLN/UAH	0,1502	0,1330

8.2. Tangible non-current assets

8.2.1. Non-current assets

Non-current assets are measured at cost less any accumulated depreciation and impairment losses. Non-current assets are initially recognised at cost increased by all costs directly related to their purchase and all costs necessary to bring the asset to the working condition for its intended use. This also includes costs of replacing components of machines and equipment, when incurred, if the recognition criteria are met. Any costs incurred after the non-current asset concerned has been put into operation, such as costs of maintenance or repairs, are recognised directly in profit or loss when incurred.

The carrying amount of non-current assets includes any costs of modernisation; however, any costs of regular and significant overhauls which are necessary to prevent failures and whose value differs significantly in individual reporting periods are recognised as prepayments. Any potential carrying amount of the previous overhaul is derecognised from the carrying amount of the non-current asset concerned.

Non-current assets (except for any land other than used for production of minerals by means of an open-cast method) are depreciated using the straight-line method over their expected useful life. The expected useful life of each asset is determined when the asset concerned is accepted for use. Non-current assets held under finance leases are depreciated according to the method determined by the Company for its own non-current assets. However, if the transfer of the ownership title is not certain, non-current assets held under finance leases are depreciated during their expected useful life or their lease term, whichever is the shorter. Any non-current assets which are not accepted for use directly, because they need to be assembled or adapted or have any other additional works carried out or expenses incurred, are recognised as non-current assets under construction until they are accepted for use.

Any non-current assets which are unused, withdrawn from use or intended for disposal or sale are measured at the amount no higher than their realisable net sales price.

Non-current assets are depreciated using the straight-line method. The depreciation rates applied reflect the expected useful life of non-current assets.

The expected useful life of non-current assets adopted by the Company is as follows:

- hardware 3 years or a contractual term,
- tools and instrumentation 5 years,
- ground containers 22 years,
- boilers and furnaces from 14 to 25 years,
- metalwork machinery from 5 to 14 years,
- gas compressors from 10 to 20 years,
- power generation devices 13 years,

- heavy-duty building machinery from 5 to 30 years,
- small equipment and machines 10 years,
- technological wagons from 14 to 25 years,
- storage, workshop and utility wagons from 14 to 20 years,
- storage and utility containers from 5 to 25 years,
- passenger vehicles and delivery vehicles (up to 3.5 t) from 5 to 7 years,
- trucks (above 3.5 t) from 5 to 10 years,
- office and social facilities from 10 to 26 years.

The residual value, useful life and depreciation method of non-current assets are reviewed on an annual basis and changed if necessary, where the change made is effective from the beginning of the next financial year.

A non-current asset can be derecognised from the balance sheet on disposal or when no future economic benefits are expected from its further use. Any gain or loss on derecognition of the non-current asset concerned from the balance sheet (calculated as the difference between the potential net sales proceeds and the carrying amount thereof) is recognised in profit or loss for the period, in which the non-current asset is derecognised.

8.2.2. Non-current assets under construction

Non-current assets under construction are measured at the total amount of costs directly related to their acquisition or manufacturing. This also includes any net financial costs relating to the servicing and collateral of the debt incurred (paid or accrued) in relation to non-current assets under construction until they are put into operation.

Any non-current assets under construction which are discontinued or intended for disposal or sale are measured at the amount no higher than their realisable net sales price.

Non-current assets under construction are depreciated no earlier than after their construction has been completed and they have been put into operation.

Any cost of refurbishing is recognised in the carrying amount of the tangible non-current assets, if the recognition criteria are met.

8.2.3. Leases

The accounting policy in the area of lease agreement recognition, in accordance with the new standard applicable from 1 January 2019 onwards, has been described in Note 9. Lease payments are apportioned between financial costs and a reduction in the outstanding balance of the lease liability in such a manner as to produce a fixed interest rate on the remaining balance of the liability. Financial costs are recognised directly in profit or loss.

Non-current assets held under finance leases are depreciated according to the method determined by the Company for its own non-current assets. However, if the transfer of the ownership title is not certain, non-current assets held under finance leases are depreciated during their expected useful life or their lease term, whichever is shorter.

The Company holds the right of perpetual usufruct of land. In keeping with IFRS 16 Lease, the right of perpetual usufruct of land is also classified as a finance lease.

The right of perpetual usufruct of land is recognised as a liability measured using the perpetuity method, including any lease payments made at the commencement date or before that date (also any payment for the

acquisition of the right concerned on the market). After the initial recognition, the right of perpetual usufruct of land, excluding any right of perpetual usufruct of land measured using the perpetuity method, shall be measured at cost, less any accumulated amortisation and accumulated impairment losses, adjusted by any remeasurement of the lease liability.

The right of perpetual usufruct of land is depreciated over the period for which it has been granted. This period is 99 years.

8.2.4. Investment in subsidiaries

Shares in related entities are recognised at cost less any impairment losses. Pursuant to IAS 36 Impairment of Assets, impairment losses are recognised by way of comparing the asset's carrying amount with the higher of the asset's fair value less any costs of disposal or the asset's value in use.

8.2.5. Impairment of non-financial assets

As at the balance sheet date, the Company is required to assess whether there is any indication that an asset may be impaired. If there is an indication that an asset may be impaired or that an annual impairment test needs to be conducted in order to check whether an asset has been impaired, the Company calculates the asset's recoverable amount.

The asset's recoverable value corresponds to the higher of the asset's or cash-generating unit's fair value less any selling costs or the asset's or cash-generating unit's value in use. It is determined for individual assets unless a given asset generates no cash flows that are mostly independent of those generated by other assets. If the carrying amount of an asset is higher than its recoverable value, the asset is impaired and an appropriate impairment loss is recognised. For the value in use to be determined, the forecast cash flows are discounted to their present value using a discount rate before tax, which reflects the present market estimation of the value of money in time and a risk typical of a given asset. Impairment losses on assets used in the ongoing business activities are recognised in other operating costs.

As at each balance sheet date the Company decides on whether any circumstances exist which indicate that impairment losses recognised in previous periods on the asset concerned are still required or whether they should be decreased. If appropriate circumstances exist, the Company estimates the recoverable value of the asset concerned. The previously recognised impairment loss is reversed if, and only if, the estimated value used for determining the recoverable value of a given asset has changed since its recognition. In such an event, the carrying amount of a given asset is increased up to its recoverable value. The increased amount cannot exceed the asset's carrying amount, which would be determined (less any accumulated depreciation or amortisation) if in the previous years the asset concerned was not impaired at all. The reversal of the impairment loss on a given asset is recognised as revenue directly in the income statement, unless such an asset is recognised in the revaluated value, then the reversal is recognised as an increase in the revaluation reserve. Upon the reversal of the impairment loss, in the following periods the amortisation/depreciation amount is adjusted in such a way as to allow for the verified carrying amount of a given asset less its residual value to be amortised/depreciated on a regular basis over the remain useful life of such an asset.

8.2.6. External borrowing costs

External borrowing costs attributable to the acquisition, construction or production of a qualifying asset are included in the cost of the asset in accordance with IAS 23. Any other external borrowing costs are recognised when incurred.

8.3. Assets held for sale

The Company classifies non-current assets as held for sale if their carrying amount is to be recovered through a sale transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Assets held for sale available for immediate sale in their present condition (subject to the conditions customarily applied to the sale of such assets), their sale is highly probable, and their buyer is actively searched for by the Company's management.

Assets held for sale are presented as a separate line item in the balance sheet. .

8.4. Investment properties

The Company's investment properties include buildings and land held to earn rentals or for capital appreciation. Investment properties acquired in separate transactions are initially measured at cost including transaction costs. Otherwise, e.g. when acquired as a result of the acquisition of another business entity, they are initially measured at their fair value.

After their initial recognition all investment properties are recognised at their fair value.

The Company estimates the value of investment properties as at December 31 each year on the basis of valuations carried out at such a date by independent experts. Throughout the year, as at the consecutive balance sheet dates, i.e. March 31, June 30 and September 30, the Company assesses whether there are any indications that fair value may need to be changed.

Fair value can be determined by way of:

- updating it on the basis of valuation carried out by an independent expert with recognised and suitable professional qualifications and experience in evaluating properties with similar location and characteristics;
- analysing data derived from the active market (market prices) of similar investment properties with similar location and in similar condition.

Assets are transferred to and from investment properties only if their intended manner of use is changed.

Any change in fair value of the investment properties during a given year is recognised in profit or loss. If the Company's asset is transferred to the investment properties, the difference between its fair value and its carrying amount is recognised in other comprehensive income, and any further changes thereto are recognised in profit or loss.

If the entity may determine the fair value of an investment property previously measured at cost during its construction, it measures such a property at its fair value. Once the construction of the investment property measured at fair value is completed, the difference between the fair value of such a property on that day and its earlier carrying amount is recognised in profit or loss.

8.5. Intangible assets

Intangible assets acquired in separate transactions are recognised in the balance sheet at cost. Intangible assets acquired through the acquisition of a business entity are recognised in the balance sheet at fair value as at the acquisition. Upon their initial recognition, intangible assets are measured at cost less any accumulated amortisation and any impairment losses thereon.

Any expenditure on internally generated intangible assets, except for the capitalised development expenditure, is not capitalised and is recognised in costs in the period in which it is incurred.

Intangible assets with a definite useful life are amortised using the straight-line method over the useful life and tested for impairment whenever there is any indication that they may be impaired. For the intangible assets with a definite useful life the amortisation period and the amortisation method are reviewed at least at the end of each financial year. Any changes in the expected useful life or the expected consumption of economic benefits generated by a given asset are recognised through a change, respectively, in the amortisation period or in the amortisation method and treated as changes in the estimated values. Amortisation of the intangible assets with a definite useful life is recognised as profit or loss in the item which corresponds to the function of a given intangible asset.

Intangible assets with an indefinite useful life and those that are not in use are annually tested for impairment individually or jointly as cash-generating units.

8.5.1. Research and development costs

Research and development costs are recognised in profit or loss as costs when incurred. Any development expenditure incurred as part of a given project is carried forward to the next period, when it is assumed that it will be recovered in the future. After the initial recognition of development expenditure, the historical cost model is applied, according to which assets are recognised at cost less any accumulated amortisation and impairment losses. Any expenditure carried forward to the next period is amortised over the expected period of revenue generated from sale of a given project.

Development costs are tested for impairment on an annual basis if a given asset has not yet been put into operation or, more frequently, when during the reporting period there is any indication that their carrying amount may be impossible to recover.

As at each balance sheet date, any development costs that are in progress are disclosed in intangible assets as a separate item ("Intangible assets under construction").

The rules applied to the Company's intangible assets can be summarised as follows:

	Patents and licences	Cost of development works	Computer software
Useful life	In case of patents and licences used under agreements for a definite period, their useful life period adopted includes an additional period for which their use can be extended.	3 years	2 years
Applied amortisation method	Straight-line method	Straight-line method	Straight-line method
Internally generated or acquired	Acquired	Internally generated	Acquired
Impairment tests	Annual	Annual	Annual

Any gain or loss on derecognition of intangible assets is calculated as a difference between the net sales proceeds and the carrying amount of such assets, and recognised in profit or loss for the period, in which the assets are derecognised.

8.5.2. Goodwill

Goodwill arising on acquisition of a business is initially recognised at cost being the excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following initial recognition, goodwill is carried at acquisition cost less accumulated impairment losses. Goodwill is tested for impairment annually, or more frequently if there is any indication of impairment. Goodwill is not amortised.

As at the acquisition date, the acquired goodwill is allocated to each of the cash-generating units that may benefit from the synergies of the business combination. Each unit or group of units to which goodwill has been allocated should:

- represent the lowest level within the Company at which the goodwill is monitored for internal management purposes and
- not be greater than a single operating segment, determined in accordance with IFRS 8 *Operating Segments* before aggregation.

Impairment of goodwill is determined by estimating the recoverable amount of the cash-generating unit to which the goodwill has been allocated. If the recoverable amount of a cash-generating unit is lower than its carrying amount, the Group recognises an impairment loss. If goodwill comprises a part of a cash-generating unit and the Company sells a part of the cash-generating unit's business, the goodwill pertaining to the sold business is included in the carrying amount of the sold business for the purpose of calculating gains or losses on disposal of the part of business. Goodwill disposed of in such circumstances is measured on the basis of the relative value of the operations disposed of and the value of the portion of the cash-generating unit retained.

8.6. Financial instruments

In accordance with IFRS 9 Financial Instruments, the Company recognises a financial asset or a financial liability in its statement of financial position when, and only when, the Company becomes party to the contractual provisions of the instrument.

Initial recognition of a financial instrument:

The Company classifies financial assets into relevant category depending on the business model for financial assets management and on the characteristics of the contractual cash flows (SPPI test) for a given financial asset. The analysis of the intra-group agreements and the terms of the other financial instruments did not identify the conditions leading to the failure of the SPPI test. With respect to the business model, all debt financial assets held by the Company are held to collect contractual cash flows.

After initial recognition, the Company measures each financial asset:

- at amortised cost;
- at fair value through other comprehensive income,
- at fair value through profit or loss.

Financial assets measured at amortised cost

The Company measures a financial asset at amortised cost if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows;
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company classifies trade and other receivables, deposits under bank guarantees, loans granted, financial assets under a concession agreement as well as cash and cash equivalents as assets measured at amortised cost.

Following the initial recognition, trade and other receivables are measured at amortised cost using the effective interest rate method, taking into account the expected credit loss, whereby trade and other receivables maturing within less than 12 months from the recognition date (i.e. without a financing component) are not discounted and are measured at their nominal value, less the expected credit loss.

The Company uses simplified methods of measurement of financial assets and liabilities measured at amortized cost if it does not distort information included in the statement of financial position, in particular when the period until the repayment of the amount receivable or settlement of the liability does not exceed 90 days.

Financial assets accounted at amortized cost, where the Company applies simplifications, are measured at initial recognition at the amount due, and subsequently, including at the end of the reporting period, at the amount of the payment due less the expected credit loss.

Financial assets measured at fair value through profit or loss

The Company does not hold any equity instruments. The Company recognises derivative instruments not designated for hedge accounting purposes as assets measured at fair value through profit or loss.

Option to measure at fair value through profit or loss and option to measure at fair value through other comprehensive income

IFRS 9 allows for classification of instruments into the category of fair value through profit or loss regardless of whether or not the tests described above are met, if such classification eliminates or significantly reduces the accounting mismatch. The Company does not use this classification option.

IFRS 9 allows for classification of equity instruments as measured at fair value through other comprehensive income. Instruments classified in this category are measured at fair value and changes in fair value are recognised directly in other comprehensive income without any transfer to profit or loss at the moment of sale. The Company does not use this option.

The general model is used by the Company for financial assets measured at amortised cost - other than trade receivables and assets from contracts with customers.

In the general model, the Company monitors the changes in the level of credit risk associated with a given financial asset and classifies financial assets to one of the three stages of impairment allowances based on the observation of the change in the credit risk level in relation to the initial recognition of the instrument.

Credit losses are defined as the difference between all contractual cash flows that are due to the entity and the cash flows that the entity expects to receive. This difference is discounted using the original effective interest rate.

The Company accounts for forward-looking information in the applied parameters of expected credit losses estimation model through the expert, management adjustment of base ratios of probability of default. To calculate the expected credit loss, the Company determines the probability of default for receivables estimated on the basis of an analysis of the value of outstanding invoices and the default rate estimated on the basis of the value of outstanding invoices.

In accordance with IFRS 9, for trade receivables measured at amortised cost, the Company applied a practical simplification, whereby the lifetime expected losses may be assessed on the basis of an "age table of past due receivables" based on historical data, applying the principles set forth in the standard for current and expected economic conditions which are determined on the basis of an expert adjustment.

In the calculation of the expected credit loss, the Company applies a practical simplification in accordance with IFRS 9 - lifetime expected credit losses on trade receivables are assessed in terms of "age table of past due receivables". Requirements:

- Based on historical experience,
- Determines fixed % of allowances,
- The tables differ depending on the historical experience of each customer group.

For trade receivables, the Company applies a portfolio approach whereby historical data on the ratio of uncollected receivables to total receivables that have reached a specified delinquency bracket for each risk category are analysed. The Company has defined the following brackets:

- Paid on or before the due date,
- Paid up to 30 days after the due date,
- Paid 31-90 days after the due date,
- Paid 91-180 days after the due date,
- Paid 181-365 days after the due date,
- Paid later than 365 days after the due date,
- Unpaid.

For two financial years prior to the year under analysis (T-2 and T-1), the Company determines how many invoices issued during the year were finally paid in each of the brackets. On this basis, the next statement is created - a cumulative statement of total sales on invoices for subsequent periods (how many of the invoices issued in a given year were in the bracket of 0-30 days past due for at least 1 day, how many invoices were in the bracket of 31-60 days for at least 1 day, etc. up to the amount of invoices that were never paid).

The amount of receivables unpaid is applied to each of the aggregated amounts in order to calculate the portion of the receivables in a given bracket that will not be recovered. This percentage is used as the allowance ratio for the bracket. The amount of unpaid receivables may be adjusted either upwards or downwards depending on the Company's expectations concerning future non-recoverable amounts due to trends in the factors affecting the recoverability of receivables.

Weights are assigned to the allowance ratios for each year under review and the weighted average allowance ratio is calculated for each bracket.

This calculation method ensures calculation of future expected credit losses based on historical loss experience for each age bracket of receivables and enables modification of the allowance ratio for expected changes in the recoverability of receivables.

As at each balance sheet date, the Company individually assesses the expected losses on recognised receivables and the probability of their occurrence for infrastructure entities. This assessment is made on the basis of the estimated outcome of negotiations in the case of disputes. Due to the fact that this group includes entities without bankruptcy capacity, the Company does not estimate the probability of default on contractual terms, but only the recoverable amount of receivables following the arrangements made with these entities regarding the final value of the work performed.

For other entities, the Company applied the model of group assessment of expected losses in line with the simplified approach defined in IFRS 9. Under this model, the Company estimates the allowance for lifetime credit losses on receivables from entities with similar credit risk characteristics. For the purpose of estimating the expected credit loss, the Company uses historical levels of credit losses depending on past due periods, adjusted by current expectations as to the development of these factors in the future.

Impairment of receivables reduces their carrying amount by using an expected loss account and recognising them as cost of sales or finance cost, respectively, depending on the type of receivables write-down. Reversal of the expected credit loss on receivables is recognised as a decrease in the cost of sales or finance costs.

Equity instruments are recognised in accordance with IAS 27 at cost less impairment losses.

A derivative measured at fair value through profit or loss may be designated as a hedging instrument. Hedging instruments are subject to special measurement rules.

Presentation

Financial assets and financial liabilities are presented as non-current unless they mature within twelve months after the balance sheet date.

Derecognition of assets

A financial asset (or a part of a financial asset or a group of similar financial assets) is derecognised from the balance sheet if:

- the contractual rights to receive the cash flows from the financial asset expire;
- the Company has transferred its rights to receive the cash flows from the asset and either (a) it has transferred substantially all risks and rewards of ownership of the financial asset, or (b) it has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset but it has transferred control over the financial asset; or
- The Company retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows in full and without undue delay to a third party under a transfer agreement.

If the Company has transferred its rights to receive the cash flows from an asset to another entity and it has neither transferred nor retained substantially all risks and rewards of ownership and the transfer has not resulted in the transfer of control over the asset, the asset is recognised to the extent the Company has continuing involvement in such asset. The Company's continuing involvement in the form of guaranteeing the transferred asset is measured at the lower of the carrying amount of the asset and the maximum amount of the consideration received that the Company could be required to pay.

8.7. Hedge accounting

A hedging instrument is a designated derivative or (for a hedge of the risk of changes in foreign currency exchange rates only) a designated non-derivative financial asset or non-derivative financial liability whose fair value or cash flows are expected to offset changes in the fair value or cash flows of a designated hedged item.

After the initial recognition, the entity measures a financial asset or liability at fair value corresponding to the amount for which an asset may be replaced or liability settled between the interested and informed parties at arm's length.

A cash flow hedge which meets the hedge accounting principles is recognised as follows:

- A part of gain or loss on a hedging instrument which is considered an effective hedge is recognised only as a change in value of the hedged position;
- A non-effective part of gain or loss on a hedging instrument is recognised in profit or loss.

A cash flow hedge considered effective is recognised in equity until the recognition of the asset or liability hedged.

8.8. Inventory

Inventory is measured at cost no higher than realisable selling price as at the balance sheet date.

The cost does not include:

- any costs arising from unused production capacity and production losses,
- any costs of storage, unless they are indispensable for the manufacturing process,
- any margin on internal turnover (any margin on services rendered by the auxiliary business activities for the core business activities and any margin on internal sales between different sections of the core business activities), which is excluded together with the cost of internal turnover,
- any general and administrative costs and any costs of sales, marketing and distribution.

Any inventory that is used or sold is measured at the prices (costs) of the assets, which were acquired (manufactured) first by the entity, i.e. according to the FIFO (First in First out) method. Write-downs of inventory made because its value has declined or adjusted to the net realisable value are recognised in the balance sheet and classified as part of the cost of goods sold.

Reversals of write-downs are recognised as decreases in the cost of goods sold.

The net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

8.9. Cash and cash equivalents

Cash and short-term deposits in the balance sheet include cash at bank and in hand as well as short-term deposits with an original maturity of three months or less.

8.10. Equity

Equity is recognised in the accounting records by type and according to the rules set forth in the provisions of law and the Company's Articles of Association.

Share capital is recognised in its nominal value, as specified in the Company's Articles of Association and entered in the commercial register.

Any declared, but unpaid, contributions to share capital are recognised in called-up share capital. Own shares and called-up share capital decrease the Company's equity.

Revaluation reserve is created in accordance with the provisions of the commercial law, according to which contributions to a supplementary capital must constitute at least 8% of the profit for a given financial year, until it constitutes at least one third of share capital.

Share premium account is the surplus of the issue price over the nominal value.

Any costs of share issue at the establishment of a joint-stock company or at an increase in share capital decrease share premium account down to the surplus of the issue value over the nominal value of shares.

Revaluation reserve also includes:

- Previous years' profits,
- Actuarial gains (losses).

Retained earnings include a profit or loss for the reporting period concerned.

8.11. Interest-bearing loans, borrowings and debt securities

All the loans, borrowings and debt securities are initially recognised at cost corresponding to fair value of received cash less any costs associated with the obtaining of a loan or borrowing.

After the initial recognition, interest-bearing loans, borrowings and debt securities are subsequently measured at amortised cost using the effective interest rate method.

Amortised cost includes any costs associated with the obtaining of a loan or borrowing, as well as any costs of discounts or bonuses obtained at the settlement of the liability.

Any gain or loss is recognised in the balance sheet as at the derecognition of the liability from the balance sheet and as a result of write-down calculation.

8.12. Trade and other liabilities

After initial recognition, the Company measures financial liabilities:

- at amortised cost,
- at fair value through profit or loss.

Short-term trade liabilities are reported at amounts payable. Financial liabilities other than financial instruments measured at fair value through profit or loss are measured at amortised cost using the effective interest rate method.

Financial liabilities other than financial liabilities measured at fair value through profit or loss are measured as at the balance sheet date at amortised cost (i.e. they are discounted using the effective interest rate). Short-term liabilities, with maturities of up to 365 days, are measured at amounts due.

Derecognition of a financial liability

A financial liability (or a part of a financial liability) is derecognised from the statement of financial position when it is extinguished, i.e., when the obligations specified in the contract are discharged, cancelled or expired.

A financial liability (or part of it) is extinguished when the debtor either:

- discharges the liability (or part of it) by paying the creditor, normally with cash, other financial assets, goods or services; or
- is legally released from primary responsibility for the liability (or part of it) either by process of law or by the creditor. (If the debtor has given a guarantee this condition may still be met.)

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, shall be recognised in profit or loss.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

8.13. Provisions

Provisions are recognised, if the Company has an obligation (legal or customarily expected) resulting from past events, and if it is likely that meeting such an obligation shall result in the outflow of economic benefits being necessary, and if the amount of such an obligation can be reliably estimated. If the Company expects that the costs covered by a provision will be reimbursed, for example, under an insurance contract, such a reimbursement is recognised as a separate asset, but only when it is certain that it will be made. Any costs related to a given provision are recognised in loss or profit less any certain reimbursements.

If an impact of the value of money in time is significant, the provision is determined by discounting the forecast future cash flows to their present value, using the gross discount rate that reflects the present market value of money in time and any risk related to a given liability. If a discount-based method is applied, an increase in the provision over time is recognised as financing costs.

Provisions for losses on contracts are recognised when inevitable expenses related to the fulfilment of the commitment towards a customer exceed expected revenues according to the estimates of a realisable transaction price. In particular, such provisions shall also be recognised as a result of the revision of budgets and the degree of work progress. In events in which the future budgeted costs exceed the revenues from the transaction price, which are still to be recognised, the difference (expected loss on the contract concerned) shall be recognised in the statement of financial position as a provision. In the following periods, such a provision shall be derecognised as the actual loss is incurred or increased if the following revisions result in a higher loss being expected.

The Company recognises no provisions for future operating losses.

A given provision may only be used for expenditures for which it was originally recognised. The provision is used without the effect on profit or loss by allocating its estimated amount to the liabilities or by decreasing its value in relation to the payment made.

Provisions are recognised respectively as operating expenses of core business activities, other operating expenses or financial expenses, depending on the circumstances, to which potential liabilities relate.

Any unused provisions, whose further maintenance is not reasonable, shall increase as at the day, in which they become obsolete, respectively, revenues from the core operating activities, other operating revenues or financial revenues, depending in which category they were recognised at the time of their creation.

If a discount-based method is applied, an increase in the provision over time is recognised as a financial expense.

Provisions shall be subject to revision as at each balance sheet date in order to reflect current estimates.

8.13.1. Retirement and pension benefits and jubilee bonuses

In accordance with the corporate remuneration systems, the Company's employees are entitled to jubilee bonuses and retirement and pension benefits. Jubilee bonuses are paid to employees who have worked in the Company for a certain number of years. Retirement bonuses are paid on a one-off basis at the moment of retiring. The amounts of retirement and pension benefits and jubilee bonuses depend on the employee's work records and average remuneration. The company creates provisions for future liabilities from retirement and pension benefits and jubilee bonuses in order to assign costs to relevant periods. Pursuant to IAS 19, jubilee bonuses are other long-term employee benefits, and retirement benefits are programmes for certain benefits upon the termination of the employment period. Present value of these liabilities as at the balance sheet date is determined in accordance with the generally applicable actuarial methods. Accrued liabilities are equal to the discounted payments to be made in the future, taking into account the turnover of employment, and relate to the period up to the balance sheet date. Demographic data and information about the turnover of employment are based on historical data. Any actuarial gains or losses on the measurement of the retirement and pension benefit programmes are recognised in other comprehensive income, whereas any actuarial gains or losses on the measurement of jubilee bonuses are recognised in profit or loss. Any other costs related to the programmes for specific benefits are recognised in a full amount in profit or loss for the period in which they are incurred. Employee benefit liabilities for retirement benefits and jubilee bonuses in the current period are estimated on the basis of actuarial methods which take into account amendments to the remuneration regulations made on June 3, 2017.

8.14. Prepayments

Prepayments include in particular:

- rents paid in advance,
- insurance,
- subscriptions,
- maintenance repairs,
- external services to be rendered in the following periods, but paid for in advance.

Prepayments are settled respectively to the lapse of time or the quantity of services rendered. The time and manner of settlement depends on the nature of the costs settled on a prudent basis.

If costs attributable to future periods are not settled within the nearest 12 months from the balance sheet date, they are disclosed in the balance sheet as a separate item ("Long-term prepayments").

8.15. Settlements under contracts with customers

At the conclusion of the agreement, the Company makes assessment of goods and services resulting therefrom and identifies as a liability to render services any promise to transfer to a customer:

- a) any goods or services (or any bundle of goods or services) that are distinct; or
- b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

A series of distinct goods or services is transferred to the customer in the same pattern if both of the following criteria are met:

- a) each distinct good or service in the series that the Company promises to transfer consecutively to the customer meets the criteria specified in IFRS 15, consisting in such a good or service being regarded as a performance obligation that is satisfied over time; and
- b) in keeping with IFRS 15, a single method for measuring progress would be used to measure the Company's progress towards complete satisfaction of the performance obligation to transfer each distinct good or service in the series to the customer.

A good or service is distinct if both of the following criteria are met:

- a) the customer can benefit from the good or service on its own or in conjunction with other readily available resources (i.e. the good or service can be distinct); and
- b) the Company's promise to transfer the good or service to the customer is separately identifiable from other promises in the agreement (i.e. the good or service are distinct within the same agreement).

Revenue is recognised as at the fulfilment (or during the fulfilment) of the obligation to complete satisfaction of the performance obligation to transfer the promised good or service (i.e. an item of assets) to the customer. The transfer of an item of assets is completed at the acquisition by the customer of control over it.

For each obligation to complete satisfaction identified pursuant to the aforementioned provisions, the Company shall determine at the conclusion of the agreement, whether the obligation concerned is to be completed over time or at a point in time. If the Company does not satisfy its performance obligation over time, it satisfies it at a point in time.

For each obligation to complete satisfaction of a performance obligation over time, the Company recognises revenues over time, measuring the degree of the total completion thereof. The purpose of such measurements is to determine the progress in the Company's performance of the obligation to transfer control over the goods or services promised to the customer (i.e. the degree of progress in the obligation to complete satisfaction).

The Company applies a single method for measuring progress to each obligation to complete satisfaction of a performance obligation over time and applies this method consistently in relation to similar obligations and in similar circumstances. At the end of each reporting period, the Company reassesses the degree of progress in the full completion of the obligation performed over time.

After the fulfilment (or during the fulfilment) of the obligation to complete satisfaction of the performance obligation, the Company recognises as revenue an amount equivalent to the transaction price (excluding the estimated value of variable remuneration, which is restricted) that was assigned to the obligation concerned. In order to determine the transaction price, the Company takes into consideration the terms of the agreement and the customary commercial practices. The transaction price is an amount of remuneration which, as expected by the Company, is to be paid to it in exchange for the transfer of the goods or services promised to the customer, except for any amounts collected for the benefit of third parties (e.g. any sales tax).

8.15.1. Contract asset

In the statement of financial position, the Company recognises a contract asset, i.e. the Company's right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time. This item of the statement of financial position includes, in particular, assets relating to completed and delivered works under long-term construction contracts

that have not yet been invoiced and the recognition of revenue in connection with the transfer of control over products or goods that will be invoiced in the future.

8.15.2. Contract liabilities

In the statement of financial position, the Company recognises a contract liability, i.e. the Company's obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. The Company recognises a contract liability mainly in relation to contracts for which the payment is made in advance and in relation to the consideration for construction works received in advance for services not yet provided by the Company. Moreover, a contract liability arises in the case of completed transactions with customers entitled to discounts that will be settled jointly at the end of a specified period.

8.15.3. Short-term receivables

The Company recognises an amount receivable if its right to consideration is unconditional. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due.

After initial recognition, short-term trade and other receivables are measured at the amortised cost using the effective interest method less any impairment losses.

8.15.4. Revenue and costs from contracts with customers

The Company determines the degree of progress in the completion of the performance obligation for each obligation on the basis of periodic reports presented by directors responsible for particular construction projects. Reports are prepared on a quarterly basis and specify the degree of progress in works and the estimation of costs incurred and budgeted.

Based on the reports, the data on the degree of progress is entered in the Company's accounting system and used for calculating revenues and costs.

The amounts recognised in the statement of profit or loss and in the balance sheet as assets and liabilities concerning contracts are determined as a ratio of the estimated degree of work progress to the estimated general costs of contracts and the estimated revenues from contracts.

The estimated revenues are derived from the transaction price which included all the amounts due to the Company for the performance of a contract. Such amounts may include contractual amounts of remuneration and its variables, if the Company assesses the likelihood of the completion of the relevant terms as high, and may also be decreased by any rebates or discounts on the price, which the Company expects in the future.

Revenue category	Character, essential payment terms and the moment of fulfilment of the obligation to perform the service.
<p>Revenues from the sale of long-term construction services</p>	<p>Construction and assembly contracts cover various market segments, including:</p> <ul style="list-style-type: none"> - tracks and contact line, - electric power engineering, - bridges, viaducts, tunnels, - roads and motorways. <p>Obligations to perform the service related to the implementation of long-term construction contracts are met in time. Revenue from these services is recognized in the statement of profit or loss, in proportion to the degree of the implementation thereof as at the reporting date. The degree of service implementation is assessed on the basis of the level of cost advancement.</p> <p>Revenue is not recognized when there is significant uncertainty in connection with obtaining due remuneration, reimbursement of costs incurred or the potential return of products and goods.</p> <p>The Group does not apply payment terms, as well as advance payments exceeding 12 months, thus the contracts do not contain a significant element of financing.</p>
<p>Revenues from the sale of design services</p>	<p>The Trakcja Group offers specialized design services in the field of study works, feasibility studies, conceptual designs, construction and executive projects, assembly projects, as-built projects, bidding and costing documents, as well as other specific analyses in the field of railway construction and railway transport technologies.</p> <p>Obligations to perform a service related to the implementation of project work are met at a specific point in time - at the moment of the transfer of control over the products of the project works. Revenue is not recognized when there is significant uncertainty in connection with obtaining due remuneration, reimbursement of costs incurred or the potential return of products and goods.</p> <p>The Group does not apply payment terms, as well as advance payments exceeding 12 months, thus the contracts do not contain a significant element of financing.</p>
<p>Revenue from renting equipment</p>	<p>The Group offers rental services for railway construction works and all general construction works.</p> <p>Revenue from renting of the equipment is recognized in the statement of profit or loss in time in the amount of monthly invoices issued.</p> <p>The Group does not apply payment terms, as well as advance payments exceeding 12 months, thus the contracts do not contain a significant element of financing.</p>

The Company verifies on a quarterly basis the following:

- the degree of work progress;
- the total implementation costs of works;

- the expected transaction price.

The Company makes sure that the value of assets related to the contracts implemented, as indicated in the statement of financial position, does not exceed any potential future remuneration accounts less any costs attributable to future periods.

The foregoing is made, in particular, through the regular revision of the viability of the assumed transaction price and the expenses budget. The verified degree of progress in works is then compared to these two values in order to ensure that the assets are recognised exclusively up to the likely obtainable amount.

As a result of this process, the Company complies with the requirement under paragraph 101 of IFRS 15.

8.15.5. Revenue from consortium agreements

The Company implements certain contracts under consortium agreements whereby it acts as a consortium leader. The Company does not recognize in the income statement the portion of revenue and expenses attributable to consortium members – in accordance with IFRS 11.

At the same time, the Company recognises in the balance sheet only that portion of assets and liabilities that is attributable to the Company's share in jointly controlled operations.

8.16. Interest income

Interest income is recognised as it accrues (using the effective interest rate method) by reference to the net carrying amount of a particular financial asset.

8.17. Dividend income

Dividends are recognised when the shareholders' right to receive the payment is established.

8.18. Taxes

8.18.1. Current tax

Liabilities and receivables from the current tax for the current and previous periods are measured at the expected payment for the tax authorities (the expected refund from the tax authorities) calculated according to tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

8.18.2. Deferred tax

Deferred income tax is calculated using the balance sheet liability method in respect of all the temporary differences occurring as at the balance sheet date between the tax value of assets and liabilities and their carrying amounts disclosed in the financial statements.

Provisions for deferred income tax are recognised with reference to all the positive temporary differences:

- except for when a provision for deferred income tax arises from the initial recognition of goodwill or the initial recognition of an asset or liability in a transaction other than a business combination and having no effect at the moment of its being carried out on the gross profit or loss or on the taxable income or tax loss; and
- for the positive temporary differences arising from investments in subsidiaries or affiliated parties and shares in joint ventures, except for when the due dates for the reversal of temporary differences are subject to the investor's control and when it is likely that in the foreseeable future the temporary differences will not be reversed.

Deferred tax assets are recognised in relation to all the negative temporary differences and also to unused tax assets and unused tax losses carried forward to the next years, to the extent which makes it probable that future taxable income will be available to be reduced by the aforementioned differences, assets and losses:

- except for when the deferred tax assets related to the negative temporary differences arise from the initial recognition of an asset or liability in a transaction other than a business combination and having no effect at the moment of its being carried out on the gross profit or loss or on the taxable income or tax loss; and
- for the negative temporary differences arising from investments in subsidiaries or affiliated parties and shares in joint ventures, the deferred tax asset is recognised in the balance sheet only to the extent which makes it probable that in the near future the aforementioned temporary differences will be reversed and the taxable income will be available to deduct the negative temporary differences.

The carrying amount of the deferred tax asset is reviewed at each balance sheet date and is decreased as necessary, when it is no longer likely that future taxable income will be available to fully or partially capitalise the deferred income tax asset.

Deferred income tax assets and provisions for deferred income tax are measured with the use of such tax rates as are expected to be binding at the time of the capitalisation of such an asset or the release of such a provision, based on the tax rates (and tax laws) effective as at the balance sheet date or tax rates (and tax laws) that are to be certainly effective as at the balance sheet date.

Income tax on transactions recognised directly in equity is recognised in equity and not in profit or loss.

The Company offsets the deferred income tax assets and the provisions for deferred income tax if, and only if, it has obtained an enforceable legal title to offset receivables against provisions for current income tax and if the deferred income tax refers to the same tax payer and the same tax authority.

8.19. Value added tax

Revenues, costs, assets and liabilities are recognised less value added tax, except for the following:

- When the value added tax paid at the purchase of assets or services cannot be recovered from tax authorities; it is recognised respectively as part of the cost of such an asset or service;
- Receivables and liabilities that are disclosed with the value added tax.

A net amount of the value added tax to be recovered from or paid to tax authorities is recognised in the balance sheet as part of receivables or liabilities.

8.20. Earnings per share

Earnings per share for each period are calculated by dividing a net profit for a given period by the weighted average number of shares outstanding in the reporting period concerned. Diluted earnings per share for each period are calculated by dividing a net profit or loss for a given period by the total of the weighted average number of ordinary shares outstanding during the reporting period concerned and all the potential dilutive shares.

Shares are included in the weighted average number of shares starting from the day in which the payment for shares becomes due (which usually corresponds to their issue date). The ordinary shares issued as part of payment made under a business combination are taken into account when calculating the average weighted number of shares at the business combination date. Ordinary shares that can be issued if certain conditions are met (contingently issuable shares) are treated as outstanding during the period and included in the calculation of earnings per share only when the contingency has been met. Outstanding ordinary shares that are contingently returnable (i.e. are subject to recall) are not treated as outstanding and are excluded from the calculation of basic earnings per share until the date they are no longer subject to recall.

9. Standards and amendments to standards issued by the IASB

The effect of using new accounting standards and amendments to the accounting policy

Except for the changes presented below, the accounting principles (policy) applied to these separate financial statements for the financial year ending on December 31, 2019 are consistent with those applied to the annual consolidated financial statements for the financial year ended December 31, 2018.

The same principles have been applied to both the current and the comparable period.

Changes resulting from changes in IFRS

The new or amended standards and interpretations issued by the International Accounting Standards Board (IASB) or the International Financial Reporting Interpretations Committee (IFRIC), which are applicable from the beginning of the financial year concerned, have been specified below.

- IFRS 16 Leases

The new standard was published on January 13, 2016 and applies to annual periods beginning on or after January 1, 2019 and any earlier application thereof is admissible (but on the condition of simultaneous application of IFRS 15). The standard replaces existing regulations on leases (in particular, IAS 17) and completely changes the approach to leases of any type, requiring lessees to recognise assets and liabilities concerning leases of any type in the balance sheet.

- IFRIC 23 Uncertainty over Income Tax Treatments

The new interpretation was issued on June 7, 2017 and applies to annual periods beginning on or after January 1, 2019. The purpose of the interpretation is to indicate the manner of recognising income tax in financial statements when existing tax regulations leave room for interpretations and difference of opinions between the company and tax authorities.

- Amendments to IFRS 9: Prepayment features with negative compensation

The amendment to IFRS 9 was published on October 12, 2017 and applies to annual periods beginning on or after January 1, 2019. Its purpose is to indicate rules for valuation of financial assets, which may be early repaid pursuant to contractual terms, and, formally, may not meet the requirements of the “solely payments of principal and interest on the principal amount” (SPPI) criterion, which would exclude their valuation at amortized cost or at fair value charged to other total income.

- Amendment to IAS 28: Long-term interests in associates and joint ventures

The amendment to IAS 28 was published on October 12, 2017 and applies to annual periods beginning on or after January 1, 2019. Its purpose is to indicate rules for valuation of interests in associates and joint ventures in case of valuation other than using the equity method.

- Amendments to various standards resulting from the annual review of the International Financial Reporting Standards (Annual Improvements 2015-2017)

On December 12, 2017 the following amendments were introduced to the below standards, as a result of an IFRS review:

- IFRS 3 Business Combination – specifying that upon taking over the control, the entity will re-evaluate interests held in the joint venture;
- IFRS 11 Joint Arrangements – specifying that upon taking over common control, the entity does not re-evaluate interests held in the joint venture;
- IAS 12 Income Tax – specifying that all tax-related consequences of dividend payments should be recognized in the same manner;
- IAS 23 Borrowing Costs – instructing that general financing sources should also include credits and loans, which initially served to finance developed assets – starting from the moment when assets are ready to use in accordance with intended purpose (use or sale).

Amendments apply to annual periods beginning on or after January 1, 2019.

- Amendments to IAS 19: Plan Amendment, Curtailment or Settlement

Amendments to IAS 19 were published on February 7, 2018 and apply to annual periods beginning on or after January 1, 2019. Amendments relate to the manner of re-evaluation of benefit plans in case of any changes to

the plans. Amendments to this standard mean that in case of a re-evaluation of the net asset/liability due to the given plan, updated assumptions should be applied to determine the current cost of labour and cost of interest for periods following plan amendments. Previously, IAS 19 was not specific about this.

Effect of application of new accounting standards and changes to the accounting policy

Effects of application of new standards that had significant impacts on the financial statements have been presented below.

IFRS 16 Leases

Selected accounting principles

IFRS 16 Leases was published on January 13, 2016 and adopted by the European Union on October 31, 2017.

In accordance with requirements in this IFRS, the Company has been applying requirements of this new standard for recognition, measurement, presentation and disclosure of leases since January 1, 2019. The new standard has been implemented by the Company in accordance with transitional provisions specified in IFRS 16. The Company implemented IFRS 16 using a modified retrospective approach, therefore the comparable data for 2018 was not restated, and the potential total effect of the initial application of the new standard was recognised as an adjustment to the opening balance of retained earnings on the first day of application.

Definition of lease

Since January 1, 2019 the Company assesses whether a contract is or contains a lease on the basis of the definition of lease provided in IFRS 16.

In keeping with IFRS 16, a contract is or contains a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. In order to determine whether the contract conveys the right to control the use of a given asset for a period of time, the Company assesses whether throughout the entire period of use the customer has both:

- a) the right to obtain substantially all the economic benefits from the use of an identified asset; and
- b) the right to direct the use of an identified asset.

The Company applies new guidelines on the identification of leases only in relation to contracts entered into (or amended) on or after January 1, 2019. Therefore, the Company applied to all the contracts entered into before January 1, 2019, a practical expedient provided for under IFRS 16, in keeping with which an entity is not required to reassess whether a contract is, or contains, a lease at the date of initial application. Instead the Company applies IFRS 16 only to contracts which were identified as leases in accordance with IAS 17 and IFRIC 4.

Company as a lessee

In accordance with IFRS 16, the Company recognises a right-of-use asset and a lease liability in the statement of financial position, for all the lease contracts, except where IFRS 16 provides exemptions in that respect.

For contracts in force on January 1, 2019, previously classified as operating leases, the Company recognised the right-of-use assets and lease liabilities as follows:

- the lease liability was measured at the present value of the lease payments payable over the remaining lease term, discounted at the marginal interest rate applicable to a given lease on the first day of application;
- the right-of-use assets for individual leases (separately for each of them) were measured at the value equal to the lease liability. The Company applied the practical expedient referred to in section C10b of IFRS 16 to such leases.

In applying the modified retrospective method for implementing IFRS 16, the Company has implemented the following practical solutions for leases previously classified as operating leases under IAS 17, and therefore it recognises as expenses the following types of contracts:

- leases with a lease term of 12 months or less from the initial adoption of the standard;
- leases where the underlying asset has a low value, i.e. no higher than USD 5,000, for example: small items of furniture.

After initial recognition, the Company measures the right-of-use asset similar to any other non-financial fixed asset, and the lease liability similar to any financial liability. As a result, after initial recognition, the Company recognises depreciation of the right-of-use asset (except for when such an asset is an investment property) and interest on the lease liability.

For the right-of-use asset classified as investment property measured at fair value, the Company grossed-up the value of investment property, whose measurement was increased by the liability recognised under IFRS 16. Revaluation rules and frequency for investment property have been described in Note 9.4. of the Notes to the annual consolidated financial statements of Trakcja Group for 2019.

The determination of the lease term has a significant impact on the initial measurement of both assets and liabilities. In line with the definition of the lease term under IFRS 16, the lease term is the non-cancellable period and periods covered by an extension option or by a termination option, if it is reasonably certain that the Company exercises such an extension option or does not exercise such a termination option.

In addition, when making estimates and assumptions, the Company carried out other subjective assessments that have an effect on the measurement of the lease liabilities and the right-of-use assets, in the following scope:

- determination of marginal interest rates applied to discount future cash flows;
- indication of the periods of use for the right-of-use assets recognised as at January 1, 2019;
- structure of fixed and variable payments in the contract.

Marginal interest rates are defined as the total of the following:

- a) a risk free rate as set for the IRS (Interest Rate Swap), taking into account the maturity of a discount rate and the relevant base rate for a given currency; and
- b) a credit risk premium set on the basis of a credit margin.

The Company applies compound interest to calculate monthly discounted cash flows.

For any leases in force as at January 1, 2019, previously classified as finance leases under IAS 17, the carrying amounts of the right-of-use asset and the lease liability as at January 1, 2019 was determined as the carrying amounts of the asset leased and the lease liability directly preceding that day, measured in accordance with IAS 17.

The average weighted marginal interest rate of the Company as the lessee, applied to the lease liabilities presented in the statement of financial position as at January 1, 2019 was for the individual lease terms as follows:

Lease term in years	annual discount rate	monthly discount rate
from 1 to 3	3,55%	0,29%
from 3 to 5	3,92%	0,32%
from 5 to 10	4,55%	0,37%
over 10	4,97%	0,41%

An impact on the financial statements as at the initial application has been as follows:

As at January 1, 2019 the Company recognised the right-of-use assets equal to the lease liabilities in the amount of PLN 10,730 thousand, which did not result in any difference being recognised in retained earnings.

An impact of the amendment to the standard on the financial statements has been presented below:

Comparison of lease assets and liabilities under IFRS 16

Before change IAS 17	After change from 01.01.2019 IFRS 16						
Third-party services for 12 months	Depreciation for 12 months	Interest for 12 months	Total	Assets used on the grounds of lease agreements	Liabilities under lease agreements as at 01.01.2019		
	as at 01.01.2019						
					long- term	short- term	total
3 983	3 689	401	4 090	10 730	6 829	3 901	10 730

The Company is a party to various financial agreements. The implementation of IFRS 16 may affect the calculation of covenants thereunder and cause deterioration in debt ratios.

Assets recognised as the right-of-use assets include primarily rights of perpetual usufruct of land, office premises and production facilities.

After lease commencement, the Company measures the lease liability through:

- a) an increase in the carrying amount thereof in order to reflect any interest thereon;
- b) a decrease in the carrying amount thereof in order to reflect any lease payments made; and
- c) a remeasurement of its carrying amount in order to reflect any reassessment or change in the lease or any updated fixed lease payments.

After lease commencement, the Company follows the guidelines under IFRS 16 on remeasurement of the lease liability in order to reflect any changes in lease payments. The Company recognises a remeasurement of the lease liability as an adjustment to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and the lease liability is further decreased, the remaining remeasurement is recognised by the Company in profit or loss.

When the Company revises the estimated lease term (because, for example, it reassessed the likelihood that an extension option or a termination option will be exercised), it makes an adjustment to the carrying amount of the lease liability in order to reflect payments that need to be made before the expiry of the amended lease term, which are discounted at the same discount rate as that applied at the beginning of the lease. The carrying amount of the lease liability is changed in a similar manner when a variable element of future lease payments that depend on an index or a rate is modified. In both cases an appropriate adjustment to the carrying amount of the right-of-use asset is made, and the adjusted carrying amount is depreciated during the remaining (modified) lease term.

If the Company renegotiates the terms of a lease with a lessor, the recognition thereof depends on the type of modification made:

- If renegotiations result in an additional lease of one or several assets for the amount proportional to a

unit price of the additional rights of use obtained, such a modification is recognised as a separate lease in accordance with the aforementioned policy;

- In any other cases, if renegotiations expand the scope of any lease (through the extension of its term or the addition of one or several assets), the lease liability is remeasured using the discount rate as at the agreement of modification, and the right-of-use asset is adjusted accordingly;
- if renegotiations result in a reduction in the scope of any lease, both the carrying amount of the lease liability and the carrying amount of the right-of-use asset is reduced accordingly in order to reflect the partial or complete termination of the lease concerned, and any difference resulting therefrom is recognised in profit or loss. The lease liability is then further adjusted in order to ensure that its carrying amount reflects the renegotiated payments for the renegotiated lease term, where the modified lease payments are discounted at a discount rate as at the agreement of the modification concerned. The right-of-use asset shall be adjusted accordingly.

In 2019, the Company renegotiated one of the contracts recognised as leases under the new IFRS 16 as at January 1, 2019, namely a lease contract for warehouse and office facilities, whose term initially was to end on December 31, 2020, but as at September 1, 2020, a new contract for the same subject of the lease was entered into force with an increased lease payment. Therefore, the Company made an adjustment in the amount of PLN 393.5 thousand to the initial liability and the new lease liability was measured at the discount rate as at the conclusion of the new lease. At the modification of the contract, the carrying amount of the right-of-use asset was PLN 389 thousand. A difference between the carrying amount and the adjustment to the liability in the amount of PLN 4.5 thousand decreased the right-of-use asset calculated according to the adopted policy for the new lease.

For contracts that both give the Company the right to use a certain asset and require that services be provided to the Company by the lessor, the Company decided to account separately for the services rendered by the provider and to separate them from the total payments. Therefore, the Company assesses whether a contract contains lease and non-lease components. Non-lease components, such as maintenance fees in contracts for lease of premises, or service maintenance of components of assets constituting the subject of the contract, are then separated from contracts that included lease and non-lease components.

However if the contract covers non-lease elements which the Company deems insignificant in the light of the entire contract, the Company shall apply a simplification consisting in joint treatment of lease and non-lease elements as one lease element.

Changes introduced by the Company independently

The Company made no adjustments to the presentation of comparable data as at December 31, 2018 or for the financial year ended December 31, 2018.

Non-applicable standards (New standards and interpretations)

In these financial statements the Company decided not to apply any standards or interpretations issued before their effective dates.

Standards and interpretations other than those in force as at the balance sheet date, issued by the International Accounting Standards Board (IASB) or the International Financial Reporting Interpretations Committee (IFRIC) were as follows:

- Amendments to IFRS 3 “Business Combinations”

The amendment to IFRS 3 was published on October 22, 2018 and applies to annual periods beginning on or after January 1, 2020.

The amendment aimed at specifying the definition of business and making it easier to differentiate between a business and a group of assets for the purposes of business combinations.

The Company shall apply the amended standard from the date indicated by the EU as the commencement date for the entry in force of the amendment concerned.

- Amendments to IAS 1 and IAS 8: Definition of “material”

Amendments to IAS 1 and IAS 8 were published on October 31, 2018 and apply to annual periods beginning on or after January 1, 2020.

Their purpose was to further specify the definition of the term “material” for its easier practical application.

The Company shall apply the amended standard from January 1, 2020.

- Interest Rate Benchmark Reform – Amendments to IFRS 9, IAS 39 and IFRS 7

Amendments to IFRS 9, IAS 39 and IFRS 7 were published on September 26, 2019 and apply to annual periods beginning on or after January 1, 2020.

The amendments modify specific hedge accounting requirements in order to minimise (eliminate) any potential consequences of uncertainty arising from the (interbank) interest rate benchmark reform. In addition, entities are required to add specific disclosures about those hedging relationships which are directly affected by uncertainty arising from the reform.

The Company shall apply the amended standard from the date indicated by the EU as the commencement date for the entry in force of the amendment concerned.

- Amendment to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current

The amendment to IAS 1 was published on January 23, 2020 and applies to annual periods beginning on or after January 1, 2020.

The amendment redefines criteria that must be met for a liability to be considered current. It may affect the presentation of liabilities and their reclassification between current and non-current liabilities.

The Group shall apply the amended standard from January 1, 2022. At this stage it is impossible to reliably determine the impact of the standard on the Group's financial statements.

At the moment, the IFRS in the shape approved by the European Union do not differ significantly from the regulations adopted by the International Accounting Standards Board (IASB), except for the below standards, interpretations and amendments thereto, which as at the approval of these financial statements for publication have not yet been approved for application in the EU countries:

- IFRS 14 Regulatory Deferral Accounts published on January 30, 2014 (the adoption thereof by the EU countries deferred indefinitely),
- IFRS 17 Insurance Contracts published on May 18, 2017,

- Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture published on September 11, 2014 (the adoption thereof by the EU countries deferred indefinitely),
- Amendment to IFRS 3 Business Combinations published on October 22, 2018,
- Amendment to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current published on January 23, 2020.

Changes introduced by the Company independently

In 2019, no changes were made to the accounting principles and the rules for preparing financial statements in comparison to those disclosed in the Company's financial statements for 2018 published on April 30, 2019.

10. Risk to the Company's ability to continue as a going concern and measures taken and planned by the Management Board

Trakcja PRKiI S.A. is the Parent Company of the Trakcja Capital Group. The Group's condition is closely dependent on the condition of the Parent Company.

In connection with Note 5 of the Notes to the abbreviated separate financial statements that form part of the consolidated quarterly report of Trakcja Group for the 9-month period ended September 30, 2019, the Company's Management Board presents the update regarding the issues described in the above note to the financial statements.

Going concern

These financial statements for the twelve-month period ended December 31, 2019 were prepared based on the going concern assumption and, therefore, do not contain any adjustments in respect of different policies for the recognition and measurement of assets and liabilities that would be required if the going concern assumption was unjustified.

The Management Board of the Company presented the following information on the current financial standing of the Company, indicating the risk to the Company's going concern status in the period of twelve months from the date of preparation of the financial statements.

Risk to the going concern status

In the period of 12 months ended on 31 December 2019, the Company recorded net loss of PLN 249,678 thousand, and the net negative working capital amounted to PLN 59,406 thousand.

As at December 31, 2019, financial liabilities due to credits and lease of the Company amounted to a total of PLN 359,388 thousand (long-term part PLN 199,909 thousand, short term part PLN 159,479 thousand).

As at December 31, 2019, trade liabilities were at PLN 265,074 thousand, including outdated at PLN 87,200 thousand, which the Company pays from current inflows to a possible extent.

In view of the above factors, there is a risk to the Company's ability to continue as a going concern. Owing to the ongoing financial restructuring process, the aforementioned risk has been significantly reduced.

General situation of the Company and measures taken

The Company's performance for the period of 12 months ended 31 December 2019 was as follows:

- gross profit/loss on sales: PLN -92,890 thousand (in 2018: PLN -124,958 thousand)
- EBITDA: PLN -120,785 thousand (in 2018: PLN -86,986 thousand)
- net profit/loss: PLN -249,678 thousand (in 2018: PLN -86,687 thousand)
- equity: PLN 349,925 thousand (in 2018: PLN 539,705 thousand)

On February 27, 2020 the financial data collection process and the long-term contract periodical revision were completed, as a result of which margins on contracts were revalued and this had the total effect in the amount of PLN (-61,421) thousand on the Company's performance in 2019.

The Company provided details on this event in Current Report 6/2020.

Factors that had the most crucial effect on the gross margin on sales and EBITDA in the 12-month period of 2019 are as follows:

- Settlement of low-margin contracts awarded in the previous years that were more difficult in terms in contract awarding opportunities and before a significant increase in the production costs;
- prolonged process of refinancing the operating activities of Trakcja PRKiI S.A. exacerbating the drop in profitability on construction contracts;
- Prolonged refinancing process had also an effect on a delay in signing two railway contracts with higher profitability and on the Company's inability to settle them in 2019, and therefore to generate the revenues planned;
- Budgets were revised in terms of their nature, amounts, distribution in time and uncertainty as to whether revenues and cash flows from the contracts performed would be generated;
- During the revision of budgets, opportunities and threats were analysed, including the identification and inclusion of any risks of technology, implementation and liquidity;
- For two railway contracts, the Company recognised revenues in the amount of the costs incurred in keeping with IFRS 15 para. 45.
- The amount of court claims filed by the Company towards contracting entities, accounted for in long-term contract budgets, was adjusted by the risk factor and the probability factor. The amount of claims recoverable by the Company is between PLN 35 and 50 million. The amount was estimated on the basis of expert opinions and estimates of the Company, based on historical data and analyses of individual contracts. In addition, the parent entity included revenues from any contractual claims in the measurement of a significant road contract.

In addition to the aforementioned factors, the decision on impairment losses on the investment in subsidiaries had also an effect on the net profit/loss disclosed in the separate balance sheet in the amount of PLN 114,187 thousand (AB Kauno Tiltai: PLN 112,857 thousand and BTW Sp. z o.o.: PLN 1.330 thousand). The impairment losses were recognised in a non-cash form and had no effect on the Company's current liquidity.

As at December 31, 2019 the net value of the Company's contract portfolio was almost PLN 2,295 million (excluding revenues allocated to consortium members). In the period from January 1, 2019 to December 31, 2019, the Company signed contracts with the total net value of PLN 974 million (excluding any revenues allocated to consortium members), of which most exceeded the investor budgets.

The largest contracts signed by the Company in 2019 are as follows:

- a) "Renovation of railway lines no. 694/157/190/191 Bronów – Bieniowiec – Skoczów – Goleszów – Cieszyn/Wisła Głębce", part A, whose details have been described in Current Report 57/2019 (the net value of the Company' share: PLN 349.2 million);
- b) "Reconstruction of track systems and accompanying infrastructure at the E59 railway line, Stargard – Szczecin Dąbie section, under the project entitled "Works at the E59 railway line, Poznań Główny – Szczecin Dąbie section, whose details have been described in Current Report 57/2019 (the net value of the Company's share: PLN 280.3 million);
- c) "Reconstruction of track systems and accompanying infrastructure at the E59 railway line, Choszczno – Stargard section, under the project entitled "Works at the E59 railway line, Choszczno – Stargard section, whose details have been described in Current Report 60/2019 (the net value of the Company's share: PLN 199.2 million);
- d) "Reconstruction of tram tracks along the Krakowska street in the section from ul. Rollego to ul. Dietla, including reconstruction of the existing road system, pavements, paths, accompanying technical infrastructure, Krakowska – Dietla – Stradomska road junction, as well as reconstruction of ul. Dietla in the section from ul. Boże Ciało to ul. Augustiańska and reconstruction of the existing Piłsudskiego bridge over the Vistula River", whose details have been provided in Current Report 2/2019 (the net value of the Company's share: PLN 76.6 million).
- e) "Reconstruction of a traction line along with accompanying works in the Racibórz – Chałupki section and a culvert at km 49,872 of railway line 151" under the project entitled "Works at railway line E-59 in the Kędzierzyn Koźle – Chałupki (state border) section" (the net value of the Company's share: PLN 28.3 million).

In the period from January 1, 2019 to December 31, 2019, the Company's Management Board undertook negotiations with PKP PLK to amicably settle court disputes. The Company's Management Board negotiates payment of contractual claims proceeded in court from PKP PLK, the total amount of which as at the publication hereof amounts to approximately PLN 156,800 thousand (gross amount along with interest capitalized as at the date of filing the statement of claim). The Company conducts negotiations with PKP PLK with the participation of the State Treasury Solicitor's Office [Prokuratoria Generalna]. At this stage, the Company's Management Board is not able to define the end date of negotiations. The Company includes court claims filed by contracting entities in the long-term contract budgets, as further described in Note 46 of the Notes. Irrespective of the foregoing, the Company seeks redress out of court in the amount of approximately PLN 196,176 thousand (including PLN 164,822 thousand for the Company).

On May 22, 2019 the Company, as the leader and authorised representative of the consortium, has filed a statement of withdrawal, for reasons attributable to the contracting party, from the agreement no. ZDW.N4.363.02.2016 concluded on April 19, 2017 between the Kujawsko-Pomorskie Province, on behalf of which Zarząd Dróg Wojewódzkich [Provincial Roads Directorate] in Bydgoszcz acted ("Contracting Party"), the subject of which was to implement the task entitled "Expansion of provincial road no. 548 Stolno-Wąbrzeźno from km 0+005 to km 29+619, excluding the highway junction in Lisewo from km 14+144 to km 15+146" ("Agreement"), with regard to any uncompleted part of the Agreement. In connection with the withdrawal, the Company intends to pursue claims against the Contracting Party, concerning payment of contractual penalties and unpaid remuneration for works performed under the Agreement until the date of withdrawal. The gross value of the Agreement was agreed by the Parties at PLN 83,796,445.61. The Company assesses that the claims to be asserted by the Company against the Contracting Party in connection with the withdrawal for reasons attributable to the Contracting Party will be at least PLN 11 million (gross) due to the settlement of the works

performed and accepted, and PLN 7,876,665 due to contractual penalties. Other details have been described in Current Report 9/2019.

Furthermore, on March 12, 2020 the Contracting Party submitted a statement of withdrawal from the contract for the "Design and completion of construction works at the bypass of Zatora, Podolsza along DW No. 781" through the fault of the Company. The statement was challenged by the Company by letter no. 1043/ZAT/2020/EM of March 18, 2020. Having regarded the Contracting Party's withdrawal as ineffective and having called on the Contracting Party to cooperate under the contract and having received no replay on part of the Contracting Party, the Company submitted a statement of withdrawal from the Contract through the fault of the Contracting Party on March 31, 2020.

By letter dated March 8, 2019, emailed to the Company on March 8, 2019, the Contracting Party provided the Company with a statement of withdrawal from the Contract (Contract No. 50/2017/2018 for the design and construction of a building structure under the name: "Expansion of Province Road No. 224 in the section between Godziszewo and A1 Stanisławie highway junction") through the fault of the Company. By letter dated April 04, 2019 the Company challenged the effectiveness of the aforementioned statement made by the Contracting Party, and indicated that such a withdrawal could not have been found effective either under Article 635 of the Civil Code in conjunction with Article 656 § 1 of the Civil Code or under Article 17 para. 3 pt. 4 of the contract concerned. The Contracting Party's failure to take any action resulted in the Company submitting to the Contracting Party on March 8, 2019 a statement of withdrawal from the contract and calling on the Contracting Party to pay a contractual penalty of PLN 2,028,000.00 in accordance with Article 15 para. 3 pt. b) of the contract concerned and the amount of PLN 338.889,80 for the unsettled scope of works in the Stargard section at the Project Documentation stage. By letter of May 15, 2019 the Contracting Party rejected the Company's withdrawal. On August 7, 2019 the parties signed a pre-court settlement according to which: The Parties cancel their statements of withdrawal and as at the conclusion of the settlement they terminate the contract by mutual agreement; the Parties adjust the notes, the Company performs the works specified in the settlement, the Contracting Party accepts the so far performed works, and having examined thoroughly their rights and obligations, the parties stated that they have no other claims against each other under the contract concerned.

When measuring the construction contracts as at the balance sheet date, the Company took into account any negative and positive effects of the aforementioned contractual actions, to the best of its knowledge, considering the likelihood of their occurrence.

In addition to the activities that affect the improvement of future financial performance, the Company's Management Board focuses mainly on the Company's liquidity. The Company pursues an active liquidity management policy, monitoring the liquidity on an ongoing basis in a short and long term, and also conducts continuous monitoring of cash flow aiming at maintaining a stable level of available financing. To maintain liquidity, the Company undertakes activities aiming at obtaining contracts foreseeing advance payments. The Company places emphasis on the optimization of invoicing processes through the shortening of the period between the performance of works and the invoicing of the completed works. The Company uses newly acquired long-term financing funds to reduce any overdue liabilities and to identify any works under construction contracts.

As at December 31, 2019 the Company held cash and cash equivalents in the amount of PLN 47,514 thousand, as well as an overdraft and working capital loans in the total amount of up to PLN 29 million.

As at the day preceding the signing hereof, the Company held cash in the amount of PLN 6,893 thousand and EUR 32 thousand, as well as the overdraft and working capital loans disbursed in the amount of up to 1 million PLN.

New sources of financing

a) Bridge financing

On June 13, 2019 to maintain liquidity until the signing of the agreement on restructuring / obtaining new financing and capital, the Company signed the bridge financing documentation, providing for the below total amounts:

- PLN 31,000,000.00 in the form of a working capital loan with term draw downs, made available under a loan contract between the Company and its subsidiaries, i.e.: Bahn Technik Wrocław sp. z o.o., PRK 7 Nieruchomości sp. z o.o., Przedsiębiorstwo Drogowo Mostowe BIAŁYSTOK S.A., Przedsiębiorstwo Produkcyjno-Uslugowe DALBA sp. z o.o., mBank S.A. and Credit Agricole Bank Polska S.A.

- PLN 33,000,000.00 in the form of guarantee lines, made available pursuant to a loan contract;

- PLN 70,618,725.62 in the form of guarantee lines granted on the basis of Bilateral Credit Lines

- PLN 20,000,000.00 in the form of a loan between the Company and COMSA, S.A.U.

The aforementioned events have been detailed by the Company in current reports no. 12/2019; 19/2019; 20/2019; 21/2019; 22/2019; 24/2019; 32/2019; 33/2019; 40/2019; 41/2019.

b) Long-term financing

On September 27, 2019 the Company signed documentation for targeted long-term financing that included:

1. Annex that introduced the amended and unified Loan Agreement concluded between the Company and Bahn Technik Wrocław sp. z o.o., PRK 7 Nieruchomości sp. z o.o., Przedsiębiorstwo Drogowo Mostowe BIAŁYSTOK S.A., Przedsiębiorstwo Produkcyjno-Uslugowe DALBA sp. z o.o., as borrowers and surety providers, and Torprojekt sp. z o.o., Przedsiębiorstwo Eksploatacji Ulic i Mostów sp. z o.o., as surety providers (hereinafter referred to as the "Related Parties"), and mBank S.A. with its registered office in Warsaw, Credit Agricole Bank Polska S.A. with its registered office in Wrocław, Bank Gospodarstwa Krajowego with its registered office in Warsaw, as creditors and Agencja Rozwoju Przemysłu S.A. with its registered office in Warsaw ("ARP") as the creditor, under which the Related Parties being borrowers were granted new working capital loans in the maximum amount of up to PLN 104,600,000 and a revolving loan in the maximum amount of up to PLN 27,600,000 as well as a new guarantee line for advance payment guarantees in the maximum amount of up to PLN 200,000,000 ("Unified Credit Loan"),
2. Annex that introduced the amended and unified agreement between creditors of June 13, 2019 concluded between the Company, Related Parties, COMSA and creditors, i.e.: Bank Gospodarstwa Krajowego, ARP, mBank S.A., Credit Agricole Bank Polska S.A., Bank Polska Kasa Opieki S.A., AXA Ubezpieczenia Towarzystwo Ubezpieczeń i Reasekuracji S.A., Credendo — Excess & Surety Societe Anonyme, Sopockie Towarzystwo Ubezpieczeń ERGO Hestia S.A., Korporacja Ubezpieczeń Kredytów Eksportowych S.A., Generali Towarzystwo Ubezpieczeń S.A. and COMSA, Powszechny Zakład Ubezpieczeń S.A. and Uniqą Towarzystwo Ubezpieczeń S.A. ("Creditors"), which defines the terms on which the Creditors may take enforcement measures against the Company and the Related Parties, and which appoints the collateral agent and determines the seniority of debt owed to the Creditors by the Company and the Related Parties and also the collateral established for the Creditors by the Company and the Related Parties ("Unified Creditor Agreement"),

3. Agreement on common terms concluded between the Company, the Related Parties, mBank S.A., Credit Agricole Bank Polska S.A., Bank Polska Kasa Opieki S.A., Bank Gospodarstwa Krajowego and ARP ("Agreement on Common Terms"),
4. Annex that introduced the amended and unified agreement on harmonisation of selected terms of guarantees and the surety agreement of June 13, 2019, between the Company, Related Parties, AXA Ubezpieczenia Towarzystwo Ubezpieczeń i Reasekuracji S.A., Credendo - Excess & Surety Societe Anonyme, acting in Poland through the agency of Credendo - Excess & Surety Spółka Akcyjna Branch in Poland, Generali Towarzystwo Ubezpieczeń S.A., Korporacja Ubezpieczeń Kredytów Eksportowych S.A., Sopockie Towarzystwo Ubezpieczeń Ergo Hestia S.A., Powszechny Zakład Ubezpieczeń S.A. and UNIQA Towarzystwo Ubezpieczeń S.A., in relation to which on September 27, 2019 agreements for new guarantee lines were signed, in keeping with which insurance companies agreed to provide the Company with revolving guarantee lines for tender bonds and performance/retention bonds in the maximum amount of up to PLN 616,568,276.

Any loan and guarantee line granted under the aforementioned agreements may only be disbursed, if the Company and the Related Parties meet certain conditions precedent indicated therein, including in particular, introduction of changes in certain existing collateral through an increase in its maximum amount and expansion of certain existing collateral established for Bank Gospodarstwa Krajowego and ARP, establishment of new collateral and an increase in the Company's share capital, under which the Company acquires at least PLN 39,600,000, as well as in the conclusion of lease contracts for specific machines of Bahn Technik Wroclaw sp. z o.o.

Pursuant to the Unified Loan Agreement and in keeping with terms specified therein, the Company and the Related Parties being the creditors have been granted:

- (i) revolving loan 1 disbursed in drawings up to the total amount of PLN 31,000,000 for the purpose of paying any overdue liabilities and financing the ongoing activities or for granting intra-group loans with the maturity date up to December 31, 2022, the funds have been acquired at the stage of bridge financing,
- (ii) revolving loan 2 in the total amount of up to PLN 75,000,000 and an open-end loan to be disbursed on the same terms and the revolving loan in the total amount of up to PLN 27,600,000 for the purpose of financing the working capital and ongoing activities of the Company with the maturity date of December 31, 2022,
- (iii) revolving loan 3 disbursed in drawings in the total amount of up to PLN 17,600,000 granted for the purpose of financing the working capital and ongoing activities with the maturity date of December 31, 2022,
- (iv) revolving loan 4 disbursed in drawings in the total maximum amount of up to PLN 12,000,000 granted for the purpose of financing the working capital and ongoing activities with the maturity date of December 31, 2022, which was not disbursed as at the balance sheet date,
- (v) non-revolving guarantee line granted within the bridge financing for the reimbursement of advance payment under a specific contract concluded by the Company and whose beneficiary is PKP Polskie Linie Kolejowe S.A., in the total amount of PLN 25,000,000,
- (vi) non-revolving guarantee line granted within the bridge financing for the performance bond, whose beneficiary is Generalna Dyrekcja Dróg Krajowych i Autostrad, in the total amount of PLN 8,000,000,
- (vii) revolving guarantee line for advance payment guarantees for new contracts made by the Company or the Related Parties, whose beneficiary is the entity acceptable to all the issuers of such a guarantee in the total amount of PLN 200,000,000.

In addition, according to the Unified Creditor Agreement, ARP may be granted bonds convertible to the Company's shares up to PLN 20,000,000, whose collateral shall be a mortgage on the Company's property located in Bieńkowice, if the issue of such bonds is adopted by resolution by the Company's General Meeting of Shareholders. In addition, in relation to the conclusion of the Unified Creditor Agreement, the Company and ARP concluded an additional agreement ("Agreement"), in which they confirmed the intentions of the parties with regard to the key parameters of the bonds convertible to the Company's shares which can be granted to ARP under the Unified Creditor Agreement. Pursuant to the Agreement, if the Company's Management Board decides to convene the General Meeting of Shareholders, according to whose agenda resolutions are to be adopted on the issue of bonds convertible to the Company's shares and on their acquisition by ARP (and provided that the Company makes the relevant corporate decisions, including the appropriate change in the Company's articles of association), the Company's Management Board shall propose to the General Meeting of Shareholders that resolutions be adopted on the terms of the bond issue, which have been specified in the draft resolutions provided in Current Report 71/2019.

The Agreement shall not be binding and has been concluded only to exclusively in order to confirm the intentions of the Parties as regards its subject matter.

In addition, according to the Agreement on Common Terms, COMSA shall have the right to acquire bonds convertible to the Company's shares up to the PLN 15,000,000 on the same terms as those described for the bonds that can be acquired by ARP, provided that the bonds that can be acquired by COMSA shall be unsecured and subordinate to any other liabilities of the Company.

Simultaneously, on September 27, 2019, the Extraordinary Meeting of Shareholders adopted resolution no. 5 on an increase in the Company's share capital through the issue of B series ordinary bearer shares and C series ordinary registered shares under private placement, excluding the pre-emptive rights of the existing shareholders, dematerialisation and application for authorisation for admission to trading on a regulated market by Giełda Papierów Wartościowych w Warszawie S.A. Rights to subscribe the series B shares, series B shares, series C shares and changes to the Company's articles of association.

On October 4 to 7, 2019 the Company completed an initial public offering of 10,279,909 series B ordinary bearer shares with a nominal value of PLN 0.80 and no less than 13,014,209 and no more than 25,014,209 series C ordinary registered shares of the Company with a nominal value of PLN 0.80, under a private subscription within the meaning of Article 431 para. 2 pt. 1 of the Commercial Companies Code, excluding any pre-emptive rights of the Company's existing shareholders, addressed to no more than 149 selected investors.

On October 10, 2019 the Company and investors concluded agreements for the acquisition of 10,279,909 series B shares and 24,771,519 series C shares of the Company. The price for each share of series B and for each share of series C was PLN 1.70. The total price for the shares of series B and series C was PLN 59,587,427.6, of which (i) 12,242,952 of series C shares were acquired by the Company's existing shareholder, namely by COMSA S.A.U. ("Comsa") and paid for by way of deducting the liabilities of COMSA towards the Company in the total amount of PLN 20,813,018.40, of which the Company notified in Current Reports 53/2019 and 58/2019; (ii) the remaining 22,808,476 shares of series B and C were acquired by other investors by cash in the total amount of PLN 38,774,409.20.

On November 6, 2019, the series B ordinary bearer shares were entered in KDPW.

The Company received the cash contributions made by investors for the acquisition of shares series B and C.

On January 14, 2020 the Extraordinary General Meeting of Shareholders was held, at which the resolutions were adopted, in particular, on the issue of series F and G bonds convertible to series D shares and on the exclusion of the entirety of pre-emptive rights of the existing shareholders, in relation to series F and G bonds convertible

to shares and on an conditional increase in the Company's share capital by way of emitting shares series D, and on the exclusion of the entirety of pre-emptive rights of the existing shareholders to series D shares and on the changes in the articles of association. Draft resolutions were published by the Company in Current Report 2/2020. The value of issue is PLN 27,674,487, including new funds acquired by the Company in the amount of PLN 20,000,000, the issue shall enter into force in the second quarter of 2020.

The aforementioned events have been detailed by the Company in the following current reports: 46/2019, 47/2019, 48/2019, 51/2019, 53/2019, 54/2019, 55/2019, 58/2019, 59/2019, 61/2019, 63/2019, 64/2019, 65/2019, 66/2019, 71/2019, 73/2019, 79/2019, 81/2019, 82/2019, 83/2019, 84/2019, 2/2020.

Other actions:

a) New contracts

The parent company consequently develops competences in various sectors of the infrastructural construction sectors with a focus on the railway industry. The Parent Company continues to actively participate in tender procedures on the railway market and to a lesser degree on the road market. The railway sector experiences a significant increase in the tenders offered. The current market trend demonstrates that offers of contractors which exceed investor budgets are often accepted by contracting parties.

In the recent weeks, the Company concluded the following contracts:

- a) on February 24, "Renovation of power substation at the A3 Imielin station of the Warsaw first underground line" (the net value of the Company's share: PLN 2.4 million);
- b) on April 2, "Modernisation of the 110/15/6 kV Śródmieście station in Łódź" (the net value of the Company's share: PLN 18.9 million).

After the balance sheet date, the Company has submitted the most attractive tender in the following tender procedures:

- a) "Bolesław Chrobry Bridges in Wrocław" (the net value of the Company's share: PLN 58.4 million) – the Company has been selected as the contractor; the Management Board waits for the official invitation to sign the contract;
- c) "Expansion of road no. 224 in the section Godziszewo – A1 Stanisławie highway junction, stage 1 Godziszewo" (the net value of the Company's share: PLN 10.2 million) – the Company's tender was rejected, the Company waits for the appeal date at Krajowa Izba Odwoławcza [Polish Public Procurement Office].

b) Received substantial advance payments

In connection with Note 5 of the Notes to the abbreviated separate financial statements that form part of the consolidated quarterly report of Trakcja Group for the 9-month period ended September 30, 2019, the Company's Management Board informs that substantial advance payments were received under the following contracts:

- "Reconstruction of track systems and accompanying infrastructure at the E59 railway line, Stargard – Szczecin Dąbie section, under the project entitled "Works at the E59 railway line, Poznań Główny – Szczecin Dąbie section" - PLN 11,165 thousand (so far the Company had received PLN 25,000 thousand) – we have received the advance payment in the full amount,

“Renewal of railway lines no. 694/157/190/191 Bronów – Bieniowiec – Skoczów – Goleszów – Cieszyn/Wisła Głębce” – PLN 12,886 thousand.

Actions taken by the Company after the balance sheet date

1. The Company waits for advance payments to be made under the contract mentioned below, which is at the moment processed with the Contracting Party and the Guarantors:
- “Redevelopment of track systems and accompanying infrastructure at the E59 railway line, Choszczno - Stargard section, within the scope of the project entitled “Works at the E59 railway line, Choszczno – Stargard section (Company’s share - PLN 24.498 million);
2. With regard to the signing of the long-term financing documentation, the Company has also undertaken to meet a series of conditions, which include, in particular, the registration of collateral documents, the establishment of additional collateral and the implementation of a recovery plan. According to the recovery plan, in 2019-2020 the Company shall take various actions aimed, in particular, at obtaining financial benefits, improving internal procedures and optimising internal structures. In addition, in accordance with the financial documentation, the Company shall provide mBank S.A. (loan agent) with the management board’s report on the implementation of the recovery plan which is also verified by a financial advisor. The report shall be provided at least once a month.
3. The Company is in the process of selling non-operational assets. The Company is planning to sell further non-operational assets including the property at ul. Oliwska in Warsaw, for PLN 17,500 thousand. The Company expects a prepayment on the sale of the property at ulica Oliwska in Warsaw. The prepayment shall be PLN 3.5 million, which is 20% of the expected selling price. The completion of the transaction was deferred at the request of the contracting party due to reasons related to the ongoing COVID-19 pandemic. The Company expects to finalise the transaction in 2020.
4. The Company waits to finalise the sales transaction concerning the **property located at ul. Lotnicza 100 in Wrocław, which in keeping with the applicable agreement shall be completed by the end of the second quarter 2020**, however, the Management Board of the Parent Company takes into account the fact that it may be deferred in time due to the SARS CoV-2 pandemic. The aforementioned transaction has been described in detail in Note 14 (other operating revenues).
5. On January 14, 2020 the General Meeting of Shareholders was held which approved the issue of series F and G bonds convertible to series D shares and the exclusion of the entire pre-emptive right of the existing shareholders in relation to series F and G bonds convertible to shares. The details have been described in Current Report 2/2020.
6. The Parent Company was granted a loan by BTW Sp. z o.o. in the amount of PLN 11 million.
7. In accordance with the provisions of the long-term financing agreements, the Company and the financial advisor (Ipopema Financial Advisory Sp. z o.o.) accepted by financial institutions, updated the financial model for the activities of Trakcja Group in the period 2020-2023. As a result of the update, a financial gap was identified at the Parent Company in the amount of PLN 89 million, **which is assumed to be covered by financial instruments**. The Management Board believes that the financial gap should be covered by additional funds and proceeds from payments made the contracting parties.

According to the Company’s Management Board, conducted analyses and undertaken measures satisfactorily neutralize the risk to liquidity. In the Company’s opinion, conducted actions will allow to financially secure the business and will prepare the Company for execution of projects on a larger scale.

Risk of failure of steps taken

The Company's Management Board prepared the financial statements on the basis of the assumption that the Company will remain a going concern at least in a 12-month period following the approval hereof for publication. The Group's going concern depends on the effective coverage of the financial gap. Any failure in expected effects of undertaken activities in the scope of additional financing and negotiation of payments may lead to a threat to the going concern of the Parent Company. In addition, the liquidity may deteriorate due to such factors as: deferral of due dates for the acquisition of funds from advance payments, bonds and negative events resulting from the Covid-19 pandemic, as described at the end hereof.

Taking into account any potential negative or unforeseeable consequences of the events described herein, and also any potential deferral of actions that provide for the appropriate financing for the Company's activities, the Company may take the following additional measures:

1. Launching negotiations with the Company's creditors regarding the restructuring of debt together with the simultaneous implementation of measures permitted by the applicable laws to protect the Company and the interests of creditors and shareholders.
2. Carrying out operational restructuring consisting in the disposal of assets not used in the Company's operating activities, including shares in subsidiaries or property, plant and equipment.
3. Limitation of the Company's scope of operations.

Impact of the SARS CoV-2 (COVID-19) pandemic on the activities and financial condition of the Group

The rapid spread of the SARS CoV-2 virus in Poland and on other markets, on which the Company and its subsidiaries carry out its business activities may have an impact on the Company's financial performance in 2020.

As at the date hereof, the Management Board expects that the actual pandemic state in Poland which results, in particular, in:

- Transport being limited and delivery of components and raw materials being irregular,
- Availability and efficiency of subcontractors being reduced,
- Administrative decisions on the construction contracts implemented being delayed,
- The progress in works experiencing a slowdown due to the introduction of emergency measures in accordance with the guidelines issued by the Ministry of Health and the Chief Sanitary Inspector, and due to the increased absence of employees,
- Costs of certain services, in particular, transport of materials and raw materials, being increased,

The completion by the Group of contracts, under which the Group companies act as contractors or subcontractors, may be delayed and as a consequence translate into a risk that the contracting parties may file claims for contractual penalties to be paid by the Group companies for untimely completion of contracts. The aforementioned factor may also result in an extraordinary increase in prices for materials and services being experienced, which in turn shall result in the profitability of contracts being reduced. Furthermore, the COVID-19 pandemic may contribute to a decrease in the number of infrastructural investment projects being scheduled for the following years.

Despite the fact that as at the date hereof both the business entities and financial institutions continue their operations, the further spread of the SARS CoV-2 virus may result in the Company's business partners, courts and financial institutions being forced to adapt their operations to the circumstances pending, which may cause delays in obtaining financial funds necessary for the Company to:

- fulfil its financial obligations,

- acquire new contracts, if the Company has no required financial security such as guarantees or deposits,
- meet its obligations under the long-term financing documentation (of which the Company notified in Current Report no. 51/2019 of September 27, 2019) that forms part of the financial restructuring process of the Group.

Measures taken by the Company's Management Board

On April 6, 2020 the Management Board and trade unions concluded an agreement under which the working hours of employees were reduced by 10%, and as a result the salaries paid according to a monthly wage rate were decreased accordingly. The aforementioned reduction in the working hours applies mainly to white-collar employees and at the same time allows for the contract performance potential to be maintained. The agreement remains valid until June 30, 2020.

The aforementioned 10%-decrease applies also to remuneration of the management board members, supervisory board members, and also self-employed and service providers who collaborate with the Company.

In addition, it has been decided that payment of any bonuses, awards, allowances and severance pays is suspended and that overtime and use of company cars are to be reduced. The contribution to the company social benefits fund is also to be reduced by 25%.

The Company estimates that the aforementioned measures will allow it to achieve monthly savings of approximately PLN 1.8 million.

Due to the fact that as at the date hereof the precise and final impact of the SARS CoV-2 pandemic on the Group's situation has not yet been identified, the Company's Management Board monitors on an ongoing basis the developments and analyses the potential impact of the pandemic on the operations, performance and perspectives of both the Company and the Group, including a necessary change in the measurement of contracts and the Group's liquidity ratio.

The above data contained in the statement of cash flows was converted at:

- the exchange rate quoted by the National Bank of Poland for the last day of the financial year – for “Cash at the end of the period”,
- the exchange rate quoted by the National Bank of Poland for the last day of the financial year preceding the respective financial year – for “Cash at the beginning of the period”.

The EUR/PLN exchange rate on the last day of the financial year ended 31 December 2017 was PLN 4.1709/EUR 1.

12. Revenue from contracts with customers

In accordance with IFRS 15.114, the Company presents recognised revenue from contracts with customers by the following categories:

- main types of products and/or services;
- geographic region;
- customer type;
- duration of the contract.

Main types of products and services	Year ended	
	31.12.2019 Audited	31.12.2018 Audited
Construction and assembly services	794 298	951 510
Design services	19 716	23 966

Revenue from PKP PLK S.A. account directly for approx. 76.7% of sales revenue in 2019 (2018: 58.7%).

Revenue earned by the Company is recognized in a single operating segment which is also a reporting segment.

The Company's Management Board negotiates payment of contractual claims proceeded in court from PKP PLK, the total amount of which as at the publication hereof amounts to approximately PLN 156,800 thousand (gross amount along with interest capitalized as at the date of filing the statement of claim). Pursuant to internal analyses and opinions of external advisers, the Company includes in long-term contract budgets the court claims filed against ordering parties. The amount of court claims filed by the Company towards contracting entities, accounted for in long-term contract budgets, was adjusted by the risk factor and the probability factor. The amount of claims recoverable by the Company is between PLN 35 and 50 million. The amount was estimated on the basis of expert opinions and estimates of the Company, based on historical data and analyses of individual contracts. The Management Board is not stating an exact amount of claims in the financial statements in the interest of pending negotiations with the ordering party. In addition, the parent entity included revenues from any contractual claims in the measurement of a significant road contract.

13. Operating expenses

Costs by type	Year ended	
	31.12.2019	31.12.2018

Employee benefits under Employee Pension Program	485	732
Other employee benefits	4 115	4 414
Total	146 424	140 978

The Company has established the Employee Capital Plan (PPK) for its employees. In consultation with the company union trade organisations, the Company selected the financial institution that is responsible for opening the PPK accounts for the employees. The PPK management agreement with PPK inPZU Specjalistyczny Fundusz Inwestycyjny Otwarty which is managed and represented by Towarzystwo Funduszy Inwestycyjnych PZU S.A. was signed on October 25, 2019, and the PPK operation agreement on November 12, 2019.

Contributions to PPK are calculated on the basis of a gross salary that is also the basis for calculating contributions to the retirement pension insurance. Basic payments made by the employer are 1.5% of the gross salary and basic payments made by an employee are 2% of the gross salary. Employees also receive a welcoming pay and an annual supplement from the state.

Any person who is of at least 18 but of not more than 55 years of age is included in PPK automatically, unless they submitted their resignation and after they have worked for 90 days. Employees older than 55 years old may access the programme at their own discretion.

At the Company's request, the Financial Supervision Authority decided to annul the Employee Pension Programme operated by the Company as at November 30, 2019.

Depreciation and amortization of fixed assets and intangible assets and impairment losses are recognised in the income statement:	Year ended

Other	941	2 710
Total	3 446	55 849

On December 27, 2018 the Company signed a purchase agreement under which Trakcja PRKiI sold to Lotnicza 100 Spółka z o.o. with its registered office in Wrocław: the right to perpetual usufruct of property located at ul. Lotniczej 100 in Wrocław along with the ownership right to buildings and facilities on land plot no. 3/5, which constitute a separate property, of which the Company notified in Current Report 26/2018 of December 27, 2018. The agreement specified administrative actions that must be completed by the Company before the final payment of the price. Therefore, the maximum payment date was agreed by the parties to be 15 September

2019. The Company analysed the agreement concluded in terms of the criteria determined for the recognition of revenues under the new IFRS 15. In the Company's opinion, the deferred payment date and the obligation to complete certain administrative actions do not result in the recognition of revenues being shifted to the following years. According to the Company (and its external experts responsible for conducting the legal analysis of the terms specified) the premises for recognising revenues were met for the following reasons:

- on 27 December 2018, the title to the land was transferred to the buyer (which was confirmed by an entry in the relevant land and mortgage register);
- as at the date of signing the agreement, the company held an enforceable right to receive the consideration specified in the agreement;
- together with the transfer of ownership, the buyer derives rewards and bears the risks associated with the property received;
- the real estate was physically handed over to the buyer in 2018.

The agreement for the transfer of the right of perpetual usufruct of land (plot land no. 3/3 with an area of 0.0006 ha) was concluded on April 16, 2019. On April 26, 2019 the parties to the agreement of December 27, 2018 concluded Annex 1 thereto in order to amend section 6 para. 7 of the agreement so that it reads as follows:

"Pursuant to Article 558 § 1 of the Civil Code, the parties jointly agree to:

- a) exclude the application of Article 557 of the Civil Code;
- b) limit the statutory liability of the seller for any legal defects in the property in such a way as to exclude the buyer's right to withdraw from this purchase agreement under Article 560 § 1 of the Civil Code due to circumstances specified in § 1 para. 2 thereof;
- c) extend the time limit referred to in Article 568 § 2 in conjunction with Article 576 of the Civil Code up to three years, provided that this time limit may not expire earlier than before the expiry of one month from the day on which the relevant court decision becomes final, according to which the application for usucaption is rejected or according to which usucaption is stated with a later date than the conclusion date of this agreement.

Simultaneously, the parties confirm that their intention from the conclusion of the purchase agreement is the inability to withdraw from the purchase agreement, under the statutory guarantee for legal defects under Article 560 § 1 of the Civil Code due to circumstances specified in § 1 para. 2 thereof".

On September 12, 2019 the parties to the agreement of December 27, 2018 concluded Annex 2 thereto in order to amend section 6 para. 1 of the agreement so that it reads as follows: "Mr. Marcin Lewandowski and Mr. Paweł Nogalski for the Seller undertake by March 15, 2020 to provide the buyer with the decision of the relevant common court on the acquisition of the right of perpetual usufruct of the property described in § 1 hereof, i.e. land plot 3/4 and 3/5 along with the ownership right to buildings located thereon (and also the right of perpetual usufruct of undeveloped land plot 3/3 with an area of 0.0006 ha (Land and Mortgage Register No. WR1K/00103043/5)) by usucaption as at the date no later than the conclusion date hereof, including the confirmation that it has become final.". This obligation was prolonged by Annex to June 30, 2020, however, the Management Board of the Parent Company takes into consideration the fact that as a result of the SARS CoV-2 pandemic the transaction may be deferred in time.

Fixed assets under construction	728	31 120
Total	167 605	170 144

In 2019, the Company completed the construction of OIU Wrocław Bieńkowice, which resulted in this fixed asset being reclassified from “Tangible assets under construction” (as at December 31, 2018) to “Buildings, premises, civil and water engineering structures” (as at December 31, 2019). The facility is located on an 8 ha plot and is equipped with its own side track with a length of 1.5 km in Bieńkowice (Wrocław). The maintenance hall has three tracks, gantry crane, specialist lifts for railway vehicles and many other devices that allow for a wide range of repairs to be carried out on wagons, locomotives and specialist track and network machines. The centre also provides services to external customers. The value of the aforementioned reclassification was PLN 28,627 thousand. The total book value (land, buildings and the entire infrastructure) of OIU Wrocław Bieńkowice as at December 31, 2019 was PLN 41,039 thousand.

In June 2018, the Company signed the investment loan agreement according to which the ownership right to the ballast cleaner and 6 conveyors was transferred to mLeasing Sp. z o.o. which allocated them to the category of leaseback agreements. The amount due from mLeasing Sp. z o.o. was set off against the liability from the prior loan contract made with mLeasing Sp. z o.o. and reduced by initial payments. The Company received an

inflow of net cash in the amount of PLN 17,061 thousand. Due to the fact that the transaction is not of a cash nature, the Company did not disclose any cash flows from the setting off.

From January 1, 2019 onwards, the Company applied IFRS 16, which resulted in the value of fixed assets being increased by PLN 12,865 thousand, including the "Other increases" item in the "Land, Buildings and Structures" column by PLN 8,737 thousand.

The Company recognises investment properties at fair value. Fair value of the Company's investment properties as at December 31, 2017 and December 31, 2016 was estimated based on the valuation carried out by an independent expert with suitable professional qualifications in evaluating properties and with up-to-date experience in evaluating properties at the locations similar to those of the Company's assets. The Company also verifies the received opinions on fair value by analysing data derived from the active market (market prices) of similar investment properties with similar location and in similar condition. Such analyses are carried out by persons who have knowledge of the market.

The Company's buildings classified as investment properties are measured applying the cost method or the income method. In accordance with IFRS 13, the cost method reflects the amount that would be necessary at a given moment in order to recreate the rate of return on a given asset (often called the current replacement cost). In many situations, the current replacement cost method is used for establishing fair value of mineral assets that are used in combination with other assets or with other assets and liabilities. The properties measured fall into the category of the regional market, and their construction elements are measured using the cost-based approach, the cost replacement method and the analysis ratios and integrated elements. The income-based approach consists in the determination of the property's value, assuming that its buyer will pay for it a price that depends on the income expected from the property and that the maximum amount paid by the buyer will not exceed the price for which the buyer could buy any other property with the same rate of return and the same level of risk. In keeping with the Generally Accepted National Measurement Principles, the income-based approach is applied in order to establish the value of properties that generate income or create opportunities for generation of income, assuming that income is the key factor that affects the value of such properties. Any proceeds from leases and other rights to a given property and also any other non-rent proceeds generated from the property constitute the basis for calculating income from the property concerned. Other non-rent proceeds may include, in particular, income from advertising boards, cellular phone antennae, ATMs, car parks, etc. located at the property.

Fair value of land that forms part of the investment properties is measured through the reference to the market transaction prices for similar properties (comparable method). Comparative approach involves the measurement of the property based on the assumption that its value should be equal to the price for similar properties traded on the market, adjusted considering characteristics that differ such properties (i.e. location, development or surface) and determined taking into account changes in prices in time. Sensitivity analysis demonstrates that the comparable method is sensitive to changes in the prices of similar properties selected for evaluation.

Sensitivity analysis shows that the market valuation model is sensitive mainly to the prices of similar properties selected for evaluation, and the cost model is sensitive to the replacement cost and the adopted degree of wear and tear.

Fair value is determined using techniques and methods which are appropriate considering the circumstances and for which sufficient data is available, with the maximum use of the relevant observable inputs and the minimum use of the unobservable inputs.

An effect of unobservable inputs on fair value of properties, depending on the measurement method adopted, is presented below.

	Valuation technique used	Unobservable input data	Link between unobservable input data and fair value
Office - land	Comparative approach	Location (20%) Accessibility (20%) Function in development plan/study (20%) Development state, size and shape of the plot (20%) Location, accessibility (10%) Ownership form (10%)	these factors affect the value of the weighting adopted in measuring the fair value of real estate
		Average market price of comparable real estate	an increase in the market value of comparable real estate will increase the fair value of real estate
Office - buildings	Income approach	Capitalization rate (9,0%)	higher capitalization rate will decrease the fair value of real estate
		Operating expenses - 34 937,96 zł vacancies and rent arrears loss rate (10%)	an increase in operating expenses will adversely affect the fair value of the real estate higher vacancies and rent arrears loss rate will adversely affect the fair value of the real estate
Office and warehouse properties	Cost approach	Replacement cost value	increase in the replacement cost will increase the fair value of real estate
		Requisite degree of technical wear 50%-85%	higher the degree of technical wear adversely affect the fair value of the property

In 2019 the measurement method remained unchanged.

Investment properties were measured by an independent expert based on the market data as at December 31, 2019.

Fair value of the properties was estimated applying the most beneficial and the most advantageous use of the properties (the current use of such properties).

From January 1, 2019 the Company applies IFRS 16, which resulted in the value of the investment property being increased by PLN 2,236 thousand. The revaluation carried out as at December 31, 2019 resulted in the value of the investment property being decreased by PLN 28 thousand.

Details of the fair value hierarchy as at 31 December 2019 and 31 December 2018:

	31.12.2019 Audited	Level 1	Level 2	Level 3
Investment real estate:	19 789	-	-	19 789
Office real estate:	19 789	-	-	19 789
- land	16 253	-	-	16 253
- buildings	3 536	-	-	3 536

	31.12.2018 Audited	Level 1	Level 2	Level 3
Investment real estate:	17 613	-	-	17 613
Office real estate:	17 613	-	-	17 613
- land	14 049	-	-	14 049
- buildings	3 564	-	-	3 564

Level 1 – quoted market prices for similar assets or liabilities in active markets;

Level 2 – prices in active markets other than the quoted market prices – set directly (by comparison with actual transactions) or indirectly (by application of measurement methods based on actual transactions);

Level 3 – prices other than prices in active markets.

No property was reallocated between levels 1, 2 and 3 during the financial year.

Revenues from rentals and direct operating costs regarding the investment properties were as follows:

	Year ended	
	31.12.2019 Audited	31.12.2018 Audited
Rental income from investment property	175	284
Direct operating expenses from investment property that during the period generated rental income	(459)	(274)

The investment property is encumbered with collateral in the amount of PLN 30,000 thousand.

In 2019 and 2018, the Company did not recognise any material expenses in the income statement which were not capitalised in intangible assets as research and development expenses.

Determination of goodwill and goodwill impairment test

As at the balance sheet date, the Company's financial statements contain goodwill of PLN 48,732 thousand (31 December 2018: PLN 48,732 thousand), recognised under intangible assets. Goodwill was created as a result of the acquisition of and merger with PRK-7 S.A. in 2009 and PRKiI S.A. in 2013, and the acquisition of shares in PRK 7 Nieruchomości.

	31.12.2019	31.12.2018
	Audited	Audited
Goodwill from acquisition and merger with PRKiI S.A.	2 051	2 051
Goodwill from acquisition and merger with PRK7 S.A.	46 681	46 681
Total	48 732	48 732

Goodwill resulting from the merger with PRK-7 S.A. and recognised in intangible assets (PLN 46,681 thousand) and goodwill resulting from the merger with PRKiI S.A. and recognised in intangible assets (PLN 2,051 thousand) were allocated to the cash-generating unit ("CGU") that consisted of the following companies: Trakcja PRKiI, Torprojekt Sp. z o.o. and Bahn Technik Wrocław Sp. z o.o. As at the balance sheet date, the goodwill allocated to this CGU was tested for impairment and it was concluded that there are no grounds to recognise an impairment loss on goodwill. Assumptions used to determine the recoverable amount of the cash-generating unit:

- growth rate in the residual period: 2% (31 December 2018: 2%);
- EBITDA margin: 3.4%–8.7% (31 December 2018: 3.2%–8.0%);
- after-tax discount rate: 10.6% (31 December 2018: 10.5%);
- pre-tax discount rate: 12.6% (31 December 2018: 12.8%).

The recoverable amount of the cash-generating unit was calculated using five-year projections of cash flows. The Management Board determined the budgeted margin on the basis of historical performance, updated contract budgets and its projections regarding market growth. Weighted average growth rates are consistent with the projections presented in industry reports. The discount rate applied is a pre-tax rate reflecting specific threats not included in the cash flow projections.

Below is presented an analysis of the sensitivity of the recoverable amount to changes in individual indicators used in the impairment test, using the after-tax discount rate.

Factor applied	Reasonable possibility of factor change	Impact on the recoverable amount of the cash-generating unit	
		increase	decrease
EBITDA	+/- 2,5%	17 193	(17 193)
WACC	+/- 0,25 p.p.	(10 176)	10 756

The Company analysed the sensitivity, using after-tax discount rate, of the change in EBITDA by +/- 2.5% and in after-tax WACC by +/-0.25 p.p., which led to the conclusion that a reasonable change in assumptions would not trigger the need to recognise an impairment loss.

24. Investments in subsidiaries

As at 31.12.2019

Company name	Location	Business object	Character of relation / consolidation method	Date of taking control	Value of shares/stocks at acquisition price	Carrying value of shares/stocks	Percentage of the company share capital held	Share in total no. of votes at GM

*) The Company holds a total of 98.09% (96.84% directly and 1.25% indirectly) of the share capital of AB Kauno Tiltai. The indirect shareholding results from the acquisition of own shares by the subsidiary.

Test na utratę wartości inwestycji

Individual investments were tested for impairment as at 31 December 2019. For the purposes of testing shares for impairment, each related entity was treated as a separate cash-generating unit. The recoverable amount of an investment is determined by calculating the value in use. With the exception of PRK7 Nieruchomości Sp. z o.o., where due to the long-term nature of the investment plans the 10-year projection was used, the calculations use cash flow projections over a five-year period. Cash flows beyond the five-year period, and in the case of PRK7 Nieruchomości Sp. z o.o. – ten-year period, were estimated by calculating the residual value computed using discount rates calculated as the weighted average cost of capital (own and borrowed). The growth rate in the residual period was set at 2%. The Management Board determines the budgeted margin on the basis of historical performance, updated contract budgets and its projections regarding market growth. Weighted average growth rates are consistent with the projections presented in industry reports. The discount rate applied is a pre-tax rate reflecting specific threats to individual segments not included in the cash flow projections, calculated using the CAPM model.

Main assumptions adopted for investment impairment testing:

As at 31.12.2019	PRK7 Nieruchomości	PEUiM Sp. z o.o.	AB Kauno Tiltai	BTW Sp. z o.o.
WACC before taxation	12,5%	12,4%	11,3%	12,4%
WACC after taxation	10,6%	10,6%	10,0%	10,6%
EBITDA margin	1,4% - 4,8%	5,1% - 7,6%	3,5% - 7,2%	6,1% - 7,9%
Growth rate in the residual period	2,0%	2,0%	2,0%	2,0%

As at 31.12.2019	PRK7 Nieruchomości	PEUiM Sp. z o.o.	AB Kauno Tiltai	BTW Sp. z o.o.
WACC before taxation	12,7%	12,7%	10,2%	12,5%
WACC after taxation	10,5%	10,5%	8,9%	10,5%
EBITDA margin	1,8% - 10%	4,3% - 11,7%	3,7% - 7,3%	8,5% - 9,7%
Growth rate in the residual period	2,0%	2,0%	2,0%	2,0%

As a result of the impairment loss tests being performed as at December 31, 2019, a potential impairment loss was recognised in the amount of PLN 112,857 in the investment in AB Kauno Tiltai and in the amount of PLN 1,330 thousand in the investment in BTW sp. z o.o. Other investments in shares of Trakcja Group companies have been disclosed in the same amounts as in the financial statements as at 31 December 2018.

The sensitivity analysis carried out indicates that significant factors affecting the estimates of the value of investments include profitability of construction contracts in progress and the discount rate used.

Below is presented an analysis of the sensitivity of the recoverable amount main investments to changes in individual indicators used in the impairment test, using the after-tax discount rate.

Sensitivity analysis for the investment in PRK7 Nieruchomości Sp. z o.o.:

Factor applied	Reasonable possibility of factor change	Impact on the recoverable amount of cash-generating unit	
		increase	decrease
EBITDA	+/- 2,5%	735	(735)
WACC	+/- 0,25 p.p.	(798)	844

Sensitivity analysis for the investment in PEUiM Sp. z o.o.:

Factor applied	Reasonable possibility of factor change	Impact on the recoverable amount of cash-generating unit	
		increase	decrease
EBITDA	+/- 2,5%	1 365	(1 365)
WACC	+/- 0,25 p.p.	(1 193)	1 264

Sensitivity analysis for the investment in AB Kauno Tiltai:

Factor applied	Reasonable possibility of factor change	Impact on the recoverable amount of cash-generating unit	
		increase	decrease
EBITDA	+/- 2,5%	9 512	(9 512)
WACC	+/- 0,25 p.p.	(8 085)	8 625

Sensitivity analysis for the investment in Bahn Technik Wrocław Sp. z o.o.:

Factor applied	Reasonable possibility of factor change	Impact on the recoverable amount of cash-generating unit	
		increase	decrease
EBITDA	+/- 2,5%	1 044	(1 044)
WACC	+/- 0,25 p.p.	(693)	735

The Company performed the sensitivity analysis for changes in EBITDY +/- 2.5% and in WACC +/-0.25 p. p., which demonstrated that a rational change in assumptions would not result in an impairment loss being recognised, except for the investments in AB Kauno Tiltai and BTW sp. z o.o., for which the impairment losses were recognised. Therefore, any additional change in the aforementioned parameters would result in the recognised impairment losses on the investments being changed.

The tests for impairment losses were performed as at the balance sheet day, to the best of the knowledge at their performance. A factor of a system nature, which in future may affect the measurement of all the assets, in particular, the financial assets (in the separate financial statements) and the . goodwill (in the consolidated financial statements) is the Covid-19 pandemic. As at the preparation hereof, a comprehensive assessment of the effects of the pandemic on the test results is not possible for objective reasons. When the potential Company-specific effects are assessed, the following factors (including the indication of their effect) may in the following reporting periods have an effect on the test results:

- Reduction in the costs of financial debt due to the fall in interest rates (+);
- Increase in the risk factors (the country risk premium) for cash generating units on both the Polish and the Lithuanian markets (-);
- Potential decrease in the labour expenses and increase in the availability of human resources (+);
- Improvement in the competitive position in relation to other contractors due to insignificant share of foreigners in the employment structure (+);
- Potential interruptions in the continuity of the contract performance due to the prolonged processing of administrative decisions (-);
- Changes in prices for key materials, including: 1) potential decrease in prices for oil derivatives (e.g. asphalt) (+), 2) potential increase in prices for materials related to disruptions in the supply chain (-);
- Stimulation of the Polish and Lithuanian economies through the state infrastructural investment programmes (+);

- Weakening of the PLN against the EUR and the USD and potential exchange rate volatility (+ -);
- Potential increase in the risk of payment gridlocks or even insolvency of consortium members and subcontractors (-).

Taking into account the number of variables and the uncertainty related to the development of the pandemic and its consequences, the impairment loss tests may be susceptible to fluctuations that exceed the levels of rational changes in the key assumptions made as at the approval of the financial statements.

25. Jointly controlled operations – contracts performed in consortia

The Company performs certain long-term contracts under consortium agreements, as the consortium leader, without establishing separate entities. The Company recognises shares in such contracts as shares in joint operations in accordance with IFRS 11. Therefore, the Company does not recognize in the income statement the portion of revenue and expenses from such contracts attributable to consortium members.

Contracts performed by the Company as the consortium leader are presented in the table below.

The name of the contract	Country of contract implementation	% Share of the company in the consortium	
Modernization of the railway line E 30/C-E30 section Cracow – Rzeszów, stage III (Podtęże - Bochnia)	Poland	86,3%	86,1%
Implementation of construction works under tender No. 1 - modernization of Jaworzno Szczakowa-Trzebinia section (km 1,150 - 0,000 of route No. 134, km 15,810 - 29,110 of route No. 133)	Poland	57,1%	56,8%
Designing and execution of construction works as part of the project "Works on railway lines No. 140,148,157,159,173,689,691 on the section Chybie-ŻORY-Rybnik-Nędza/Turze"	Poland	49,9%	49,3%
Work on modernizing the 110/15 kV Maków Mazowiecki station	Poland	37,3%	33,5%
Design and reconstruction of the 110kV line from GPZ Radzyń-GPZ Łuków	Poland	91,8%	91,6%
Construction and extension of the provincial road No. 676 along with road engineering facilities and the necessary technical infrastructure along the Białystok - Supraśl section, along with the bypass of the town of Ogrodniczki and Krasne	Poland	18,6%	18,6%
Ełk Południe node - Wysokie node	Poland	49,9%	49,9%
Strengthening the foundation of the LK9 Malbork railway embankment	Poland	100,0%	50,0%
Expansion of the intersection of Warszawska Street with Kolska St. in Konin	Poland	96,0%	90,9%
Express Road S5 section 6 from the junction (Szubin-Jaroszewo)	Poland	68,2%	brak
E59 section Stargard - Szczecin Dąbie	Poland	66,2%	brak
Modernization of the railway line E 65/ CE 65 on the section Warsaw - Gdynia - area LCS Hawa, LCS Malbork	Poland	brak	69,4%
Modernization of the railway line E 65/C-E 65 on the section Warsaw – Gdynia – obszar LCS Działdowo	Poland	brak	70,5%
Modernization of the railway line E 30/C-E30 section Cracow – Rzeszów, stage III (Podtęże - Bochnia)	Poland	brak	96,9%
Revitalization of railway line No. 144 on the section Fosowskie – Opole	Poland	brak	67,1%
Modernization of the railway line E59 on the section Wrocław – Poznań, Stage II – section Wrocław – Dolnośląskie province border	Poland	brak	40,4%
Modernization of the railway line E30, stage II section Zabrze – Katowice – Cracow Tender No. 1 – Modernization of sections: Jaworzno Szczakowa – Trzebinia (km 15,810 - 29,110 line No. 133) Jaworzno Szczakowa – Sosnowiec Jęzor (km 0,000 – 6,847 linie No. 134)	Poland	brak	78,3%
Modernization of the railway No. 358 on the section Zbąszynek – Czerwieńsk with the construction of a railway switch Pomorsko – Przylep bypassing stations Czerwieńsk – Stage	Poland	brak	93,7%
Connection Korczowa Logistic Park - I stage (line construction kV Przemyśl Radymno)	Poland	brak	77,8%

Modernization line No. 20 within the PKP station Warszawa Gdańska in connection with the line E 65 and a subway station A 17 Dworzec Gdański stage II" as part of the project „Works on the perimeter line in Warsaw (odc. Waraw Gołębki/Warsaw Zachodnia – Warsaw Gdańska)	Poland	brak	59,8%
Construction of engineering structures of a railway line E59: part A object in km 145,65	Poland	brak	35,8%
Construction of engineering structures of a railway line E59: part C object in km 160,857	Poland	brak	11,9%
Designing and execution of construction works for Reconstruction of the traction network on the route Idzikowice - Opoczno Południe of the railway line No. 4 CMK project as part of the project "Modernization of the railway line No. 4 - Central Railway Main Stage II" - Part No. 1	Poland	brak	52,0%

The table below presents revenue and expenses attributable to the consortium members, regarding contracts performed under the aforementioned consortium agreements other than these recognised in the Company's income statement.

	Year ended	
	31.12.2019	31.12.2018
	Audited	Audited
Sales revenue	76 992	180 718
Cost of goods sold	(74 820)	(182 488)
Gross profit (loss) on sales	2 172	(1 770)

As at 31 December 2019, the Company's balance sheet did not include trade receivables attributable to consortium members of PLN 9,392 thousand (31 December 2018: 36,486 thousand) and trade liabilities attributable to consortium members of PLN 9,572 thousand (31 December 2018: PLN 36,631 thousand).

26. Other financial assets

	31.12.2019	31.12.2018
	Audited	Audited
Assets valued at amortized cost		
Bank guarantees deposits	14 173	15 993
Loans granted and receivables	5 944	3 114
Total	20 117	19 107
including:		
- recognised as non-current assets	8 340	4 511
- recognised as current assets	11 777	14 596

Classification of loans granted with regard to credit risk is presented below:

	As at 31.12.2019		As at 01.01.2018	
	Gross value	Expected credit losses	Gross value	Expected credit losses
Stage 1. Loans for which there has been no significant increase in credit risk since they were granted	5 944	-	3 114	-
Stage 2. Loans for which there has been a significant increase in credit risk since their granting	-	-	-	-
Stage 3. Loans for which there is an individual condition for impairment	-	-	-	-

With respect to loans granted – they are granted to other Group members. The entity assesses their credit risk on the basis of their financial position and any arrears in payments of interest or principal. A significant increase in credit risk and the resulting transfer of receivables to Stage 2 takes place in the case of:

- arrears of at least 30 days, exceeding 1% of the exposure balance,
- change the terms of the extension agreement where such an extension is not compensated for by an appropriate change in the interest rate reflecting the extended lending period or where the terms of the extension contain preferences not available under normal circumstances,
- deterioration in the financial standing of the borrower, where such deterioration is analysed on a case by case basis, based on the financial information provided by the borrowers.

With respect to loans granted, the Company assumes that a default occurs in the event of arrears of at least 90 days with respect to interest or principal.

27. Prepayments

Structure of prepayments:

	31.12.2019	31.12.2018
	Audited	Audited
Prepayments, including:	17 844	18 084
- insurance and insurance guarantees	13 556	12 821
- PKP (Polish Railways) identification documents	-	27
- repair and maintenance of wagons, locomotives	4 288	5 236
Other prepayments and accruals	283	409
Total	18 127	18 493

Structure of the prepayments by maturity:

	31.12.2019	31.12.2018
	Audited	Audited
Long-term	5 314	8 583
Short-term	12 813	9 910
Total	18 127	18 493

28. Inventories

	31.12.2019	31.12.2018
	Audited	Audited
Materials	58 797	47 380
Semi-finished goods and products in progress	5 773	2 764
Finished goods	282	349
Merchandise	20	20
Total, gross inventory	64 872	50 513
Inventory revaluation write-offs	(152)	(152)
Materials	58 672	47 255
Semi-finished goods and products in progress	5 773	2 764
Finished goods	255	322
Merchandise	20	20
Total, net inventory	64 720	50 361

Costs of inventories recognised in operating expenses of the current period amounted to PLN 172,256 thousand (PLN 337,029 thousand in 2018).

Change in impairment losses on inventories:

	Year ended	
	31.12.2019	31.12.2018
	Audited	Audited
As at start of period	152	152
As at end of period	152	152

The recognition and reversal of impairment losses on inventories were included in "Cost of sales" in the income statement. Impairment losses on inventories are recognised in accordance with the principles set out in Note 8.8.

Inventory is subject to collateral. For more details, please see Note 48.

29. Trade and other receivables

Structure of trade and other receivables:

	31.12.2019 Audited	31.12.2018 Audited
Gross trade receivables, before discounting	272 257	243 415
Total, gross trade receivables	272 257	243 415
including:		
- <i>receivables from related entities</i>	3 599	681
Budgeted receivables	2	3
Receivables claimed in court	3 641	3 479
Other receivables from third parties	36 810	16 689
Receivables from sale of property	53 000	53 000
Amounts held	1 730	3 540
including:		
- <i>receivables from related entities</i>	18	18
Total, gross trade and other receivables	367 440	320 126
Expected credit loss	(70 113)	(66 996)
Total	297 327	253 130

Receivables from related parties are disclosed in Note 49.

In the calculation of the expected credit loss, the Company applies a practical simplification in accordance with IFRS 9 - lifetime expected credit losses on trade receivables are assessed in terms of "age table of past due receivables". Requirements:

- based on historical experience,
- determines fixed % of allowances,
- the tables differ depending on the historical experience of each customer group.

For trade receivables, the Company applies a portfolio approach whereby historical data on the ratio of uncollected receivables to total receivables that have reached a specified delinquency bracket for each risk category are analysed. The Company has defined the following brackets:

- paid on or before the due date,
- paid up to 30 days after the due date,
- paid 31-90 days after the due date,
- paid 91-180 days after the due date,
- paid 181-365 days after the due date,
- paid later than 365 days after the due date,
- unpaid.

For two financial years prior to the year under analysis (T-2 and T-1), the Company determines how many invoices issued during the year were finally paid in each of the brackets. On this basis, the next statement is created - a cumulative statement of total sales on invoices for subsequent periods (how many of the invoices issued in a given year were in the bracket of 0-30 days past due for at least 1 day, how many invoices were in the bracket of 31-60 days for at least 1 day, etc. up to the amount of invoices that were never paid).

The amount of receivables unpaid is applied to each of the aggregated amounts in order to calculate the portion of the receivables in a given bracket that will not be recovered. This percentage is used as the allowance ratio for the bracket. The amount of unpaid receivables may be adjusted either upwards or downwards depending on the Company's expectations concerning future non-recoverable amounts due to trends in the factors affecting the recoverability of receivables.

weights are assigned to the allowance ratios for each year under review and the weighted average allowance ratio is calculated for each bracket.

This calculation method ensures calculation of future expected credit losses based on historical loss experience for each age bracket of receivables and enables modification of the allowance ratio for expected changes in the recoverability of receivables.

Trade receivables and retentions:

	31.12.2019	31.12.2018
	Audited	Audited
Net trade receivables	269 955	193 379
With maturity within 12 months	269 444	192 819
With maturity over 12 months	511	560
Total, net trade receivables after discounting	269 955	193 379

Receivables maturing in more than 12 months include mainly retentions which serve as additional security for the proper performance of contracts.

The Company decided not to recognise the discount of long-term receivables due to their immateriality.

The maturity structure of total retentions is presented in the table below:

	31.12.2019	31.12.2018
	Audited	Audited
Up to 12 months	1 271	3 032
Over 12 months	459	508
Total	1 730	3 540

Trade receivables bear no interest and are usually payable within 30 days.

The Company operates a policy of selling its products and services only to customers whose credibility has been verified. The management believes that thanks to this policy there is no additional credit risk beyond the level defined by the impairment losses recognised with respect to uncollectible trade receivables of the Company. As at the balance sheet date, receivables from PKP PLK S.A. account for 35% of the total receivables of Trakcja PRKiI (31 December 2018: 32%).

Due to the short-term nature of trade receivables, their carrying amount approximates their fair value.

Change in expected credit loss on trade and other receivables in 2019 and Change in impairment loss on trade and other receivables in 2018:

	31.12.2019	31.12.2018
	Audited	Audited
As at start of period	66 996	65 209
Revision IFRS 9	-	(328)
Increases	11 434	7 761
Establishment	11 434	7 761
Decreases	(8 317)	(5 646)
Use	(4)	(31)
Dissolution	(8 313)	(5 615)
As at end of period	70 113	66 996

Recognition and reversal of impairment losses on trade and other receivables are presented under cost of sales.

During 2019, the following amounts of expected credit loss were transferred between the impairment recognition stages:

	Stage 2	Stage 3
At as 01.01.2019	8 632	34 611
Founding/Dissolve	2 996	(121)
At as 31.12.2019	11 628	34 490

Trade receivables and retentions are assessed for impairment using the simplified model defined in paragraph 5.5.15 of IFRS 15. Therefore, an allowance for lifetime credit losses is calculated starting from their origination. As a consequence, it is presented under Stage 2 in the table above. If a specific evidence of impairment of individual receivables is identified, they are transferred to individual assessment and presented in Stage 3.

Trade receivables and retentions by maturity:

	31.12.2019	31.12.2018
	Audited	Audited
Up to 1 month	143 705	110 268

30. Cash and cash equivalents

Cash at banks earns interest at floating rates linked to interest rates for overnight deposits.

Short-term deposits are placed for various periods, from one day to one month, depending on the Company's immediate cash requirement, and earn interest at negotiated interest rates.

Moreover, in accordance with the agreements signed as at 31 December 2019, the Company had undrawn overdraft facilities and revolving credits in the total amount of PLN 29,3 million (31 December 2018: PLN 47 million).

Currency structure of cash and cash equivalents:

31. Explanatory notes to the statement of cash flows

In June 2018, the Company signed the investment loan agreement according to which the ownership right to the balast cleaner and 6 conveyors was transferred to mLeasing Sp. z o.o. which allocated them to the category of leaseback agreements. The amount due from mLeasing Sp. z o.o. was set off against the liability from the prior loan contract made with mLeasing Sp. z o.o. and reduced by initial payments. The Company received an inflow of net cash in the amount of PLN 17,061 thousand. Due to the non-cash nature of the transaction, the Company did not recognise any cash flows on account of offsetting.

In 2019, the Company set off the dividends received against liabilities and loans. Due to the fact that the transaction is not of a cash nature, the Company did not disclose any cash flows from the setting off.

A difference between an inflow from the issue of shares in the cash flow statement and the total of an increase in the share capital and the surplus of the issue value over the nominal value of shares in the statement of changes in equity results from the non-cash payment for shares by COMSA – the conversion of the loan granted by COMSA in the amount of PLN 20 million, including interest on the loan concerned in the amount of PLN 286 thousand and the conversion of some of the liabilities of Trakcja towards COMSA for invoices for support services in the amount of PLN 527 thousand. In addition, the inflows from the share issue (agio) were decreased by the costs of issue in the amount of PLN 969 thousand.

32. Assets held for sale

On 30 November 2018, the Extraordinary General Meeting of Trakcja PRKiI S.A. adopted a resolution to dispose of a real estate and perpetual usufruct of a real estate at ul. Oliwska 11 in Warsaw for a net price not lower than PLN 14 million. For or details, see CR 23/2018 and CR 20/2018. The planned transaction meets the conditions for classification of fixed assets as held for sale specified in IFRS 5. Therefore, the Company recognised assets in the amount of PLN 5,037 thousand as non-current assets held for sale. The Company and the potential Buyer continue to obtain consents and permits that are necessary for the sale of the property to be completed. At the moment, the Company expects to close the transaction in 2020.

33. Settlements under contracts with customers

	31.12.2019	31.12.2018
	Audited	Audited
Asset on account of contracts with customers	175 245	160 028
Surplus of revenues resulting from degree of advancement over invoiced revenues	169 380	139 823
Advances paid towards contracts being performed	5 865	20 205
Liabilities on account of contracts with customers	126 455	129 229
Surplus of invoiced revenues over revenues resulting from degree of advancement	27 333	15 982
Advances received towards contracts being performed	99 122	113 247

In the statement of financial position, the Company recognises a contract asset, i.e. the Company's right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time. This item of the statement of financial position includes, in particular, assets relating to completed and delivered works under long-term construction contracts that have not yet been invoiced and the recognition of revenue in connection with the transfer of control over products or goods that will be invoiced in the future.

In the statement of financial position, the Company recognises a contract liability, i.e. the Company's obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. The Company recognises a contract liability mainly in relation to contracts for which the payment is made in advance and in relation to the consideration for construction works received in advance for services not yet provided by the Company.

No adjustments to revenue were made in any of the periods presented that would affect an asset or liability for contracts with customers in connection with the settlement of changes in contracts or changes in the estimated transaction price. In addition, no revenue was recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods.

	31.12.2018 Audited	Change in the valuation of contracts / Implementation of new performance obligations without issuing an invoice	Revenues recognized in the period included in balance of liabilities as at 31/12/2018	Invoicing	31.12.2019 Audited
Contracts with customers assets	160 028	145 556	-	(130 339)	175 245
Contracts with customers liabilities	129 229	67 221	(69 996)	-	126 455

The advances towards contracts being performed are disclosed as the short-term liabilities and will be settled during the performance of contracts in the course of the Company's normal operating cycle.

The table below provides information on changes in the advance payments received:

	Year ended	
	31.12.2019	31.12.2018
	Audited	Audited
Balance at the beginning of the period	113 247	133 826
Increases (new advances)	39 888	42 725
Decreases (settlement of advances - revenues of period)	(54 013)	(63 304)
Balance at the end of the period	99 122	113 247

Transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at the end of the reporting period (except for any revenues allocated to consortium members)

	1 year	1-3 years	more than 3 years	Total
Trading price assigned to liabilities to discharge service met in:	910 120	1 512 631	-	2 422 751

Contract costs recognised as an asset

No items meeting the definition of contract costs recognised as an asset were identified. Therefore, no specific disclosures are required.

34. Capital risk management

The goal of the Company in managing the capital risk is maintaining the Group ability to continue the business and maintain optimum capital structure to provide return on investment to the shareholders. To maintain or adjust its capital structure, the Company may issue new shares, adjust the amount of dividends paid to shareholders, increase debt, or sell assets to reduce debt. The Company monitors its capital structure using the financing structure ratios. The ratios analysed by the Company, presented in the below table, allow for the good credit rating to be maintained and confirm that the Company's capital structure supports its operating activities.

FINANCING STRUCTURE RATIOS	31.12.2019	31.12.2018	Change
	Audited	Audited	
Equity to assets ratio	0,28	0,43	-0,15
Equity to non-current assets ratios	0,57	0,77	-0,20
Debt ratio	0,72	0,57	0,15
Debt to equity ratio	2,51	1,33	1,18

The above ratios have been calculated in accordance with the following formulas:

Equity to assets ratio = Equity attributable to shareholders of parent entity / total assets

Equity to non-current assets ratio = Equity attributable to shareholders of parent entity / non-current

Debt ratio = (Total assets - Equity attributable to shareholders of parent entity) / Total assets

Debt to equity ratio = (Total assets - Equity attributable to shareholders of parent entity) / Equity

35. Equity

Share capital

On November 29, 2019, by the decision of the District Court of the City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register under KRS, an increase in the Company's share capital was entered into the commercial register. The share capital was increased by resolution no. 5 of the Extraordinary General Meeting of Shareholders adopted on September 27, 2019 on an increase in the share capital from

PLN 41,119,638.40 to PLN 69,160,780.80, i.e. by PLN 28,041,142.40 by way of issuing 10,279,909 series B bearer shares acquired at the issue price of PLN 1.70 per share and 24,771,519 series C registered shares acquired at the issue price of PLN 1.70 per share.

The issue of shares of series B and C allowed the Company to acquire the capital which was used for ongoing financial needs of the Company and enabled the current debt to be refinanced. Moreover, the issue of shares was necessary to acquire and implement projects performed by the Company in its relevant operational sectors. In the Management Board's opinion, the capital acquired supported the further operations of the Company. An increase in the Company's share capital through the issue of new shares was one of the conditions for acquiring new debt by the Company from financial institutions under the debt refinancing process which the Company undergoes currently. Simultaneously, the increase in the share capital depended also on the success in acquiring funds. The aforementioned measures aimed at restructuring the financial condition of the Company and at maintaining its market position. The Company's intention was to acquire at least PLN 50,000,000.

As at December 31, 2019 the share capital was PLN 69,160,780.80 and was divided into 51,399,548 series A ordinary bearer shares and 10,279,909 series B ordinary bearer shares and also 24,771,519 series C registered shares with a par value of PLN 0.80 per share. Each share constitutes one vote at the General Meeting of Shareholders. All shares are fully paid-up.

	31.12.2019 Audited	31.12.2018 Audited
	Par value 0.8 PLN	Par value 0.8 PLN
Series A ordinary shares	51 399 548	51 399 548
Series B ordinary shares	10 279 909	-
Series C ordinary shares	24 771 519	-
Total	86 450 976	51 399 548

On February 6, 2020, by the decision of the District Court of the City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register under KRS, a conditional increase in the Company's share capital was entered into the commercial register. In relation to the foregoing, the Company's share capital was conditionally increased from PLN 69,160,780.80 by an amount no higher than PLN 13,023,288 by way of issuing no more than 16,279,110 series D ordinary bearer shares with a nominal value of PLN 0,80 per share. Series D shares may be held by holders of convertible bonds series F and G, which the Company intends to issue in the nearest future after all the formalities are met. Shares of series D, when bonds series F or G are converted into the Company's shares, shall be acquired at PLN 1.70 per share.

Share premium account

As at December 31, 2019 the total surplus of the issue value over the nominal value of shares was PLN 340,561 thousand, and due to the issue of shares increased by PLN 30,577 in comparison to the value as at December 31, 2018 (PLN 309,984 thousand).

Revaluation reserve

Revaluation reserve includes mainly remeasurement effects caused by a change in the purpose of non-current assets.

Other capital reserves

Other capital reserves include:

- Previous years' profits – capital arising from profits generated in the preceding financial years. The Company is obliged to create a supplementary capital from at least 8% of the profit generated for a given financial year until it amounts to at least one third of share capital. Such capital is non-distributable.
- Actuarial gains (losses) – The Company recognises actuarial gains and losses on provisions for employee benefits in other comprehensive income and accumulates them in capital reserves. Such capital reserves are non-distributable.

Undistributed profit or loss

The Company's undistributed profit or loss is the current profit or loss for a given financial year.

Foreign exchange differences from conversion of foreign currencies

In 2016 the Company opened an establishment in Bulgaria, whose functional currency is the Bulgarian lev (BGN). The Company translates the financial data of the establishment into the presentation currency (PLN). Any foreign currency differences arising from such a translation are recognised directly in equity as a separate item. The foreign exchange differences arising from the translation at the end of 2019 were positive and amounted to PLN 24 thousand (2018: PLN -28 thousand).

TOTAL						282 282

Currency structure of the Company's loans and borrowings:

	31.12.2019	31.12.2018
	Audited	Audited
In PLN	336 459	205 812
In foreign currencies - after conversion into PLN, including:		
in EUR	22 929	-
Total	359 388	205 812

Loans, borrowings and lease liabilities bear interest at interest rates based on the WIBOR rate and bank's margin.

As at 31 December 2019, the Company had at its disposal an overdraft facility and a working capital facility of up to PLN 29.3 million (31 December 2018: PLN 47 million).

The fair value of loans and borrowings does not differ materially from their carrying amounts.

38. Employee benefit liabilities

Liabilities on account of provisions for old-age and disability retirement severance payments and length-of-service awards:

	Provision for pension benefits	Provision for jubilee awards
As at 01.01.2019	1 530	2 306
Audited		
Total costs recognised in profit and loss account:		
- Interest costs	37	51
- Current service costs	392	762
- Past service costs	(19)	(166)
Benefits paid	(392)	(1 802)
Total	18	(1 155)
As at 31.12.2019	1 548	1 151
Audited		

	Provision for pension benefits	Provision for jubilee awards
As at 01.01.2018	1 594	2 625
Audited		
Total costs recognised in profit and loss account:		
- Interest costs	41	66
- Current service costs	596	1 221
- Past service costs	(518)	(738)
Benefits paid	(183)	(868)
Total	(64)	(319)
As at 31.12.2018	1 530	2 306
Audited		

Liabilities on account of provisions for unused holiday entitlements:

	31.12.2019	31.12.2018
	Audited	Audited
Provision for unused leaves		
Balance at the beginning of the period	7 839	6 515
Recognised in income statement:	(1 440)	1 324
- provision creation	777	2 593
- release of unused provision	(822)	(1 219)
- use of provision	(1 395)	(50)
Balance at the end of the period	6 399	7 839

Employee benefit liabilities by maturity:

	Provision for pension benefits	Provision for jubilee awards
During 1 year	878	591
From 1 to 4 years	456	560
Over 4 years	214	-
Total	1 548	1 151

The weighted average term of post-employment benefit liabilities is 2 years.

Principles for recognising provisions for employee benefits:

The Company pays retirement benefits to retired employees pursuant to the applicable provisions of the Remuneration Rules. Therefore, based on valuation prepared based on actuarial methods, the Company recognises a provision for the present value of old-age retirement severance payments and length-of-service awards. Following the adoption of new remuneration rules on 3 June 2017, the provision for old-age and disability retirement benefits and length-of-service awards decreased.

To calculate the provision for old-age retirement severance payments and length-of-service awards as at 31 December 2019 and 31 December 2018, the Company assumed a discount rate of 2.25% and salary growth rate of 1.8%. The sensitivity analysis of employee benefit liabilities is presented in the table below:

Factor applied	Reasonably possible change of the factor	Liabilities due to employee benefits	
		increase	decrease
Discount rate	+/- 1 p. p.	(40)	43
Salary growth	+/- 1 p. p.	43	(41)

The present value of future employee benefit liabilities equals their carrying amount.

39. Trade and other liabilities

	31.12.2019	31.12.2018
	Audited	Audited
Trade liabilities, before discounting	233 686	224 831
Total, net trade liabilities after discounting	233 686	224 831
including:		
- liabilities from related entities	2 137	10 027
Amounts held	31 388	27 430
Budgetary liabilities	22 564	55 567
Payroll liabilities	2 822	2 639
Other liabilities towards third parties	3 138	2 825
Total trade and other liabilities	293 598	313 292

Other liabilities to related entities result from the transaction described in Note 24.

Liabilities to related parties are disclosed in Note 49.

Maturity structure of trade liabilities and retentions:

	31.12.2019	31.12.2018
	Audited	Audited
Trade liabilities before discounting	265 074	252 261
With maturity within 12 months	252 193	240 202
With maturity over 12 months	12 881	12 059
Total, Trade liabilities after discounting	265 074	252 261

Liabilities maturing in more than 12 months comprise retentions.

In 2019 and 2018, the Company decided not to present a discount on liabilities maturing in more than 12 months due to its immateriality.

Due to the short-term nature of trade liabilities, their carrying amount approximates their fair value.

Currency structure of trade and other liabilities:

	31.12.2019	31.12.2018
	Audited	Audited
In PLN	292 295	309 885
In foreign currencies - after conversion into PLN, including:	1 303	3 407
in EUR	1 279	3 383
in BGN	24	24
Total	293 598	313 292

Terms and conditions of payment of liabilities:

Trade liabilities do not bear interest and are, as a rule, paid in 30-60 days. Liabilities maturing in more than 12 months comprise mainly retentions related to the performance of construction and assembly contracts in order

to ensure proper and timely performance of the contract. Other liabilities do not bear interest, and their average payment period is one month. The amount resulting from the difference between VAT payable and VAT receivable is paid to the relevant tax authorities within deadlines set out in tax regulations. Interest payable is usually settled based on accepted interest notes.

40. Lease liabilities – the Company as a lessee

Future minimum lease payments under these agreements and the present value of the minimum net lease payments are as follows:

	31.12.2019 Audited	31.12.2018 Audited
Nominal value of minimum leasing fees		
Within 1 year	20 338	17 052
Within 1 to 5 years	50 372	44 306
Over 5 years	25 466	2 582
Total financial lease liabilities - total minimum leasing fees	96 176	63 940
Financial costs on account of financial lease	(19 070)	(9 304)
Present value of minimum leasing fees		
Within 1 year	16 463	14 320
Within 1 to 5 years	46 484	27 103
Over 5 years	14 159	13 213
Total present value of minimum leasing fees	77 106	54 636

Liabilities on account of perpetual usufruct rights to land were estimated based on the annual charges set forth in the most recent administrative decisions and resulting from the periods of use of the land.

The Company uses some of its manufacturing equipment under finance lease agreements. The Company may purchase the equipment leased for its nominal value at the end of the agreements. The Company's liabilities resulting from the finance lease agreements are secured with the rights of lessors to the assets leased.

41. Information on financial instruments

In the period covered by the annual financial statements and in the corresponding period, the Company held the following financial instruments:

- financial assets measured at amortised cost – cash and short-term deposits, trade and other receivables other than receivables from the State budget, short-term borrowings granted, bank guarantee deposits to secure guarantees granted to the Company by banks,
- financial liabilities measured at amortised cost – bank loans, lease and factoring liabilities, trade and other liabilities other than liabilities to the State budget.

As at 31.12.2019	Financial assets measured at amortised cost	Financial liabilities measured at amortised cost

Total	-	402 548
Total	333 688	463 537

42. Fair value for financial instruments

Comparison of fair value and carrying amount:

Classes of financial instruments	As at 31.12.2019		As at 31.12.2018	
	Book value	Fair value	Book value	Fair value
Loans granted	5 944	5 944	3 114	3 114
Bank guarantees deposits	14 173	14 173	15 993	15 993
Trade and other receivables (excluding budgetary receivables)	297 325	297 325	253 127	253 127
Cash and cash equivalents	47 514	47 514	61 451	61 451
Interest-bearing loans and borrowings, financial lease liabilities	359 388	359 388	205 812	205 812
Trade and other liabilities (excluding budgetary liabilities)	271 034	271 034	257 725	257 725

Methods and, when a valuation technique is used, assumptions adopted to determine fair values of individual categories of financial instruments

Due to a short-term nature of trade and other receivables and trade and other liabilities, as well as cash and cash equivalents, the carrying amounts of these financial instruments are close to their fair value.

Any borrowings granted and any loans and borrowings incurred are based on the variable market rates linked to WIBOR, and therefore their fair values are close to their carrying amounts.

The Company applies the following hierarchy when determining and disclosing fair value of the financial instruments measured at fair value, depending on the measurement method adopted:

Level 1 – quoted market prices for similar assets or liabilities in active markets;

Level 2 – prices in active markets other than the quoted market prices – set directly (by comparison with actual transactions) or indirectly (by application of measurement methods based on actual transactions);

Level 3 – prices other than prices in active markets.

Both in the reporting period and in the comparable period no reallocations were made between Level 1 and Level 2, and none of the instruments was reallocated from Level 2 to Level 3.

43. Objectives and policies of financial risk management

Risk management is mainly focused on the unpredictability of markets and aims to reduce the impact of volatility on the Company's financial results.

Type of risk		Exposure	Risk measurement	Management/Hedging
MARKET RISK	Exchange rate changes	<ul style="list-style-type: none"> - economic currency exposure resulting from inflows decreased by expenses indexed to or denominated in a currency other than the functional currency; - currency exposure resulting from investment or probable liabilities and receivables in foreign currencies; - balance sheet exposure resulting from assets and liabilities denominated in foreign currency 	<p>Based on planned cash flows.</p> <p>Based on analysis of balance sheet items.</p>	Market risk management policy and hedging strategies, which define principles of measurement of individual exposure, parameters and the time horizon of risk hedging and hedging instruments.
	Interest rate changes	Exposure resulting from assets held and liabilities for which interest income or expenses are based on floating interest rates.	Based on total gross debt to items for which interest expenses depend on floating interest rates.	
Liquidity		Risk of unforeseen shortage of cash or lack of access to financing sources, both in the horizon of short and long-term borrowing, leading to temporary or permanent loss of ability to pay financial liabilities or imposing the need to obtain funds on unfavourable terms.	Based on planned cash flows in short and long-term horizon.	Liquidity risk management policy which defines rules of reporting and consolidation of liquidity. The Company pursues a policy of its financing sources diversification and uses a range of tools for effective liquidity management.
Loss of cash and deposits		Risk of bankruptcy of domestic or foreign banks in which accounts are kept or in which cash is invested.	Regular review of credit rating of banks and setting limits on concentration of funds. Management based on principles of surplus cash management, which	Regular review of credit rating of banks and setting limits on concentration of funds. Management based on principles of surplus cash management, which determine possibility of

		determine possibility of granting quotas for individual banks made on the basis of, among others, ratings and reporting data. Cooperation mainly with crediting banks.	granting quotas for individual banks made on the basis of, among others, ratings and reporting data. Cooperation mainly with crediting banks.
Credit	Risk of unsettled receivables for delivered products and services by customers related to the creditability of customers with whom trade transactions are concluded.	Analysis of creditability and solvency of customers.	Management based on procedures and policies adopted for management of trade credit and debt recovery including the determination of limits and establishment of collateral.

Currency risk

The Company's activities are not significantly exposed to the fluctuations in foreign exchange rates. As at 31 December 2019, the Company held cash in the amount of EUR 13 thousand and BGN 1 thousand (31 December 2018: EUR 10 thousand and BGN 34 thousand), trade and other receivables in the amount of EUR 701 thousand and BGN 344 thousand (31 December 2018: EUR 135 thousand, BGN 2 thousand) and liabilities in the amount of EUR 300 thousand (31 December 2018: EUR 787 thousand, BGN 11 thousand).

Risk related to the increase in the portfolio of overdue receivables

As at the date of these annual financial statements, the Company monitors the level of overdue receivables. It cannot be ruled out that counterparties may not be able to settle their liabilities on time in the future, which may have a material adverse effect on the Company's financial position.

Liquidity risk

Similarly to the majority of entities operating in the construction industry, the Company's sales are also characterised by seasonality which consists in the generation of a significant part of the revenues from sales in the second half of a calendar year and in the generation of significantly lower revenues in the first quarter, which is of significant importance for the management of the Company's liquidity and working capital needs. The Company's liquidity is also affected by the fact that its key customers obtain financial funds for purchases of the Company's services through the subsidies granted by the Republic of Poland and the EU. Legal regulations governing such subsidies do not allow for the funds granted to be used for paying the VAT. It cannot be excluded that the VAT receivables may be paid late by customers, which would not release the Company from the obligation to pay the VAT within the time limits set in the VAT Act.

Irregular proceeds from customers may have an adverse impact on the liquidity of the Company. Any unexpected fluctuations in the liquidity and any unexpected increase in working capital needs may have a significant adverse impact on the Company's financial position.

In addition, a liquidity gap was identified. For details, see Note 10 to these financial statements.

In order to minimize liquidity risk, the Company uses external sources of financing in the form of loans (working capital facilities, overdraft facilities and investment loans). For details on liabilities on account of loans and borrowings as at 31 December 2019, see Note 37. In addition, the Company invests any surplus cash in interest-bearing current accounts, term deposits, money market deposits, selecting instruments with appropriate maturity or sufficient liquidity in order to ensure a sufficient level of security.

The analysis of the Company's financial liabilities in net amounts by maturity in relation to the period remaining to their contractual maturity as at the balance sheet date is provided in the table below. The amounts disclosed in the table include contractual undiscounted cash flows.

As at 31.12.2019	Within 3	From 3 to 12	Over 1 year
Audited	months	months	
Interest-bearing loans and borrowings	22 581	120 435	139 266
Financial lease liabilities	4 080	12 383	60 643
Payables and other liabilities (without budget liabilities)	232 599	19 594	12 881

As at 31.12.2018	Within 3	From 3 to 12	Over 1 year
Audited	months	months	
Interest-bearing loans and borrowings	55 787	74 716	20 673
Financial lease liabilities	4 275	10 045	40 316
Payables and other liabilities (without budget liabilities)	222 682	17 513	12 066

Interest rate risk

As at 31 December 2019 and 31 December 2018, a risk exists related to the fluctuations in interest rates which may affect the interest rates of loans, borrowings and finance leases contracted by the Company. Loans and borrowings contracted by the Company are described in detail in Note 37.

An analysis of impact of the interest rate volatility on the Company's profit or loss as at 31 December 2019 and 31 December 2018 is presented on the following page. For the purpose of analysing the sensitivity to the interest rate fluctuations, such fluctuations were estimated as at 31 December 2019 and as at 31 December 2018 at the rationally expected level, i.e. +1/ -1 percentage point.

	Value at the balance sheet date	Sensitivity to changes as at December 31, 2019	
		+ 100 pb	- 100 pb
Trade receivables (present value)	272 257		
Trade payables (present value)	233 686		
Cash and cash equivalents, bank guarantee deposits (nominal value/ interest)	61 687	617	(617)
Loans and credit, factoring liability, bonds (nominal value/interest)	359 388	(3 594)	3 594
Gross impact on period result and net assets		(2 977)	2 977
Deferred tax		(566)	566
Total		(2 411)	2 411

	Value at the balance sheet date	Sensitivity to changes as at December 31, 2018	
		+ 100 pb	- 100 pb
Trade receivables (present value)	243 415		
Trade payables (present value)	224 831		
Cash and cash equivalents, bank guarantee deposits (nominal value/ interest)	77 444	774	(774)
Loans and credit, factoring liability, bonds (nominal value/interest)	205 812	(2 058)	2 058
Gross impact on period result and net assets		(1 284)	1 284
Deferred tax		(244)	244
Total		(1 040)	1 040

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

Transactions that expose the Company to credit risk include trade receivables. The Company performs interim analyses of the recovery ratios on a quarterly basis and full-scale analyses of those ratios after the end of the year. The Company's Management Board analyses the calculation of ratios and detailed information on disputed and unpaid amounts of individual receivables balances on a quarterly basis.

The Management Board applies a credit policy which requires continuous monitoring of the Company's credit risk exposure.

At each reporting date, the Company assesses whether credit risk of a given financial instrument has increased significantly since initial recognition: When making the assessment, the entity uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

The objective of the impairment requirements is to recognise lifetime expected credit losses for all financial instruments for which there have been significant increases in credit risk since initial recognition — whether assessed on an individual or collective basis — considering all reasonable and supportable information, including that which is forward-looking.

The Company has adopted a policy of entering into transactions with counterparties with high creditworthiness and verified credit capacity. Credit capacity is assessed on a regular basis. If the future credit capacity of a counterparty is assessed negatively, the Company applies adequate collateral to minimize credit risk. Financial services monitor the balance of receivables on an ongoing basis, thereby reducing the risk of uncollectibility. The carrying amount of financial assets disclosed in the financial statements corresponds to the Company's maximum exposure to credit risk (without collateral). As at the balance sheet date, receivables from PKP PLK S.A. account for 35% of the total receivables of the Company, therefore there is a significant concentration of credit risk.

For disclosures regarding overdue trade receivables and impairment losses on receivables, see Note 29.

All loans were granted to subsidiaries. The credit risk of such loans is limited as the Company controls the operations of its subsidiaries.

The Company cooperates with highly-rated financial institutions. Available cash is invested in several banks in order to avoid concentration of risk related to liquid funds.

The maximum exposure to credit risk is equal to the carrying amount of the following financial instruments:

	Book value	
	31.12.2019	31.12.2018
The maximum exposure to credit risk		
Loans to:	5 943	3 114
- subsidiaries	5 943	3 114
Trade receivables and other gross beyond budget:	367 438	320 123
- from unrelated parties	363 839	319 442
- from subsidiaries	3 599	681
Cash and cash equivalents	47 514	61 451
Bank guarantees deposits	14 173	15 993
Total	435 068	400 681

Impact of the SARS CoV-2 (COVID-19) pandemic on the activities and financial condition of the Group

The rapid spread of the SARS CoV-2 virus in Poland and on other markets, on which the Company and its subsidiaries carry out its business activities may have an impact on the Company's financial performance in 2020. As at the date hereof, the Management Board expects that the actual pandemic state in Poland which results, in particular, in:

- Transport being limited and delivery of components and raw materials being irregular,
- Availability and efficiency of subcontractors being reduced,
- Administrative decisions on the construction contracts implemented being delayed,
- The progress in works experiencing a slowdown due to the introduction of emergency measures in accordance with the guidelines issued by the Ministry of Health and the Chief Sanitary Inspector, and due to the increased absence of employees,
- Costs of certain services, in particular, transport of materials and raw materials, being increased,

The completion by the Group of contracts, under which the Group companies act as contractors or subcontractors, may be delayed and as a consequence translate into a risk that the contracting parties

may file claims for contractual penalties to be paid by the Group companies for untimely completion of contracts. The aforementioned factor may also result in an extraordinary increase in prices for materials and services being experienced, which in turn shall result in the profitability of contracts being reduced. Furthermore, the COVID-19 pandemic may contribute to a decrease in the number of infrastructural investment projects being scheduled for the following years.

Despite the fact that as at the date hereof both the business entities and financial institutions continue their operations, the further spread of the SARS CoV-2 virus may result in the Company's business partners, courts and financial institutions being forced to adapt their operations to the circumstances pending, which may cause delays in obtaining financial funds necessary for the Company to:

- fulfil its financial obligations,
- acquire new contracts, if the Company has no required financial security such as guarantees or deposits,
- meet its obligations under the long-term financing documentation (of which the Company notified in Current Report no. 51/2019 of September 27, 2019) that forms part of the financial restructuring process of the Group.

Measures taken by the Company's Management Board

On April 6, 2020 the Management Board and trade unions concluded an agreement under which the working hours of employees were reduced by 10%, and as a result the salaries paid according to a monthly wage rate were decreased accordingly. The aforementioned reduction in the working hours applies mainly to white-collar employees and at the same time allows for the contract performance potential to be maintained. The agreement remains valid until June 30, 2020.

The aforementioned 10%-decrease applies also to remuneration of the management board members, supervisory board members, and also self-employed and service providers who collaborate with the Company.

In addition, it has been decided that payment of any bonuses, awards, allowances and severance pays is suspended and that overtime and use of company cars are to be reduced. The contribution to the company social benefits fund is also to be reduced by 25%.

The Company estimates that the aforementioned measures will allow it to achieve monthly savings of approximately PLN 1.8 million.

Due to the fact that as at the date hereof the precise and final impact of the SARS CoV-2 pandemic on the Group's situation has not yet been identified, the Company's Management Board monitors on an ongoing basis the developments and analyses the potential impact of the pandemic on the operations, performance and perspectives of both the Company and the Group, including a necessary change in the measurement of contracts and the Group's liquidity ratio.

Objectives and policies of financial risk management

The Company manages its financial risk through the identification, monitoring and reporting of risk factors, which is to reduce the adverse impact of the currency risk factors on the Company's cash flows and performance. The Company measures derivative instruments at fair value. For recording purposes, the Company uses bank valuations.

44. Balance sheet items measured at fair value

The table below presents all the balance sheet items measured at fair value and a fair value hierarchy level assigned to them.

	31.12.2019	Level 1	Level 2	Level 3
	Audited			
Investment real estate:	19 789	-	-	19 789
Office real estate:	19 789	-	-	19 789
- land	16 253	-	-	16 253
- buildings	3 536	-	-	3 536

	31.12.2018	Level 1	Level 2	Level 3
	Audited			
Investment real estate:	17 613	-	-	17 613
Office real estate:	17 613	-	-	17 613
- land	14 049	-	-	14 049
- buildings	3 564	-	-	3 564

Assumptions used in determining fair values:

- of investment properties are described in Note 22 of the Notes.

45. Contingent receivables and liabilities

Contingent receivables and liabilities are presented in the table below:

	31.12.2019	31.12.2018
	Audited	Audited
Contingent receivables		
From related entities due to:	702 400	-
Received guarantees and sureties	702 400	-
From other entities due to:	762 109	87 022
Received guarantees and sureties	760 818	86 182
Bills of exchange received as collateral	1 291	840
Total contingent receivables	1 464 509	87 022
Contingent liabilities		
From related entities due to:	712 900	-
Provided guarantees and sureties	702 400	-
Promissory notes	10 500	-
From other entities due to:	8 380 829	2 227 597
Provided guarantees and sureties	762 550	794 910
Promissory notes	516 402	439 288
Mortgages	4 197 672	129 000
Assignment of receivables	1 313 768	773 423
Assignment of rights under insurance policy	120 137	37 000
Security deposits	18 648	21 726
Registered pledges	1 451 652	32 250
Total contingent liabilities	9 093 729	2 227 597

Contingent liabilities from guarantees and sureties granted to other entities are principally

guarantees issued by banks for the benefit of business partners of the Company as collateral for their claims against the Company arising out of the construction contracts performed (performance bonds, retention bonds and advance payment guarantees). Banks have a right of recourse against the companies of the Company. Promissory notes are a different form of collateral for the aforementioned bank guarantees. Between the balance sheet date and the publication hereof the balance of contingent liabilities from the guarantees issued changed by PLN 33,685 thousand.

As at December 31, 2019, except for the aforementioned contingent receivables and liabilities, the Company had contingent receivables in the amount of PLN 1 039 thousand (31.12.2018: PLN 1 306 thousand) arising from the employment contracts signed with employees. If a manager fails to meet his or her obligations defined in Article 1 of the Non-Competition Agreement, he or she will pay, immediately and without a termination notice or any demand issued by the Company, a contractual penalty in the amount equal to the PLN equivalent of EUR 25 000 for each failure and the amount equal to the PLN equivalent of EUR 1 000 for each day in which such a failure occurs or continues.

Contingent liabilities arising from employment contracts with employees were PLN 519 thousand as at December 31, 2019 (31.12.2018: PLN 4,501 thousand).

Tax settlements and other fields of business subject to regulations (for example, customs or foreign currency matters) may be subject to inspections by administrative authorities entitled to impose high penalties and sanctions. The lack of reference to the well-established legal regulations in Poland results in the legislation in force being ambiguous and inconsistent. Frequent differences in opinions as to the legal interpretation of tax regulations, both within the state authorities themselves and between such authorities and business entities,

create conflicts and uncertainty. Such events result in the tax risk in Poland being much higher than in countries with much more developed tax systems. Tax settlements may be subject to inspection during the period of five years starting from the end of the year in which a given tax was paid. As a result of the inspections carried out any current tax settlements of the Company may be increased by additional tax liabilities. In the Company's opinion, provisions recognised as at the end of 2019 are sufficient to mitigate the recognised and measurable tax risk.

46. Significant disputes and court cases

The Company discloses significant proceedings before court or any other authority, regarding its liabilities and amounts due, as well as its subsidiaries.

Proceedings concerning the Parent Company:

The case concerning claims against Przedsiębiorstwo Napraw Infrastruktury Sp. z o.o. w upadłości likwidacyjnej with its registered office in Warsaw

The Company merged with Przedsiębiorstwo Robót Kolejowych i Inżynieryjnych S.A. with its registered office in Wrocław. As a result of this merger, the legal successor of both companies is Trakcja PRKiI S.A. with its registered office in Warsaw. In connection with the announcement by the District Court of Warsaw-Praga Północ in Warsaw of the bankruptcy of Przedsiębiorstwo Napraw Infrastruktury Sp. z o.o. ("PNI") with an option of composition, Przedsiębiorstwo Robót Komunikacyjnych i Inżynieryjnych S.A. with its registered office in Wrocław provided a submission of claims of 20 November 2012 to the bankruptcy court. The submission covered claims in the total amount of PLN 55,664,100.89, including the principal amount and the interest due up to the declaration of bankruptcy, as well as the accrued contractual penalties.

To the Company's best knowledge, the list of claims towards PNI was drawn up. The claims of Trakcja PRKiI S.A. were recognised in the amount of PLN 10,569,163.16, including PLN 10,274,533.87 for unpaid invoices and PLN 294,632.29 for interest on late payment. The Company's receivables from contractual penalties and other claims in the total amount of PLN 44,956,834.35 were dismissed. The Parent Company did not agree with that dismissal; therefore, an objection was submitted to the judge commissioner concerning the dismissal in the aforementioned scope. The court had rejected the objection; therefore the Parent Company filed a complaint which was overruled. On 8 June 2015, the Parent Company received a notice from the trustee in bankruptcy on the change in the bankruptcy procedure from the arrangement bankruptcy to the liquidation bankruptcy. The case is pending and its resolution date is difficult to predict.

Case against Leonhard Weiss International GmbH

As Leonhard Weiss International failed to respond to the statement including a debit note and a request for payment dated 31 October 2017, of which the Group informed in the consolidated report for the 9-month period ended 30 September 2017 in Note 25 "Interests in joint ventures", the Company decided to take the case to court.

The case against Leonhard Weiss International GmbH ("LWI") for payment due under the sale agreement of 50 % of shares in Bahn Technik Wrocław Sp. z o.o. The Company has responded to the lawsuit. At present, it is not possible to precisely indicate the expected date of completion of the case. The Company expects that an enforceable solution may be issued in the second half of 2019 or in the first half of 2020.

The value of the Company's claim is PLN 20,551,495.00, including the statutory interest calculated as follows:

- 1) on PLN 7,500,000.00 from 17 November 2017 to the payment date,
- 2) on PLN 12,756,000.00 from 8 December 2017 to the payment date,

3) on PLN 295,495.00 from 8 December 2017 to the payment date.

The Company requested also that the defendant reimburse the Company with the costs of the proceedings, including the costs of legal representation, in accordance with the cost records. At this stage, it is impossible to objectively at least estimate the amount of interest and costs of the proceedings which could be ordered to be paid for the benefit of the Company.

Case against ELTRANS sp. z o.o.

On May 30, 2019 the Company filed a lawsuit against ELTRANS sp. z o.o. based in Chorzow for the payment of PLN 2,768,004 plus interest as the payment of remuneration for delivery, assembly and training on operating two oil-less turbochargers.

On January 29, 2020 the court issued a decision to initiate the sanative proceedings.

The case is at the early stage of proceedings and its resolution date is difficult to predict.

Case against ALSTAL Grupa Budowlana sp. z o.o.

On May 22, 2019 the Company filed a lawsuit against ALSTAL Grupa Budowlana sp. z o.o. based in Jacewo for the payment of PLN 556,683.00 plus interest as the payment of remuneration for construction works performed as a contractor within the scope of the project ordered by Tauron Dystrybucja S.A. entitled "Network Management Development in Wrocław"

The case is at the early stage of proceedings and its resolution date is difficult to predict.

Proceedings against PKP PLK S.A.

On 31 October 2017, the Company filed a case against PKP PLK S.A. for the payment of PLN 46,747,276.90 (including, interest of PLN 4,913,969.34), requesting that compensation be paid to it in connection with extension of the completion date of the agreement entitled: "Design and completion of construction works on the railway line Kraków – Medyka – State border, at the section Podłęże – Bochnia, km 16.000 – 39.000 as part of the project "Modernisation of railway line E 30/C-E30, section Kraków – Rzeszów, phase III" and a part of the lump-sum fee due to the Company and unpaid by PKP PLK S.A. due to the submission of an unjustified statement on the withdrawal from the Agreement in part. On 12 December 2017, the Company extended the claim whose current value is PLN 50,517,012.38 (including, interest of PLN 5,336,177.01). The extension pertained to the Company's claims against PKP PLK S.A. in relation to the groundless enforcement of the contractual penalties accrued and the part of remuneration for the performance of the contract and agreements for additional works, which PKP PLK S.A. unreasonably refuses to pay. On October 18, 2018, the Company extended the claim to PLN 51,767,012.38. The damage of the Company includes PLN 1,250,000.00, which the Company was obliged to pay to the Bocheński Powiat in order to satisfy the request of PKP PLK S.A. concerning the earlier – than it resulted from the Work Schedule – launching of track 1 on the Bochnia route - Brzesko Okocim. On 6 May 2019, the Parent Company extended the claim to PLN 84,121,127. The Parent Company extended the scope of the claims pursued also by the claims for damages against PKP PLK S.A., including tort claims of its subcontractors: Arcadis sp. z o.o., Torpol S.A. and PUT Intercor sp. z o.o. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On October 31, 2017 the Company along with Przedsiębiorstwo Budowlane "FILAR" Spółka z ograniczoną odpowiedzialnością based in Wrocław, and Berger Bau Polska Spółka z ograniczoną odpowiedzialnością based in Wrocław, has filed a case against PKP PLK S.A. for reimbursement of additional costs related with the extension of the completion date of the Contract No. 90/116/0006/11/Z/I for basic linear construction works at the section Wrocław – Grabiszyn – Skokowa and Żmigród – border of the Dolnośląskie Province within the scope of the project entitled "Modernisation of railway line E 59 at the section Wrocław – Poznań, Stage II – section Wrocław

– border of the Dolnośląskie Province”. On March 29, 2018 the court action pending was expanded by the claims of one of the subcontractors (INFRAKOL Sp. z o.o. Sp. k.). The Company's portion of the claim is PLN 11,640,113.77 (including, interest of PLN 1,415,797.02). The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 31 October 2017, the Parent Company filed a case in the payment order proceedings against PKP PLK S.A. for the payment of PLN 12,221,007.10 (including, interest of PLN 1,821,726.10), requesting that unjust enrichment in the form of unpaid remuneration be refunded for the completion of:

- a) additional works in connection with Contract No 90/132/121/00/17000031/10/I/I dated 16 December 2010 for the “Design and implementation of the construction works at the railway line Kraków – Medyka – national border, at the section Dębica – Sędziszów Małopolski (111.500 km – 133.600 km) under the project POIiŚ 7.1-30 “Modernisation of railway line E30/C-E 30, section Kraków – Rzeszów, phase III” Tender proceedings 2.2” in the total amount of PLN 7,570,281.00,
- b) additional works in connection with Contract No. 90/132/336/00/17000031/10/I/I dated 29 November 2010 for the “Design and implementation of the construction works at the railway line Kraków – Medyka – national border, at the section Sędziszów Małopolski – Rzeszów Zachodni under the project “Modernisation of railway line E3/C-E 30, section Kraków – Rzeszów, phase III” Tender proceedings 2.3” in the total amount of PLN 2,829,000.00.

The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 27 August 2018, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 6,675,193.36 PLN (in words: six million six hundred seventy five thousand one hundred ninety three zlotys and thirty six groszy) along with statutory interest for delay, as compensation for unjust enrichment of the defendant in the form of unpaid remuneration for the performance of additional works related to the implementation of Agreement No 90/132/121/00/17000031/10/I/I of 16 December 2010 for “Designing and execution of construction works on the Kraków - Medyka - State border railway line on the Dębica - Sędziszów Małopolski section in km 111,500 - 133,600 as part of the POIiŚ 7.1-30 project "Modernization of the E30 / CE 30 railway line, Kraków - Rzeszów section, stage III" Tender 2.2 "specified in the Contractor's Applications No. 72 (gas pipeline) and No. 85 (Bystrzyca creek), which constitutes the principal amount of the present claim, i.e. PLN 6,283.547.59 and capitalized interest on the principal for the period from 6 October 2017 to 27 August 2018. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 22 October 2018, the Company filed a lawsuit for payment against PKP PLK S.A., seeking the amount of PLN 632,459.66 (in words: six hundred thirty-two thousand four hundred fifty-nine zlotys and sixty-six grosz) along with statutory interest for delay, for additional works not provided for in the Agreement No 90/107/0086/17/Z/I of 14 March 2017 for the preparation of design documentation and performance of construction works on the Poznań Wschód - Mogilno section from km 0.265 to km 73.000, as a part of the project: “Works on the railway line No 353 Poznań Wschód-Dziarnowo”, i.e. works on the construction of additional access ways to platforms at the Wydartowo station, additional suspension of the overhead contact line on the Wydartowo - Trzemeszno route and preparation of maps for design purposes, as well as incurring additional costs related to the unpredictable increase in prices of services provided by PKP Energetyka on the overhead contact line. On July 12, 2019 the Company increased the court action up to PLN 14,601,921.80, i.e. by the value of the additional services provided to PKP PLK S.A. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 29 November 2018, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 20,934,758.14 PLN (in words: twenty million nine hundred thirty-four thousand seven hundred fifty-eight zlotys and fourteen grosz) along with statutory interest for delay, as reimbursement for the costs of extension of the implementation of Agreement No 90/132/336/00/17000031/10/I/I of 29 November 2010 for “Designing and

execution of construction works on the Kraków - Medyka - State border railway line on the Dębica - Sędziszów Małopolski section in km 133.600 - 154.900 as part of the POIiŚ 7.1-30 project "Modernization of the E30 / CE 30 railway line, Kraków - Rzeszów section, stage III" Tender 2.2", due to circumstances within the scope of responsibility of PKP PLK S.A., both under the provisions of the Contract, as a public procurement contract, as well as general liability for damages specified in the provisions of the Civil Code. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 17 January 2019, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 12,296,388.86 PLN (in words: twelve million two hundred ninety-six thousand three hundred eighty-eight zloty and eighty-six grosz) along with statutory interest for delay, as reimbursement for additional costs resulting from the extension of the implementation of Agreement No 90/107/0085/15/Z/I for "Continuation of upgrade work on Railway Line E59 (track and subgrade work and track infrastructure work) as part of the POIiŚ 7.1-5.1 project entitled "Modernization of Railway Line E59 at the Wrocław-Poznań section, Stage III, Czempień-Poznań section" due to circumstances within the scope of responsibility of PKP PLK S.A. On July 12, 2019 the Company increased the court action up to PLN 14,601,921.80, i.e. by the value of the additional services provided to PKP PLK S.A. The case is at the early stage of proceedings and its resolution date is difficult to predict.

On 3 April 2019, the Company filed a lawsuit for payment against PKP PLK S.A. seeking the amount of 1,320,495.25 PLN (in words: one million three hundred twenty thousand four hundred ninety-five zloty and twenty-five grosz) along with statutory interest for delay, as:

- a) reimbursement for additional costs resulting from the extension of the implementation of Agreement No 90/107/0090/15/Z/I for Construction of civil engineering structures on km 160,857; km 155.170 and km 145.650 of railway line No 271 Wrocław – Poznań, as part of the POIiŚ 7.1-5.1 project entitled "Modernization of Railway Line E59 at the Wrocław-Poznań section, Stage III, Czempień-Poznań section" – as regards the Partial Contract A – railway viaduct on km 145.650 in Mosina, due to circumstances within the scope of responsibility of PKP PLK S.A.,

Impact of the SARS CoV-2 (COVID-19) pandemic on the activities and financial condition of the Group

The rapid spread of the SARS CoV-2 virus in Poland and on other markets, on which the Company and its subsidiaries carry out its business activities may have an impact on the Company's financial performance in 2020.

As at the date hereof, the Management Board expects that the actual pandemic state in Poland which results, in particular, in:

- Transport being limited and delivery of components and raw materials being irregular,
- Availability and efficiency of subcontractors being reduced,
- Administrative decisions on the construction contracts implemented being delayed,
- The progress in works experiencing a slowdown due to the introduction of emergency measures in accordance with the guidelines issued by the Ministry of Health and the Chief Sanitary Inspector, and due to the increased absence of employees,
- Costs of certain services, in particular, transport of materials and raw materials, being increased,

The completion by the Group of contracts, under which the Group companies act as contractors or subcontractors, may be delayed and as a consequence translate into a risk that the contracting parties may file claims for contractual penalties to be paid by the Group companies for untimely completion of contracts. The aforementioned factor may also result in an extraordinary increase in prices for materials and services being experienced, which in turn shall result in the profitability of contracts being reduced. Furthermore, the COVID-19 pandemic may contribute to a decrease in the number of infrastructural investment projects being scheduled for the following years.

Despite the fact that as at the date hereof both the business entities and financial institutions continue their operations, the further spread of the SARS CoV-2 virus may result in the Company's business partners, courts and financial institutions being forced to adapt their operations to the circumstances pending, which may cause delays in obtaining financial funds necessary for the Company to:

- fulfil its financial obligations,
- acquire new contracts, if the Company has no required financial security such as guarantees or deposits,
- meet its obligations under the long-term financing documentation (of which the Company notified in Current Report no. 51/2019 of September 27, 2019) that forms part of the financial restructuring process of the Group.

Measures taken by the Company's Management Board

On April 6, 2020 the Management Board and trade unions concluded an agreement under which the working hours of employees were reduced by 10%, and as a result the salaries paid according to a monthly wage rate were decreased accordingly. The aforementioned reduction in the working hours applies mainly to white-collar employees and at the same time allows for the contract performance potential to be maintained. The agreement remains valid until June 30, 2020.

The aforementioned 10%-decrease applies also to remuneration of the management board members, supervisory board members, and also self-employed and service providers who collaborate with the Company.

In addition, it has been decided that payment of any bonuses, awards, allowances and severance pays is suspended and that overtime and use of company cars are to be reduced. The contribution to the company social benefits fund is also to be reduced by 25%.

The Company estimates that the aforementioned measures will allow it to achieve monthly savings of approximately PLN 1.8 million.

Due to the fact that as at the date hereof the precise and final impact of the SARS CoV-2 pandemic on the Group's situation has not yet been identified, the Company's Management Board monitors on an ongoing basis

the developments and analyses the potential impact of the pandemic on the operations, performance and perspectives of both the Company and the Group, including a necessary change in the measurement of contracts and the Group's liquidity ratio.

The Covid-19 pandemic may have an effect in the future on the measurement of the Company's assets, including the tests on impairment loss. For potential consequences of the pandemic on the test results, please see Note 24 hereto.

52. Financial statements in high inflation periods

The accumulated average annual inflation rate for the last three years for each of the periods covered by these financial statements did not exceed 100%, and therefore the financial statements did not have to be restated using the consumer price index.

Total	1 208	1 200

As at the balance sheet date, the headcount at the Company was as follows:

	31.12.2019	31.12.2018
	Audited	Audited
Management Board of Parent entity	6	4
Administration	156	158
Sales department	5	6
Production division	1 044	1 064
Total	1 211	1 232

54. Assets and liabilities of the company social benefits fund (ZFŚS)

The Act on Company Social Benefits Fund of 4 March 1994, as amended, stipulates that each employer with more than 20 full-time employees is obliged to create and make contributions to a social benefits fund. The Company maintains such a fund and makes periodic contributions to the fund at minimum statutorily required amounts. The purpose of the fund is to subsidize the Company's social activities, loans granted to its employees and other social costs. The Company set off the fund's assets against its liabilities towards the fund, as the fund's assets do not represent a separate category of assets.

The table below presents analytic data on the fund's assets, liabilities and expenses, as well as net balance of the fund's offset assets and liabilities.

	31.12.2019	31.12.2018
	Audited	Audited
Loans granted to employees	449	675
Cash	1 324	325
Liabilities attributable to the Fund	(1 077)	(1 075)
Balance after compensation	696	(75)
Contributions to the fund during the financial period	1 641	1 526

55. Information on the statutory auditor

Pursuant to a resolution adopted by the Supervisory Board of Trakcja PRKil, the entity authorised to audit financial statements of the Group and the Company is BDO spółka z ograniczoną odpowiedzialnością sp. k. with its registered office in Warsaw at ul. Postępu 12.

On August 21, 2019 the Company and BDO spółka z ograniczoną odpowiedzialnością sp. k. entered into an agreement for:

- the examination of the separate and consolidated half-yearly financial statements as at June 30, 2017 in accordance with the International Accounting Standards,
- the audit of the separate and consolidated annual financial statements as at December 31, 2017 in accordance with the International Accounting Standards,
- the examination of the separate and consolidated half-yearly financial statements as at June 30, 2020 in accordance with the International Accounting Standards,
- the audit of the separate and consolidated annual financial statements as at December 31, 2020 in accordance with the International Accounting Standards.

The agreement is concluded for the period of completion of its subject.

Remuneration of the statutory auditor for the services rendered for the Company is presented in the table below.

	Year ended	
	31.12.2019	31.12.2018
	Audited	Audited
On account of agreement for financial statement audit	140	168
On account of agreement for financial statement review	97	76
Other certified services	-	21
Total	237	265

Remuneration for the audit of accounts of selected Trakcja Group companies is paid under separate agreements between the auditor and each of the Trakcja Group companies.

ASSESSMENT OF THE SUPERVISORY BOARD OF TRAKCJA PRKII S.A. CONCERNING THE REPORT OF THE MANAGEMENT BOARD ON THE ACTIVITIES OF TRAKCJA PRKII S.A. AND OF TRAKCJA GORUP IN 2019, THE ANNUAL STANDALONE FINANCIAL STATEMENT OF TRAKCJA PRKII S.A. FOR THE PERIOD FROM 1 JANUARY 2019 TO 31 DECEMBER 2019 AND THE ANNUAL CONSOLIDATED FINANCIAL STATEMENT OF TRAKCJA GROUP FOR THE PERIOD FROM 1 JANUARY 2019 TO 31 DECEMBER 2019

I. SUBJECT MATTER OF THE ASSESSMENT

The subject matter of this assessment includes:

1. The Report of the Management Board on the activities of Trakcja Group and Trakcja PRKil S.A. in 2019.
2. Annual standalone financial statement of Trakcja PRKil S.A. for the period from 1 January 2019 to 31 December 2019 prepared in accordance with International Financial Reporting Standards approved by the European Union and applicable as at 31 December 2019.
3. Annual consolidated financial statement of Trakcja Group for the period from 1 January 2019 to 31 December 2019 prepared in accordance with International Financial Reporting Standards approved by the European Union and applicable as at 31 December 2019.

II. ASSESSMENT OF THE MANAGEMENT BOARD'S REPORT AND FINANCIAL STATEMENTS

1. Assessment of the Report of the Management Board on the activities of Trakcja Group and Trakcja PRKil S.A. in 2019:

The Supervisory Board of Trakcja PRKil S.A. assessed the Report of the Management Board on the activities of Trakcja Group and Trakcja PRKil S.A. in 2019 and reviewed the results of the audit presented by an auditor of Trakcja PRKil S.A. (BDO spółka z ograniczoną odpowiedzialnością Sp. k.), the auditor report and based on information and materials received from the Auditor, the Management Board and representatives of the Company, concluded that the report:

- has been prepared in accordance with Article 49 of the Act of 29 September 1994 on Accounting (Journal of Laws of 2019, item 351) and § 70 and § 71 of the Regulation of the Minister of Finance of 29 March 2018 on current and periodical information provided by issuers of securities and on conditions under which information required by legal regulations of a third country may be recognized as equivalent;
- is consistent with the information contained in the annual standalone financial statement of Trakcja PRKil S.A. for the period from 1 January 2019 to 1 December 2019 and annual consolidated financial statement of Trakcja Group for the period from 1 January 2019 to 31 December 2019.

The Supervisory Board of Trakcja PRKil S.A. on the basis of information and materials received from the Auditor, the Management Board and the Company's representatives concludes that the Report of the Management Board on the activities of Trakcja Group and Trakcja PRKil S.A. in 2019 is consistent with the information contained in the annual standalone and annual consolidated financial statements and with all knowledge about Trakcja Group and Trakcja PRKil S.A. and their surroundings obtained during an audit of annual standalone and consolidated financial statements, contains a description of all material events that may have an influence on financial position of Trakcja Group and Trakcja PRKil S.A. and performance over the upcoming quarters as well as a description of all material risks.

Further to the foregoing, the Supervisory Board of Trakcja PRKil S.A. expresses a positive assessment of the Report of the Management Board on the activities of Trakcja Group and Trakcja PRKil S.A. in 2019.

2. Assessment of the annual standalone financial statement of Trakcja PRKil S.A. for the period from 1 January 2019 to 31 December 2019

The Supervisory Board of Trakcja PRKil S.A. assessed the annual standalone financial statement of Trakcja PRKil S.A. for the period from 1 January 2019 to 31 December 2019 comprised of:

- a) standalone income statement for the period from 1 January 2019 to 31 December 2019 showing a net loss of PLN 249 678 thousand,
- b) standalone statement of comprehensive income for the period from 1 January 2019 to 31 December 2019 showing a negative value of comprehensive income of PLN 248 401 thousand,
- c) standalone balance sheet as at 31 December 2019 showing assets and liabilities in the total amount of PLN 1 228 461 thousand,
- d) standalone statement of cash flows for the period from 1 January 2019 to 31 December 2019 showing decrease in net cash by PLN 13 937 thousand,
- e) standalone statement of changes in equity for the period from 1 January 2019 to 31 December 2019 showing decrease in equity by PLN 189 780 thousand,
- f) additional information and explanations,

and reviewed the results of audit presented by an auditor of Trakcja PRKił S.A. (BDO Spółka z ograniczoną odpowiedzialnością sp. k.).

The Supervisory Board of Trakcja PRKił S.A. on the basis of information and materials received from the Auditor, the Management Board and the Company's representatives concludes that the annual standalone financial statement of Trakcja PRKił S.A. for the period from 1 January 2019 to 31 December 2019 presents the financial position of Trakcja PRKił S.A. as at 31 December 2019 and financial result and cash flows of Trakcja PRKił S.A. for the period from 1 January 2019 to 31 December 2019 fairly and clearly and was prepared in accordance with International Financial Reporting Standards approved by the European Union and applicable as at 31 December 2019 and is consistent with books and records as well as facts.

Further to the foregoing, the Supervisory Board of Trakcja PRKił S.A. subjected to note 10 of additional informational to Financial Statements [Risk of continuing (business) activity and taken and planned actions of the Management] assessed an annual standalone financial statement of Trakcja PRKił S.A. for the period from 1 January 2019 to 31 December 2019.

3. Assessment of the annual consolidated financial statement of Trakcja Group for the period from 1 January 2019 to 31 December 2019

The Supervisory Board of Trakcja PRKił S.A. assessed the annual consolidated financial statement of Trakcja Group for the period from 1 January 2019 to 31 December 2019 comprised of:

- a) consolidated income statement for the period from 1 January 2019 to 31 December 2019 showing a net loss of PLN 285 048 thousand,
- b) consolidated statement of comprehensive income for the period from 1 January 2019 to 31 December 2019 showing a negative value of comprehensive income of PLN 287 028 thousand,
- c) consolidated balance sheet as at 31 December 2019 showing assets and liabilities in the total amount of PLN 1 484 320 thousand,
- d) consolidated statement of cash flows for the period from 1 January 2019 to 31 December 2019 showing decrease in net cash by PLN 9 214 thousand,
- e) consolidated statement of changes in equity for the period from 1 January 2019 to 31 December 2019 showing decrease in equity by PLN 228 896 thousand,
- f) additional information and explanations,

and reviewed the results of audit presented by an auditor of Trakcja Group (BDO Spółka z ograniczoną odpowiedzialnością sp. k.).

The Supervisory Board of Trakcja PRKił S.A. on the basis of information and materials received from the Auditor, the Management Board and the Company's representatives concludes that the annual consolidated financial statement of Trakcja Group for the period from 1 January 2019 to 31 December 2019 presents the financial position of Trakcja Group as at 31 December 2019 and financial result and cash flows of Trakcja Group for the period from 1 January 2019 to 31 December 2019 fairly and clearly and was prepared in

accordance with International Financial Reporting Standards approved by the European Union and applicable as at 31 December 2019 and is consistent with books and records as well as facts.

Further to the foregoing, the Supervisory Board of Trakcja PRKił S.A. subjected to note 62 of additional informational to Financial Statements [Risk of continuing (business) activity and taken and planned actions of the Management] assessed of an annual consolidated financial statement of Trakcja Group for the period from 1 January 2019 to 31 December 2019.

Pursuant to Article 382 § 3 of the Code Commercial Companies, the Supervisory Board subjected to notes 10 and 62 of additional informational to Financial Statements [Risk of continuing (business) activity and taken and planned actions of the Management] assessed the report on the activities of the Trakcja Capital Group for 2019, the report on the activities of the Company for 2019, the annual standalone financial statement of the Company for 2019 and the annual consolidated financial statement of the Trakcja Capital Group for 2019 and requests the Annual General Meeting of Shareholders to approve these reports.

Independent Auditor's Report to the General Meeting and Supervisory Board of Trakcja PRKił S.A.

Report on the Audit of the Year-end Financial Statements

Opinion

We have audited the year-end financial statements of Trakcja PRKił S.A. ("the Company"), which comprise the balance sheet prepared as at 31 December 2019, the profit and loss account, the statement of comprehensive income, the statement of changes in equity and the cash flow statement for the year then ended, as well as notes to the financial statements ("the financial statements").

In our opinion, the accompanying financial statements:

- give a true and fair view of the Company's financial position as at 31 December 2019, as well as of its financial result and cash flows for the financial year then ended, in accordance with the applicable International Financial Reporting Standards endorsed by the European Union, as well as the adopted accounting methods (policies);
- are consistent, in content and in form, with the applicable laws and regulations and with the Company's Statute;
- have been prepared on the basis of properly kept books of account in accordance with Chapter 2 of the Accounting Act of 29 September 1994 ("the Accounting Act" - 2019 Journal of Laws, item 351 with subsequent amendments).

The present opinion is consistent with the additional report to the Audit Committee, which we issued on 21 April 2020.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing adopted by the National Council of Certified Auditors as National Standards on Auditing ("NSA") and in compliance with the Act on Certified Auditors, Audit Firms and on Public Supervision ("the Certified Auditors Act" - 2019 Journal of Laws, item 1421 with subsequent amendments) and Regulation (EU) No. 537/2014 of 16 April 2014 on specific requirements regarding statutory audit of public interest entities ("Regulation EU" - OJ L 158). Our responsibilities under those standards are further described in *the Responsibilities of the Auditor for the Audit of the Financial Statements* section of this report.

BDO spółka z ograniczoną odpowiedzialnością sp.k., Sąd Rejonowy dla m. st. Warszawy, XIII Wydział Gospodarczy, KRS: 0000729684, REGON: 141222257, NIP: 108-000-42-12. Biura BDO w Polsce: Katowice 40-007, ul. Uniwersytecka 13, tel.: +48 32 661 06 00, katowice@bdo.pl; Kraków 31-548, al. Pokoju 1, tel.: +48 12 378 69 00, krakow@bdo.pl; Poznań 60-650, ul. Piątkowska 165, tel.: +48 61 622 57 00, poznan@bdo.pl; Wrocław 53-332, ul. Powstańców Śląskich 7a, tel.: +48 71 734 28 00, wroclaw@bdo.pl

BDO spółka z ograniczoną odpowiedzialnością sp.k. jest członkiem BDO International Limited, brytyjskiej spółki i częścią międzynarodowej sieci BDO, złożonej z niezależnych spółek członkowskich

We are independent of the Company in accordance with the Code of Ethics for Professional Accountants issued by the International Federation of Accountants (“the IFAC Code”) and adopted by resolutions of the National Council of Certified Auditors, and with other ethical requirements relevant to the audit of financial statements in Poland. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IFAC Code. During the audit, the engagement partner and the audit firm remained independent of the Company in accordance with the independence requirements laid down in the Certified Auditors Act and Regulation EU.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Significant Uncertainty Relating to Going Concern

We draw your attention to Note 10 “Risk to going concern and actions undertaken and planned by Management” to the financial statements, which contains a description of the risk to the going concern of the Company and the Trakcja PKIKil Group (“the Group”).

The note indicates that in the financial year ended 31 December 2019 the Company incurred a net loss of PLN 249.678 thousand, its negative working capital as at 31 December 2019 amounted to PLN 59.406 thousand, whilst its outstanding liabilities amounted to PLN 87.200 thousand. The Company’s Management prepared its financial statements on a going concern basis. The Company’s and Group’s ability to continue as a going concern depends on covering the financial gap by obtaining additional debt financing and on the effectiveness of the process of negotiations with customers for the payment of fees that are the subject of the Company’s claims. Failure to achieve the anticipated effects of these actions could threaten the Company’s and the Group’s ability to continue as a going concern. In addition, in the above-referenced note the Company pointed out other factors that may worsen its liquidity: postponement of the dates of obtaining funds from advances on ongoing contracts and bond issues, as well as the negative effects of the COVID-19 pandemic. As indicated in Note 10, the above indications along with other information described in the note point to the existence of significant uncertainty, which may give rise to serious doubts as to the Company’s and the Group’s ability to continue as a going concern.

Our opinion has not been modified with regard to this matter.

Other Matters

The Company’s financial statements for the financial year ended 31 December 2018 have been audited by an engagement partner acting on behalf of another audit firm, who expressed an unmodified opinion on the financial statements on 30 April 2019.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of the most significance in the audit of the financial statements for the current reporting period. They include the most significant assessed types of risks of material misstatements, including assessed types of risks of material misstatements resulting from fraud. We addressed these matters in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and have summarized our response to these types of risks, and where relevant, presented our key observations relating to those risks. We do not express a separate opinion on these matters. In addition to the matter described in the *Significant Uncertainty Relating to Going Concern* section, we found the following to be key audit matters, of which we inform in our report.

1 Impairment analysis of interests in subsidiaries

Trakcja PRKiL S.A. holds significant investments in subsidiaries operating on the Polish and Lithuanian construction market. The accumulated value of the interests in subsidiaries presented in the Company's financial statements amounted to PLN 311.308 thousand as at 31 December 2019 after decreasing by PLN 114.187 thousand in the course of the financial year as a result of an impairment write down.

Due to the materiality of the item, and also because of the complexity of the matter and sensitivity of the impairment test to the adopted assumptions, the matter of test performance was the subject of our analyses. As a key audit risk we found that the risk consists of the Management's judgements and estimates associated with assumptions as to future cash flows, determination of the discount rate, estimation of residual values contained in the discounted cash flows model used to recognize the impairment.

As indicated above, as a result of the test, in the financial year ended 31 December 2019 the Company's Management recognized an impairment write down on interests in AB Kauno Tiltai - in the amount of PLN 112.857 thousand, and in Bahn Technik Wrocław - in the amount of PLN 1.330 thousand.

In view of the above we classified this matter as a key audit matter.

Disclosures in the financial statements

Notes 8.2.4 and 8.2.5 to the financial statements present the methods used by the Company to measure investments in subsidiaries.

Note 24 to the financial statements contains disclosures on the performance of the impairment test, including test results, description of test assumptions and a sensitivity analysis of test results to changes in key assumptions.

Audit procedures performed in response to the risk

Our audit procedures included in particular:

- understanding and assessing the process of identifying indications of impairment of investments in subsidiaries and the accuracy of the method used to perform the test in accordance with the applicable financial reporting standards,
 - performing a critical assessment of the assumptions and estimates applied by the Company's Management to calculate the recoverable amount, including: comparing the adopted assumptions relating to future cash flows with the budgets and medium term plans and assessing the validity of such plans, analyzing the validity of key macro-economic assumptions, assessing the methods used to determine residual values after the period covered by the medium term plans and consistency of test methodology with international financial reporting standards,
 - analyzing the method used to calculate discount rates,
 - assessing the Management's analysis of the impairment test's sensitivity to the adopted key assumptions,
 - evaluating the accuracy and completeness of disclosures in the Company's financial statements.
-

2 Accounting for construction contracts

In 2019 the Company generated PLN 814.014 thousand in revenue from construction contracts, which led to the recognition in the financial statements as at 31 December 2019 of an asset resulting from the excess of revenue recognized over invoiced in the amount of PLN 169.380 thousand.

The Company recognizes revenue from the performance of contracts using the methods defined in International Financial Reporting Standard 15 Revenue from Contracts with Customers (“IFRS 15”). In accordance with the requirements of the standard, revenue is recognized according to the stage of completion, if the following criteria are met: no asset is being created with alternative use to the Company and the Company has an enforceable right to receive payment for the performance completed to date. The value of disclosed revenue recognized in a given year depends to a great extent on the costs that were actually incurred, the setting of an appropriate margin and the stage of contract completion, as well as on the accuracy and completeness of contract budgets.

The Management’s key judgement on the recognition of revenue from the performance of construction contracts relate to the accuracy and completeness of contract budgets and to their effect on the recognition of revenue in the context of IFRS 15 requirements.

The risk associated with the recognition of all risks in contract budgets remains a key factor in the Company’s operations and has a significant effect on the accuracy of construction contract accounting. In addition, the accuracy of accounting for construction contracts is to a great extent conditioned on the measurement and nature of changes in the scope of work.

Due to the size of the projects, their complexity, uncertainty as to the total final costs of their performance, the results of talks with customers and scope of work changes, they require significant subjective judgements on the part of Management.

In view of the above we classified this matter as a key audit matter.

Disclosures in the financial statements

Note 8.15 to the financial statements presents the accounting methods used to account for contracts with customers, including to recognize revenue from the performance of construction contracts.

Note 12 to the financial statements contains disclosures on revenue recognized from the performance of construction contracts, and Note 33 - on the balance of contract customer accounts.

Audit procedures performed in response to the risk

Our audit procedures to assess the accuracy of accounting for construction contracts included:

- obtaining an understanding of and assessing the design and implementation of the existing key controls relating to accounting for construction contracts,
 - obtaining an understanding of the accounting methods used to account for consortium contracts,
 - analyzing the accuracy of the model used to account for construction contracts, including: verifying the mathematical accuracy of contract accounting and recognition in the books of account, analyzing contract portfolio to identify significant and risk-sensitive contracts included in a sample selected for further detailed procedures,
 - for selected contracts: discussing their performance status with contract directors and if need be with the Company’s Management, and performing an analysis of budget changes made in the course of the audited period along with agreeing the revenue and costs forecast in the budget with source documents,
 - analyzing letters from the Company’s legal advisor insofar as the contract budgets contained variable components of consideration,
 - analyzing contract budgets for completeness of estimated cost recognition,
 - evaluating the accuracy and completeness of disclosures in the Company’s financial statements.
-

Responsibilities of the Company's Management and Supervisory Board for the Financial Statements

The Company's Management is responsible for the preparation, based on properly kept books of account, of the financial statements that give a true and fair view of the Company's financial position and financial result in accordance with International Financial Reporting Standards endorsed by the European Union, the adopted accounting methods (policies), the applicable binding regulations and the Company's Statute. The Company's Management is also responsible for such internal controls as it considers necessary to ensure that the financial statements are free from material misstatements resulting from fraud or error.

In preparing the financial statements the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, any matters related to going concern and using the going concern basis of accounting, except in situations where the Management intends to either liquidate the Company or discontinue its operations, or has no realistic alternative but to do so.

The Company's Management and members of its Supervisory Board are required to ensure that the financial statements meet the requirements of the Accounting Act. Members of the Supervisory Board are responsible for overseeing the Company's financial reporting process.

Responsibilities of the Auditor for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with NSA will always detect an existing material misstatement. Misstatements can arise from fraud or error and are considered material if it could be reasonably expected that they, individually or in the aggregate, could influence the economic decisions of users made on the basis of these financial statements.

The concept of materiality is applied by the auditor at the planning stage and when performing the audit and evaluating the effect of identified misstatements on the audit and of uncorrected misstatements, if any, on the financial statements, as well as when formulating the auditor's opinion. In view of the above, all of the opinions and statements contained in the auditor's report are expressed subject to the qualitative and quantitative level of materiality set in accordance with the applicable standards on auditing and the auditor's professional judgement.

The scope of the audit does not include an assurance regarding the Company's future profitability, or regarding the Management's effectiveness in the handling of the Company's affairs now or in the future.

Throughout an audit in accordance with NSA, we exercise professional judgement and maintain professional skepticism, as well as:

- identify and assess the risks of a material misstatement of the financial statements resulting from fraud or error, design and perform audit procedures in response to such risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, because fraud may involve collusion, forgery, deliberate omission, misrepresentation or override of internal controls;

- obtain an understanding of the internal controls relevant to the audit in order to plan our audit procedures, but not to express an opinion on the effectiveness of the Company's internal controls;
- evaluate the appropriateness of the accounting policies used and the reasonableness of the estimates and related disclosures made by the Company's Management;
- conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We provide the Supervisory Board with information about, among others, the planned scope and timing of the audit and significant audit findings, including any significant weaknesses of internal controls that we identify during our audit.

We provide the Supervisory Board with a statement that we have complied with the relevant ethical requirements relating to independence, and that we will communicate to them all relationships and other matters that may reasonably be considered to constitute a threat to our independence, and where applicable, inform them of the related safety measures.

From the matters communicated to the Supervisory Board we determined those matters that were of the most significance to the audit of the financial statements for the current reporting period and were therefore chosen as key audit matters. We describe these matters in our auditor's report, unless law or regulations prohibit their public disclosure or when, in exceptional cases, we find that a given matter should not be presented in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such information.

Other Information, Including Report on Activities

Based on the regulations of Article 55 par. 2a of the Accounting Act and par. 71 point 8 of the Minister's of Finance Decree of 29 March 2018 on the current and periodic information reported by the issuers of securities and on the conditions for recognizing as equally valid the information required by the regulations of a state that is not a member state (2018 Journal of Laws, item 757 with subsequent amendments), the Company's Management has prepared in the form of a single document a report on the activities of the Trakcja PRKil Group and of the Company Trakcja PRKil S.A. ("Report on Activities"), on which we reported in the auditor's report on consolidated financial statements of the Trakcja PRKil Group.

Report on Non-financial Information

In accordance with the requirements of the Accounting Act we confirm that the Company has prepared a Report on Non-financial Information referred to in Article 49b par. 1 of the Accounting Act as a separate section of the Report on Activities.

We have performed no assurance work on the Report on Non-financial Information and, accordingly, do not express any assurance thereon.

Report on Other Legal and Regulatory Requirements

Declaration on the Provision of Non-audit Services

To the best of our knowledge and belief we declare that any non-audit services we have provided to the Company and its subsidiaries were consistent with the law and the regulations binding in Poland and that we have not provided any non-audit services prohibited by virtue of Article 5 par. 1 of Regulation EU and Article 136 of the of the Certified Auditors Act. The non-audit services we have provided to the Company and its subsidiaries in the audited period are listed in note 5.12 to the Report on Activities.

Appointment of the Auditor

We were appointed as auditors of the Company's financial statements in a resolution passed by the Company's Supervisory Board on 23 May 2019. We have audited the Company's financial statements for the first time.

The engagement partner on the audit resulting in this independent auditor's report is Krzysztof Maksymik.
